UNIVERSITY OF TORONTO, SATURDAY, SEPTEMBER 25, 1943

For Official University Announcements

Message From The President

Again it is my privilege to welcome back to College balls and laboratories those of you who have already begun your studies here, and to greet and welcome those who are for the first time coming to the University. I hope you will find suitable bomes and be able speedily to settle down to the year's work.

The war is the background of all we do and try to arrange. On account of war conditions, adequate accommodation has on account of war conditions, adequate accommodation has been hard to secure. Our men's residences are for the most part taken over by the Government for military purposes, and the women's residences are filled to overflowing. The Students' Administrative Council in Hart House has a register of possible lodging houses, some of which this year may be at a greater distance from the University than in the past. You will find the professors with whom you register ready and anxious to

We are carrying on both our programme of academic studies and military training for men with National War Service courses for women. The details of this training are found in this special issue of The Varsity. Read these carefully, and

make early registration in the course or unit of your choice.

The Director of National Selective Service, after conference with representatives of the Universities of Canada, has clarified some of the regulations in regard to the training and calling up of University students. In a recent interpretative statement issued to the District Mobilization Boards, it is officially stated that male students will be allowed to matriculate either by junior or senior matriculation at the normal age, and thereafter to take one academic year at the University in any Faculty. After that they will be called in accordance with the National Selective Service Mobilization Regulations, unless they are enrolled in a course defined from time to time by the and deeds "no maimed or worthless sacrifice" but your whole they are enrolled in a course defined from time to time by the and deeds "no mainten or wortness sacrince" but your whole Director of National Selective Service (on the recommendation of a University Advisory Board) as "essential to the national interest or contributing to the prosecution of the war"; in which case they shall be granted a postponement of their call and shall continue their studies. Such courses at present are in Medicont of the war and Selective Service. In the war tiself we have passed the end of the Court of Discipline, to withdraw from the University. cine, Dentistry, Engineering, Forestry and Science in the beginning and are hastening on the main road to thorough Faculty of Arts. There may be modifications in the defining of these "essential" courses as time goes on and the days of duty to the utmost, wherever you are placed. peace and reconstruction draw nearer.

Your country recognizes the value of trained intelligence and goodness! both in war and in peace, and therefore gives you the opportunity and indeed almost the obligation to continue your educational course. Make the fullest use of it. Your responsibility for so doing is commensurate with your privilege. Work hard;

May you have a year of real growth in knowledge, wisdom

H. J. 6 ody

UNIVERSITY HEALTH SERVICE

PHYSICAL EXAMINATION

The Health Service conducts a medical examination of each student every year. Men are examined at 43 St. George Street. Women are examined at 44 Hoskin Ave.

First Year Students must make immediate appointments for their examination.

Second and Higher Year Students must make their appointments by the Health Service.

X-RAY EXAMINATION OF THE CHEST

All First Year students are required to have an X-ray of the chest as part of their medical examination. Through the co-operation of the Ontario Department of Health, the Health Service has found it possible to assume the cost of this examination. This examination

will take place during the week of October 12th, 1943.

The X-ray will be taken in the X-ray department of the Ontario

It is important that the student be on time for the appointment.

INFIRMARIES

The Health Service infirmaries are now open. The infirmary for women is in the Women's Union, University College. The infirmary for men is on the third floor, West Wing, Hart House.

These infirmaries are intended for students suffering from minor before October 15th, 1943. No student can take part in University illnesses requiring bed care for a period of a few days to a week and Athletics until he has been examined and declared physically eligible are primarily for students in residence or lodgings for whom such care is not otherwise readily available.

Students will be admitted to the infirmaries on the authorization

of the medical staff of the Health Service.

While in the infirmary a charge of \$1.50 per day, payable to the Bursar of the University, will be made to cover the cost of meals, etc. No charge is made for medical and nursing care.

Department of Health, Basement, south-west corner, east block, Pailure to obtain Parliament Buildings. Enter the building by the south door, turn left to the end of the hall and go downstairs.

As St. George Street for men and at 44 Hoskin Avenue for women. House calls to students sick in lodgings will be made on request. A nominal charge is made for these visits. First aid attendants are on incur.

Military Training

REGULATIONS OF THE BOARD OF GOVERNORS RESPECTING MILITARY TRAINING FOR THE SESSION 1943-44

- 1. As National Selective Service grants postponement of Military Service to students of the University only on condition that they undergo compulsory military training while at the University, of a standard recognized by the Department of National Defence, all male students, both undergraduate and graduate, except as noted in Section 2 below, whether or not they are British subjects, will be required to take training in the University Naval Training Division, or in the Canadian Officers Training Corps, or in the University Air Training Corps.
- 2. The undermentioned categories of students will not be required to take military training in the University:

 (a) Students who are on active service.

 - (b) Students who are receiving training outside the University as members of Reserve Units of the Canadian Navy, Army and Air Force.
 - (c) Students enrolled in the Fourth, Fifth and Sixth Years of the Faculty of Medicine.
 - (d) Students who are certified by the University Health Service to be medically unfit for military training.
- 3. All students who are required to take military training in the University will register not later than 12 noon on Saturday, October 2nd, 1943, with the University Naval Training Division, or with the First or Second Battalion, Canadian Officers Training Corps, or with the University Air Training Corps, according to directions to be published in The Varsity.
- 4. Students who claim exemption from military training under Section 2(b) will apply for this exemption at the office of the University Registrar not later than October 9th, 1943.
- 428492

UNIVERSITY OF TORONTO SPECIAL NOTICE

After a recent conference with the representatives of the Toronto Transportation Commission the President of the University reports that, owing to increasing difficulties of transportation, it will be necessary to continue until further notice the practice commenced last session of holding University and College classes from 8.30 a.m. until 4.30 p.m.

Thus, classes which began on the hour in the session 1941-1942 will begin on the half-hour preceding; and classes which began ten minutes after the hour will begin at twenty minutes to the hour.

> A. B. FENNELL. Registrar.

daily duty at 43 St. George Street and from 4 p.m. to 6 p.m. at Hart House for men. A nurse is in attendance at 44 Hoskin Avenue for women.

ATHLETIC INJURY CARE

The Health Service provides a measure of financial assistance CONSULTATION FACILITIES

toward the cost of the care of injuries sustained while engaged in athletic activities on the campus. Such assistance is provided only on the authority of the Director. This authorization must be obtained

University Of I oronto Service

ARMY

University Naval Training Division

All students, registered in the University of Toronto for the academic year 1943-44 (other than Medical and Dental students) may register for consideration as entrants into U.N.T.D. at Ship's Office, Commanding Officer Hart House, between 0900 and 1700 27th September to 1st October U.N.T.D. they must secure their discharge from the C.O.T.C.

Students, registered in U.N.T.D., may be attested and, subject to naval medical examination, be taken on divisional strength of H.M.C.S. York as ratings of the U. of T., U.N.T.D. (i) With respect to students registered in Mechanical Engin-

eering, Electrical Engineering, Engineering Physics and Mathematics and Physics as stokers second class.

With respect to all other students as ordinary seamen, It should be understood that students, joining U.N.T.D. are Quartermaster-Capt. C. A. Johnston It should be understood that students, joining U.N.I.D. are definitely attested in the Navy. They are subject to active service call but this call will be delayed subject to the emergencies of the service, until the student is graduated or leaves the University.

Major W. E. P. Duncan, Major G. T. Hodgson, Major B. E. Reserve R.C.A.F. All students, joining U.N.T.D. are attested subject to the provisions of P.C. 246 1943 which means that all science students are subject to the action of the Wartime Bureau of Technical Personnel for final disposition. Students, going on active service at end of academic year have the opportunity of appearing before a selection board for possible selection as officer candidates.

TRAINING

Training will be progressive in character from year to year. Training for the first year will cover the basic training of new entries into the Navy and will also include much additional background material. In addition to training during the academic year, a period of two weeks active service training is given at an East Coast training establishment. This period follows closely the completion of the

University's spring term examinations.

Members of U.N.T.D. going on active service at the end of the academic year will receive credit for the basic training referred to

All ratings will attend all parades. Leave may be granted for medical or emergency reasons, but this time must be made up.

The Ship's Office of U.N.T.D. is located in Room A, Hart House, where complete information may be obtained.

President's Opening Address

The opening address by President Cody to the students of all faculties will be given in Convocation Hall on Wednesday, September 29th, at 4.15 p.m.

BANDSMEN ATTENTION

The University of Toronto Contingent, C.O.T.C. Brass Band and the Pipe Band will be organized again for the coming year. All previous members of either Band who wish to continue with that Band, and any male undergraduate, including freshmen, who are interested in playing in either Band will complete their military registration under the rules governing all students. In addition, they will make application for membership in the Band of their choice.

Brass Band-Ist Bn. H.O., 119 St. George St. Pipe Band-2nd Bn. H.Q., Hart House.

Both Bands have room for new members and organization will begin immediately. Members of the Brass Band must be able to play some Band instrument. Members of the Pipe Band will be given instruction in the playing of the Pipes or Drums.

Canadian Officers Training Corps

STAFF OF CONTINGENT

1st Battalion

Officer Commanding—Lt.-Col. H. H. Madill, V.D., m.s.c.
Second in Command & C.I.—Major M. B. Watson, E.D., m.s.c.
Training Officer—Capt. E. L. Gibson
Adjutant—Major H. C. H. Miller
Assistant Adjutant—Licut. D. A. McIver

Tolton, Major W. E. Carswell, Capt. B. Wilkinson.

GENERAL INFORMATION

The role of the 1st Battalion for the session 1943-44 will be similar The role of the 1st Battalion for the session 1943-44 will be similar to that of the past, viz.: to give military training to male students as either Medicine or Dentistry.

Engineering and Science students may enlist with the U.A.T.C. versity.

Students who show that they have the qualities required of an Army Officer may be recommended to proceed to Advanced Training Centres as potential officer material for the Active Army. At Advanced Training Centres "due regard will be given to previous Commissions training and experience."

MEMBERSHIP OF 1ST BATTALION

The 1st Battalion will consist of 1942-3 members and students reward.

- (a) Have completed one year's training in the 2nd Bn. (with or Registration without camp), or
- These students must first receive their discharge from the Reserve Unit.

ATTENDANCE AT PARADES

The number of parades for the current session has been reduced Armoured Corps to the required minimum, therefore all members must attend all parades of their companies. Leave may be granted for medical or armoured Car and Reconnaissance units in the Canadian Army, emergency reasons but time lost must be made up by attending special.

Although a high standard of mechanical engineering skill is not parades.

REGISTRATION

1942-3 members and new members of the 1st Battalion will register at 119 St. George Street between 9 a.m. and 5 p.m. 27 Sept. to 1 Oct. and 9 a.m. to 12 noon 2 Oct., by which time all registration must be complete.

All students who were members of the C.O.T.C., 1st or 2nd Battalions, during the session 1942-43 who wish to join the U.N.T.D. or U.A.T.C. must first register with the 1st Battalion das outlined ahove. When registering, they should indicate their desire to he transferred to either of the above mentioned Units. Such students will attend all parades of the U.N.T.D. or U.A.T.C. but shall be members of the C.O.T.C. until they bave appeared in Orders as having been transferred to the U.N.T.D. or U.A.T.C. Attendance at parades of U.N.T.D. or U.A.T.C. will be certified and forwarded to the C.O.T.C. Failure to comply with this instruction will he deemed to be noncompliance with the Regulations Regarding Military Training at the University.

Students must have their University and National Registration cards with them at the time of registration.

ORGANIZATION PARADE

The organization parade of the 1st Battalion will be on Thursday, 7th Oct. 43 at 1615 hrs. on the North Campus.

The Orderly Room of Contingent Headquarters and the 1st Battalion is at 119 St. George St.

SELECTING AN ARM

Members will be grouped, as far as possible, according to the arm inadequate. of the service which they prefer to enter on enlistment into the Active

AIR FORCE University Air

Training Units

Training Corps Commanding Officer—Wing Commander T. R. Loudon, V.D. Adjutant—Flight Lieut. J. A. Guymer

Orderly Room-Hart House

The training for students enlisted in the U.A.T.C. is essentially Major H. C. H. Miller that given to airmen of the R.C.A.F. at Initial Training Schools. Major T. A. Reed, E.D. The course at the University extends over two years, camp instruction

The course which includes a certain amount of drill covers the following interesting subjects: Theory of Flight and Engines, Air Navigation, Signals, Meteorology, Aircraft Recognition, Administration, Mathematics, First Aid, Armament, etc. The timetable for instructional periods will be drawn up to fit the allotted hours for all military training.

Training Credits

Airmen of the U.A.T.C. who obtain an overall average of 60%

Enlistment Requirements

All male students of the required physical standards are eligible to enlist in the U.A.T.C. with the exception of those registered for

but are subject to Selective Service regulations.

All enlisted personnel must give an honourable intention to go on active service with the R.C.A.F. if eligible to do so at the termination of the R.C.A.F. course.

It is emphasized that in common with all branches of Military Service, no promise of commissions can be given; but character, energy and ability to accept responsibility invariably bring this

Detailed information can be obtained at the Orderly Room, (b) Have completed one year's training with a Reserve Unit Second Floor, Hart House. Registration will take place up to including camp and are continuing in the same arm of the 1200 hours, October 2nd, 1943.

> Army. Basic training must be completed in all arms before special-toarm training may be undertaken.

The Canadian Armoured Corps trains the personnel for all Tank,

necessary, candidates should have an aptitude for mechanical work, for gunnery and the operation of radio sets. Service in armoured units also calls for a high standard of physical fitness and leadership.

The Artillery arm includes Field, Anti-Tank, Anti-Aircraft, Heavy Artillery, and Artillery survey.

Applicants should be interested in mechanical equipment and working on simple surveying problems. It is preferable that appli-cants be mathematically inclined and have a knowledge of elementary trigonometry and the use of logarithms.

Engineers

The work of engineer field units of the Corps of Royal Canadian Engineers consists of a great variety of engineering duties, such as

- (a) The construction and maintenance of bridges, roads, tracks, airdromes, fortifications, buildings, railways, etc.
- (b) The use of explosives in the field.
- (c) The placement, location, removal of mines and booby traps.

(d) Tunnelling, water supply and surveying.

It is apparent from the foregoing that the vacancies which exist for reinforcement officers, R.C.E., are for men with training and experience in construction work, that is, generally speaking, graduates in Civil and Mining Engineering. However, a limited number of graduates in Architecture, Mechanical and other branches of Engineering will be required. There is little or no demand for Chemical Engineers. Signals

Signals are responsible for intercommunication within the Army by such means as Radio, Telephone, Telegraph, etc. While officer appointments in the Active Army Signals are at

present open only to graduates in Electrical Engineering, this might be subject to some change if the supply of Electrical Engineers is

Infantry

The Infantry Corps comprises approximately one half of the personnel of an Army Division and for this reason the number of First and second year students take Physical Training d second year students taking Military and the personnel of an Army Division and for this reason the number of

be discussed as well as the weapons which were formerly in other arms, the 6 Pd. A/Tk. Gun, for example, the Mortars, Signals, Field specified as follows: Engineering, Supplies and Transport, Machine Guns, and automatic

An outstanding Senior Officer of the Canadian Active Army says: An outstanding senior Uniter of the Canadian Active Army says:
"It is in the first months of training that future officers show their potentialities. How well they know their Basic Training is an indicapotentialities. How well they know their Basic Training is an indication to their instructors that they should be sent on for the advanced courses. Infantry training is the foundation from which all arms of the Service extend."

Men exempt from Military Training and who are placed by the Health Service in University categories A, B, or D, must secure full the Service extend."

Army Service Corps

Army Service Corps personnel are responsible for transportation and supply within the Army Division.

Applicants should have an aptitude for driving and maintenance of all types of wheeled vehicles.

Vacancies for commissions are at present very few in this arm, but there might be a slight increase in the number of vacancies in the prevent a student from securing standing in Physical Training.

Ordnance Mechanical Engineers

This Branch of the Ordnance Service is responsible for the inspec tion, maintenance, recovery, and repair of all artillery equipment armoured fighting vehicles, motor transport vehicles (except A.S.C.) instruments, and radio and other technical equipment of the Army

This arm is restricted to Mechanical and Electrical Engineering students, preferably in the 3rd and 5th years.

2nd Battalion

Officer Commanding-Lt.-Col. W. S. Wilson, E.D. Second-in-Command—Major F. R. Crocombe Chief Instructor—Major G. R. Lane Adjutant—Capt. J. C. Evans
Medical Officer—Capt. D. L. Selby, R.C.A.M.C. Company Commanders-Major R. M. Barbour, M.C., Major C. R. Sanderson, Major M. Crabtree, M.C., Capt. J. H. Horning, Capt. W. V. Tovell.

MEMBERSHIP

The 2nd Battalion will consist of students who have not completed one year's training in the 2nd Battalion or one year's training (including camp) in a Reserve Unit.

Membership is conditional on the compulsory medical examination provided by University Health Services for all students.

INSTRUCTION IN 2ND BATTALION

The syllabus of instruction will cover a basic training course for students who were not enrolled in the 2nd Bn. last session or who did not complete the prescribed 30-day training.

REGISTRATION

Students taking training with this Battalion must register at the Orderly Room in Hart House, between the hours of 9 a.m. and 5 p.m. from 27 Sept. to 1 Oct. All registrations must be completed not later than 12 Noon, Saturday, 2 October. Students must have their University and National Registration cards with them at the time of registration.

ORGANIZATION PARADE

The organization parade of the 2nd Battalion will be held on Thursday, 7 Oct. 1943, at 4.30 p.m. on the Front Campus of the University. All men who have registered with the 2nd Battalion will attend this parade. This does NOT include students who have registered with the 1st Battalion or those who have registered with either the Naval or Air Force University Units.

ATTENDANCE AT PARADES

The number of parades to be held has been reduced to the required minimum, therefore all members must attend all parades of their companies. Leave may be granted for medical or emergency reasons but time lost must be made up by attending special parades.

UNIFORMS AND EQUIPMENT

After medical examination and attestation, members of this Battalion will be given a form which will be used as authority to draw equipment at Quartermaster Stores, 119 St. George St.

ORDERLY ROOM

The Headquarters and Orderly Room of the 2nd Battalion are located on the ground floor of Hart House, where complete informa-tion on military training may be obtained.

There will be no occasion for members of the 2nd Battalion to use the Headquarters of the 1st Battalion, 119 St. George St.

By order of the Board of Governors each man proceeding to a Bachelor's Degree must take Physical Training during the first and

personnel of an Army Division and for this reason the number of commissions in Infantry is greater than in any other arm.

Infantry is the arm which in the end wins battles by seizing and Infantry is the arm which in the end wins battles by seizing and Physical Training at regular Physical Training classes in the Gymen arms assist the Infantry in full. Infantry is the arm which in the end wins battles by seizing and holding enemy ground. The other arms assist the Infantry in fulfilling this role. Training in Infantry is sufficiently fundamental to be readily applicable to the other arms.

During the year matters pertaining to all arms of the service will be granted. Physical Training at regular Physical Training classes in the dynamics of the subjoined time-table. A minimum of 20 attendances is required. No more than one P.T. credit per week will be granted. Physical Training credits not to exceed 5 in either term may be the subjoined time-table. Queries conveying an impression of great uncertainty have been addressed by men of the second and higher years of arts courses to members of the staffs of C.O.T.C. Battalions and other campus war training units concerning the an-nouncement by National Selecitve Service that men in non-essential courses would be called up for military service after the completion of one academic

According to Capt. J. C. Evans, adjutant of the 2nd Battalion, U. of T. C.O.T.C., the Contingent is proceeding on the assumption that the modification in Selective Service Regulations will not the first luncheon of a joint meeting. be applied this year until further instruc-tion is received.

In an interview granted The Varsity yesterday morning, Dr. H. J. Cody, President of the University, said that resident of the University, said that he did not expect any very great changes in Selective Service policy toward men in the universities this year. He pointed out, however, that under the latest regulations men in "non-essential" courses may be called up if the progress

courses may be called up if the progress of the war should cause an increased demand for manpower.

Dr. Cody also drew The Varsity's attention to the recommendation adopted by the National Conference of Canadian Universities in Ottawa on Aug. 30 and accepted by National Selective Service for the purpose of "weeding out incompetent students." It provided that "any student, either man or woman, of the are of 1814 years or more who fails the age of 18½ years or more who fails to pass any term or yearly examination

be refused permission to continue Morland nis or her studies in the university or college concerned until he or she presents a permit so to do issued by the appropriate National Selective Service officer." In view of the lack of a uniform over-all system of term examination. tions, Dr. Cody said that the University of Toronto would probably enforce this

provision in much the same manner as it had the previous "weeding out" order. (Last year in February reports were made by staff members to the Council of the Faculty of Arts on the term work of students in courses where term examinations were not feasible. The names of all male students whose work was thus adjudged to be below standard were turned in to the District Officer Commanding along with those who had the School of Commerce and Admin-

The organization meeting of the Hart House Glee Club will be held at 4:30 p.m. on Monday, 4th Oetober in the music room of Hart House. The Club will be directed by Dr. Charles Peaker, F.R.C.O. All mem-bers of Hart House who enjoy singing are invited to be present. No previous training in music is necessary.

Engineers to Hear American General

on "Weapon Maintenance in Battle" at the first luncheon of a joint meeting of the American Society of Mechanical Engineers and the Engineering Institute of Canada on Thursday, Friday and Saturday of this week.

Engineering students are invited to attend these meeting on presentation of their University Registration Cards. No registration fee will be charged, and a limited number of tickets to the luncheons are available to fourth year students for a special price of \$1.00.

General MacMorland is Deputy Chief of the Field Service Division for Plan-ning, and head of the Maintenance Branch of the U.S. Ordnance Depart-Branch of the U.S. Ordnance Depart-ment. Unavoidably Detained

(To three-quarters at least of the readers of these columns an introduction of the author of the following editorial would be superfluous, but to the numerous Freshmen who have recently invaded the campus we would like to present "Doc" (now Pvt. . . . And Now It's 4T7 Editor-in-Chief of The Varsity. Unfortunately for you he was called away by a gentleman he refers to

good humored and a vital campus journalist whose editorship we anticipated with warm pleasure and not a little personal pride. We regret that it will not be your good fortune to read more than the following editorial and whatever feature material we may be able to wheedle from him in the free time his uncle allows bim).

By "Doc" Savage

maw of the composing room and the frantic search for rationed copy paper starts once more. A strange life. dragged into the den and made to sign lists

All of this means that your favorite morning daily, The Varsity, is about to begin another season. And it is going to be a season, no doubt about that. Rex Wilson unfortunately was given a late start on a difficult job. There are countless technical and administrative problems facing him, many of which have never faced a Varsity editor before. is news, of quality and quantity beyond the wildest dreams (or nightmares) of any campus journalist to be handled under these difficulties.

The wartime world is a serious world, and the wartime paper must needs be serious too. The Varsity and all concerned with it carry a heavier burden of responsibility than you realize. But there is no cause for alarm, the helm is in capable hands. We are indeed fortunate that we have their services. "Hexx Nillson" is, above all, a journalist. We who have slaved under his lash know this. His only bad features are his sense of bumor, the fact that women appal him and his weird, unexplainable habit of showing up at Varsity parties with a jug of soft cider.

He is not alone against the world, either, but is aided and abetted by some really wonderful people in the Students' Administrative Council office, at the University of Toronto Press, and in the staff of one that will not let either him or you down.

The Varsity is now starting on its sixty-third year, and it should be a good year. It will be rugged work for those involved—the hours will be long and We'll try and keep you posted. sleep will be forgotten. It will be impossible to please more than a small minority of the campus at any one time, and all hell will break loose at the most inopportune times, as it has a most unfortunate virtuosity and such like. We have quite a few held for the desired that The Vereits will need the state and resultable art callegies, and lead spirites used any habit of doing, but The Varsity will meet the test and reputable art galleries, and local painters need no the news will be presented to the campus five days a week for 100 hectic issues.

But don't ever feel sorry for the underfed, under-privileged nooze-hound, the amazing part about it all is that he has fun doing all this. There is some-thing about the racket, something indefinable, but something that gets into the blood and just doesn't go until death.

There will be many faces their own. We would like to seize this perhaps illtimed opportunity to speak for those of us who

We want to thank the University sincerely for an unpayable debt that we owe here; for the education that we may have acquired despite our best efforts to the contrary, and for the memories that we can always lean on when the going gets rough. Above all we want to thank her for the friends she gave us.

And now it's thanks, thirty, and the best of luck

you ne was carried away by a gentlement of the Freshman class as have the inclination to (We worked with "Doc" for two years, one year in very close conjunction, and found him earnest, which cases we are as replete with wisdom on this such cases we are as replete with wisdom on this (South subject as any of our recent predecessors, but we have little that is new to offer in the way of advice, nor, do we think, is there any necessity of finding new ways to present it.

With few exceptions you members of the class of '47 have completed most of your high school education under the shadow of war and are therefore far better prepared to live a successful academic life here than any of the four classes which preceded The dust is being blown off the rusty typewriters, you. The class which graduated this spring came the battered chairs are being resurrected from the maw of the composing room and the frantic search with all the peace-time popular traditions of "collitch" They, and the three classes which came after tribe is gathering in a dark little cubbyhole in the them to a lesser extent, have developed a new way cloisters of U.C. making weird noises and driving of campus life into which you must fit yourselves, both themselves and the English department to utter As the war stands now it is possible that this may be a year of even greater change on Canadian campuses than the past four have been. If this should be the case it will be your job to assist in the process of adapting Canadian college life to the changing conditions so that its essential federates trying to stem the tide of men streaming northward bag and baggage through the Wellesley bus. "It's all a big misshould be the case it will be your job to assist in the process of adapting Canadian college life to the changing conditions so that its essential federates." Young freshmen are being kidnapped and be a year of even greater change on Canadian process of adapting Canadian college life to the changing conditions so that its essential fabric and most cherished traditions may survive to enlighten the peace which we hope is soon to come. After all it is for peace, the normal state of man, that the University exists. And there University exists.

There is only one warning we would like to utter at this time, and it is, we hope, largely needless. Always bear in mind that the popular or Hollywood conception of a University campus is an even less realistic picture of the University of Toronto today than it ever was and any attempt to perpetuate the old idea will constitute an extreme disservice to the University at this time and thereby may ultimately (Continued on page 5)

And so begins another year! Or has someone said The Varsity, His is a smaller staff than those of that before? At any rate, the lively arts give past years, mostly a women's staff, but a capable promise of unusual life in Toronto this winter. And students who have a yen for the finer things in Arts, Music and Drama may keep their weather eye

Toronto has always been a musical city. And pleaders for their sterling output. As to Drama—we boast but one theatre catering to the legit brigade.

Co-eds Riot At Male Exodus

ecial police reserves from Physical Special police reserves from Physical and Health Education were called out last night by the University Police Force to disperse an angry mob of Freshettes who stormed Simcoe Hall angrily demanding the return of their fees. "It's a dirty gyp," they were heard to cry as they were driven back under a shower of blows from Indian clubs in the hands

as they were driven back under a shower of blows from Indian clubs in the hands of the imported huskies, "there aren't any men at college."

At first these remarks were believed to have sprung from an Axis-inspired rumor aimed at the morale of First Year women whose fathers had sent them to Victoria not without a certain grim resolution, but investigation by the hurriedly mobilized Varsity staff found more truth in the rumor than was ex-

pected.
(Students wishing to participate in this very extra-curricular activity should apply at The Varsity News Room, 42A University College.)
When both reporters brought back confirmation of the rumor The Varsity's news room was galvanized into action and was thereupon promptly diverted to war industries by the controller of strace. war industries by the controller of stra-tegic materials. News was therefore late in reaching the Cat who set about

gathering the following story.

Earliest confirmation of the rumor that all men had left or were leaving the University was received from Capt. Steven Even, Adjutant of the 2nd Bat-talion, U. of T. C.O.T.C., who was trying to stem the tide of men stream-

joinder.

Another figure joined in the attempt to stem the tide and one man actually detached himself from the hurrying crowd to wave some paper in the figure's face. "Here, Mr. Funnel," he cried, "I forgot something." "You aren't leavtace. "Here, Mr. Funnel," he cried, "I forgot something." "You aren't leaving are you?" gasped the man addressed as Funnel. "Oh, yes, but I've had three years here. Here's your change in two years' academic credits. Good-bye!"

Help for the hard-pressed adjutant and Registrat soon varied in the fear

and Registrar soon arrived in the form and kegistrar soon arrived in the form of Wing Commander T. R. Lowden-Longe of the U.A.T.C. and an R.C.N. V.R. Lieutenant who do not wish to be quoted by name, but was heard to remark, "Well, douse my gallant top-lights!"

All efforts to stop the exodus were unavailing and soon the battered de-fenders were left alone, but not for long, for a hundred and fifty School frosh, (Continued on page 4)

And how we love it!

One promising note is the scheduled appearance of several light opera companies and the reappearance of Ballet Theatre, which made such a splash last year. We have a season. Now let's earlier it.

THIRD ANNIVERSARY .

As the Athletic Office in Hart House presses the official button to signal the opening of its annual program for another year, those who have weathered the curricular elements, can now reminisce over three years without intercollegiate strife. And so we are able to celebrate the third anniversary of a university athletic program, operating, with the exception of a few exhibition contests, entirely on an intramural basis. Whether or not this occasion is to be recognized as auspicious is up to the individual.

the exception of a tew exhibition contests, enurely on an intramural basis. Whether or not this occasion is to be recognized as auspicious is up to the individual.

But despite what anyone might say about the C.I.A.U. ruling of 1940, the greater emphasis placed upon intramural competition has enabled a much larger number of students than in pre-war years to the Athletic Association, in their new capacity of extolling the physical fitness program, have achieved and are achieving their desired and much needed ends in a reasonably painless manner.

It is, then, with this thought in mind, that we urge everyone who possibly can to turn out for the teams in their own faculties. As the war progresses the need becomes continually greater for manpowermanpower in both a mentally and physically fit state. Everyone realizes, of course, that neglect of mental training while at university in these troubled times may result in the untimely end of the neglectee's undergraduate career. But among war-conscious students there is a tendency to overlook the physical training expected of them. True, there is an extensive and compulsory physical training program with daily classes, but the training here available, which will contribute the most to the student's muscle conditions comes under the heading of intramural sports.

most to the student's muscle conditions comes under the heading of intramural sports.

The majority of the faculties have already begun team organization in the fall sports of tennis, golf, rugby, soccer, and track. Dates for the above sports have already been posted. Golf and tennis tournaments get under way next week. Thus, the sooner the students report to their team managers, the sooner they will be able to get into condition for the coming season.

TRIAL AND TRIBULATION

Among the trials of last year is one to be scrapped this year. Warren Stevens' pet, the conditioning program for rugby, which he inaugurated last year, will not be continued since Stevens was disappointed last year by its non-support by the rugby players. We're very sorry to hear this news because the scheme seemed to be just what the rugby league needed. But attendance at the conditioning sessions dropped off from day to day so that Warren Stevens has this year announced that each team will have to look after its own toughening program—if any.

And tribulation comes in the news that soccer and rugby are slated to kick off on October 13, just two weeks away. Two factors have figured in giving rugby such a short practice season. First, we are starting school a week later than last year. Secondly, the schedule has been moved forward a full week so as to keep the play-offs out of December. Last year's wintry semi-finals and finals it seems, took a great deal of the enjoyment out of the game. For these reasons then the rugby teams will have to swing into action with but two weeks practice whereas in former years they usually had a full month in which to train.

Let's go, gang! There's a lot to be done in two weeks.

Let's go, gang! There's a lot to be done in two weeks.

The Sportswoman

By Betsy Mosbaugh

By Betsy Mosbaugh

It would be unusual if the proverbial prin-up girl were to drive ber way past the qualifying round in golf or to sling a mean puck into the goal. Yet the equivalent to "man bites dog" occurred yesterday morning when glamorous codes showed enuogh interest in the sports schedule to warrant the assumption that they know what the score is.

At U.C. the registration in the various sports was far higher than last year.

By the risk had college to talk of rast.

But it's had college to talk of rast.

But it's had college to talk of rast.

At U.C. the registration in the various sports was far higher than last year. This enthusiasm will be maintained by the running off of the golf tournament early in October. Then the individual colleges will hold their climination rounds for the interfaculty tennis which will be followed by basketball practices the inter-college games.

Plans are already under way for second term sports of hockey, volleyball, swimming, badminton, and bowling examination as early as possible.

RECENT FACULTY CHANGES ANNOUNCED BY PRESIDENT

President Cody has announced the following promotions and appointments in all faculties of the University. All appointments were effective July 1, 1943.

In the Faculty of Arts, H. R. MacCallum, formerly Associate Professor, has been named Professor in the Department of Philosophy. Assistant Professors P. H. Brieger (Fine Art), Richard Brauer, J. D. Burk, H. S. M. Coxcter (Mathematics), Mrs. Walker (Zoology), J. G. Anderson, R. D. Finch (French), have been appointed to Associate Professorships in their respective Departments. Formerly lecturers, B. Laskin (Law), D. B. DeLury, R. Weinstein (Mathematics), N. B. Keewil (Department of Physics), R. R. Langford are assistant professors. G. deB. Robinson was appointed Associate Professor in the Department of Applied Mathematics and Prof. E. W. MacRobinson was appointed Associate Professor in the Department of Philosophy. fessor in the Department of Math-

Principal M. W. Wallace asked to remain on year more in U.C. as Prin-cipal and Professor of English, although he had reached the age for superan-nuation. President Cody recommended this reappointment in April. Professor Wallace has been on the University staff since 1904. Professor Saint-Elme de Champ also asked to remain on the staff another year. Professor de Champ, also at the retiring age, has been on the staff

Assistant Professor J.K.W. Ferguson Assistant Professor J.K.W. Ferguson of the Faculty of Medicine, now on war service, has been appointed Associate Professor of Pharmacy and Pharmacology. Assistant Professor B. Mendel has been named Associate Professor in the Banting and Best Department of Medical Research. Dr. William Allen Dafoe, an outstanding athlete in his undergraduate years here, has been ap-pointed Associate Professor in Ob-stetrics and Gynaecology. Associate in Medicine W. R. Campbell was named Assistant Professor.

In the Faculty of Applied Science

and Engineering, Dr. L. M. Pidgeon, formerly of the National Research Council and an internationally noted Council and an internationally noted metallurgist, has been appointed Professor and head of the Department of Metallurgical Engineering. He succeeds Professor G. A. Guess, Associate Professor S. R. Crear has been appointed Professor in the Department of Civil Engineering, Surveying and Geodesy. Assistant Professors W. B. Dunbar and A. Wardell have been named Associate A. Wardell have been named Associate Professors in Engineering Drawing. W. C. Macdonald, on leave of absence for the duration of the war, has been pro-moted to Assistant Professorship in Chemical Engineering. Lecturers P. V. Jermyn (Engineering Drawing) and I. W. Smith (Mechanical Engineering) are also Assistant Professors.

At O.C.E., Miss W. G. Barnstead, Director of the Library School, has been appointed professor of Library Science.

This Year's a

DOUBLE-DUTY

Year!...

There's no fooling about the '43-4 schedule! When "four bells" rings this term you grab your books and run ... not to Mac's for a coke'n gab fest ... but right on to the next job, which is volunteer and involves some little effort, but it still has to be done! There'll be "left turns" and "eyes right" and "stand at ... ease!" all over the parade grounds; there'll be Red Cross transport trucks and ambulances to be manned (or womanned); there'll be hurrying nurses to be aided ... canteens served, overseas boxes packed; letters to be written; sweaters and socks and balaclavas knitted by the dozen! Sure we know, you have to buckle down to study hours. It's true about how important it is to the country in general that you get your year and waste no time ... BUT ... those Victory jobs are important too! All power, says EATON'S, to those who are big enough to take the "extras" in their stride!

THE UNIVERSITY OF TORONTO, FRIDAY, OCTOBER 1, 1943

To Open Penicillin Plant At Old Knox College Starting Next February

Miracle Drug Seen As First of Series

Connaught Laboratory officials antici-pate the commercial production of peni-cillin, 'the miracle drug,' described by research workers as 'better than the sulphonamides," to begin next February when operations, at present confined to pilot plant scale at the Banting Institute will be transferred to the old Knox College building on Spadina Crescent. Production will be under the direction of the Connaught Laboratories.

Old Knox College, unused since 1935, has been purchased by the University and the government is supplying money for the rehabilitation of that section of the building needed for the work. It will also be used to accommodate the extra quantity of blood plasma being received by the Connaught Laboratories, it has been announced by Dr. R. D. Defries, director of the Connaught Laboratories.

Repeal of a Toronto city by-law re-stricting the building's use was effected stricting the buildings use was effected a few weeks ago at the request of the university. Hamilton Cassels, K.C., ap-pearing for the university, pointed out that nearly a million units of penicillin are needed for treatment of an individual

While arrangements for the large-scale production of penicillin have been made by the Department of Munitions and Supply primarily for the needs of the armed services and for the Department of Pensions and National Health for the treatment of returned soldiers, officials here hope that supplies will later be made available for the civilian

Penicillin is described by Dr. Philip Grey, associate professor of pathology and bacteriology at the university, as a "miracle drug," capable of lowering mortality rates "dramatically" in cer-tain types of infection, chiefly wounds infected by staphylococci, pus-forming bacteria. The story of its discovery began 10 years ago when Prof. Alex. Fleming of the University of London, England, noted that a staphylococcal culture died when a speck of mold happened to drop onto the culture plate with which he was working. He was unable to isolate the active agent, which he christened penicillin, from the mold culture fluid; but further research at the beginning of the Second Great War

Penicillin research at the Banting In-stitute since 1941 hase centered about the problem of quantity production. Dr. Greey initiated the work here, assisted by Dr. Alice Gray. Chemical phase of the work was undertaken by Dr. (Continued on page 4)

HART HOUSE ART GALLERY

The present show in the art gallery of Hart House consists of silk-screen reproductions of a num-ber of Canadian paintings. These are specimens of the pictures espe-cially prepared for distribution among canteens and recreational centres of the Armed Forces. Dr. A. Y. Jackson, the Canadian artist, con-ceived the idea, which was supported ceived the idea, which was supported by the National Gallery of Canada, and a large number of artists have co-operated in the plan. These pic-tures have been reproduced under the sponsorship of various individuals and manufacturing firms. Among and manufacturing firms. Among them will be found a print from one of the paintings from the Hart House collection, "Isles of Spruce" by Arthur Lismer. The original bas been hung at the end opposite to the print. The show will be reviewed next week and a demonstration of the silk screen process given by Mr. C. A. G. Matthews, of Samson, of Samson, of Samson, of Samson, of Samson, or C. A. G. Matthews, of Sampson Matthews Limited who made the

Mackie to Preach At Sunday Service

The Reverend Robert Mackie, General Secretary of the World's Student Christian Movement, will be the preacher at the opening service of the Student Christian Movement this Sunday at 7:30 p.m. in Convocation Hall. President in Convocation Hall. President Cody will conduct the service. A graduate of the University of

Glasgow where he was prominent Glasgow where he was prominent in S.C.M. circles, Mr. Mackie soon became General Secretary of the British S.C.M. In 1937, he was appointed to his present post and has since travelled around the world, having recently visited a number of countries actively en-gaged in the war.

This Sunday will be the first time Mr. Mackie has preached here since he made Toronto his headquarters.

VARSITY STAFF MEETING

The opening staff meeting of The Varsity will be held in Wymilwood on Monday at 4:00 p.m. All those interested in working on The Varsity staff are invited to attend. Refreshments will be served.

Those desiring to join the staff may do so by signing the list posted in The Varsity News Room, Room 42A, University College.

BALDWIN'S DANDELIONS HELP THE WAR EFFORT

If you've been wondering about those dandelions carpeting Baldwin House lawns, they're meant to be there. And hiere's the story.

The plants, imported from Russia as seed, are being developed for the raw rubber discovered in their roots by Soviet scientists as early as 1931. With the increased demand for rubber now, due to war needs and curtaliments, American, Canadian and Soviet scientists are collaborating on the production of this dandelion, but how to improve the plant and like culture. The ideal plant with a high rubber content can only come from earefully selected and developed seed. So far the plants on the grounds of Baldwin House are used merely for experimentation. Dr. G. H. Duff, protection of this dandelion, but how to improve the plant and its culture. The ideal plant with a high rubber content can only come from earefully selected and developed seed. the American Institute of Mechanical an exclusive technical training, he urged Engineers y esterday. Dean C. R. students to acquaint themselves with Young of the Faculty of Applied Science and Engineering was chairman of the when the time came to answer such meeting and introduced the guestions as what to do with Germany speaker.

General MacMorland compared the think rightly, without the hastred or problem of weapon maintenance with sentimentality of blind prejudice.

The blood plasma to "If the two world wars have had the wounded fightling men. The blood no other result, they was at least."

their patients. These factors constituted sometimes, they have often served us four essentials for prolonging life—blood, instruments, men, and knowledge.

He emphasized that guns were not the only weapons of war but that the principal Wallace told the first year motor vehicle in its various forms had not to confuse having a good time with their carriers interests as colleges with motor vehicle in its various forms had not exclude in its various formet to constitute a more serious prob-lem in maintenance. He went on to dents, particularly in these times. "The

come to constitute a more serious problem in maintenance. He went on to describe the repair organization in the trouble with most democracies is that U.S. Army and how it operated in the Tunisian campaign.

The meeting was followed by a demonstration of a Mosquito bomber at the lakeshore. Transportation problems were discussed at the afternoon session and at the session the topic was production engineering. The speakers of the opportunities he has enioved if

Military Training

REGULATIONS OF THE BOARD OF GOVERNORS RESPECTING MILITARY TRAINING FOR THE SESSION 1943-44

As National Selective Service grants postponement of Military Service to students of the University only on condition that they undergo compulsory military training while at the University, of a standard recognized by the Department of National Defence, all male students, both undergraduate and graduate, except as noted in Section 2 below, whether or not they are British subjects, will be required to take training in the University Naval Training Division, or in the Canadian Officers Training Corps, or in the University Air Training Corps.

- 2. The undermentioned categories of students will not be required to take military training in the University:
 - (a) Students who are on active service.
 - (b) Students who are receiving training outside the University as members of Reserve Units of the Canadian Navy, Army and Air Force.
 - (c) Students enrolled in the Fourth, Fifth and Sixth Years of the Faculty of Medicine.
 - (d) Students who are certified by the University Health Service to be medically unfit for military training.
- All students who are required to take military training in the University will register not later than 12 noon on Saturday, October 2nd, 1943, with the University Naval Training Division, or with the First or Second Battalion, Canadian Officers Training Corps, or with the University Air Training Corps, according to directions to be published in The Varsity.
- 4. Students who claim exemption from military training under Section 2(b) will apply for this exemption at the office of the University Registrar not later than October 9th, 1943.
- 5. Any student who is required to take military training under Section 1 above, and who fails to comply fully with the regulations respecting such training, may be ordered, on the recommendation of the Court of Discipline, to withdraw from the University. September 8th, 1943.

U.C. Principal Red Cross Clinic Opening At 99 St. George Readied For 1,000 Donors A Week

C. O. T. C. REGISTRATION FOR MILITARY TRAINING

Students are reminded of the reglations of the Board of Governo of the University which require male students to register for military training in the University not later than 12 noon, Saturday, 2 Oct. '43.

SUMMER EMPLOYMENT CERTIFICATES Summer employment certificates which have not been turned in are now overdue. Defaulters should turn

in these certificates immediately.

Compliance with the regulations regarding military training for the session 1942-3 cannot be certified until the certificates are received.

MEDICAL APPOINTMENTS

All students must keep appointments for medical examination gardless of their timetable. Please eo-operate by being on time.

FRIDAY, OCTOBER 1, 1943

Years II, III, and IV

It is a much-favored national hobby to criticize the government and its civil service by pointing to made up of human beings, can be expected to do the requires little intelligence to formulate and if it is applied in the case of the recent Interpretative Letter issued by National Selective Service on the subject of the Mobilization Act as it affects students, the of its readers, the undergraduates who make up the inquirer is exhibiting extreme ignorance.

The Letter does face students with a theoretical dilemma, but only because National Selective Service has been forced to hand on its own delimma. Canadian manpower officials have in the past shown a readiness to co-operate with University heads in their attempt to save as much of the universities as possible intact throughout the war. That the manpower situation is now acute is general knowledge and that it may become more acute is a possibility recognized by anyone who is not completely out of touch with the events of the war. In order to protect removal of a large portion of their male students Selective Service has been forced to keep them some-

As much as it may have favored the universities the first duty of National Selective Service is to Canada and the way had to be left open to supply increased manpower needs if necessary. Hence the indefinite nature of the current interpretation of could have promised university men that they would of its vital component organizations. be allowed to continue their studies on the old basis and then broken their word when an emergency men in the second and higher years. Local opinion be necessary. The only other course that Selective Service could have taken and still protect the national interest would have been to make what is possible under the regulations effective at once and deny men the right to enrol in universities and colleges after they had completed one academic session, thus curtailing unnecessarily the education of a good many young men.

Selective Service has given a clear indication of the possibilities of the situation. Students now know what they may expect. Those whose college careers are thrown under the shadow of uncertainty by the new interpretations of the Mobilization Regulations are saved from the situation of United States college men last year when, in an analogous situation, various government agencies alternately alarmed and reassured them in the matter of their draft status. Current and past conduct of Selective Service toward the college student warrants the assumption that men will not be unnecessarily disturbed in their studies.

on its campus are proceeding confidently under the assumption that all students now enrolled here will be permitted to finish this year there remains nothing for the undergraduates to do but continue their studies as they were advised by the President on Wednesday, bearing in mind, when a stimulant is required, that section 4 of the interpretative letter recently issued provides that any student, male or female, who fails in term or yearly examinations will be refused permission to continue his or her studies until a permit has been obtained from Selective Service.

Our Policy . . .

We have been asked by a number of people re-We have been asked by a number of people recently what our editorial policy would be this year. Sometimes editors state their policies very definitely but for the most part these must be deduced through steady reading. This, we fear, will have to be the case with The Varsity this year. But we do feel that our readers have a right to some sort of indication of what they may expect from their paper.

In the first place The Varsity is the undergraduate newspaper and we mean to conduct it in a manner and all that stuff.

newspaper and we mean to conduct it in a manner which will keep the undergraduates as well-informed as possible concerning their own campus and other seemingly contradictory, vague or over-elaborate campuses on this continent and elsewhere. We would pronouncements and muttering, "Well, what can you ask our readers to bear in mind that The Varsity has expect; it's the government?" A government, being to operate with smaller staffs than normal in all to operate with smaller staffs than normal in all departments, and therefore it may not be possible at all times to give what would be considered adequate but worked their wiles in secret before ridiculous fairly often, and not infrequently merits all times to give what would be considered adequate criticism. But the question we quote is one that coverage under peace- time conditions.

Th editorial page of this paper will attempt to supply interpretation of the salient news stories of the year and will support at all times the best interests largest part of the University's population. The paper belongs to the undergraduates. That is not to say that it is the property of those who happen to be attending classes on this campus now. It is well. The editor and his Masthead are in part your servants, but they are also trustees of the undergraduate newspaper whose function it is in part to preserve and develon the traditions of the following the preserve and develon the traditions of the following the preserve and develon the traditions of the following the preserve and develon the traditions of the preserve and develon preserve and develop the traditions of The Varsity, increase its opportunities for service, and hand it on intact and, if possible, better fitted than ever to serve the generations of students who will come after you. higher-priced things in life. the universities from so drastic a blow as complete This concept of The Varsity will help to explain its position if at any time it should seem to stand in the war, to rebuild the post-war world and to preserve our heritages of the by any large and representative body of students. We do not anticipate any such situation arising, since we feel that at the present time students are thinking more clearly on the subject of the University and its institutions than ever and too well appreciate the precious nature of such foundation to embark on or Mobilization Regulations. The government officials urge any undertaking that would endanger the future

And we do believe that The Varsity may be described as vital to this University, if only because arose. This would have made students feel more it serves as the one every-day unifying factor through assured at this point in the year, but it would not its news columns. To fill those columns to the limit have given an adequate indication of the situation. of their full usefulness in informing all part of the Instead we have an interpretation which permits men University of the events of the campus we would to enrol but leaves the government free to call up request the indulgent co-operation of the executives of all campus organizations. In peace time when is that this will not be done this year, but it might there were swarms of reporters working for The Varsity it was possible to search out the news of the Now we must ask that if you expect publicity for your affairs that you submit to The publicity for your affairs that you submit to The Varsity clearly written releases containing all the mecessary facts. We will do our utmost to give you what should be a caustic melodic line. Dublicity according to what we consider is the compublicity according to what should be a caustic melodic line. Next he gave out with Rustling Leaves publicity according to what we consider is the comparative news value of your activity.

We have no pet crusade to present to our readers this year, and while we find a good scrap diverting which the Prom crowds greet with now and again we are not accustomed to bearing a useless burden of chips on our shoulder. However, if anyone feels that we are slow in taking up the banner of a cause he considers sacred, or wishes to point with pride, or view with alarm, or just plain denounce the management of this paper well will solidly in the grove, particularly when give him all the space we can spare. We will not be came to the dynamic passagework of the fourth movement. flinch at frankness as long as the writer minds his manners and has adequate regard for the laws of percussion had a field day. Since the University and the war training units libel and the Defence of Canada Regulations.

MEET ETHELBERT

As Champus Cats go, Ethelbert is probably just a kitten; but, then, there are lot's 'n' lots of kittens about the campus these freshie days. Mmm...!

and all that stuff.

To begin at the beginning, Ethelbert is a lobbly—a rare species! And that, to the uninitiated, means little enough. So, to begin back before the beginning, a lobbly is a distant — "Extremely but worked their wiles in secret before their cousins were discovered by the air force, or Lime, or was it Rife magazine. Since that time, the lobbly gang has developed a thirst (who hasn't?) for limelight. They ganged up on Ethelbert because he can type (he picked up the trick from Archie-What! You don't know Mehitabel's chronicler, the literary cockroach!) and made the literary cockroach!) and made Ethelbert official lobbly publicity agent.

Ethelbert says he chose The Varsity was "full of drivel anyway." (Ethelbert's note to Ed.: "Don't count your chicken before it's stuffed.")

Also, Ethelbert is interested in the

"I want to be trained to help win

"But I'm NO draft dodger," booms

Battle Royal

The Toronto Philhormonic

Last night at Varsity Arena, the oronto Philharmonic Orchestra-the Last night at Varsity Arena, the Toronto Philharmonic Orchestra—the "Prom" to you and me—sounded off with Erno Rapec at the helm. Highlight, if highlight there was, of the first part of the program was a mellifluous rendition of the totally uninteresting Adogietto from Mahler's Fifth. Then came Rex Battle, pianist, with a (1) by that master of schmalsz, old papa Liszt. As if that weren't enough, he rattled off the Shostakovitch Polka

Well, the second half of the program was a little better. Enesco's Roumanian was a little better. Enesco's Roumanian Rhapsady No. 1 was executed with considerable verve, Mr. Rapee maintaining the requisite rhythm and defining the climaxes with sufficient clarity. Grieg's A Minor Concerto found Mr. Battle

BROCK BRACE.

Ethelbert I

So. killing two birds, and injuring So, Islining two brus, and injuring countless others with but a single sling-shot, Ethelbert comes to Varsity. He admitted, strictly entre-nous, that on top of (or beneath, as the case may be) the three great responsibilities of universities in wartime, he was "incidentally out to have a helluva fine time."

Perhaps it was the latter move which led Ethelbert to let himself he shang-haied into Dealta Kingan Ace fraternity. But that is another story. Until it can be told, that is until Ethelbert's chronicler puts another sheet of paper into the typewriter for him, let it suffice to say that the li'l ole lobbly (age

Who's this guy?

unknown) is busy picketing the reg-istrar's office, seeking to convince the Committee on Supplications of his in-dispensability to university life.

If Ethelbert should get into mischief—interesting mischief, that is, and uncensored—please communicate with his chronicler through this department tout de suite.

ETHELBERT'S CHRONICLER.

Correspondence

The Varsity. University of Toronto.

It is part of President Cody's con-ention that the Universities are rising to the occasion and are training men and women for vital places in our wartime economy. Occupational Therapy is apparently one course doing just such a job, for the army and navy need its graduates badly enough to offer them commissions. The girls will late be needed for helping veterans to adjust themselves after the war.

It is rather surprising, then, the re-It is rather surprising, then, the re-ception O.T./s are receiving by the Uni-versity. They have had to live in obscure out-of-the-way residences while girls in Arts get the well-organized central locations. This year, with con-ditions worse, they are resorting to boarding houses

This is only one example, but there may be others. Don't you think an out-of-town girl would think twice before enrolling in O.T., and maybe switch to Pass Arts in order to live at Whitney Hall? Surely red tape could be cut and some adjustment made, even if only for the war's duration.

A Student.

Launch Tennis Contest SPORT NOTICES In Trophy Combat Oct. 6

Golfers Meet **Next Friday**

The Reed Trophy race, for intramural athletic supremacy, gets under way for another full year come next Wednesday, October 6, when campus tennis enthusiasts take up their annual squabble to decide the most proficient exponents of the sport. St. Hilda's courts, the scene of many an interfaculty match, will again be used. Entry fee for the competition will be

Intramural Play Boosted

Mac McCutcheon and Warren Stevens officiated at the first intramural sports committee meeting held yesterday in Hart House. Addressing the faculty athletic representatives, they stressed the importance of sweeping the cobwebs away and getting the bulk of the undergraduates to turn out for intramural sports. In co-operation with the Intra-mural Sports Committee the C.O.T.C. will in all probability extend a time allowance to any participant taking parade time for an athletic event.

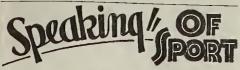

The Committee members were further urged to see that all expectant intramural sports participants received the required medical examination at the earliest possible moment. If it should be impossible for any rugby, soccer, or track man to obtain his medical before October 13, an appointment can be ar-ranged with Miss Boyd in the Athletic Office,
Mr. McCutcheon also introduced, for

Mr. McCutcheon also introduced, for the approval of the committee, a possible addition to the standing track program. The addition would engulf the 50, 100 and 220 yard dash and a relay; it would be handled on the same basis as a swim meet. Each College would enter a team with a minimum of six or a minimum of eight men. If this motion is massed at the next mention it will work tournament is the first event to be run off, as all entries must be in before Oct. 2.

As usual, each college will run its own tournament and the top six players with the post merging it will be made to the post merging it will be addition to the approach of is passed at the next meeting it will bring track back to its pre-war stand-ing and ensure a wider participation in track events.

committee's attention was drawn to the strong desire of the boys of the No. 2 Army Course to join the interfaculty rugby group. These boys, under the able guidance of Major Howarth, a former pupil of Warren Stevens, have already had a month's practice and conditioning, and are anxious to test their form on the gridiron. Although the committee had not the jurisdiction to vote on this question, they were unanimously in favor of seeing the boys joint the group. The decision lies with the Athletic Directorate who will meet joint the group. The decision lies with the Athletic Directorate who will meet on Tuesday next.

BY RACQUET AND MASHIE ...

semissists take up their annual squabble to decide the most proficient exponents of the sport. St. Hilda's courts, the scene of many an interfaculty match, will again be used. Entry fee for the competition will be fifty cents for each person.

Two days later, on Friday, the interfaculty golf tournament gets under way on the green swards out at St. Andrews Club. Formerly held at the Woodbine course, the tournament has been shifted to the North York location since Woodbine has been cut down to nine holes, in order to continue the usual 18-hole competition. As in tennis, the entry fee will be fifty cents.

The standing committee meeting in tennis takes place in the Athletic Directorate room, Hart House, at 5 p.m., today, and the meeting for golf at 5 p.m. on Monday. Athletic representatives are expected to attend them.

Both tournaments should, this year, be wide open affairs with no one faculty having any great advantage over the others. Bill Waugh and Chuck Saba, who were at the top of the list with Vic colours in hand last year, have left the campus for the armed forces. The golfing field is in much the same condition, although rumour has it that a Vic freshman recently shot a neat 71 at Humber Valley where par is 65.

KILL THE UMP ...

Impulsive behaviour inspired by the above cry along with wartime conditions have probably been the two chief causes of the present referee shortage concerning which, the Athletic Office is loudly wailing. For the supply of the little men in white shirts or white trousers, depending upon the peculiar decrees of the various organized sports, is becoming steadily smaller.

But if officiating recruits will rise from the student body, all may yet be well taken care of. The Athletic Office has sent out its annual appeal for students to act as referees in all fall team sports. Prospective officials will be examined to determine their ability or inability to ref at rugby, soccer, and lacrosse games.

It should be pointed out that the remuneration offered to these athletic officials make it well worth the time and work invested. And in addition, after their experience in officiating at intramural games students may be placed by the Athletic Office in various leagues in the city where referee's pay is nothing to sneeze at.

The Sportswoman

UNIVERSITY STUDENTS SPECIALLY WELCOME

hither and

with rex wilson

Writing hithers, our ex-boss Omara of Grounds and Buildings and they took used to say in the days when he was boss, and therefore didn't have to write hithers all the time, sure is fun, but not when the Feature Editor suddenly use and puts you on the spot, for, to tell the near-truth, dear reader, at just about the same time as you were reading that we were to write this column today, SO WERE WE.

* * *

today, SO WERE WE.

* * *

So we crave your indulgence if this is a little ragged at the edges—and please pardon us while we reply to Harriet's query of yesterday. "No, Miss Mallory, all wimmin don't still appal us. We are rapidly narrowing down to one."

But this summer when the Wrens from the Navy Show had invaded Hart House in a most appalling manner we behind Simoo Hall.

House in a most appalling manner we happened to note a little blonde number nappened to note a little bronder infinite-wandering down the main corridor hand in hand with a seaman. Ever and anon she flopped her lovely head upon his she flooped her lovely head upon his shoulder and nuzzled him affectionately. This beart-warming show was climaxed when, with a pretty show of passion, she upped and bussed him on the side of the neck with a most resounding smack. TUT1 THERE IS THE RIGHT TIME AND THE RIGHT PLACE FOR EVERY-THING.

... Also the right guy.

The only other woman wbo has appalled us notably since last we scribbled in these columns was a statue of Diana at Syracuse University which we visited this summer. Now we, perhaps naively, believed our Ancient History professor when he proclaimed the athletic qualities of the moon goddess. But we eaught her breaking training! For between her lips was gripped the last nicotinic fragment of today. bronze buzoom were seattered the grey ashes of the noxious weed!

To have reached this point at this stage of the year without mentioning the hapless frosh is next to heresy. The estimable Philip who officiates in ing of the Newman Club Sunday, Oct. the Hart House pool room reports that the usual benused pair of frosh who think their pool playing is cowered by their Athletic Fee have not yet been in local three that the complete size of the c to run themselves into debt.

But the tyros aren't getting any Shop. "I've been sitting at a table in smarter. One of them complained loudly to the manager of the Tuck

loudy to the manager of the Tuck at the freshmen initiation rites in the there for nearly half an hour and no one has come to wait on me!"

Freshies do the darndest thigns too. Three from St. Joe's tried to sign up as reporters for The Varsity in Hart House. That's the spirit, girls, but the right place is room 42A University College, honest.

All Varsity Christian Fellowship members and friends are invited to join in the annual reunion hike. "The gang" is meeting at Blythwood and Mt. College, honest.

We close today with what is some-times called an Atwawa! story. This con-cerns Ranger, not The Lone Ranger, but a little Welsh dog of the Corgie breed belonging to Jack Thomas of the University Health Service. Last sum-mer Ranger became quite a pet with the girls in the office of the Superintendent

House Camera Club to hold an Annual Exhibition of prints in the Art in East Hall, where refreshments were Gallery of the House. It is intended to hold this show again this year and all members of Hart House are eligible

SPEAKING of SWING

By Barry Townley

The appearance of Duke Ellington and his orchestra made Mutual Street Arena the most popular spot in town on Monday, Sept. 27. The band, despite several changes in personnel, is still as thrilling as ever. This band is not just an evening's entertainment — it is an experience. experience.

experience.

To open the column for this season, we are trying a departure from the usual critical review; the following is the record of an interview granted by Duke Ellington last Monday.

The Duke has definite, far-reaching opinions on many phases of his chosen field. For instance, he has this to say about the future of modern American mustic Contemporary swing is building up to something big and involved, so as up to something big and involved, so as to reflect the thoughts, feelings, and temperament of the people of our com-plex world, just as the music of past centuries tried to portray life in those times. Swing, like all music, was, is, and always will be "like the people,"

and always will be "like the people," progressing as they progress.

Continuing, Ellington said that some people call this new music "junk," not realizing that they think as simply because modern American music is in step with an advancing, fast-moving world, and therefore not consistent with con-servative thought. The classical com-posers faced the same problem in their

posers taced the same problem in their day, but when the rest of the world eaught up with their advanced thinking, they began to be appreciated.

Another interesting angle advanced by Ellington was that the classical musi-cians were just ordinary hard-working mortals who had to turn out new ma-terial constants. terial constantly in order to keep eating, just as modern swing musicians must. The secret of the best musicians, both then and now, is that they try to catch the mood of the world around them, and weave that mood into the fabric of their music. That is why the Duke is tops in his field today. His music is sincere and moving and important because he feels the progressive spirit of his time and strives to interpret that spirit to the listening public through the medium of his music

Prof. Cameron Addresses Joint Meeting Of Engineers, Industrial Relations Is Topic

Proposes Ideal Labour-Manage-ment Agreement and Outlines Obligations of Employer and Employee

URGES SOCIAL TREND STUDY

Prof. J. C. Cameron, of the Department of Commerce of Queen's University, speaking before the joint meeting of the Engineering Institute of Canada and the American Society of Mechanical Engineers, at luncheon on Saturday, had as his topic "Trends in Industrial Relations." Relations.'

Walter S. Woods, Associate Deputy Minister, Department of Pensions and National Health, also addressed the meeting of the two societies. He com-mented on surveys now in progress to determine the opportunities in various professions and occupations, including engineering.

Prof. Cameron said that the present conception of labour relationships began began to look upon labour problems as problems in human engineering rather than social evils and abuses. He stressed that there is no specific remedy to prob-lems of wages, hours of labour, unemployment and strikes. Different

employment and strikes. Different reatment is required which varies with the type of plant and industry.

Prof. Cameron pointed out that good industrial relationships will not develop spontaneously, but that someone must take the initiative and that it is proper that the Board of Directors assume this

responsibility.

In a brief ideal labour-management agreement, which he proposed, Prof. Cameron pointed out that both employers and employees have definite obligations one to the other. The em-(Continued on page 3)

HOSPITAL NURSING AIDS

Women students who have inwomen students who have in-dicated training as a Hospital Nursing Aid as a first preference in the Women's National Service Training programme, must make an appointment for medical examination with the University Health Service not later than today, Monday, Oct. 4. This examination is necessary for ad-mission to the course.

Every University student is asked to make sure, at once, that his correct Toronto address and telephone number are entered upon his reg istration card in the office of th University Registrar, Simcoe Hall, and in the office of his College Registrar or Faculty Secretary. The University Directory is now being prepared for the press and it is of the greatest importance that all addresses and telephone numbers be

As the newly appointed head of the Department of Metallurgical Engineer-ing at Toronto, Dr. L. M. Pigeon, widely known specialist in the field of magnesium and light metals, outlined plans for the development of a vigorous school of light metal research in his department, in an interview with The Varsity today. Dr. Pigeon succeeds

> magnesuim as in the pre-ward period, strenuous efforts must be made to de-velop peacetime uses so that this tremendous increase in productivity will not be wasted. This should provide a great impetus for research in the light metal industry, he explained, particularly as the industry will be in competition with the new alloy steels and plastics which are being produced.

A graduate of the University of Manitoba, Dr. Pigeon took his M.Sc. and Ph.D. at McGill, where be won a gold medal in science. He went to Oxford for his Bachelor of Science degree on a Sir William Mamsey Memorial Scholarship, and while there Dr. H. M. Tory, then director of the National Property of the National Proper tional Research Council of Canada, offered him a position as assistant research chemist on his staff. He was later pivoted around Naples. appointed associate research chemist.

It was here, under Lt.-Gen. A. G. L. McNaughton, that he began the research on magnesium which led to the process, known as the Pigeon process, by which In 1828, despite the eternal bickernings of the colonial office and Upper Canada College the site of the building was arranged for and lots were staked out in the woods of what is now University. From the passage of this act on, the School out in the woods of what is now University are produced from a specific execution of plans, when 1836 that the way was paved for specific execution of plans, when College had begun. In those days there rolled of the press in 1880.

Stadium and Hart House found their place in the daily campus routine while School of arganesium can be produced from dolongthange of the Riel Rebellion but it actually was faithed in 1859. The Confederation gave the U.O. T. the distinction of the Riel Rebellion but it actually was of the Riel Rebellion but it actually was provided in 1879 and women were admitted not been without distinction in the field not been withing the Shool of the Riel Rebellion but it actually was deposite. His discoveries resulted in the erection of a large plant at Renfrew, which produces enough metallic magnetism can be produced from dolon the stable to the days was taken 70 more villages, including deposits. History Of The University

By Betsy Mosbaugh

It may shatter the nerve of the students of University College to know that their college was once used as a lunatic asylum and was designated as "The University Lunatic Asylum." Those who walk the digmlined grounds of Victoria College way be disconcerted to learn that in the late 70's the Bursar of the University rented out those lands as a cow pasture.

Such interludes were probably not forescen by the United Empire Loyalists whose agitation finally led to an endowment of land for educational purposes in 1798. Once the land was obtained the Reverend John Strachan gained, in 1827, the royal charter for the establishment of a university. The college were separate entities from the land a university. In 1828, despite the eternal bickerings of the colonial office and Upper Canada Colleges the size of the building. From the nessenge of this act on the ted Stadium and Hart House found their longes of the colonial office and Upper From the nessenge of this act on the ted School of Graduate Studies was

The University

the newcomers to this campus have started to become acquainted with their University. In this and following issues we hope to banish what bewilderment Ther class the University and its component parts.

Cardinal Newman said, "It is a great point . . . to enlarge the range of studies which a University prothem, they will be the gainers by living among those This University offers to its students the opportunities which Cardinal Newman sought for his. The full effect of being in attendance at a University where all branches of learning are represented has scarcely been felt by the first year as yet, although time for in "Dirty School" and equally "Dirty Meds" and important. variously unprintable Artsmen have made some brisk personal contacts.

As the year progresses first year students will come a diversified University. Its federated composition, which prevents the student from being lost in one vast amorphous lump of enrolment, is unique among Universities, and represents a development reaching back over the space of an eventful century. The main features, salient dates and anecdotes of those years may be found on page one of this issue.

This unique composition si confusing to newcomers and outsiders, but it is possible to get used to it and even to understand it. Those familiar with the great Universities of Cambridge and Oxford have little difficulty with the fact that there are four Arts Colleges on the campus, but the use of the term "Victoria University" causes confusion to some. and Emmanuel College, the United Church theological seminary, is Victoria's to use, for both that college and Trinity are Universities in their own right and hold royal charters to that effect. Both agreed to hold their degree-granting powers in abeyance when they became federated with the University. term University outside of its Theological Commencements for some fifteen years.

The presence of the church colleges, Victoria, St. interested in education, the Church and the State. Their aims in education have frequently varied and more often than not clashed. This was true in Ontario in the last century.

Under Federation the colleges surrender the right to teach certain subjects, notably the sciences which to teach certain subjects, notably the sciences when were just then reaching their modern development, and concentrated them in the hands of the University. This policy was followed with the admission of Trinity College to Federation and the development of St. Michael's College, originally grammar school and theological seminary, to full college status. Thus was the logical seminary, to full college status. Thus was when it reopens there will be performances truly worthy of it.

gestions of the students of this campus will be toun acceptable at some not too distant date.

Meanwhile it is the responsibility of campus dramatic groups to carry on the tradition which Hart House Theatre has helped immeasurably to foster so thing of weirdly intervention which the state of this campus will be toun acceptable at some not too distant date.

Meanwhile it is the responsibility of campus dramatic groups to carry on the tradition which Hart House Theatre has helped immeasurably to foster so thing of weirdly intervention which Hart House Theatre has helped immeasurably to foster so the when it reopens there will be performances truly worthy of it.

in Toronto whose name is respected all over the world and whose current impact and influence upon the world far exceeds the possibilities of the total of the diffused efforts of its component parts had they remained separate.

No More Excuses

That big sign on St. George Street just opposite the end of Sussex means the end of one fine old excuse for not giving that 250 cc. of blood to the Red Cross. We've seen a lot of those buttons about signifying that the wearer is a hardened donor of blood, but the lack of one in a lapel should before long be more notable than the wearing of one has been

There have been a fair number of student donors, but by far the larger number haven't found the time or the energy to get over to Sherbourne Street or down to Richmond. Now the distance and the time are no longer factors in putting off donations. For years we have delayed going to the Red Cross, now the Red Cross has come to us. The last valid excuse (we must consider it valid, it's the one we've been using) is gone, and there remains nothing for those Through personal contact and, we hope, to some of us who still have blood and are eating regularly to extent through the first two issues of The Varsity, do but reconcile ourselves to eating a fatless breakfast do but reconcile ourselves to eating a fatless breakfast and began writing. There was a man one day and then going in to the new clinic and in a blue suit sitting beside him whom giving.

There are many of us, we have good reason to Unfortunately Lust inadvertently wrote know, who have signed lists of volunteers in moments on some of these sheets—"His own of urgent patriotism and then sat back to wait for fault," said Lust. remains by attempting to interpret to the Freshman know, who have signed lists of volunteers in moments the Red Cross to call. Some have been called, others have not. Of those who have heard nothing further fesses, even for the sake of the students; and, though from the Red Cross there must be a large number they cannot pursue every subject which is open to who have assumed, not without a certain amount of reason, and a larger quantity of inertia, that if the Lust and under those who represent the whole circle." need was urgent the lists would be combed and they This University offers to its students the oppor- would be called. The Red Cross depends to a great extent on volnutary clerical help and time for fine list-combing is not always available, so don't feel put out if they haven't called you. This isn't the time for injured feelings; injured soldiers are more

The middle of this month Canada's Fifth Victory Loan drive will begin. In this affair most of us will be on the sidelines. Students traditionally have to appreciate more and more the advantages of such little ready cash. So if you chafe at your inability to do even this something, make 99 St. George your Victory Loan headquarters, and loan your blood. Nature will pay it back almost immediately and in a few weeks you'll be able to do it all over again.

Curtains For Keeps

No, it's not curtains for keeps in Hart House Theatre, but it seems very definite that there will be no performances there this years. It is hard to swallow the Syndics' rejection of the last-resort sug-This baffling term, used to refer to Victoria College gestion by students that responsibility for operation of the Theatre at the time of perfarmances be undertaken by student committees. It is understandable that the Theatre could not be kept open on a fulltime basis under shuch a management, but it should suffice for campus productions, and there would be no salaries to pay. If the Theatre is heated through At the present time both are in effect colleges in the University central heating plant and electric of arts, and Trinity College has not used the power is available for lighting at lectures there seems University outside of its Theological Com- to be little in the way of obstacles to using the Theatre if a point or two could be strained.

It is true that we know little about the manage-Michael's and Trinity on the same campus with the ment of the Theatre, but as yet we have heard no provincial college, University College, represents a arguments from the Syndics against opening it that solution of what has been elsewhere and long was seem to stick. It is a bitter shame to have such a here, an extremely vexed problem. There have fine little Theatre on a campus where there are both always been two bodies traditionally and naturally performers and a ready audience to use it. However, one fact must be brought out. Hart House Theatre does not belong to the University. It is in (or under) but not of Hart House. It is controlled by an autonomous body of six Syndies and its by an autonomous body of six Syndies and its financial deficit (it has never carried itself) is paid out of the generous pocket of the Hon. Vincent of Massey. What the Syndies decide concerning the Theatre is a decree which may not be appealed. It is regrettable that they feel that they must act as they have and it is to be hoped that either a manager will have a subject to the suggestion of the suggestio This unedifying spectacle came to an end in the financial deficit (it has never carried itself) is paid late eighties when a group of men sought and found out of the generous pocket of the Hon. Vincent late eightes when a group or near too. A prominent of prominent of this group was the University's beloved Theatre is a decree which may not be appealed. It is regrettable that they feel that they must act as they regrettable that they feel that either a manager will have and it is to be hoped that either a manager will Their attack was snarp, their regular become available (which is doubtful) or the suggestions of the students of this campus will be found gestions of the students of this campus will be found and restrained.

Just But Of The Salt Bucket

"ae 1-7-x-ffl\$ce&1-and you can quote "ac i-r-x-lipscal--and you can quote me on that," said J. Vaughan der Lust, well-known world traveller, Varsity, student (ex-Vassar), and official recorder of travelling salesmen stories for Pres. Cody, when asked for his opinion of life at sea in the Canadian Navy. This language was not familiar to The Varsity remoters but was translated by. Varsity reporter but was translated by a Lieut. Commander in the U.N.T.D., whom we assumed to be old Navy man, to mean "Swell."

Lust related how he had decided to study for an examination one day last spring and had wandered into his favourite spot in former years for be-tween-meal studying—room "A" in Hart House. He sat down at a table

So it was that as Lust rose to leave he was greeted with: "You will report for medical examination this afternoon at H.M.C.S. York,"

"Oh well, it was a free ride," said

Asked to relate his experiences in his Asked to relate his experiences in his own words, he began: "Our ship was H.M.C.S. St. George St.—a harbour craft just out of refit. She was a—"1; laz & fine ship—took to the water like a filize & ostrich. Our convoy set sail on the 31st of June—whither we knew not. We were amply protected by a U.S. coastguard cutter.
"For seven whole days we kept up a ***!? running battle with the ?&!?-* U-boats. Our escort ship rang up a score of seventeen of !**& them before they finally gave up and left us alone. Our only casually was one &&?**se

Our only casualty was one &ce?**:æ treighter which was damaged. The coastguard cutter eventually had to take it in tow.

"Ah, those days in the South Sea Islands," mused Lust, as he continued. Islands," mused Lust, as he continued. "Lyning under the string bean trees, fanned by the native girls, and listening to Frank Sinatra records—what a life!—I can hardly wait to go back. The Mediterranean too was &!?!!* lovely but ah—there were so many places. We finally joined another convoy going the other way, since I had expressed my wish to the !?*&ce!! captain that I should get back in time for a week in Muskoka before school started.

Muskoka before school started.

"On the way back, the &!*e?! convoy spent a short stay in New York because of a "Zombie" shortage in the wardrooms. That used to be a !?&*
lovely place so far as I remember but internot below the place is were mitted. just now the place is overrup with &=??

just now the place is overrun with &æ??
pink elephants—you can hardly see the
-18°c buildings." (You will note that
Lust does not repeat himself—Ed.)
At this point we left him to return to
his literary work. He is at present engaged in writing his memoirs, entitled
"Lust at Sea."

HART HOUSE GLEE CLUB ORGANIZATION MEETING

> The organization meeting of the Hart House Glee Club will take place in the music room of Hart House tonight at 4.45 p.m. Dr. Charles Peaker will be on hand to conduct. New members are invited to join. Previous training in music is not essential. The club is open to all members of the House.

of competition.

The track and field program may also be changed during the course of the meeting under the latest scheme to make the sport more attractive to students who might be competing. If this scheme were carried out there would be introduced a schedule of dual or three-way track meets operated on the same system would organize a team or a number of teams, each of which would consist of a maximum of eight and a minimum of six contestants. These teams would compete in a limited number of events and thus many more students, par-ticularly those in the first year, would win events and receive a certain amount of publicity which, it is only reasonable to conclude, would encourage more participation in track and field events. At the same time these meets are not intended to have any effect upon the regular intramural track meets.

Engineers Hear Prof. Cameron

(Continued from page 1)

ployers must pay fair wages, and make membership or non-membership in the local union, etc. He stressed this last point, saying also that the "closed shop" is undemocratic.

The employees, on the other hand, must fulfil their obligations as to attendance, sobriety, efficiency, and keep-ing of confidential information which be of value to the firm's

competitors. There should be not more than one bargaining agency in a plant unless the existence of two or more is necessitated by the type of work done, or is beneficial to both parties. The agreement should be for a reasonably long period of time, since its aim is to maintain as

well as establish industrial peace. In conclusion, Prof. Cameron sug-gested that it is part of an engineer's job to keep ahead of social trends, and study social thinking so that he will be able to advise the directors of the significance of these trends and suggest the steps to be taken.

Special Rates for Students

Sports Officials To Confer Tuesday Speaking / OF

By Phil Shackleton

The most surprising sports news from Canadian universities last week came on Thursday in the publication of McGill's plans to organize and enter a rugby team in the Senior Quebec Rugby Football Union this fall. For the first time since 1940 when the Canadian Intercollegiate Athletic Union canned all intercollegiate sports, McGill will have a varsity team in an organized league. Earlier in the week it was learned that they had entered a municipal league but it was not until Thursday that news of their Q.R.F.U. membership reached us. Last fall, playing exhibition games, the Redmen defeated two of the Q.R.F.U. entries, the Army and R.C.A.F. teams, but lost to the third team, the Verdun Grads.

McGill, by this move, follows the University of Manitoba which

Q.R.F.U. entries, the Army and R.C.A.F. teams, but lost to the third team, the Verdun Grads.

McGill, by this move, follows the University of Manitoba which, last fall, entered a rugby team in a Winnipeg district league. Opening season game is set for Oct. 23, when the collegians meet the Navy team, another new entrant in the Quebec loop.

It is with puzzled feelings, I believe, that Toronto students will receive this news. The prospect of neighbouring universities supporting teams in organized league play is one which is liable to set the average student to wondering why Toronto teams confine their activities to intramural and exhibition games. Now this is no time to revive the journalistic attack upon the C.I.A.A. My predecessors in this spot devoted quite sufficient column space to that cause to no avail. But there need be no appeal to the afore-mentioned infallible body in order to place a Varsity team in local league skirmish. And such a team this fall might have been the sixth and balancing team of the O.R.F.U. But thus far there are no signs of organizing a squad which might engage in exhibition games as has the University of Western Ontario. Of course the season is too far advanced to think of fielding a Varsity twelve this year, but there is ample time in which to organize similar teams for hockey and basketball. Allan Bloomberg, sportsed of the McGill Daily, informs me that the Montrealers "expect" to enter both hockey and basketball teams in city leagues.

Since the C.I.A.U. ban the choice of student hockey players at Toronto have sought fame, and some fortune, in leagues outside the campus. There would be no difficulty in finding sufficient talent to warrant a Varsity hockey team; the students who played on commercial teams last winter could alone have carried the Blue and White into battle.

As far as I can see the basketball setup at Toronto is the best

As far as I can see the basketball setup at Toronto is the best possible under wartime conditions. Even though limited to exhibition contests it is better to run through a schedule of games with other

Therefore this year those a schedule of games with other universities rather than enter a commercial league.

Therefore this year those students interested in Varsity hockey might arrange with the Athletic Directorate to organize a Toronto team, and those interested in Varsity rugby might lay a foundation, which, Selective Service Board pleasing, might result in a Varsity rugby team taking to the field next fall.

DEADLINES ..

DEADLINES All entries for the tennis tournament which open on Wednesday, must be in the Athletic Office today. Racquet wielders who have not already entered are urged to be at the office door with their fifty cent entry fee before five o'clock. Prospective Sneads had better take note that golfing entries for Friday's tournament at St. Andrews must be in by Wednesday.

The annual Novice Track Meet is slated for Oct. 14, the first track event of the season, while the regular Interfaculty Meet follows on Oct. 20. But cinder path artists are already training at the Stadium. Hee Phillips, veteran coach of Varsity track teams and himself a one-time British Empire champion, can be found thereabouts avery afternoon about five. However the track is available at any time during the day to those interested. A dressing room with lockers is provided beneath the Stadium.

Trinity Gets Registrar

As Woodcock Retires

Recent Graduate Dies in Accident

Seriously injured when struck by an automobile last week, L.A.C. William C. Dewar, who graduated in Commerce and Finance from University College last spring, died on Thursday in the Belleville General Hospital. He was bit while walking into Belleville from No. 5 I.T.S., R.C.A.F. Wednesday night.

Bill was one of Varsity's foremost Bill was one of Varsity's foremost athletes, a valuable member in recent years of the Varsity basketball squad. Very active in the athletic life of U.C., he last year managed that faculty's junior basketball team and sat on U.C.'s Athletic Board.

Athletic Board. Following graduation he enlisted in the R.C.A.F. and recently graduated from No. 5 I.T.S., ranking second in his class. Earlier in the day of the accident he tied for the highest number of points in his station's track and field meet and broke records in the discus and caber throwing events.

He is survived by his parents, Mr. and Mrs. W. H. Dewar, and his brother Donald, now attending the University

U.N.T.D. Summers At Sea

third year autenantial Engineering, Electrical Engineering Physics, and Maths and Physics students were given the opportunity of staying on active service with the navy

The R.A.'s spent more time on shore to be lowered over the side by a rope. learning the ins and outs of their Secret Radio Equipment (kidding again) and servicing same for a couple of months before being drafted to sea. At Halifax they were joined by students from other universities across Canada arriving at various times during the first part of the summer. On the the first part of the summer. On the ships the radiomen worked as seamen, and the E.R.A.'s worked as stokers.

ASHLEY & CRIPPEN **PHOTOGRAPHS** 196 BLOOR STREET WEST

"Life at sea is dang'rous and hard— not sea the luckers," — but when your ship is a corvette and the sea the tox very dangerous and usually not hard according to eleven students now in fourth year engineering and science courses who went to sea this summer. After the U.NT.D. camp training at a certain East Coast Naval Training Establishment (quit your kidding!) third year Mechanical Engineering, and Selectrical Engineering, Electrical Engineering, Electrical Engineering, Engineering Control of the provise of the provises and makes and Physics state of the provise and the provise state of the provise state of the provise and the provise state of the pro

dents were given the opportunity of staying on active service with the navy for the rest of the summer. Stokers Second Class at the time, they were promoted to Engine Room Artificers, Electrical Artificers, or Radio Artificers, depending on university course and preference. They remained in bell-bottomed trousers, reverting to stokers when they came back on Divisional strength for the winter.

The E.R.A.'s dropped in on the middle of a Leading Stokers' course for a brief exposure, then worled at odd jobs like boiler cleaning (the bane of every stokers' sexistence, in which be finds out what a coal man feels like from the inside) until they were drafted from the inside) until they were drafted from the inside) until they were drafted one by one to outgoing minesweepers and corvettes. such a nuisance of himself that he had

ing time, see shows, stage and screen, radio programs, big name bands, sights of the city, get sozzled, get fed, all on one dime—the subway fare to Times Square and back. People always ask and the E.R.A.'s worked as stokers.

The work to be done on a ship is Square and back. People always ask us first thing if we went to the Stage but is is deadly monotonous. Such things as tax-free eigarettes, cokes and chocolate bars, the latest hot records, letters from home, are very necessary to keep up a sailor's morale. As for the danger which the little boys sang ettes and entertainment, but it is not about, losses are very much, the exception, not the rule. Varsity's sailors, hearts there and wisting servicemen do not see Lamour and Lamarr.

Second year members will parade in uniform. 3. Place of parade will be the South end of the North Campus. ade falling in is 4:30 p.m.

A course which is intended to fit diplomatic services is being inaugurated this fall, to meet the expected need for trained specialists in these fields after the war. This is the course of Modern History and Languages.

Like the old English and History course, which later branched off into the two courses of Modern History and English Language and Literature, this is a composite course, enabling the stuis a composite course, chaosing the student to specialize in both departments. In fact it was created to fill the gap created by the abolition of this course. Unlike the English and History course however, it is not designed to fit students for specialists' certificates, and is not recommended for those interested not recommended for those interested Rassel and Franciurit, carrier out by saintal, its interestings were those in traching. Nevertheless it promises the Ra.F., R.C.A.F., and United States to be a valuable course, due to the broadness of the field it covers. According to Dr. Bennett of Victoria it is hoped that it will contain all the good points of allied courses and none of the

Co-eds At War

Amid the usual confusion of returning to school and settling courses and timetables the University women have quietly gone about registering for their second year of National Service Training. This week will see more than 900 women begin a 60-hour course of training or of practical work in some field in which they may make a direct contribution to the war effort or to allied community needs. All women students in the Faculty of Arts with the exception of those in their first year are required to enrol under the Women's National Service Training program. A total of 15 courses is offered under this program and the women are given their choice. However, Royal College since there is a definite enrolment quota for each course, preference is shown to students in their final

The object of this program is to train women to be of immediate practical aid in a wartime community and several of the courses offered are purely practical, constituting an immediate contribution to the war effort. Women trained under the W.N.S.T. last year may for the most part go into courses this year which will be a practical application of their previous training or of their academic courses in the University. In order to make this possible seven new courses have been added to the syllabus, giving more variety and a wider choice. These additions include practical work as Hospital Dietitians' Aids, offered only to IV Year Household Economics students; Group Leadership, a course of instruction and field work offered by the School of Social Work; Laboratory Technique, offered by the Food Chemistry Department for students in III and IV Years Pass or Honour Chemistry; Conservation of textiles and Laboratory War Work, offered to students in Psychology and IV Year Physiology.

A definite attempt has been made on the part of the Registrar and the various Faculty Deans of Women to provide courses which will be of use to the students from the point of view of background and training as well as community necessity. Household Economics students trained in dietetics, food chemistry or sewing can choose a course congenial to their line of study, one giving them practical ex-perience in subjects already studied. Students interested in Social Work can gain valuable undegraduate experience in courses such as Group Leadership or Community Needs and Resources. It is hoped the course in Conservation and Budgeting will make its contribution by training future citizens in responsi-bility as regards clothing and funds. The course in It will be on for only a few more days, so those who has the most limited registration of all the courses young artists should seize their opportunity. and has its immediate application in paid positions as trained leaders in camps maintained throughout the province during the past summer.

Two of the courses offered last year as partly training and partly practical work may be repeated this year as entirely practical work if students who took them so desire. These are Hospital Nursing Aids and volunteers in Civic Day Nurseries. University women enrolled in these courses may have the satisfaction of knowing that they are assisting in work which is vitally necessary to the community as a whole. They are spending four hours a week helping to relieve a situation made acute by the war. The lack of trained help in hospitals and the mounting enrolment of children in the civic day nurseries has

raised a great demand for volunteer workers and the women of the University have done a good job in helping to relieve the pressure. Of the other courses repeated from last year, Red Cross Sewing entails no previous training and a girl who can sew is immediately useful, while the courses in Recreation and Nutrition are half-term courses of instruction from which a girl may go into more practical work. The course in Home Nursing and First Aid is recom-mended for II Year girls because of its value as a foundation for other courses in the syllabus.

The U. of T. Detachment of the Canadian Red Cross Corps is open to all years and includes 60 hours of instruction or service. Girls taking this bours of instruction or service. Girls taking this course become trained and disciplined members of the Red Cross and are available throughout the year for Red Cross service. The training for girls entering the Corps includes First Aid, Home Nursing, Red Cross History and Organization and some why momma, because they are more like military drill.

military drill.

The Women's National Service Training Program, made complusory last year for the first time, came through its year of trial most successfully. Both women and Deans were pleased with the courses and the manner in which they were conducted. Aside from a few minor details of organization there were no changes made for this year except for the expansion of the syllabus. The plan's success is greatly momma, especially the fellow with the due to the generous co-operation given to the pro-crow-bar, but I was nied and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in my residence and I heard a whistle and knock at might I was in bed in the might I was in the might I w no changes made for this year except for the exdue to the generous co-operation given to the pro-gram by all departments and schools, professors and There was no stinting of time and effort to make the program function smoothly. It is hoped and expected that all will go as well this year as last.

That Royal College, home of knowledge that you may have heard the loud-voiced yelling about is University College, the lineal descendant of King's College which was founded in 1827. The other arts colleges sometimes wonder about the "Royal" epithet being attached to U.C. inasmuch as both Victoria and Trinity hold ancient parchments bearing much royal wax, but it has stuck.

Although the largest of the arts colleges and the most diverse in its envolvement University College. That Royal College, home of knowledge that you

most diverse in its enrolment, University College sometimes seems to be the most unhappy. Even in put one on, some boys with green ties part one on the part one on the pot one along and rip it off. I can't what might have been its own exclusive playing fields have come under University jurisdiction. Located in the middle of the University, its students seem scattered as if by centrifugal force to other parts of the campus. "U.C. is a vacuum," one student was heard to say recently after transferring from one of the other colleges.

Yet a satisfying undergraduate life is found by the tree with a vellow tie, for some

Yet a satisfying undergraduate life is found by budgeting, open to all except Household Science stu-many U.C. students within their own college. The dents; Training as Farm Service Camp Recreation student societies, notably the "Lit," or more properly Leaders, open to a limited number of students with the University College Literary and Athletic Society, ability to swim and some training in music; Repair- carry on diverse and engrossing activities with uning and Remodelling of Clothing, offered to III and IV Year Household Economics students only; and Laboratory War Work, offered to students in than real. Certainly whatever her internal woes the Royal College makes herself felt through her students who are active in extra-curricular activities in the University as a whole.

WE ANNOUNCE OUR FUTURE . . .

WE ANNOUNCE OUR FUTURE...

When we were just a little fella (honest!) we were weak at hopscotch. We eschewed sand-lot ball and our jacks game was lamentable. Our sole athletic consolation was a peculiar success at the receiving end of a special branch of the marble-players' art, which involved holding up a board with graduated notches in the lower edge while fellow contestants rolled marbles through it. No one ever acquired better than we the knack of imperceptibly jiggling this target so that all but a tiny percentage of the hostile marbles missed the notches completely and fell to our private hoard. In '33 we had the largest collection of other people's marbles in our district. It was among jealous competitiors at this art that the practice of twitting us on (fancied) athletic non-success arose.

At fourteen we had outgrown marbles and were still being twitted. At seventeen we punched a mean typewriter, but only an undersized opponent who commonly weighed more than we did. Not even our new-found prowess at gin rummy abated the enemy. The twitting continued.

continued.

Today, thin and baldish, we are calling a halt. The worm hereby announces its turning. Our colours will be borne once more as our ancestors bore them, at every playing field on the Varsity campus. We propose to take up refereeing; nor will all your prayers and entreaties prevail upon us to reconsider. The experts have monopolized the field long enough. A new era in justice is at hand on the playing fields of Toronto. It is too late to turn back. We have already invested in our whistle.

We do not presume (let the tyros take heart)—we shall not presume to adjudicate at the very outset in sports above our powers. We shall start with the simpler types of contest, such as rugby. For refereeing at rugby we fulfill amply every requirement of the Compleat Official, to-wit:

Looking well in white	43%
Control over whistle	11%
Knowledge of what goes on	2%
Talent for squelching the presumptious	- /0
at a glance	31%
Trick of looking wise while thumbing the	/-
	120%

at a glance ... 31%
Trick of looking wise while thumbing the rule book (held upside down) ... 13%
Deficiency in this latter caregory has been the unmaking of many an otherwise promising referce. We recall with special gusto the plight of a conferce of ours who drifted into the umpire's chair at a play-off in three-handed gin runnny (a sport whereon, by the way we are uniquely qualified to pontificate). Now the primary responsibility of the adjudicator at such a context is to keep a weather eye out for kicks under the table. These kicks not only provide a mean outlet for wrath directed against one's opponent, but (properly codified) may be a subtle avenue of communication with one's partner. They are at all turnes unsportsmanike. But there is a loophle. They are not specifically condemned in the rule book.

Now Charlie, our conferce, caught sight of a wicked fusillade of kicks being administered to the ankles of one partner by the educated too of the other. He cried out. He pontificated. He jumped up and down. It was vain. He was challenged to produce the antikke rule, and no such rule book at about the middle and after dustively denounced the offence as clear infringement of the rule awarding the one side a bazooka major in the event of proven mascara-flutryg indugled in by the other. Charlie had no such art. He was found in the morning, quiet blue (understandably), suspended from the chandleir by a garter.

But as for us, we prepare for the charge. We dust our white flammels and make ready our pocketobok. Justice at last is open to the wealthly. McCutcheon, here we come!

The Sportsworman

By Betsy Mosbaugh**

A NEW SETUP ...

According to the latest student poll, the average reader considers that this column has been a more-or-less "showed -in-the-corner" affair. So we have decided to remedy this by heralding in a new setup to day and what with all our troubles of getting the do.k. of the Editor, the managing editor, the linotype man and various other chiefs it is to be hoped that no fan of the Sportswoma

REVIVAL . .

Today also heralds in news of the rebirth of baseball in U.C. and (it's to be hoped) in the other colleges. Marie Lustig managed to get ten damsels out to the first practice behind Trinity yesterday. Perhaps it was the fact that there were three airforce subs or just the natural exuberence of youth but the team was flying high. Practices have definitely been arranged for Mondays and Wednesdays at 4:30 at the same place. Enough material for two teams would be welcomed so anybody who can even swing a bat is urged to turn out. The lineup consisted of Peggy Graeb, Eleanor Sinclair, Fran Rider, Heather Davidson, Barb Jenkins, K. Creuss, Helen Devereaux, Shirley Williams and Betty Purdue.

ACTION ...

Ruth Margeson says that U.C. tennis starts off today at the Vic courts. At 3:30 R. Clarkson plays M. Mullgian; Marie Lustig vs. Shirley Griffith; Clare Carew vs. Judy Scott. At 4:00 Monica Oldham plays Joan Snyder; Betsy Mosbaugh vs. Phyllis Manby. At 4:30 Ruth Margeson vs. E. Sinclair and Jean Robinson vs. Ruth Parkinson. For this first flight, the contestants will supply their own tennis balls and bring along their own referees if so desired. The best of three sets will decide the issue.

PEMBER SALONS

129 Yonge St. - EL. 2388-9 272 Yonge St. - WA. 9507

The Trinity Review board has again as it does practice to the writer. Its done what seems to us to be the incredible, although it is called for in their publishing schedule; they have published a summer number, and one that is a credit to the best traditions of The Review. The summer number of The Review. The summer number is not bulging with exceptionally good things, but the quality of all the creative contents is good and extremely even. A good half of the issue is taken up by Convocation Notes, examination results, and active service and prize lists since the Review is not merely an undergraduate that also an alumni publication. The creative part, the responsibility of the undergraduate Review Board, however, is full of promise for the coming year.

The issue leads off with an Editorial on the part played, or not played, by Toronto toward service men and women in our midst on those long week-ends. Under the title "Let's Not Sit this One Out," the editor deals clearly with all aspects of a problem which is a minor disgrace to the town which lets it continue.

Summer Number

C. Wite, B.D., D.D., F.R.S.C., as Director, President Cody announced recently. For nearly forty years Bishop White lived in China.

Military Training

REGULATIONS OF THE BOARD OF GOVERNORS RESPECTING MILITARY TRAINING FOR THE SESSION 1943-44

1. As National Selective Service grants postponement of Military Service to students of the University only on condition that they undergo compulsory military training while at the University, of a standard recognized by the Department of National Defence, all male students, both undergraduate and graduate, except as noted in Section 2 below, whether or not they are British subjects, will be required to take training in the University Naval Training Division, or in the Canadian Officers Training Corps, or in the University Air Training Corps.

2. The undermentioned categories of students will not be required to take military training in the University:

- (a) Students who are on active service.
- (b) Students who are receiving training outside the University as members of Reserve Units of the Canadian Navy, Army
- (c) Students enrolled in the Fourth, Fifth and Sixth Years of the Faculty of Medicine.
- (d) Students who are certified by the University Health Service to be medically unfit for military training.
- All students who are required to take military training in the University will register not later than 12 noon on Saturday, October 2nd, 1943, with the University Naval Training Division, or with the First or Second Battalion, Canadian Officers Training Corps, or with the University Air Training Corps, according to directions to be published in The Varsity.
- 4. Students who claim exemption from military training under Section 2(b) will apply for this exemption at the office of the University Registrar not later than October 9th, 1943.
- 5. Any student who is required to take military training under Section 1 above, and who fails to comply fully with the regulations respecting such training, may be ordered, on the recommendation of the Court of Discipline, to withdraw from the University.

hither and yon

with harriet leigh-mallory

The other day we encountered somephilicity much interest has been aroused thing distinctly new in initiation fearmong co-eds on the eampus and three tures. We were riding aloug in a street such were gazing rapturously in the window at all sorts of emotion-provok-day's lectures, when two fantastically ling gals attired in all sorts of unmenbegarbed dental freshettes got on. We tionables. And oue of the three is exwere busy surveying them when sud-chiming proudly, "Oh Mable, he is the denly the car started, and equally one who took my picture," and then alsuddenly the said freshettes began dishing out toathpicks with the compliments of the faculty!

And now before we wind up this

ing out toothpieks with the compliments of the faculty!

* * *

Last week while we were whilling away a few hours working at the well-known campus book supply and general academic fitter outer store, the mad rush and confusion suddenly hit us — the whole University was frantically deciding to get to work. They all wanted supplies, books, paper, pencils, books, refills, rulers, books, blotters, inderasers, when along about five in comes a coy young freshette. She wants an OFFICIAL GEOGRAPHY REFILL AND FOLDER. We summon up all the remaining strength we have (we are practically collapsing) and search for the last one of its kind, having sold them furiously all day in ones, twos, threes, and anything up to tens. So our coy young freshette hums and haws and wonders if her roommate got one threes, and anything up to tens. So our coy young freshette hums and haws and wonders if her roommate got one for her. All this time you are chang ing your weight from one tired, ache-ing foot to the other and wondering when the h--- she will leave and you can go home to sleep, when finally, after pondering the matter for some time, a flash of light strikes her, and with that air of having solved the predicament, she ventures, "Did you see a girl come in and buy TWO?"!!

At one point early last summer in Washington, new life was given to the allegedly stronger sex when the announcement was made that cuffless pants were out for the duration. However after much exaltation and rejoicing, it was discovered that although cuffs had been restored, the pants were to remain the same regulation length even if half

THE UNIVERSITY OF TORONTO, WEDNESDAY, OCTOBER 6, 1943

Saskatchewan President Returns

Saskatoon, Sask., Oct. 5—(CUP)—
Dr. J. S. Thomson, president of the University of Saskatchewan, who has been acting in the eapacity of general manager of the C.B.C. for the past year, has returned to the University and today resumes his post. Last year while students were away in the harvest fields President Thomson left the University to take command of the C.B.C.

He was also appointed Chancellors Lecturer at Queen's University and leteured on "Revelation and Mysticism."

Rev. Edward T. Lute, Vic. 3T8, has returned to the University of Toronto this year as Associate General Secteraty of the Toronto S.C.M.

material with a view to the preparation of a series of studies of different phases of the development of New Brunswick.

The work of the present year will have special reference to the history of New Brunswick's educational system. It is hoped that a body of information about the development of the province will be built up to provide information for post-war reconstruction in New Brunswick.

The grant also provides for research assistants who will be post-graduate students.

Last Year's Suppression of Daily After Special Com-merce Issue Results in Representation

THREE STUDENT REPS.

Montreal, Oct. 5-(CUP)-Admission of students to bodies of the Senate of McGill University for the first time was announced in an editorial in the McGill Daily here yesterday.

An outgrowth of the overlapping of disciplinary jurisdiction revealed in the assuperasion of The McGill Daily fol-lowing last year's special Commerce Issue, the move was made on the recommendation of the Committee on Morals and Discipline.

Under the recommendation the President of the Students' Society will be appointed to the Committee on Morals and Discipline and the Military and Mil Executive Military Committees. In addition one undergraduate will be elected by the Students' Executive Council to each of the first two committees.

NEWSFRONTS

London-The R.A.F. and the R.C. A.F. bombed Frankfurt for the second time in 12 hours last night while R.A.F. planes also raided five other Nazi in dustrial centres. Preceding the attacks, Frankfurt was subjected to precision bombing by American heavy bombers.

Algiers-Both the 5th and 8th armies continued to push ahead despite the fact that German resistance in Italy in-creased. The Nazi counter-attack beyond the spur of the Italian boot was

thrown back with considerable losses.

London — Field Marshall Jan C. Smuts arrived in Britain yesterday to prepare the group for an Empire conference of Dominion premiers which

On Discipline

In an effort to bring about more harmonious relations between the University authorities and the Students Executive Council in disciplinary matters the Senate of McGill University has approved the

jurisdiction, the recently accepted recommendations contributions it may use. of the Committee on Morals and Discipline do little to clarify the situation. The presence of students on a Senate subsidiary body is a revolutionary move of the type generally resisted by Canadian University governing bodies. It should result in a much closer liaison than was to be found between the Senate and the student government in the lamentable affair of the Commerce Issue of the McGill Daily last year. Information we have at hand does not indicate whether or not the few students elected to the Senate bodies will have votes in the making of decisions on discipline.

The section of the recommendations dealing with actual jurisdiction of the two bodies does little to clarify the situation. It must, however, be a welcome sign to McGill students that the difficulties of last term are buried in the general desire for better understanding in the future.

Our own campus has generally been a far more happy land in respect to discipline than was McGill's late last winter. There have been occasions on which disciplinary action was necessary, but local usage on these occasions has been such that it was virtually impossible for friction to arise over disciplinary

The basic attitude of the University regarding discipline here is considerably more enlightened than that generally found elsewhere. The student is expected to behave himself as a normal state of affairs.

No such thing as "Caution Money" is required of him. If the student commits an offense, or is involved with a group committing an offense he must pay for damage inflicted either out of his own pocket, if he acts as an individual, or out of his student society funds if he is involved with a group. No bond is required of him to keep the peace any more than it is in outside civil life.

the University Act the disciplinary powers of the University are vested in the Caput alone, but in practice the policy is to have ordinary discipline administered by the college or faculty concerned, with the Caput instituting action only when the University as a whole is concerned. In the faculties the student societies are expected to take their own disciplinary action, submitting their recommendations to the authorities. Only when appropriate action is not taken by the student societies within a reasonable time do the faculty authorities step in. In the University field, too, it has become the custom for the Students' Administrative Council to take action. Such is the jealous zeal with which the student governments guard the privilege of handling their own disciplinary problems that it has seldom been necessary to ask them to act.

To The Editor

campus. You are a part of the campus, therefore you

should not be reluctant to make use of it to voice any ideas of yours of sufficient general interest to warrant inclusion in a newspaper.

In a commencement address at Earlham College, Richmond, Indiana last June Dr. Carl Ackerman, Dean of the Graduate School of Journalism of Columbia University, said:

"If every citizen would regard his daily or weekly news-paper as a medium for the expression of his opinion, civilian public opinion could be mobilized and it could be focused on those officials who do not seem to comprehend that in war

those officials who do not seem to comprehend that in war as in peace the people are supreme.

"Many readers of daily newspapers are not aware of the potency of letters to the editor. Whether published or not, these communications constitute the reader's share in the freedom of press. Newspapers exist not only to print news, editorials and advertisements but also to express and reflect public entirely. public opinion.

These words, applied when they were first spoken to the wartime United States, are equally true in the smaller community which is this University. The title under which we found the address was -and Letters to the Editor. The reading public of The Varsity is not ridden by any oppressive or uncontrolled University bureaucracy, at least outside of fee-paying time, but this does not diminish the vital importance of making intelligent voices heard. Mere grumbling is an unproductive semi-morbid pastime, but forthright, well-mannered discussion is the life of our civilization.

dents' Executive Council to assume as large a measure of responsibility for student discipline as is consonant with the efficient administration and good name of the University."

We are not at all familiar with the intricacies of the McGill administrative setup, and so are ill qualified to comment on the new development. The description of the university and so are ill signatures will be available to publish all of them, but they will be an aid to the conduct of these columns even when not published. If you have any matters which you would like to bring up through this medium do not hesitate to write. Be sure that your letters are legible, temperate, and signed. The Varsity cannot print anonymous letters, although that cannot are the content of the university."

We are not at all familiar with the intricacies of the McGill administrative setup, and so are ill signatures will be available to comment on the new development. qualified to comment on the new developments on so are given. The only other condition of which we that campus. It appears to us as an outsider that, would give warning here is that The Varsity must like many another attempt to define boundaries of reserve the right to edit, by deletion only, any such

Victoria College

The question asked in the Victoria College song: "For has she not stood Since the time of the flood On the old Ontario strand?"

may be answered quickly in the negative, for Vic moved from that strand where she was established at Cobourg in 1836 to her present corner of the University of Toronto campus in 1892. Neverthe-University of Toronto campus in 1892. Nevertheless Victorians are always vitally conscious of the institutions, comparative antiquty and its large body institutions, comparative antiquty and its large body of peculiar traditions are revered and defended at all peculiar traditions are revered and defended at all mes.

The College is noted for its physical isolation and some in it as soon as they leave mes.

Asked when he discovered his technique, he replied, "When I was an times

Interconege is noted for its physical isolation and nique, he replied, "When I was an its extremely active extra-curricular life. For a undergraduate in Mechanical Enigneer-large college—it approaches University College in ing." J. Heartfelt warmed to his subject enrolment—it has a singularly unified college spirit, and his eyes gleamed like the buttons A large portion of the credit for this may be laid to on a CO-TC. uniform (yuk. yuk. yuk). "Mechanical Engineering was most contists student government, the Victoria College Union, the property of the college of the coll A large portion of the credit for this may be take of the student government, the Victoria College Union, fusing to me. All those books were which is one of the most fully developed on the campus.

"Mechanical Engineering was most continued to the fusing to me. All those books were tribly vague and self-contradictory and everything. And that side-ruled campus."

Victoria men are by inclination and tradition con-troversialists. Interest in the problems of University Federation is keen among the members of the college staff who recall that Victoria was the original protagonist of the cause of free education in the early days of government domination of King's College, and the first college to make Federation a fact by

joining the Provincial Arts College on this campus. Formerly referred to as "hick" college, Victoria has usually found a large part of its enrolment in the smaller centres, and has developed the largest residence accommodation of any college on this campus. This, too, is a tendency drawn from the past when the influence of the Methodist founders was strongest away from the more heavily populated districts. Victoria feels that the University material to be found in rural districts is frequently allowed to be found in rural districts is frequently allowed to go to waste because of financial difficulties. To help go to waste because of financial difficulties. To help the districts was strongest away from the more than the question and set out to find the answer. What could be more confusing than a slide rule? I dedicated my life to the search. Very unremunerative it to the search vale rule? I dedicated my life to the search vale rule prevent this the college offers a large number of bursaries to students in residence who are willing to

For those who are interested, and I trust there are a few, here are some hints as to the various resources the campus provides for enjoyment of the arts.

In Hart House, apart from the excellent displays The Undergraduate Newspaper is the voice of the ampus. You are a part of the campus, therefore you (Continued on page 3)

Not-So-Basic English

Late yesterday afternoon, President Cody announced to the Toronto press that J. Hearticlt 'Sludge, demonstrator in Honour Hairdressin II, would, some-time next month, receive the degree of B.Paed. for his discovery of and research in an entirely new and revolutionary language technique.

The announcement, coming close on

the heels of Prime Minister Winston Churchill's support of Basic English at Harvard, left critics and English pro-fessors rocking on their heels. President Conant, of Harvard University, practically speechless and highly indig-nant. Said Conant: "Whoever heard of

"It's all just a bunch of nonsense if you ask me. I don't see why everybody wants to change something that's been kicking around longer than they have. I've had amazing success with just plain ordinary every-day English. The other day I every-day English. The other day I went in to Mac's (free plug) and said I wanted a cup of coffee. The waitress brought me a cup of dark greenish brown fluid that was steaming hot. You see? That description fits the word coffee almost precisely."

The Varsity contacted Sludge in his rooms in the basement of a large Bloor Street hotel. Sludge was practising upswept hair-dos on a discarded floor-mop when our reporter arrived and be left his

when our reporter arrived and he left his work to explain his new technique in detail for The Varsity.

It was enough to drive me slug nutty four times a day. Then one day I gave up. Yessir, I just plumb gave up in disgust. I went into Hart House in disgust. I went into Hart House library and said to myself, What could be more confusing than studying Mech Eng HI?' It was purely a rhetorical question, mind you, and I didn't expect an answer; but then I got interested in the question and set out to find the answer. What could be more confusing than a slide and at Law 100 per law 100 p the biggest dictionary and rushed to my rooms with it. I took my typewriter out of the window where it was used to out of the Window where it was used to prop up the window and set to work. And this is the idea behind Not-So-Basic English. I took the first word in the dictionary right out and left the meaning there. I took that first word and moved it to the end of the dictionary and gave it the receiving the properties. and moved it to me end or me dictionary and gave it the meaning of the very last word in the dictionary and then moved all the words up one space, leaving the meanings of the word as they were. See? Isn't it simple? It's not so basic, the word was the surface of the word so the word as they were. is it? Now, I'll give you a few simple demonstrations of it."

J. Heartfelt skittered over to his filing cabinet and clawed out some scraps of paper.

"See? Here's Hamlet making with that "To be or not to be' business." J. (Continued on page 3)

visiting time is Sunday afternoon when visiting time is Sunday arternoon when the gregarious instinct is gratified and fine art may be enjoyed to the ac-companiment of broadcast symphonic music and the splashing of a Florentine fountain. The gallery committee have lined up an intriguing program of lec-tures and demonstrations for this season, and a glance at their prospectus may bring you many a relaxing and re-cuperative hour. You may learn some-

Perhaps you didn't know there was a Record Club in existence. Its programs are usually posted in the Music Library are usually posed in the acutes Library on College near St. George, and excellent they are, from past remembrance. There is also a splendid collection available to student groups in the Record Room at the Toronto Conservatory, at a nominal fee.

Soldier Students' Squad In-cludes Several Who Played on Faculty Teams in Last Fall's Schedule

NINE TEAMS IN LEAGUE

In a statement last night at the In a statement last night at the conclusion of a meeting of the Athletic Directorate of the University of Toronto, Mr. T. A. Reed said that the Directorate has recommended that No. 2 Army Course be allowed to enter a rugby team in the present intramural league. After a lengthy disrussion of this and other subjects behind closed doors, the Directorate, which has full control over all athletics of the University, announced their approval of versity, announced their approval of the Army Course application which has been the subject of considerable campus

discussion during the last few days.

This move will, if the rugby setup remains the same as last year, mean that there will be a total of nine teams in the intramural league. It is impossible the intramural league. It is impossible to state now the group in which the Army Course will play. Such questions will be answered at the Rugby Standing Committee meeting on Friday.

Bill Neil, ex-Victoria student now enrolled in the Army Course, who has been chief drum-beater for the inclusion of his new faculty in the Mutch Course.

been chief drum-beater for the Mulock Cup of his new faculty in the Mulock Cup of his new faculty in the Mulock Cup of his made it clear that the or his new tacuity in the Mulock Cup struggle, has made it clear that the military boys will put up a first rate showing in intramural competition. In fact, the Army Course is already well ahead of the other faculties in preseason conditioning, having held prac-tices all through September.

In addition there are a number of last year's University students now in

the Course who played rugby here last fail. These boys plus a dozen or so of those burly soldiers might even go so far as to take that Mulock Cup to a new resting place.

Another motion passed by Directorate yesterday concerns students in residence at St. Michael's. Under in residence at St. Michael's. Unuca-eligibility regulation, the rule which permits students in residence at Knox, Wycliffe, Emmanuel, or Trinity Col-leges, who are proceedings to a degree in another college or farulty, to parti-cipate in intramural athleties for the college in which they are residents, has been extended to include students resid-

GOLF ENTRIES CLOSE TODAY AT 5.00 p.m.

REFEREES WANTED!

Referees are urgently wanted for Rugby, Soccer, Lacrosse, Volleyball and Swimming. Apply at Athletic Office, Hart House. Inquire also regarding fees paid.

ARMY COURSE RUGBY

ARMY COURSE RUGBY . . . Great news for the athletically inclined of No. 2 Army Course last night when Mr. T. S. Reed announced that their rugby team will be allowed to enter the interfaculty loop. Given an even break now by their time-table the soldier-students should supply a good deal of first class football for the general enjoyment of their competitors, the sportswriters, the athletic officials, and the few as yet unidentified spectators.

The application of the Army Course could hardly have been refused in the light of their position. After all they are attending our University and they are on active service with the Canadian Army. To refuse them entry would have been both unpatriotic and unsports-

manlike.

Those enrolled in the Army Course at McGill have been asked to report for the University team which is entered in the Q.R.F.U. American Universities are prevented by Army regulations from recruiting rugby material from the ranks of military trainces enrolled at the various colleges but a recent ruling allows Naval and Marine Corps men to take an active part in formal college football.

BRIGHT AND EARLY...

By the time that the majority of students get their copy of this paper the long, long intramural race for the T. A. Reed Trophy will have begun. For this morning at nine the tennis tournament gets under its racqueting way with the start of the singles competition. The first round will continue through the day till six and will conclude tomorrow morning.

tion. The first round will continue through the day the six and will conclude tomorrow morning.

And so we offer the traditional posies to the over-worked Athletic office staff who have done a great deal of work in order to hold the tourney such a short time after the opening of school.

tourney such a short time after the opening of school.

REFEREE SHORTAGE...

The Athletic Office plea for student diplomats to officiate at intramural contests is as yet unsatisfactorily answered. Perhaps I should have emphasized and underlined the information that a goodly handful of the precious green is forthcoming each and every time the student referee dons his official garb, if any. At any rate the Athletic Office people are in a bad way or sad way with respect to their supply of sports officials. Before the fall team sports begin, and that date is the thirteenth of this month, there must be accumulated a goodly number of embryo referees, be they ever so inexperienced, or else!

of embryo referees, be they ever so inexperienced, or else!

EDUCATION MOVEMENT...

There is in the Athletic Office a number of booklets containing the intramural rules and regulations and quite suitably entitled "Intramural Rules and Regulations" which is available for the use of all team managers of the various faculties and intramural committee members. The rules and regulations are reprinted from the Athletic Hand Book but, unlike that publication, it is printed on stiff paper which will stand up better to the great wear which it is expected to get in managerial hands. It is pocket-size and ideal for reference on the field when in doubt about official regulations. Team managers and committee members may pick up their copy in the Athletic Office.

The Sportswoman

By Betsy Mosbaugh

ASIDE FROM GIN RUMMY

ASIDE FROM GIN RUMMY...

It was with a sigh of regret that the sports department laid down its last hand of gin rummy in the comparative quiet of the sports department (?) and prepared for the usual hum of activity that settles down around the second week of University. The silence of our room was shattered by the crash of a coke bottle as we took a few practice swings with our tennis racquet; various people got the point as we tried out our spurs in anticipation of the inauguration of a University riding club; and news of the oncoming golf tourney brought us out to dig divots in the dignified back quad.

ONLY TH' BEGINNIN'I

U.C. tennis tournaments got off to a smart start yesterday on the U.C. tennis tournaments got off to a smart start yesterday on the Vic courts when three two straight matches were played. Clare Carew took July Scott, 6-1, 6-3; Mary Clarkson defeated Mary Mulligan 6-3, 6-1; and Ruth Margeson battled out win over Eleanor Sinclair 7-5, 6-2. Trinity is having difficulty over the male element! The men's tourney is being run off on St. Hilda's courts, which confliction looks like it's going to bring up the problems of squatters rights and such concomitant factors. Today's schedule for U.C. includes Jean Robinson vs. Ruth Parkinson at 4:30 and Ruth Margeson vs. Gladys Bauen at 4:30 also.

SWING AND SWAY...

SWING AND SWAY . .

SWING AND SWAY...

But its not with Sammy Kay... but with the good old driver or spoon or mashie. St. Andrews is the course and the thirteenth is the day. Sylvia Cadesky says that the plan for a differently run tournament went through o.k. The different colleges and faculties will each play their elimination rounds on that day. Then on the fitteenth the winners of the low gross of each college tournament will play for the coveted cup. There will be four prizes given on the thirteenth for the low gross and low net and two others. This idea of low gross excludes the previous method of a handicap. It seems to be a fairer way, all in all, and does away with the possibility of choosing a nice high handicap for yourself. Mary Barrie of the School of Nursing is again the favorite with Peggy Carrick of U.C. and Mary Jane Fisher of St. Mike's running her a close second. The green fees have been reduced to fifty cents, which somebody remarked was chicken feed (a paultry sum). Whereupon we ended all golf talk. servatory, at a nominal fee.

Later in the season, you will have a chance to attend a series of organ as possible and dashed back to the treditals at Convocation Hall. Undergraduates are granted reduced rates to concerts by the Toronto Symphony Orchestra; there are many musical events of high calibre at the Conservatory for your enjoyment. This list could be prolonged indefinitely. But why bother?

Suffice it to say that anyone who likes these things can find time for them in the rush of campus life, by trial and error knows what is best and where to find it.

B.B.

The Varsity reporter bowed out of Sludge's rooms carefully and gracefully and gracefully and gracefully and gracefully and previous method of a handicap. It seems to be a fairer way, all in all, and does away with the possibility of choosing a nice and the Vinnipeg Free Press.

squirrels don't run around on the grass at home as they do here." Agnes was awarded a government scholarship in Domestic Science, but she wanted to take Arts, and it was awarded by revision to Claire Fields, who is at Alma College. "The weather is the thing which is killing me," complained Agnes. In the B.W.I. the temperature is 88 degrees. Agnes bought a complete new wardrobe in Canada: a heavy coat thick woollen dresses and woollen is 88 degrees. Agnes bought a complete new wardrobe in Canada: a heavy coat, thick woollen dresses and woollen underwear! Like the other students from the B.W.I. who have arrived at the University of Toronto, Agnes had planned to go to Great Britain. Since this was impossible because of the war, she made application to the United States, but the rate of exchange was too high and the British Government refused to grant admission. She flew by plane to Miami and spent two bewildering days in New York. "There are so many tall skystrapers with no individuality," commented Agnes, who finds Canadian girls almost on a par with her friends back home. Trinidad girls are very modern. Barbara Swenn, Fine Arts IV, has been in Toronto for eight years now. Agnes and Barbara were friends in Trinidad. Betty Brown, I Meds, is from Jamaica and Vivette Nastiele in sensitiested in Music I Meds, is from Jamaica and Vivette Hendricks is registered in Music.

What's On Today

U.C. PLAYERS..GUILD

All U.C. students are invited to the organization meeting of the Players' Guild, to be held in the Women's Union at 4 p.m. today. Refreshments will be served. Men and women with or without experience, interested in acting, directing, staging, lighting, or make-up act will be expecially welcomed. Am. art will be especially welcomed. An-nouncements will be made regarding casting for immediately forthcoming productions, including the three-act play scheduled for late November.

Athletic Association Celebrates Fiftieth Anniversary

25/12/ The Undergraduate Newspaper

THE UNIVERSITY OF TORONTO, THURSDAY, OCTOBER 7, 1943

Faculties Got Together Half A Century Ago To Organize Varsity Sport

Association Encouraged Addition of Gym and Swimming Pool in Hart House and Is CUP President Financed Building of Arena

completes its fiftieth year of activity.
Founded in October, 1839, the Directorate was made up of 25 undergraduates. At this time there were only 700 Arts students, 300 Medical men and 100 in S.P.S., The first Directorate had full charge of the gymnasium, the general supervision of athletics in the University, the control of the playing fields and were empowered to make rules for their management. Upon the monimation of the Directorate, Sgt. Inspector A. Williams was appointed Athletic Instructor, a position which he held for 30 years.

In 1894 the first Interfaculty Rugby

he held for 30 years.

In 1894 the first Interfaculty Rugby competition was organized and Chancellor William Mulock (then Vice-Chancellor) presented a cup which is still fought for. At the same time the Arts Boulty presented a cup for the like poet for several years.

still fought for. At the same time the Arts Faculty presented a cup for the accouragement of Association football.

Prior to the foundation of the Athletic Association, various athletic clubs had been in existence. Since each club managed its own affairs somewhat indifferently it was therefore a logical outcome that (with the increased interest in athletics and the larger enrolment) there should be a demand for a responsible controlling body to bind the students closer together and to encourage sport throughout the University. It was for this specific reason the Athletic Association are into being and in 1900 a revised Constitution was drawn up which still stands to this day. This Constitution brought the various clubs under the direct control of the Athletic Association and reduced the membership of the committee of 25 to a throughout Canada. It has formerly been confused and an annual drive them completed with the committee of 25 to a throughout Canada. It has formerly been confused with the control of the Athletic Association and reduced the membership of the committee of 25 to a throughout Canada. It has formerly been confused with the former of the control of the Athletic Association and the state of the various and the post for several years.

Science and Economics course last year, had his appointment to the economics staff of St. Francis Xavier University of confirmed yesterday. He leaves for Antigonish this morning.

Last session Johnson attended Victoria College and was awarded the J. Reginald Adams Gold medal in Political Science and Economics. The previous year he received the second Maurice Cody scholarship. Johnson was one of the founders of the present Political Economy Club, and was for two years a member of the staff of The Varsity. Chairmau of the Staff-Student Con-

President, Dan Cannan;Third Year Representative, to be elected; Second Year Representative, Fran Foley; First Year Representative, Fred O'Brien; Attlletic Representative, Bill Doyle; Western Representative, Henry Mira. This election usually takes place in the spring, but owing to the uncertainty of the times an earlier vote was held.

Second Year Representative, Fred O'Brien; Adulted Royal College of Surgeons at the centenary celebration held this summer. They are Col. J. A. MacFarlane, consulting surgeon in the Canadian army, and formerly senior demonstrator in surgery, and Dr. N. S. Shenstone, Assistant Professor in surgery.

surgery, and Dr. N. S. Shenstone, Assistant Professor in surgery.
Dr. MacFarlane, who was present to
receive his award, was born at Nokomis,
Sask, and received his arts degree at
the University of Saskatchewan. He
later attended the University of To-Cairo—British and Italian defenders of the island of Kos in the Dodecances held out against Germans preparatory to attack on Rhodes.

Algiers—5th army advanced eight miles to capture Aversa and Maddoloni. 8th army continued drive westward from Termoli.

Moscow—Soviet offensive halted at Dnieper to prepare communications and bases for winter pusb.

The Pigpen

This was the first gym, thrown together in 1866, and hung together, despite the pounding of Varsity athletes, for a decade. It stood about in the middle of what is now the back compus, which was then the University truck garden. The least of the end is the peu where the University Steward kept his pigs. The building in the background stood where the women's Health Service building, 44 Hoskin Ave., is now.

Tom Nixon

The Varsity extends its deepest sympathy to the family of Tom Nixon, last year's president of the Victoria College Union, whose passing as the result of an R.C.A.F. training accident has just been announced. The only consolation we can offer them is the confident assurance that their loss is shared personally by all who knew Tom. That includes such as soap (advt.), towels, and lost keys. personally by all who knew Tom. That includes all who were on this campus last year.

Not all of us knew Tom personally, but there was no part of the campus where his name and abilities were unknown. He was an outstanding athlete, a fine student and one of the ablest undergraduate executives this campus has ever produced. The pattern of his college life is that of the kind of men

the University tries at all times to produce.

Completing his studies, despite the war, Tom was in Uniform before graduation, a visible proof to the critics of his University that it was not meant as a haven for slackers. The country which he was training to serve may never appreciate what it has lost in this accident, but all his friends will support us when we say that it is quite impossible to begin to express it here.

Those of you who did not know Tom, in losing the opportunity to meet him, have suffered a greater loss than his friends.

Team!

In pre-war years the annual Blue Issue of The Varsity heralded the feature game of the current Intercollegiate rugby season. BEAT QUEEN'S or BEAT WESTERN splashed in Varsity Blue across

This issue however marks the Fiftieth Anniversary of the University of Toronto Athletic Association entire student body that the Athletic Association may resume its normal peace-time work in the very near

It was the custom in each blue rugby issue to publish editorially the names and merits of each of the Varsity players, and so we publish here the names Literature Course, while at the same time of the players on a rather neglected team, the staff of the Athletic Association.

HON. H. J. CODY, honorary president of the

Athletic Directorate, which body has full authority over student athletic activities. A graduate of '89, who attended University College, he keeps the old

college spirit alive in his team and its supporters.

DR. W. A. DAFOE and PROF. S. BEATTY, faculty members appointed by the president to the the Dean of the Faculty of Arts

DR. J. A. McCOLLUM and Dr. W. E. BROWN, representatives from the Advisory Board of the Association. Both are old boys in the strict sense of the word and lifetime members of the Athletic

R. J. DELANEY, W. G. HENRY, H. A. Mac-MILLAN, G. H. MUNRO, and W. S. RAWLIN-SON, student members elected by the undergraduates to the Athletic Directorate. These boys are the official students' representatives in the Athletic Parliament. Glen Munro however is on active service and cannot attend the Directorate meetings.

WARREN STEVENS, athletic director and Claims A.C. Neglected captain of the team, pillar of strength extraordinary in the Athletic Wing of Hart House, and the delight of uninspired sportswriters.

head of the University Health Service, who is responsible for the wonderfully speedy system of head of the University Health Service, who is responsible for the wonderfully speedy system of giving medical examinations to the undergraduates this year.

T. A. REED, secretary-treasurer, or more officially, the financial secretary of the Directorate. Mr., Reed, in addition to keeping the financial condition

Reed, in addition to keeping the financial condition of the Association on the credit side, is unofficial historian of the University.

C. ZWYGARD, gymnasium instructors who need no introduction to the suffering physical trainee. Mac introduction to the suffering physical cannot structure. Stevens anyway.

McCutcheon is also the director of intramural sports.

Cuse if you ask me."

"Does the Athletic Association have a ring football?"

In aquatics and to volunteer instructors.

straight the many things connected with Varsity easy. Shackwarmer continued. And athletics which need keeping straight.

G. R. WORKMAN, manager of Varsity Arena, who is due for his annual crop of headaches in January when the interfaculty hockey loop gets into action.

A.A.—that's unlucky. We've got a right to be in this issue.

When asked what his future plans

This is the team. To its members we extend congratulations on the great work which they are doing in these difficult times. To the Athletic Association and to the people who run it we dedicate this Blue Issue, the highest honour which The Varsity can bestow.

Hail To The Chief

Our more observant readers will note that The Varsity masthead has stopped "acting" and appears today for the first time with a complete line-up of 15 editors. The Students' Administrative Council's Here's a BEAT WESTERN splashed in Varsity Blue across the front page of the paper became the watchword, by which the undergraduate body lived. But since the suspension of intercollegiate sport the Blue Issue has survived to reappear on such occasions as Mulock Cup rugby finals and annual student skiing success of it. Not that The Varsity wishes to Variety and sports and sport and sp Cup rugby finals and annual student skiing success of it. Not that The Varsity wishes to applaud its own efforts, and that so early in the year, but we of the staff, knowing the chaos which faces any new editor sympathized with Rex's late start, May we of The Varsity offer our sincere best wishes prayed over the first few issues with him and breathed on this occasion and add our hopes to those of the a deep sigh of relief when our favorite paper appeared each day with no serious sins on its brand new face.

> He spent four year at Victoria College, getting Second Class honours in the English Language and steadily through the various positions on The Varsity

confirmed his then tentative masthead, with the result that they now appear, in all the glory of printer's ink, in the upper left hand corner of the editorial page. that they now appear, in all the glory of printer's on his eyes, in true Nazi style. Now he's in the hospital and it's doubtful if he'll see again. faculty members appointed by the president to the Athletic Directorate, the former a one-time lacrosses We speak for all of them in congratulating the player and coach on intercollegiate teams, the latter Editor-in-Chief upon his appointment and thanking him for ours.

Varsity Sportsed Resigns

With muttered words of, "I resign," the Antherts Winds Flat Tokes, and the design of the University Health Service, who is campus in a huff last night. He is ex-

eed, in addition to keeping the financial condition the Association on the credit side, is unofficial storian of the University.

Storian of the University.

W. H. MARTIN, J. E. McCUTCHEON, and W. H. MARTIN, J. E. McCUTCHEON, and this through and ignore The Varsity A.C. he has another think coming, if he's strong enough. Who is this good troduction to the suffering physical trainee. Mac (Eutlehoen is also the director of intramural sports.

who is seldom found very far away from his station just inside the door of the Hart House pool.

W. RIMMER, supervisor of the locker room in Hart House. Mr. Rimmer also deals in sundries such as soap (advt.), towels, and lost keys.

M. G. GRIFFITHS, assistant physical education director, who gives a great deal of instruction in control of the time." "Stout fellows, those," the A.M.&D. editor interjected, those, "the A.M.&D. editor interjected, those," the A.M.&D. editor interjected, so the subject of the time."

were Shackwarmer said he would join the army. "But you ain't fit," objected the first year Meds reporter—he'd been

"Well, then, sniffled the tearful Shack-warmer, "I'll be miffed in mufti!" -MUCHAPPLES.

Correspondence

Here's a story of fair play and sports-

Hershcovitz. Does it matter that he

This happened a couple of months ago in Montreal. On a Saturday night, prayed over the first few issues with him and breathed a deep sigh of relief when our favorite paper appeared each day with no serious sins on its brand new face.

We feel confident that the S.A.C. choice has been a wise one. Rex is a graduate of the University 4T3.

He spent four year at Victoria College getting entires and the second armen. These too were Jewish. The fight started when the hoodiums attacked the young airmen in the dance half at Plabe Laval. The airmen were getting making a good show of it but were ge and taking a licking—and who wouldn't rising against such odds.

Literature Course, while at the same time rising steadily through the various positions on The Varsity staff and masthead. He is a well-seasoned journalist and a man familiar with the campus scene.

With the appointment of Wilson, the Council also confirmed his then tentative masthead, with the result will sicken you. When Hershcovitz was down, the hoodlums used their heels that they now appear in all the glory of printer's

But what of the hoodlums and their fine sporting ring leader? He was finally caught and brought to trial. He first pleaded guilty but later changed (Continued on page 4)

First Round Of Singles Provides Excellent Play

Only One Default in Twenty-Four Matches of First Day's Play; Eight Winners from To Start Friday University College

SINGLES CONTINUE TODAY

The interfaculty tennis tournament get off to a good start yesterday with only one default out of 24 scheduled matches.

Three of the four seeded players were in action and all survived the first twee in action and all survived the first cound with ease. Bern McGraw, U.C. round with ease. Bern McGraw, U.C. The seeded players were the action and all study and the first the course between 9.30 and 12:30.

There are available starting times round with ease. Bern McGraw, U.C., seeded number two, had little difficulty disposing of Brown, also of U.C., 6-40, 6-3. Syd Moses of School, number three man, turned back B. R. Alian 6-3, 6-4 in a spirited match, while Owen Gray of Meds breezed through Gillet of Trinity, 6-1, 6-0. While it is too early to pick out any dark horses in the tournament, a couple of unseeded players stood out in yesterday's matches. A U.C.! freshman, A. G. Young, showed very promising form in his contest; while Val Stock of

dark horses in the tournament, a couple of unseeded players stood out in yesterday's matches. A U.C.| freshman, A. G. Young, showed very promising form in his contest; while Val Stock of School also showed to good advantage. A notable feature of yesterday's play was that all but one of the matches were talken in straight sets. This sole expention, was a close contest between

exception was a close contest between Hendra and Stokes, both of U.C., in which Hendra finally triumphed 6-2, 6-7, 6-1.

which Hendra infault triumphed 6-4, 6-1, 6-1,
Here are the singles results so far:
Hickman (Trin.) over Yolles (U.C.)
6-2, 6-4; Wilmot (S.P.S.) over Scott,
A. (Trin.) 6-0, 6-2; Moses N.

Dominion Champions

In 1905 these men, captained by Casey Baldwin (holding the ball), beat the Ottowa Roughriders to take the Dominion Rugby Championship.

By Phil Shackleton

BIRTHDAY, BUT NO CAKE . . .

Fifty years old today is the Athletic Association whereupon you might think that some sort of celebration should be forthcoming. Perhaps the Athletic Directorate should have a huge frosted cake Perhaps the Athletic Directorate should have a huge frosted cake supporting fifty beautiful candles. But, sugar is rationed and I shouldn't like to offer the revered body a cake with this crastz icing used nowadays. And what is cake without a thick crusted layer of chocolate frosting which threatens to flow lava-like over the edge of the cake? In addition, egg prices are high. But what is more important, paraffin for the manufacture of candles is becoming scarce under the demands of war. And a birthday cake without candles is out of the question. out of the question.

But the Athletic officials should be in training now that the fall sport season is here and in that case they couldn't enjoy the cake anyway.

THEY'RE OFF . . .

Very appropriately timed, the news of the opening intramural competition in tennis this year coincides with the anniversary of the first meeting of the Athletic Directorate. And so we have a blue issue in which to report the first news of active sport this season. Of course all the credit goes to the good people of the Athletic Office with Mac McCutcheon out in front with huge lists of intramural schedules and eligibility lists in his capable hands.

And tomorrow, close on the heels of the tennis tournament, the annual golf tourney tees off at St. Andrew's out on North Yonge Street. The first group of players, I hear, are due to leave the straight and narrow for greater sport in the rough at the early hour of 3:30 a.m. But don't expect to slip an 8:30 lecture in before the tournament. After all the T.T.C. has not yet learned Superman's secret. And don't forget to bring your own golf balls with you. The committee members have none to spare. In fact I heard one member of the golfing committee suggest that players who have an ample supply of golf balls (joke) bring along an extra ball for the said committee member.

STUDENTS ATTENTION

Attendance at Rugby Games at the Stadium

The Athletic Association has made arrangements with the Ontario Rughy Foothall Union for the reservation of the Ontario Rughy Foothall Union for the reservation of the usual Student Section in the Bleachers on the days of ordinary scheduled games (not play-offs). University of Toronto students will be admitted on presentation of Registration Cards with the Athletic Portion attached.

Saturday, October 9th - 2.15 p.m. NAVY vs BALMY BEACH

Monday, October 11th - 1.30 p.m. NAVY vs INDIANS - 1.30 R.C.A.F. vs. OTTAWA - 3.30

POSITIVELY NO ADMISSION WITHOUT REGISTRATION CARD

Penalty for misuse of Registration Card: Cancellation of athletic privileges portion. Students enter by South Door of Arena.

The Sportswoman

(Editor's Note: Today our column is written by Elizabeth Serson whose official title is Assistant News Editor. She has accomplished many things, one of which is reaching fourth year honour English. After making an annual contribution to the Sportswoman for three years it is almost a tradition that she should again honour us with it.)

By Elizabeth Serson

By Elizabeth Serson

Twenty—yes, that's what we said, twenty—basketball teams are entered for competition this year by the various colleges, Jean Barnhart, president of the Basketball Club, reports. Practices are expected to start next Tuesday night, so watch The Varsity for the schedule. This news sounded so good to us that we could not help violating a rule of "good newspaper practice" by dashing head-long into a sentence with a numeral with a numeral.

with a numeral.

A REFLECTION . . .

This indication of what could be mildly called "interest" leads to a remark on the all-dressed-up-and-rarin'-to-go atmosphere now being generated in the feminine sports world round about. U.C. is experiencing a brand new kind of enthusiasm from a bunch of people who don't so much pride themselves as experts as just like to play games for the fun. Yesterday afternoon they turned up at Trinity field to have a swing at the baseball bat. Most of the girls had played softball and other games at high school but have let them slip since coming to University. For a good many of them, now in their senior year, this is in the nature of a last fling. More fun to their fling! No believer in the "life is real, life is earnest" school of tackling such things, we highly approve.

MORE OF THE SAME...

More turned up at the U.C. practice yesterday than before (they had a perfect afternoon for it), but they still haven't got enough for the second team they want. How about some more city girls coming along? Mondays and Wednesdays at 4:30 on the Trinity playing field—you only have to watch a minute when you'll want to be playing

SHORT HISTORY...

Softball disappeared from the campus back about 1938. Before that it used to be a thriving interfaculty sport. U.C. had a crack team on which Dr. Jean Davey, Director of the University Health Service in charge of Women, now with the Women's Division of the

Service in charge of Wolfielt, now with the Wolfielts Dynasin of the R.C.A.F., was a star.

Vic started the revival by getting a team under way this spring. They begin practicing again next week. Gwen Carson, of St. Hilda's, is busy organizing a team there, while P.H.E. is threatenting three teams, no less!

TENNIS DEVELOPMENTS . . .

Yesterday afternoon on the Vic courts the U.C. tennis tournament made progress with Betsy Mosbaugh winning over Phyllis Manhy (6-2, 6-4) and Ruth Parkinson defeating Jean Robinson (6-2, 6-0). Tomorrow's draw will bring Marie Lustig to play Clare Carew at 2:30 and Betsy Mosbaugh against Peggy Garnham at 3:00 tomorrow afternoon at the Vic courts.

FIRDAY, OCTOBER 8, 1943

Thanksgiving

"Thanksgiving" is a traditional editorial subject, worn thin in times of peace when writers racked their for except life and freedom which seemed at all times to be in imminent danger.

Today the job is much easier. On the general war front even the least complacent must now recognize that the great corner has been turned and we are headed towards the one special Thanksgiving Day for which we all yearn, the day of Total Victory.

To a large number of students, however, the cheerful than it has been in the first four years of this war. Facing the probability that their educauntil after the war, and the possibility that if contigencies warranted it they might not be allowed to but strikingly less bright than it has been in the years when they enjoyed a certain amount of privilege in comparison with others of their generation.

thankful for. For instance—the weather. not indulging in artificial means of stimulating chit- near meal time without being invited to stay. chat. The weather is an immediate factor on this campus in the full appreciation of Thanksgiving.

In the fine autumn air we have had recently the campus is at its most beautiful. Appreciate it now: you walk down St. George street to a hateful 8:30 divert your grieved thoughts to the contemplation of the early sunlight falling in shafts through the turning elm trees and the fragrant leaf-smoke; take pleasure in the warmth of the sun and the glow of colleges as the setting sun draws it from the glowing walls of the buildings; and glory in the intermittent starglow of these half-clouded nights as you come and date which you put past your better self.

All this should result in more than mere senseperception of the physical campus, or pointless aesthetic emotionalizing. For the campus which you perceive now in rare beauty will not be so fair again until Spring, and then you won't be able to appreciate it for certain urgent academic reasons. As it is now it serves as the ideal frame for the life of the campus.

The University is alive. It is still, despite the war, serving its primary function and in addition it is serving the nation at war in training and research. the scuffle of student feet and the babble of voices is rhythmic beat of the boots of young men in uniform, young men, incidentally, for whose presence and purpose we may be especially thankful, but whom we of interest in listening to mere music. would rather see here without the necessity of that

purpose.

This picture will undoubteldy change for the just enough of the peacetime academic life to keep us mindful of what we are fighting for, and just enough of the reminders of the war to keep us from forgetting the immediate necessity of fighting for it.

Trinity College

The college with the most definite and least understood personality on this campus is Trinity. Branded as lofty in attitude and snobbish as well as artificial by common prejudice Trinity men and women have suffered unduly but with good grace for some time. That it should be called snobbish is understandable. Trinity is a small college in comparison with the two older members of Federation and small colleges are inherently open to that charge. The allegation of loftiness is closely coupled with that of snobbishness, but springs definitely from the good old Trinity yell which would damn all dissenters and which outsiders have tended to take too seriously in forming their catchwords.

Trinity is a school founded in the traditions of the English Universities, notably Cambridge. The keystones of its college life are the principles of remaining small and residential. Possessing the newest and most luxurious of residences on the campus Trinity is prepared to enforce a residence trip down here. I lost my seventh trunk rating on all who apply for admission. Students at setting toward at thing to wear the art own homes. Unmarried staff members outside of the number required to serve as residence Dons are encouraged to live there as well. The Provost himbour and now I just con't do a thing the setting the newest and most luxurious of residences on the

ing college life and is the secret of Trinity's sharply defined character. It is also the root from which grows the sharpest popular criticism of the college. brains each year to find new things to be thankful Because of the amount of time Trinity people spend for and new ways to keep people from becoming around their own campus they are assumed to be complacent about the old things, taking them for sectionalists and people of little individuality. The granted. The job became harder in the war years which followed when there seemed little to be thankful where. "Too dredfly English, y'know," the campus mimic will explain, giving off-key recognition to the fact that there is much excellent diction to be found in Trinity and some that is "too, too." The exercises when we meet in the street, prevalence of a somewhat closer-to-original brand of King's English at Trinity is natural due to its at-King's English at Trinity is natural due to its at-King's English at Trinity is natural due to its attractiveness to English people of recent contact with the Mother Country. There are, we may safely legged thing where my lecture was assume, a certain number of fake accents about the prospect for their immediate group is somewhat less place, too, but how they dare show themselves there we can't guess.

There we have the case against Trinity as levelled will be cut short after this year, or deferred by local folklore. To explode the myth is not entirely our purpose here. To a certain extent it is true, in effect it is wide of the mark. complete this year, the situation they survey is certainly has no basic place in Trinity. Hospitality is rather the mark that any observant visitor will Trinity men (and we assume Trinity women have the same privilege) are allowed and encourage But still there is a great deal to be overwhelmingly to bring their friends from outside into the college We are and entertain them at meals. It is hard to be there

Nor is Trinity merely a hospitable isolationist. Her undergraduates take a definite and commendable part in University life. What distinguishes them from others is that they tend more strongly to function as a unit. The records of participation are open to view. The Trinity record in successive T. Reed Trophy races, for example, is litte short of remarkable. What is less known at this time is that Trinity men were outstanding in the days of fullthe campus at noonday; catch the visible spirit of the dress debate in Hart House, and now, although it may not be known generally, participate to the utmost in the management of the House through a strong representation on its committees. Trinity is not an go from the library or that surreptitious midweek island, but a productive peninsula of the mass of

The Casting of Pearls . . . Toronto Philharmonic Orchestra

Admittedly the program at the Promenade Symphony Concert last night at Varsity Arena was not of superlative quality throughout, but it hardly Its pulse is slow in comparison with other living deserved the reception it was given by the audience, things, one beat every 50 minutes. At that interval Possibly the reason that a substantial portion of those who attended walked out at various points in the heard, puntuated at times by the more regularly Cesar Franck Symphony in D Minor was that after witnessing a superb exhibition of ballet by Mia withcessing a supero example of banks of sophomores would down the stairway to the unaccompanied chant, of interest in listening to mere music.

But it is hard to pardon them for this reason. the college halls. The lack of enthusiasm that was shown by that part of the audience that stayed on to the end was made all the more conspicuous by the outburst of infantile applause that was evoked by the familiar and simple encores.

A gloomy musical future is in prospect if the audiences show themselves incapable of appreciating music which is not well known to them and music which runs into more complicated structure than a previous to the college song was sung and then moved along the paths of Victoria back to Annesley Hall. The dimity lighted figures moving slowly with candles in hand chanting their banding refrain, reminded one cloistered monks (or rather nuns) of the Middle Ages.

Previous to the celege halls. worse before the return to normality comes again, all the more conspicuous by the outburst of infantile but we may be thankful for it as it is-containing applause that was evoked by the familiar and simple

Just Too . . Too . Uller . . Uller . .

> University of Toronto, Oct. 8, 1943.

Dear Phoebe:

Here I am at college! And now that I am don't you think it's just too old fashioned to call you mother? It's so passee. Really I had the most dreadful belief lives in a section of the main building set apart with it. I had my nails done in the as his residence.

This leads to a thoroughly satisfying and engross-live college life and is the secret of Trinity's sharply

Russian allies, don't you? But one of Russian allies all Russian allies allies my best toe-nails broke and I could just die.

Down here I'm something called a freshie. Don't you think that's just a bit vulgar? The girls who've been her before are just a mess. They have to slump because they"re sophomores and that's the thing to do. I feel so sorry for them because they have to keep thinking up things to keep us amused. They've arranged for us to do rhythmic

information about me before they could tell me the way. When I told them I was in Pass Arts they all looked very serious so I guess it's really the stiffest course around.

I've got to go and see the Dean of Women now Phoebe. All the girls have to do war work, but I think I'll tell her that I can help best by just being friendly with the boys stationed here. Don't you think so?

Your loving daughter,

KITTY FOILED.

single line of melody. Perhaps it was an unmusical gathering that assembled for this concert, people who went for no other reason than to see the ballet. Let us hope so.

The first piece on the program—and

The first piece on the program—and here it should be noted that as usual a large number arrived late and consequently missed it—was the Toronto premiere of the interesting Overture to "Colas Breugnon" by the modern Russian composer Kabalevsky. It is a dynamic driving composition, and Andre Kostelanetz portrayed the mood ex-tremely well.

tremely well.

The feature attraction of the evening was the ballet numbers, and they were done excellently. The music was of secondary importance here, but the perfect integration of it into the program of the dances was one of the principal reasons for their flawless performance.

True, the guest stars were ballet dancers, and their program was so well earried out that the music faded into earried out that the music faded into

carried out that the music faded into the background. But even so, the music was there still, and essentially it was a musical evening.

Library Already Discovered By Exam-Conscious Students

The spectre of distant examinations right away," said Ruth Bentley, I and "fear of being plucked" are reasone objective, she said, was to prevent her vanced today in explaining the inordinate unumber of students jamming the control of students is the way.

The control of Students is the ways.

vanced today in explaining the inordinate number of students jamming the library so early in the year.

"T've never seen it like this before," a librarian said. "Though last year, I precall, too, there were many bookworms who set out bravely in October to fill the library. In November, unfortunitely, the number decreased quite a lot."

Librarians hesitated to provide statistics, but they estimated that arts and S.P.S. students so far were the topranking regulars at the library.

"I'm trying to balance my study budget this term," said Edward Safarian, II was a statistic, but they estimated that arts and S.P.S. students so far were the topranking regulars at the library desk. "Last year I found I did too little work at the beginning of the year and tried to do too much at the end."

"I've already plenty of assignments from "lumping up" before Christmas examinations in "Te be reason I'm here is simple," said Joan Corbett, III Arts. "It's because time."

Jack Luscombe, II Modern History: "Joyo find me here all year. I'm interested in my course."

Joy Sanderson, I Arts: "If's a quiet place and nice to write essays here."

Eve Vanofsky, I Arts: "If igner that I'm doing here—studying."

Asked why he was in the library poring over a book, William Parish, III Modern History: grinned and said: "Modern History: "I'm doing here—studying."

Asked why he was in the library poring over a book, William Parish, III Modern History: "I'm doing here—studying."

"We are a librarian sid." The reason I'm here is simple," said Joan Corbett, III Arts. "It's because the first book I've opendu up. Might as well get started some time."

Jack Luscombe, II Modern History: "I'm tour course."

Joy Sanderson, I Arts: "It's a quiet place and nice to write essays here."

Eve Vanofsky, I Arts: "If igner that when you have something to do, you go right ahead and do it. That's what I'm doing here—studying."

Golf Tournament Today Held At St. Andrew's

Tennis Singles and Doubles Conclude Opening Round

Mac McCutcheon Expects 80 Entrants in Annual Intra-mural Contest; Teeing Off at 9:30

POST ENTRIES ACCEPTED

By the time the majority of the s dents get their Varsity today, early competitors will have already dug the first divots out at St. Andrew's. Early birds out to collect intramural points might even get back in time for an afternoon lecture. But it's not too late yet to whip up to St. Andrew's and bang out a round if you feel so in-clined. Mac McCutcheon stresses the point that post entries, accompanied by the fee of fifty cents, will be accepted at the first tee. The best times for late entrants to tee off are between 10:30 and 12 this morning and between 2 and 3 in the afternoon, although the earlier the better. Last teeing off time is 3 p.m. Cards finished after 6 p.m. should be turned in to the Athletic Office Saturday morning to qualify for intramural points. Those who appear at their draw time will receive preference.

To reach St. Andrew's Course, take

a Yonge car to the city limits. At that point a North Yonge car, one of which leaves every 20 minutes (on the hour and every 20 minutes after) to stop 3A. Directions are given by sings for reaching the Course from this point.

THE AIR FORCE POINTS THE WAY . . .

THE AIR FORCE POINTS THE WAY.

The R.C.A.F. is scrapping the time-honored "physical jerks" ment at St. Hilda's courts finished the first round of the singles and all but might foreshadows a new era in the physical training methods now singles matches. Sixteen sinsitutions where Canada's youth is being trained to take its place introducing a streamlined physical training course based upon running, and playing games.

P.O. Lew Hayman, administration officer of the physical training and drill section of the R.C.A.F., developed this new course in an attempt to raise the airmen's physical standards, which have not been up to scratch lately. Hayman bases his scheme on running and on games in which a great deal of running is necessitated because he found that such a type of training was the best possible for the tought teams which he coached before joining the R.C.A.F. And no one will, I expect, question the physical fitness of Lew Hayman's Argos of a few years back.

"Physical jerks" will be retained only as warm-up exercises before getting on with the serious business of the new "duty-fitness" scheme. Among the training tests planned for the airmen are obstacle courses; the developed this new course; the seven seeded W. Clarkson, both of Trialty. Hickman there will be a time limit for these courses which will be run competitively at each station.

A host of drill exercit, below the first round of the strained and the second-ed to the first semistance was a second the properties of the course which will be run competitively at each station.

A host of drill exercit, below the first round of the singles and all but more drill seven and six doubles cut the original entry almost to half the size.

The second day of the doubles matched the first round of the doubles matched the first round of the doubles matched the first round of the doubles matched where for the original entry almost to half the size.

The second day of the doubles matched was to fit to doubles matched where for the original entry almost to half the si

petitively at each station.

A host of drill competitions have been created. These run under such names as barrel ball, bouncing ball, crouch run, and straddle leaping. Any game such as rugby, basketball, and lacrosse, which involve a great deal of running, will be included in the scheme.

involve a great deal of running, will be included in the scheme.

In pre-war years Hayman's conditioning schemes were restricted to the rugby players which he coached. Now he has an opportunity to give the same program a nation-wide trial, a trial in which thousands of young airmen will make up the jury. If this scheme is successful, and I see no reason why it should not, then it is only reasonable to conclude that Hayman's conditioning program may be adopted, in part if not in whole, by a great many of Canada's university and high school physical training departments.

But if you will take note you will find that the physical training

high school physical training departments.

But if you will take note you will find that the physical training staff in Hart House would just as soon see the undergraduates get their training out of intramural athletics as they would from the calisthenics classes. Under the present arrangement each male undergraduate proceeding to a degree must take two years of supervised physical training in the University before graduation. He must gather a total of 20 P.T. credits, more if he is not taking military training, during the college year. But any student is quite capable of obtaining anywhere up to 10 of these credits, five in each term, by taking part in intramural sport. in intramural sport.

wilmot; Doran (St. M.) over Mart in intramural sport.

Under the intramural athletic setup any and every undergraduate student, regardless of ability, has the opportunity to play in one or more organized league sports. Except in a few sports such as rugby, and hockey where the number of teams to a faculty is limited, each faculty may organize as many teams as their turn-outs warrant. Thus if a student has not the ability to make the first basketball team he may join the second, third, or fourth team.

Many students when they report to a regular physical training class ask why they cannot play basketball or take part in some other such contest during the period. The reason for refusal of this plea is obvious; the large numbers which attend these classes could not be obvious; the large numbers which attend these classes could not be accommodated if basketball were introduced. After all even Hart House has its limitations. But he mighty easily arrange to enjoy his desired basketball game and at the same time chalk up another Clark and Steven; Cooke and Milne of those precious P.T. credits merely by taking an active part in intramural basketball.

If you and I of the undergraduate body support the intramural sports by joining and playing on a faculty team we are supporting at over Montgomery and Allan; Cole and work montgomery and Allan; Cole and work montgomery and Allan; Cole and sections.

intramural basketball.

If you and I of the undergraduate body support the intramural sports by joining and playing on a faculty team we are supporting at the same time streamlined physical training. Too long have "physical jerks" ruled the conditioning program. A trend toward increased participation in intramural athletics would be a trend away from the old fashioned calisthenics program. It might even be possible if every student would co-operate by entering intramural teams, to cut the regular P.T. class attendance in half. Get out, join a team, support your faculty, and join the swing toward streamlined P.T. After all there's nothing like progress.

Magazine Seeks College Reporter

The magazine Mademoiselle has announced that it is now conducting its fall round-up of College Board memtall round-up of College Board mem-bers. All women undergraduates inter-ested in publication work, advertising, creative writing, reporting, fashion illustrating, or design are invited to apply now for Board membership. Being a College Board member involves reporting to Mademoiselle, through specific assignments, all campus news from fads and fashions to war activities, At the end of each gademic war.

At the end of each academic year, Mademoiselle selects the 14 most worthy College Board members on its roster to act as Guest Editors for the August College Issue of the magazine.

Those interested in complete details on how to become a Mademoiselle Col-lege Board member, should write to Miss Dorothea Zack, College Board Editor, Mademoiselle, 1 East 57th Street, New York 22, N.Y.

The Sportswoman

CONFUSION

By Betsy Mosbaugh

CONFUSION

It seems that there are sports n' sports. Just as were were walking dejectedly down to the press, mulling over the organization of our material, any vestage of systematizion that had ever penetrated our heads was muddled beyond retrieval. O. T. and P. freshies sang us a song and danced ring around the rosie; mobs of people went ambling up the centre of the road and frosh from 73 in most spectral garb threw us under the illusion that we were in the midst of a niethmare.

SOMETHING OLD.

The annual college tennis tourney is progressing at moderate speed. Trinity is nearing the end of her elimination rounds. St. Mike's plans to begin hers today, while U.C. advanced to the third round. The games scheduled for this afternoon are: Ruth Summer and Mary Reid at 2:30; R. Clarkson and R. Margeson at 3; J. Sanderson and R. Parkinson at 3:30; and V. Oldham and B. Moshaugh at 4 o'clck, U.C. is trying to arrange, for the first time in history, a mixed doubles tournament.

SOMETHING NEW...

In the realm of baseball... it would seem that there will definitely be an interfactulty tournament. Trinity is having its first practice today. P. and H. E. have three teams in the field while Vic has a really hep team from all accounts. Meds and St. Mike's are drumming

really hep team from all accounts. Meds and St. Mike's are drumming up business for such material.

Under the heading of something new also comes a suggestion. Scouting around in the history of ferminine athletes we found that there are several who are quite renowned in track and field. Joan Davis, P. and H. E., was chosen as the best all around athlete for Ontario by the Women's Amateur Athletic Federation. She holds a hurdling record among her other feats. Connie O'Connor is Ontario champion in the are of javelin throwing. So what with these two champs along with a couple of runners of whom we have heard, why can't there be a University women's track meet? Is there a volunteer in the house? in the house?

Help Of Students Asked From Quebec Universities To Harvest Potato Crop

Maine Potato Crop Endangered By Labour Shortage; U. S. Legation Asks Help From

McGILL DEMURS

Montreal, Oct. 11—(CUP)—The universities of Quebec Province have been asked by the Dominion Department of Labor to supply 800 senior students to work in the potato fields of the State of Maine for two weeks. The students are needed to help gather a heavy potato crop which is threatened by a

labor shortage.
Arthur MacNamara, director of National Selective Service, announced the requests yesterday, explaining that the request came through the United States Legation at Ottawa. He stated that the Department of Labor had asked that if the students volunteered they would be paid wage rates which would enable em to earn \$4 to \$5 daily.

McGill Unfavorable

Principal F. Cyril James of McGill University has stated that the Deans of the Faculties of Agriculture and of Arts and Sciences meeting with members of the Arts Council Saturday had tenta-tively decided that it would seriously disorganize the important studies of those students whom the government allows to remain at university for educational reasons. Further discussions of the problem will be held Tuesday. No word has yet been received from other Quebec universities,

X-RAY APPOINTMENTS

Both men and women students are reminded that X-Ray examinations will commence today, Oct 12, and will be given this week only. Appointments must be kept on time regardless of time-table.

HOME NURSING

The first class in Home Nursing for non-resident students in U.C., Victoria and Trinity will be held in the St. John Ambulance lecture room, 863 Bay street, promptly at 4 p.m. on Thursday, Oct. 14. A fee of \$1.00 to cover costs of text-book,

ete, will be collected to this time.

All other students assigned to Home Nursing will take the course to be given at St. Joseph's College, 29 Queen's Park, at 4 p.m. on Thursday, Oct. 14. The \$1.00 fee will also be collected at this time.

War Work Needs U.B.C. Students

Vancouver-CUP-Selective Service officials, conferring with the University of British Columbia employment bureau, decided recently that at least 200 students could be placed for part-time work in such industries as lumber, manufacturing, aircraft, canning and furniture factories, and in direct repair work on ships of war in harbor. These ships have been waiting to put to sea until labor is found.

Ed Friesen, director of the bureau, called all university students to forget the monetary returns of the work, which will be sufficient, and consider this a call to duty. "Such universities as Princeton, Harvard, and Stanford have directly aided war industries by supplying the major portion of the labor for the four-hour afternoon shift," Friesen told the Ubyssey.

The Canadian Red Cross Blood Donor Clinic on St. George street is opening for business this morning. As this clinic is only a step from the campus it is expected that students will make

Response to the employment bureau's appeal has, so far, been excellent and the staff feels that the drive will be successful in enabling students to do their part in the war effort.

School Freshmen Formally Initiated By Athletics at Varsity Stadium

SNAKE-MARCH TO STADIUM

Dr. Mong came over from China last January to study any new changes in the educational system in the United States or Canada and help Dr. Chen Lifu, the Minister of Education, corral his plans for education in China. For six years China has been in the throes of a war.

Of necessity, all institutions of Icarning had to be moved to a safe place. Tremendous hardships were encountered in this transition but now there are four main cities of safety about which the universities and schools are centred.

As in Canada, the war in China has

NEW RED CROSS CLINIC OPENS TO DONORS TODAY

opening for business this morning. As this clinic is only a step from the campus it is expected that students will make regular visits to donate blood.

University students have played a significant part in the essential procursignificant part in the essential procur-ing and preservation of blood plasma, 500 being used as "guinea pigs" in the research involved. Pharmacists, stu-dent turses, and women doctors have gone in groups to the clinic. The Pharmacy class as a whole volunteered and made their first visit en masse Each was then notified to return every three months. The Pharmacy Juniors will be making the trip shortly and the seniors will keep on with their regular visits. It is hoped that other faculties

Group Captain McNabb, Rev. S. K. Stiles, Dr. Cody and Dr. Brown Take Part in Victoria Chapel Service

OVER 200 ATTEND

Pilot Officer Tom Nixon, last year's President of the Victoria College Union, who was killed last Wednesday in an R.C.A.F. training accident at Rivers, Man., was laid to rest with full Air Force honors yesterday in Park Lawn

The funeral service in Vietoria College Chapel was conducted by Group The first of what the Arts and Captain A. McNabb, Air Force Chap-

Behind the coffin draped with the Union Jack floral tributes from indi-vidual friends and campus groups were banked around the chapel pulpit, Group Capt. McNabb opened the service with the singing of the Ninetieth Psalm, fol-lowing which the Rev. Stiles read Scriptural selections. The funeral ad-dress was given by Dr. Brown who noted that Victoria's flag was at halfmast for the seventeenth of her sons to give his life in this war. Prayers were offered by Dr. Cody.

Following the service the casket was Following the service the casket was placed upon an Air Force truck and, accompanied by an armed guard of honor, was carried to Park Lawn Cemetery. The funeral procession was made up of two flights from No. 1 "M" Depot, one, armed, leading and the other, unarmed, bringing up the rear. Behind the armed guard came musicians of the Depot band, then the truck bearings the coffin and flashed by R.C.A.E. ing the coffin and flanked by R.C.A.F. officers as honorary pall bearers. Fol-lowing came cars bearing mourners.

China's Lamp

Six years of war have not extinguished the lamp of learning in the battered Chinese Republic, according to Dr. Shou-Chun Mong, Councillor of the Chinese Ministry of Education, who spent the past weekend in Toronto conferring with President Cody, Bishop W. C. White and other educational leaders in the city. Despite the exigencies of total war the cause of education has been constantly advanced until today the illiteracy rate in China has lowered from 50 per cent to 35 per cent and there are now 60,000 students in the schools and colleges of China as opposed to a pre-war figure of 40,000.

The main body of these students are undoubtedly training in technical fields which will make them of immediate use in the prosecution of the war, but the arts subjects have not been discontinued. Education is to be the main tool in China's post-war plan as well as a spoke in its war machine. There is in operation in China now a system of education known as the five-year plan for the eradication of illiteracy. Under this plan every man entering the armed forces must pass a literacy test or go to school until he has acquired a working vocabulary of approximately 1,000 words. The civilian population is also sent to school according to plan so that at the end of the five years China's illiteracy rate will be down to rock bottom. This would be an ambitious plan for any country to undertake but when viewed in the light of China's awful struggle it assumes titanic proportions. Surely there is great hope for a country which plans to provide the elements of education to 35 per cent of its population and carry on its courses in higher education while at the same time fighting for life in the greatest struggle man has ever witnessed.

The universities of China have been constantly on the move as the Japanese advanced deeper and deeper into Chinese territory. They have held on tenaciously, often setting up schools in bare caves for lack of better facilities. And still the students flocked to the universities, many of them risking their lives to escape from occupied sections and resume their studies. Education, the light of peace as well as the weapon of war, is a cherished possession in China.

St. Michael's College

St. Michael's, the Catholic College of the Arts Federation, has long been a puzzle to bewildered freshmen because of its triangular student body. We will admit it seems peculiar to have the main college campus and the main body of students settled on the east edge of Queen's Park while another portion retains a separate identity as St. Joseph's College one block farther south on the Crescent and still another, know as Loretto College, draws the sphere of St. Michael's as far as St. George St. But we can only offer Topsy's classic excuse—it jest growed.

St. Michael's College, conducted by the Basilian Fathers, was first affiliated with the University as a Theological Faculty in 1881 but the connection did not last and had been abandoned completely for several years when in 1907, St. Michael's re-entered the University as one of the Federated Arts colleges. By 1911 the need for a Catholic women's college in the University was becoming apparent. Accordingly, fortunately forbids. in that year, the Sisters of St. Jospeh founded a residential college for women registered in St. again tonight. Michael's and a similar college was founded by the

Sisters of Loretto in 1912. Teachers from these two sister colleges became members of the staff of St. Michael's College and thus took over most of the instruction and all of the discipline of the women of St. Michael's. And so the arrangement remains to-In nice technical language we have St. Joseph's and Loretto Colleges affiliated with the University through St. Michael's College. Both women's colleges remain separate entities, thus giving the women the advantages of a small house where the spirit of kinship is deep.

The men of St. Micheal's inhabit the main college campus between Bay St. and Queen's Park. Here the men in residence are divided among some eight houses so they too gain the benefits of a small wellknit house. The community life is served by a central dining hall and common room in Brennan Hall.

Despite the scattered nature of its outward forms St. Michael's College is drawn closely together by one great unifying factor, its religion. All the traditions of the college, from the opening Mass of the feast of St. Michael to the Baccalaureate Mass on the day of Commencement, are rooted in Catholicity and give the students a common ground of kinship.

One of the distinguishing traits of St. Michael's College is the unity of staff and students. In a college where residence life is carried out on such a small scale there is necessarily a constant intercourse between the two. Likewise with each college teaching its own pass arts students separately, classes remain small and the opportunity for lecturer and student to get to know each other is unlimited. This close co-operation between youth and experience leads to a fuller realization of the benefits of university life.

The unmistakeable sign of a St. Mike's man used to be tattle-tale grey "white coat" and ancient saddle shoes. He was an amiable foreigner with a twang in his voice and a feigned disregard for things Canadian. He was an American who came to Toronto lured by the fame of a great university and the added attraction of a small Catholic College. He liked Toronto, was charmed by the beauty of its campus and impressed by the treasures of Hart House. He went home and was a good neighbor without knowing it. This vanishing American made up approximately one-fourth of the total enrolment of St. Mike's in pre-war days, and added to the cosmopolitan side of Varsity life.

Massey Hall

I could start this review by saying, once you've heard the Don Cossacks you've heard all their programs. I could, but that would be fatuous. they are unique in the annals of music.

They are a group which started in World War I, when they came together in an Austrian prison camp, and to while away the boredome of life behind barbed wires, casually made music. After the war, they realized that they had something original in the choral art to offer the world, especially under the leadership of dynamic little Serge Jaroff. So they sallied forth, clad in their dashing black Cossack uniforms, to show outsiders something new in ensemble singing.

Last night, which marked their fifteenth appearance in Massey Hall as well as the commencement of the fiftieth anniversary of the old auditorium, was one of phenomenal enjoyment for all concerned. program ranged from sublime religious music through folk songs, opera excerpts to Red Army marching songs. One could have fished for the gift tongues, watching the uninhibited glee of Russian gentleman a few seats along, during the singing of In Praise of Raspberries. It was about a girl who went to gather raspberries—and came back with an empty basket. Whether you understood the words or not, the Slavic ribaldry in the very timbre of their voices was inescapable.

The Morning Greets Us, by Shostakovitch, was a thing of rocketing harmonies, with stupendous bell-like overtones. But it did not obtrude itself in a procession of over-all perfection.

There is a basso who goes so low you can actually clock his vibration frequency, while the panel of tenors and sopranoes achieved a tone that can only be likened to a Guarnerarius in the hands of a Menuhin. This eulogy could be continued, but space

BROCK BRACE.

Meds, School Have Big Do

Commencing the session in traditional style, the joint S.P.S.-Meds Afternoon Tea for Freshmen was held recently in the Dissecting Laboratory of the An-atomy Building.

Because of the beer rationing, a fea-

ture of the occasion was the synthetic tea served because of the tea rationing. The formula for this concoction was Ine formula for this concoction was developed by the combined researches of Dr. Liver Worst, and Prof. Juglin Rubbers. It is said that the mixture consisted of formaldehyde, penicillin, tannic acid, and a complex organic base having the structure:

> This space is respectfully dedicated to our faithful typesetter who was carried away screaming.

Commenting on the flavour, J. Pratt Truss, II Civil, said, "It is definitely much better than the beverage served at a well-known military camp in Southern Ontario." He also said that the liquid had an indescribable "loggy" flavour and that it was no doubt due to the fact that the formula calls for three

drops of slide rule extract per cup.

During the ceremony, a feeble cry of "Nasty School" was heard, at which the "Nasty School" was nearo, at which use entire Med student body arose and evicted the perpetrator of the foul deed. Acting as chairmen for the occasion were H. J. Stablekin, President of the Medical Society, and A. Gourmet, Vice-President of the Engineering Society.

President of the Engineering Society.

At one point in the ceremony, Katie
Kadaver (No. 5020) arose, and speaking with great difficulty (she was headless, poor girl), said, "This aim't like
the good old days when I graduated in
Honour Housebreaking, class of 272."
The highlight of the ceremony was
the tie-exchanging ritual. This colourful (red and green) rite is carried out
as follows. The Engineers line up on

as follows. The Engineers line up on one side of the room and the Meds on the other. At the signal, the ignition of a wastebasket of old editions of the Mop & Pail, the two lines advanced and meet in the centre of the room, each man picking out a partner from the other faculty. Each man then bows gracefully to his partner and gently removes the other's tie and pins it on his own lapel, murmuring such words of endearment as "gluteus maximus," "Hooke's Law," "Mass-Action Constant." etc.

The ceremony concluded with a rous-ing "Toike Ipsitaxis" and the freshmen adjourned to well-know Bloor St Hotel to demonstrate their ability to quaff forty stone-ginger beers, and eat rum and butter toffee.

Second Round Held Since Inauguration

COURSE IN FINE SHAPE

in fine shape for good golfing.

There was no ganging up on the tee, a tribute to the draw juggling of the Athletic Office and Mac McCutcheon. No one was forced to wait more than a few minutes to tee off, and after they had teed off there were no tie-ups on the greens.

Gord Bell

par. On the seventeenth he made a birdie, that is he shot the hole on one under par, and on the eighteenth he came through with an eagle, or two

unuer par.

Bill Givens and J. R. Stee, who tied for third place with 80 shots per each, are both in thier first year at University. Harry Banfeld, who took fourth place, is a fifth year dentist who has taken part in the tournament since its founding.

Entries for Track Must be In Today

Today is the last for entries in to- officiate tomorrow

"The most successful tournament ever held," brought the individual golf title third day of the tennis tournament. Only one match went more than two last Feldaw. W. D. Andrew's last Feldaw.

Gord Ball who shot 75 at St. Andrew's last Friday. W. D. Anderson, a fourth year School man, carded 76 to take second place, while Bill Givins of Pand H. E. and J. R. Stee of School five for the seven seeded players survived the competition. These five, Mcled for third, each with 80. Tied in fifth place were Harry Banfield of Dents and J. D. Stafford of School, each with 83.

The team title also went to S.P.S., the score of the first four engineers to finish totalling 314. Ball, Anderson, Stee and Stafford made up the winning combo. U.C. turned in the second lowest squard score of 338 as Bill Givens, D. J. Wilson, N. Simpson and R. Marshall brought in scores of 80, 86, 86, and 86, respectively.

Mac McCutcheon reports that the Marshall brought in scores of 80, 86, and 86, respectively.

Mac McCutcheon reports that the defeat Willgress after turning down defeat Willgress after turning down comment was the biggest and most successful held since its inauguration. A record number of 110 entries was set. The day was perfect and the course was the day was perfect and the course was a vectars of the tennis court.

SOUND OFF . . .

Another of those annual shuffles in the groupings for the intra-mural rugby league has been reported from the rugby standing com-cluded the second round of the doubles and all but two of the singles in the third day of the tennis tournament.

Group I Sr. School Sr. Meds Group II Jr. School Jr. Meds U.C.

First game of the season comes at 4:15 tomorrow afternoon when last year's championship Victoria team takes the field against a greatly strengthened Sr. School squad. Looking through back files we find that it has become an annual ritual for this department to forecast a championship for School. And who are we to stray from the beaten track, especially since the Sr. team really does look good and Victoria has lost practically their entire championship team, what with graduation and enlistment trends and such. At any rate, according to the books, School should take the season opener.

On Thursday Jr. Meds meet Jr. School and on Friday Trinity takes on St. Mike's. All games are to be played at the Stadium.

SOCCER TOO . .

The soccer standing committee also thrashed out its difficulties last Friday. Thus we have another league with three groups:

Group I Meds I School I Group II Pharmacy U.C. Group III Emmanuel

over Fyfe (6-2, 6-4); and McGraw over B. Smith (6-1, 6-2).

Doubles—Orlando and Culotta over Calder and Quinn; Blaker and Kirkwood over Carruthers and Hayman (6-1, 6-2); Wilkes and Yolles over Pashler and Stevenson (6-6, 6-1).

NOVICE TRACK ENTRIES MUST BE IN TODAY!

The Sportswoman

HOW GREEN WAS MY VALLEY!

By Betsy Mosbaugh.

HOW GREEN WAS MY VALLEY!

The interfaculty golf tourney will get into full swing tomorrow morning. It will undoubtedly turn into a dub affair unless more damsels decide to be in on the follow-through. There is the usual plaint that little interest is being shown. This tournament is not a professional affair but accepts with open arms even the rankest of rank amateurs. Hence if you feel that your game isn't up to par take a fling at it anyways purely for the sake of your faculty or college. Trinity and U.C. have a goodly number of entrants while St. Mike's and Vic have two apiece. But it is quite probable that they are going in for quality instead of quantity as Mary Jane Fisher of St. Mike's has very favourable odds for low net. The School of Nursing took the laurels last year and is tying St. Mike's with even bets. All entrants should be teed off by 10:30 and may select whether or not the bus will again pick up golfers at the end of the Yonge street terminal. This information will be authenticated by tonight so to find out your direction phone Sylvia Cadesky at Mulock House, Mi. 2375.

A TISKET. A TASKET. ...

Who got that thar basket? will soon be the cry at the O.C.E. or Little Vic gym. Today the final practice schedule goes into action. P. and H. E. seem to be slated to make an excellent try for the finals with their usual numerous teams. It is heartening to see some interest in this sport, at least, although P. and H. E. can always be counted on to contribute generously to our athletics. Basketball has always been the "piece de resistance" for women's sports. The old and revered seniors are always to be found laking an active interest but from all accounts Vic has a well of freshies from which she can draw a team as well as the last year's team which went to the finals. T-I-I-IMBERI

WEDNESDAY, OCT 13
3:30 p.m.—The University College First
Year Dance will be held in the Women's Union. Tickets are available to in the U.C. Rotunda. "Come single; go home double."

May well be the cry as the tennis finals are reached in nearly all the colleges. It is to be hoped that this shout will not be used to lear St. Hilda's courts of its present tourney. The interfaculty is expected to begin sometime during the early part of next week. Looking over past capers of the Sportswoman it is enseiting to note that '30 p.m.—First meeting of the Spanish dancer will entertain, followed by a commentary by Sr. De La Casa. Dancing and refreshments.

"Oh, I don't know," replied the first.
"I guess that is their CHURCH, OR
SOMETHING!"

* * *

Down at McGill students have already Down at McGill students have already [We passed one the other day in front learned to sleep through lectures. It was one of those classes where the professor must wonder how half the class can sleep so soundly when the other half is making so much noise. As the pitch of the conversations increased, the pitch of the conversations increased, the

half is making so much noise. As the pitch of the conversations increased, the prof. raised his voice to cope with it. Finally, exasperated, he burst out: "If you don't stop making that noise, Pill screem?"

* * *

Our next two stories concern freshettes, for it seems they are still very much in the limelight. One dark night last week a group of initiators were accompanying their submissive initiates along St. George street putting them through peychologically agonizing paces. One of the items on the itinerary was a stop at a well-know fraternity bouse near Bloor, where one small young sand win the beart of a great and gallant refron, so what does she do—she goes up "You'd make a heck of a soldier."!!!

The building which occupies the area to the door quite valiantly and self-in front of Hart House has frequently led to weird and interesting hazards as to its original purpose and present function on the University campus, and here is the latest which has come into our ken.

It seems that two workmen, becked in overalls, were walking past Hart House tother day. One remarked, "Ge those bells sure sound purty in a only five dollars. Could after the door quite valiantly and self-in sure of the door quite valiantly and self-in sure of the sure of the door quite valiantly and self-in front of the sure of the door quite valiantly and self-in front of the sure of the door quite valiantly and self-in front of the sure of the door quite valiantly and self-in front of the sure of the door quite valiantly and self-in front of the sure of the door quite valiantly and self-in front of the door quite valiantly and self-in front of the door quite valiantly and self-in front of the door quite valiantly and sure of the sure of the door quite valiantly and sure of the sure of the door quite valiantly and sure of the sure of the door quite valiantly and sure of the sure of the door quite valiantly and sure of the sure of the door quite valiantly and sure of the sure of the door quite valia

TORONTONENSIS REPRESENTATIVES

MEETING

at the

WOMEN'S UNION

(79 ST. GEORGE STREET)

4.30 p.m., Friday, October 15th

Before coming to the meeting, please procure from your Registrar or the Secretary of your Faculty an estimate of the number of students in your graduating year, and if possible, a list of their names.

If you are unable to come to the meeting, please call in at the Students' Administrative Council office in Hart House BEFORE Friday afternoon.

- Please Make Every Effort to Arrive on Time -

U. N. T. D.

vision will hold its first parade Wednesday, Oct. 13 at 1600 hours (4 p.m.) or north-easterly section of the front

All students who last year enrolled with U.N.T.D. and those students who have been attested this year must be present in the rig of the day.

Orders by

Miss A. E. M. Parkes, Commandant University of Toronto Detachment Canadian Red Cross Corps 12-10-43.

PART 1

(5) DRILL

Regular drill for all members except three days. those enrolled for other training courses at this time will be held on Tuesday, Oct. 12, at 4 p.m. at Trinity field. Where there is an aeademic timetable clash, members will report immediately at the close of the period. In case of rain, new members will report to O.C.E. gymnasium at 4 p.m. and old member, including those attached from other detachments, at 4:30 p.m.

Dress: Old members will wear reg-ulation uniforms with coats. New mem-bers will wear low-heeled walking shoes and clothing suitable for outdoor drill.

(6) TRANSPORTATION

Members enrolled for training or duty in this Section will follow schedule ar-ranged by the Commandant of the Toronto Detachment

(7) NURSING AUXILIARY

Members enrolled for training or duty in this Section will follow schedule ar-ranged by the Commandant of the Toronto Detachment.

(8) FOOD ADMINISTRATION

Blood Donor Clinic: Members en-rolled for duty at 99 St. George St. under this Section will follow schedule arranged by the Commandant of the Toronto Detachment, Members enrolled for Telephone Duty will await further

orders before reporting.

National Corps H.Q.: Members enrolled for duty at Corps H.Q. at 460
Javis Street will report to the National
Adjutant, Mrs. Knight, according to schedule arranged.

Isinglass Discovered Here; Believed Blood Substitute

Not Yet Proven a Perfect Sub-stitute; Production on Large

EXTRACTED FROM FISH

A substitute for blood serum is believed to have been found by Dr. N.
B. Taylor of the University. Dr.
Taylor has been working for two years
on this substance with his assistants
this M. Moorehouse and Dr. E. T.
Waters. The serum, isinglass, is taken
University of Michigan, and G. S.
Brett, M.A. E.P.C.

substitute for blood. Up to the present time it was not possible to obtain a large quantity of isinglass so that experimentation has been limited. Connaught Laboratories are now beginning a large scale production under the supervision of Dr. G. W. McHenry. The greatest difficulty in intravenous injections has been to maintain the blood temperature but this objection has been overcome by the use of isinglass.

F.R.C.S., University of Toronto, will speak.

These meetings are to serve as a composition of one of the greatest dates in the history of Science. In 1643 Toricelli performed his experiment to determine the magnitude of atmospheric pressure, and from his apparatus evolved the Corps at their annual inspection last spring.

Believe It or Not" Creator Tells of Weird Discoveries While in Distant Lands; Ripley in Caada for Victory Loan Rally

350 MEDS ATTEND

By Rex Wilson

The man who has been in China more times than he has been in his own office in New York, the only man in the world, he says, who makes his living telling the truth, last evening addressed the Third Annual Banquet of the Medical Society. The speaker, of course, was Robert L. Ripley, traveller, teller of (verifiable) tall stories, and cartoonist-author of "Believe It or Not" and his audience was more than 350 cheering Medical students,

Mr. Ripley extended what was to have been a brief visit to this city to assist the opening of the Ffth Victory Loan by appearing in the Dominion government's second Victory Star Show at Massey Hall this evening to accept the invitation of the Arts and Letters Club of the Medical Society to address the banquet,

Opening by telling how his last visit to Canadian soil had been in Edinburgh, Scotland, Mr. Ripley went on to tell of sailing on a boat under the Sahara, of the city of Mullah Ismail who had more than 2,000 wives and 88 children and was the only black man in history to own white slaves, of the smallest country in the world whose ruler governs 300,000,000 subjects, and of garlic which has, he claims, the odor of sanctity.

In regard to the country of origin

of the odorous herb, China, he remarked

tion of humanity which brings real happiness to the greatest number of people, Professor Coulton explained, and went on to say that a nation can become overcivilized as did the Roman Empire. Luxury triumphed over the higher things of life and art, he said, and literature and science became stagnant.

Millar, first chairman of the club who spoke briefly on the history of the club and conveyed thanks to Harold Tovell, and conveyed thanks to Harold Tovell, the present chairman, Miss J. Mac-Person, Dean of Women at Victoria cliege, and Dr. William Bogd for their help in founding and encouraging the Arts and Letters Club.

Mr. Rojecy was thanked by Dr. Boyd.

On Roman Empire

Lecturer, author, cartoonist, traveller, Robert L. Ripley is shown addressing

Little Increase in Past Three Years

The cost of living and attending University has gone up on the average of only four per cent since three years ago, according to a survey conducted last year among Engineering students by the Engineering Society and the Junior Panel of the Engineering Alumni Association.

Questionnaires were distributed last year to obtain information on the cost year to obtain information on the cost of going to S.P.S. for the benefit of high school students and others con-sidering the idea. The results are now complete and ready for distribution at the Engineering Society Store.

From stacks of sheets with columns of figures Mr. F. C. Read, a graduate of S.P.S. in '39, chairman of the survey committee, revealed that the total cost for the session '42-'43 was \$579.00 for Toronto residents and \$805.00 for students from outside Toronto, compared with \$550.00 and \$785.00 for the session '39-'40, obtained by a similar survey conducted that year.

risen from \$225.00 to \$279.00. Of 39-year history. figures for savings ranged from almost a speaking and writing knowledge of nothing to over \$1,000, with the average at \$319.00. Students in Chemical Engin-

United Nations' war effort." A simular statement from Bishop's College was received.

Sixty-five students from Oka Agricultural College left Monday for a two or three week harvest stint at Presquile in Maine. All are experienced potato harvesters. They will earn five dollars a day and room and board.

McGill students expressed their unwillingness to go in view of recent Selective Service regulations and because they remembered the hardships of last year's harvesting excursion. Sir George Williams' College was not asked to send volunteers.

It is estimated that only one half of this year's potato crop is harvested.

Keep It Clean!

warm and attractive and the practice of eating out of doors has become prevalent. Those commuters who bring their lunches are temporarily elevated to now seems that their privilege will not last as long late nights at the University Press. as the fine, warm weather unless they mend their

a large part of the mob of sun-worshippers who have recently forsaken the dim and admittedly uninspiring is so capable a substitute at hand. depths of Hart House to eat their lunches by the observatory seems to feel that their new status as University students frees them from any due regard before they return to lectures and laboratories. Thus

The enjoyment of an outdoor lunch is largely made possible by the fact that the beverages which students generallyl purchase in the Hart House Tuck shop to go with their lunches have been taken outside the building. It is through this same channel that it may well become impossible to enjoy this privilege. There is a rule, not at present enforced, which forbids the removal from the House of any bottled beverage purchased there. No deposit is paid on the the bottles by students. If they remove them and do not bring them back the Tuck Shop will suffer loss and will be forced to invoke the rule which prevents their removal from Hart House. Therefore students who enjoy this privilege of lunching on the greensward would be well advised, if not for reason of "good citizenship" which they seem to feel they have outgrown, at least for the sake of preserving their privilege to return their bottles to the Tuck Shop and take their lunch wrappers along with them to deposit in the baskets they will find

The S.A.C.

The Students' Administrative Council is a body not entirely understood on this campus. For its manifold functions and services we refer you to page What we mean to comment on here is basic character. As its title would indicate it is largely an administrative organization, and is not greater repute meant to be legislative.

The council is the liason body between the students and the staff of the University, it is not empowered to act in the actual formation of University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the administration of the University policy or to participate in the university policy pol versity as a whole. A frequent grumbled criticism of the council is that it never "does anything" in the matter of forcing new schemes upon the powers that be in the University. Even were it so inclined by temper it could not by law force the will of the students on any subject, small or large, concerning the broad policy and governance of the institution It does, however, serve continually to bring the ideas

and projects of the students into notice and fruition. the official point of contact with President, Senate, Governors and Caput and any student or group of students may speak through the council either by direct contact or through the head of their own faculty's student organization. While Univer-sity officials generally do not feel that projects affect-ing the long-term management of the University are best left in the hands of individuals who at best spend five years in it, they are all ready to listen to new ideas, whatever their source. The council speaks for the students.

May We Introduce?

It is the custom on The Varsity to raise a sort of hullaballoo when a new Editor-in-Chief is appointed, but beyond that the editorial staff is seldom met by the readers except as by-lines or lines of type in the masthead which comes just ahead of the Editorials and is therefore seldom read anyhow. We would therefore like to take the opportunity in the next few issues of introducing to you the people who are making The Varsity possible this year. Inasmuch as this column lies a little closer to the Champus Cat than does the Masthead we hope that we will be able to make them known to a large number of you.

Today we'd like to present two ladies who closely assist the Editor. The tall lady is Beatrice T. Dobie, assist the Editor. The tall lady is Beatrice T. Dobie, fusion, would you please to tell him from me that he is a very, very unclosely associated with The Varsity. Following two patriotic gentlemen? Address him with Ours is a beautiful campus and these are just the closely associated with The Varsity. Following two sort of days to enjoy it. The noon hour is especially years as a faithful and brilliant staffer she was appointed Assistant Managing Editor last year, the first woman to fill that post. Essentially a person of poise and calm, she helped bring The Varsity through the status of a privileged class, but unfortunately it the manifold tumults of the year by working many

This year she succeeds to a post of greater responsibility and calm as Women's Editor, a posi-Of course there must be some, even an appreciably tion paralleling that of the Editor-in-Chief and sharlarge proportion of the basking baglunchers who ing the duties of editorial writing and organization. recall and still revere their high school civics lessons The Women's Editor is expected to stand by at all about picking up litter and being a good citizen, but times to be ready to act in place of the Editor. It is reassuring in the highest degree to know that there

The other, more diminutive lady is Mary R. McKeown, Editorial Secretary of The Varsity, whose amazing energies and skills are directed toward for such childish lessons. Thus liberated they avail keeping The Varsity's correspondence and internal themselves of the privilege of eating their lunches outdoors where they may view the beauties of the career has been linked closely with the Undergraduate campus without bothering to clear away their litter Daily, Mary is registered at Victoria. As an ace reporter noted for her assiduity and extreme willingthe slope opposite the front door of Hart House, one of the most beautiful of the University buildings, encies, Mary earned for herself the sobriquet "Small assumes the aspect of a badly tended dump each Wonder" which has remained with her for three years to her extreme distaste.

Music Calling

The season of the year has come again, when campus instrumentalists bring out their fiddles and their horns, tune up in preparation for the first rehearsal of the University Symphony Orchestra. There has been for many years a tradition of concert orchestras for student participants; but it is only within the last half-dozen years that the University

Symphony as such has been organized.

That guy Adolf's mind is so pretzel-Symphony as such has been organized.

Brock McElheran wsa one of the first conductors, taking his aggregation on junkets to neighbouring campuses such as Guelph Agricultural College and MacDonald College, Montreal, and in general foster-ing musical amity. Ryerson, Cowan and Weizweig

ing musical amity. Ryerson, cowan and verticed were succeeding directors, carrying on with zeal and efficiency.

Last year Victor Feldbrill, now with the Navy Show, brought the orchestra to an new peak of musical excellence. Their performance in Convocations for the constitution of several applicants for the several applicants for the constitution of several applicants for the several applicants for th Show, brought the orenestra to all new peak of musical excellence. Their performance in Convocation Hall received high press praise, and their interpretation of Bach and Mozart was compared farourably with that of civic orchestras of much interpretation of Bach and Mozart was compared farourably with that of civic orchestras of much

Cat Lets Slip Key to Victory Says Reader

EDITOR'S NOTE: Out of three letter. and a penny post-card, the letter pub-lished below best represents the flood of praise, blame and criticism of J. H. Sludge's degree-begetting Not-So-Basic English idea that has poured into The Varsity office.

U.C., Oct. 7, 1943.

The next time you are prowling the ascment of a certain large Bloor street botel and you meet this Sludge character who just invented the ultimate in or

patriotic gentlemen? Address him with these words, kitty: "Tut, J. H.1 Thousands of talented gentlemen toil in bleak anonymity for the good of the war effort, devising sensational new methods of slaughtering Germans wholesale; and do we ever hear their names? Nope. And here you come up with a weapon that, kept you come up with a weapon that, kept secret, could win us the war in a month; and what do you do with it? You splatter it all over the pages of The Varsity, in full view of the three thousand people that read the rag! (Ed. Note: Delete 'thousand.' This ra- paper prints only the truth.) For shame, J. H.1"

Ya see what I mean, kitty? realize the possibilities this N.S.B. English could have had A S A SECRET CODE? 17 It'd be absolutely insoluble (Ed. Note: Try hydrochloric.) And imagine the effect it would bave on a German intelligence officer if he should get his hands on it. He digs out his dictionary from among his two dozen copies of "Mein Kampf" and translates "tizzy bazaar" rigmarole into his

"Lonnerventtnor!!"

he mumbles in his guttural German voice, "Could id be dat I am grazy going?" and, since going crazy is obviously a sign of weakness and therefore an extremely non-Aryan practice, he runs sofort up on his sword (the German equivalent of hara-kiri. He can't shoot himself because the Russians have captured all his ammunition.) So the next officer tries to solve it and naturally meets the same bl-gory fate. See? This Not-So-Basic jargon could wipe out the whole German intelligence staff with one stroke! And, sans their intelligence we could beat them Germans

in a month, no?

Come to think of it, there is one drawback, though, If this code ever like already that he'd probably the damn thing.

Yours with love HORATIO Q. WITHERSPOO (Pass Dishwashing III).

reater repute.

TALK IN ART GALLERY

LR IN AHT GALLERY
At 1 p.m. today in the art gallery of Hart House Mr.
C. A. G. Matthews of Sampson Matthews Limited will
review the current exhibition of the Reproductions of
Canadian Paintings produced especially for distribution to camps and stations of the armed forces. Mr.
Matthews will also give a demonstration of the silk
screen process which was used by his firm to make
these reproductions.

All Faculties To Compete In Thursday's Track Meet

Junior Meet Entry List Promises Tennis Tournament Usual Crop of Dark Horses;

Hec's brainchild a number of years ago to encourage the turnout of freshmen for track. These juniors do not include only freshmen but also men in higher years who have not won an interfaculty track event in former years. Thursday is the big day but Phillips already has his keen eyes set on a trio of newcomers. A Weston boy by the aready has his keen eyes set on a trio of newcomers. A Weston boy by the distance runner and may spring a few surprises at the senior meet a week to-day. A. H. Todd, a star at Galt, and quite a modest young man, looks promisquite a modest young man, looks promising in the high jump and the pole vaul. Todd uses the Eastern Role which in itself is rather unusual. Both which in itself is rather unusual. Down
Watt and Todd are S.P.S. freshmen.
For the shorter distances, a first year
Med, one K. Jacobs from Windsor,
Lea in the limelight.

Outside of these three, little is known U.C. FOOTBALL ut the entry field, but it does promise about the entry field, out at coop of dark to bring forth its usual crop of dark horses.

H. E. locker room, Hart House.

Senior Athletes Wanted as Singles Continued

ENCOURAGE FRESHMEN

The junior track meet will get under way, rain or shine, Thursday at 1.30 when aspiring tracksters, representing all faculties, will meet in some 16 events.

During the past war years the standard of these meets has been kept up remarkably well under the circumstances. The turnout has been fairly successful and the performances have been very satisfactory, according to Heep Phillips, coach of the trackmen.

Phillips, coach of the trackmen.

Phillips, coach of the trackmen.

The big upset of the draw in uncountered to doubles were played.

The best singles game of the day was in the will be will

THE SPORT FOR FALL . . .

THE SPORT FOR FALL . . .

Comes fall every boy scuffs about with a long oblong object inflated with air—it's rugby time! It is with a silent unseen tear of regret that one leafs back to those glorious Saturday afternoons in the late 30's. Intercollegiate rugby was of course one of the first casualties of the campus. But does the incoming freshman, the sophisticated sophomore or even the glorious junior understand the real meaning of the casualty?

"What do you think of our chances against Queen's on Saturday?"—That question was a suitable prelude to any conversation during the week. Saturday was a maze of pennants, peanuts, popcorn, hotdogs, blankets, bands, cheerleaders—all of the ingredients for an exciting afternoon. Every spectator was a participant. Alternate weekends Varsity was off to another University. Statistics showed it at over a third of the students were away each of these weekends. Intercollegiate rugby will probably be in the front ranks of post-war reconstruction projects!

But isn't there a big morsel left? Last year, as in the war years appreceding the interfaculty rugby loop, dished up some first-rate rugby. With war work and similar exigencies piling up on the prospective rugby fan, very little support was given to college grid anties. This year another full schedule is promised. Half the thrill of the game comes from the crowd—is a miserably measly string of coerced officials going to carry on as spectator's also? It's up to the men and women of each college to get out and lend support—it's co-operation such as this that will bridge the gap between the past and present and put more life into the daily grind. A good quota of fresh air never did harm even to the most aspiring book-worm!

A SPORT FOR ALL THE YEAR . . .

A SPORT FOR ALL THE YEAR ...

University men are an assortment of rejected crocks. I've heard that statement more than once. Admittedly many of the men suffer from weak hearts (perhaps even weak minds), but there is a sport open to everyone—so long as you aren't in bed, on the shelf, or sporting crutches. One of the first things a baby accomplishes on his long journey to maturity is the control over his legs. First he begins to toddle, then he begins to walk. From our chair it looks as though many of us have forgotten this valuable asset.

Of course we all walk—every day—but not far enough. Walking is a wartime necessity because of crowded street-ears, faulty tires and used-up gas coupon booklets. We walk simply because we have to get somewhere and there is no other way. Walking has long been known as one of the best exercises. I know we all don't like exercise. But walking can be fun if you let it. Perhaps it's sissy, no point, no competition, no big heads in the newspaper. But walking can be fun for you. Try and get a stretch—get off to the woods, or pound off a few city blocks in an unfamiliar district. It will open your eyes, you will be able to sleep without an aspirin, and you'll like—walking.

The Sportswoman

(Editor's Note: Today's column is guestwritten by the tired young Assistant News Editor who is pinch-hitting for his tired young colleague and Women's Sports Editor, Betsy Mosbaugh.)

By George Elliott

OUT OF BOUNDS . . .

It was with some trepidation and nail-chewing that we agreed to come over to the Sports department to do The Sportswoman. But versitility is something we've always admired in other people, so why not try and develop our own? Donning our rubber-soled sneakers and fiber elbow pads we dog-trotted around the campus for a warm-up, then sprinted into the no-man's-land for a quick look around.

STEPS MUST BE TAKEN . . .

STEPS MUST BE TAKEN . . .

A rather sad state of affairs struck our one good eye when we saw such a lack of interest in the Women's Golf Tourney. Only a handful of potential Patty Bergs have taken any interest in this royal and healthy sport. Now, golf, as far as we're concerned, is one of the few sports that we would allow the fair sex to partake in, were we some sort of a benevolent autocrat in the athletic world. Golf is a foolproof game, provided one has instruction in it as soon as one sets out to learn the game. Golf is a game that isn't beyond the limitations of the sportswoman and we're just the one that can tell you. Our summer's athletic activities consisted of sprinting up and down a bomber assembly line and then reeling out to the local golf course for as much golf as we could squeeze in before dark. Here we were surrounded on all fairways by loose-limbed golfcrettes who knok a fendish delight in making us tired old clod-wallopers look silly with their easy swings and long drives and accurate seven-iron shots and their uncanny putting. We asked the pro at the club about this situation for we were indeed surprised at the female proficiency on the greensword. He laughed and told us with a real live Scottish burre that, "If's all a matter of psychology." We asked the pro at the fairs as we tried to imagine how psychology could prevent a ball from veering 10 port or starboard with the greatest of ease and reckless abandon. But the pro assured us that he was right. "You see," he said, "when I'm teaching somebody, I always try to figure out what sort of timerely stand aside and tell them how to stand and how to grip the velub and how to swing. Others will react better to instruction if I show them what I want them to do." We watched this pro in action for a few lessons and he was right. He either showed the novice or told he novice and from two people of equal motivation (See, Dr. Northway? I been readin' books.) he got amazingly similar results.

But all that hasn't a great deal to do with this situation we started to view with alarm a few moments ago. You girls should take a greater interest in golf because, even if you possibly don't break 120, you can always sit out in deck-chairs on the lawn by the first tee more men to handle the staging and and giggle every time somebody tees off. Boyoboy!! That's zippy fun!

customers.

Since he eame to Hart House five years ago, Pete has had a varied career. His first job was that of shoe-shine boy, a feature of Hart House which has since been done away with due to the manpower shortage. Later he was put on the cleaning staff where he worked until two years ago when he graduated to the Tuck Shop where he has been ever since.

One of the most noticeable changes in the Tuck Shop this year is the absence of smiling Pete Elias, Pete left his job as leading pie-slinger around the first of September to become a leading seaman in the Navy.

For quite some time Pete bas been an a matteur painter, and it was due to this hobby that he is now a scene painter and stage hand with the Navy Show.

At first Pete was a little homesick for the eampus but now he has settled down to navy life and is having a swell the time. He will soon have travelled over all of Canada and is looking forward to tat trip to New York and Hollywood, where a movie is to be made of the show. When the show was in one of Canada's most important eastern seaports, Pete saw a number of his old customers.

The Athletic Office announced yester-day that the first scheduled game of the intramural rugby season has been post-noned until sometime netweek. Reason for the switch in plans is the organization parade of the U.N.T.D. today which will effect some of the players. Thus the Victoria-Sr. School game, expected to have opened the season with a more toward bare opened the season with a more toward to have opened the season with a more toward to have opened the season with a more toward bare the victoria-Sr. School game, expected to have opened the season with a more toward to have opened the season opener will then fall on Thursday on the Stadium field at 4:15 in the attention.

Another adjustment, or rather correction, is the date of the junior track meet. The meet will be held, not today as implied in The Varsity yesterday, but rather tomorrow at 1:15 in the afternoon.

Vic Music Club Plans Operetta

"Trial by Jury" was announced last night as this year's production of the Victoria College Music Club. Peter Dickinson, president of the organization, specified out that by choosing this, the shortest of Gilbert and Sullivan's operetas, some of the difficulties which would attend a longer production would be alleviated and the rehearsal period would be cut from four to two menths.

Mr. Alfried Kidney who assisted with last year's production will direct, and it is hoped that staging facilities will be found within the bounds of the University. This year's executive will consist of Peter Dickinson, president; Norma Pike, assistant president; Connie Camp, secretary, and Jack McAllister, publicity.

House initiations at the various men's residences are almost over for another year. Soon weary freshmen will be able to sleep without visions of frenzied sophs harrassing their every dream.

Initiation at the U.C. Mens' Residence began on Tuesday and by 12 o'clock. only four iron-lunged freshmen remained. The other four were victims of '751 Bravo' cigars, exercise, and singing—three things in which good freshmen should never indulge.

On Wednesday night, the eight mis-guided souls from 73 St. George St. were sent on a seavanger hunt. First were sent on a seavanger hunt. First stop was Whitney Hall where the bashful fellows pointed to a list and asked for Number 3. "Egad what an embarrassing situation!" From there the frosh disappeared in several directions. from disappeared in several directions. Two went to the Royal York for Horace Lapp's signature. Two others made a pilgrimage to the Old Mill somewhere in "Vallis Humbria" to ask the manager for an autographed menu. The remaining four combed the neighborhood for a red-haired woman, a horse-hair and a few unmentionables.

Vic freshmen were also harrassed. At Ryerson House they were dunked, then conveyed to a girls' residence to exercise their vocal chords. Other Vic men were introduced to the horse-trough on Bloor St. where they did a speck of laundering before leaving to assail their professors with school vella.

Labour And The Student

Memories of last year's historic harvesting expedition to the wheat fields of Saskatchewan have resulted in a minor epidemic of proposed student-labourer projects throughout the country this fall. Most important of these was the recent request by the Dominion Department of Labour on behalf of the United States Legation at Ottawa for 800 senior students from the universities of Quebec to work in the potato fields of the State of Maine for two weeks. The refusal of McGill University and Bishops College officials to send students and their decision that such an interruption of the academic year would seriously disorganize the important studies of those students whom the government allows to remain at university for educational purposes is an interesting one and provides food for considerable thought.

There is no student now in a Canadian university who has not been found capable of gaining an appreciable knowledge of his particular course. If he is not capable he is not allowed to remain. Similarly no student is now engaged in any course which is not considered of value to the country either for the war effort or peacetime rehabilitation. In other words the university student today is making his best contribution in the field of study and his studies are as important as any war industry or training camp. Thus it would follow that his studies should not be lightly set aside or interrupted.

In point of comparison the Maine potato problem would seem much less pressing than the fate of the Saskatchewan wheat crop. And it will be noted that this year's wheat was quietly harvested with some outside help from experienced farmers. With the Western grain situation now well in hand no students will be asked to assist. It was obviously decided after last year's expedition that experienced help would be of much more value than students unaccustomed to that work. Although 1,400 men went West from Ontario and Quebec universities and a good portion of last year's crop was saved through their efforts there were many drawbacks to the scheme. As one returning harvester put it, "Our trip was not a great success but good adventure." The enthusiastic student-farmers found harvesting more arduous than they bad expected and there were many cases of salary disagreements, dissatisfied farmers and poor back and many students were out of work half the time they were out there. None of those who went regretted the adventure but its advisability was often pondered throughout the rest of the year.

work, for however short a period, to do work which is foreign to their line of study. For proper apprecia
Bud Smith is the amiable red-haired School Junior further.

tion university courses require a year of constant

application.

We do not wish to imply that the student must climb back into his ivory tower and ignor off-campus problems. Let him spend his spare hours, of which every student has a few, picking apples or digging potatoes or doing part-time work in nearby industrie or surrounding farm areas. The university man is no isolationist but he must, like everyone else, stay constantly at his job in order to get the best results.

Medicine

Probably many of you who take your meals in Hart House Great Hall or the Tuck Shop have Hart House Great Hall or the Tuck Shop have already discovered the peculiar and sometimes unappetizing propensity of Medical students to dicuse their work at the table. We were recently informed by a very cordial and cultured member of the profession that this was a pose, a way of living up to a tradition. The tradition is well followed, then, for this same man at dinner on the same day was overheard discussing the treatment of the common cold with some of his colleagues. Tradition or not the habit is indicative of the fundamental difference between Medical and other students. They are probably the most interested group on the campus when it comes to their basic studies. They never seem to tire of talking of their work and comparing notes. Since there is a saying that there is no clear distinction between a doctor's profession and his life it is heartening to find the Meds so earnest.

Some people consider them too earnest. Last year a club was formed by Medical students, the Arts and Letters Club, to try to draw them out of their absorption in Medicine. The success of this club reflects a great deal of credit on its founders, but at the same time it would indicate that there was no great reason to feel that pressure was needed to draw the young doctors out

For all of their intense interest in their future profession the Meds must not be viewed as a group of skull-tapping prodigies reciting pathological para-phrases of "Alas, poor Yorick." As a matter of fact they are renowned on the campus for their broad humor and their ebullient zest for a good story, for which they are well prepared in the line of vocabulary. This intra-professional tendency has often been misunderstood by outsiders and their traditional annual show "Daffydil Night" came under the ban a few years ago.

Great energy, too, has been shown by the faculty in maintaining their age-old feud with the Engineers across the street from them. The continuance of as close to normal as possible an undergraduate life has gone on in Medicine despite the fact that the upper on in Medicine despite the fact that the upper Church, took place yesterday at noon. Years of the course are under an accelerated These mid-week recitals are excellent,

May We Introduce

Today we'd like to introduce Vernon Lang, Managing Editor, and his assistant Bud Smith. These Number II which was gayer. two gentlemen fill the most vital spot in The Varsity's organization, for it is they who bridge the gap between the newsgathering facilities of the paper and its technical processes. Often working very late at night at the Press they prepare copy for the printers and help the night editors to plot makeup. At the symphony orchestra. As a matter of present time theirs is one of the most difficult jobs fact, it is surprising to note just how on a hard-pressed masthead, for while the rest of many effects can be gained by an exthe editors have been relieved from pressure by the accommodations. The weather also proved a set- Department has had its work increased by the neces influx of new recruits to the staff, the Managing sity of ironing out the rough spots in stories submitted by eager but often inexperienced reporters.

Vern Lang, a U.C. Senior, is particularly valuable ndered throughout the rest of the year.

Let us hope that labour leaders and men in ability and his long experience with his own departindustry will soon begin to realize that university ment which he first entered in his Sophomore year students are on campus for the purpose of study, as an assistant. The experience would have been that they have a definite duty to perform in perfecting valuable to The Varsity at any time, but the organiztheir knowledge and skills. Students cannot make a ing ability which he brings along with it is especially their knowledge and skills. Students cannot make a ling ability which he brings along with it is especially success of their year if they are asked to leave their waluable this year when necessity has dictated many sity's hope that this representative of the south end of the campus will be changes in the paper's whole pattern.

This Afternoon's Struggle Begins Round Robin Series with One Game Every Day After Now in Semi-Finals

JR. SCHOOL CONFIDENT

The well-worn intramural pigskin will make its annual debut at 4:15 this afternoon when Jr. S.P.S. and Jr. Meds clash at Varsity Stadium in the opening game of the rugby season.

This will commence a round-robbin series of matches within the three groups which, starting Monday, will be run off at the rate of one game every day. Today's contestants will be aiming for the leadership of the group which they share with U.C. and the Army Course.

Although not expected to be as procedural as the Vic-Sr. School affair

Army Course.

Although not expected to be as spectacular as the Vic-Sr. School affair originally scheduled to open the season, a hotly contested struggle may be counted on for both teams are determined to make a creditable first performance. Neither of the opposing 6-4, 7-5. Fremes and Hendra gave a good demonstrative he hendra gave a good demonstrative hendra gave hendra gave a good demonstrative hendra gave a go

may prove to be dark horse in the race for the Mulock Cup.

Jr. School, with the background of a week and a half's practice, are particularly confident and are relying on their backfield, notably Fordyce and McLean, to bring them a win.

The Mosses and N. Mosses over Hickman (6-3, 6-2); U.N. Smith over McGraw (6-1; 6-4). Doubles—Fremes and Hendra over Orlando and Cullotta (7-5, 6-2); S. McLean, to bring them a win.

The Mosses and N. Mosses over Graham and Currey (7-5, 6-0); Kingston and Fullotta (7-5, 6-1); Ki Moses and N. Moses over Graham and Currey (7-5, 6-0); Kingston and Fulthorpe over Rogers and Mason (7-5, 6-3); Scott and Stock over Morrison and Wade (6-4, 7-5); Jones and MeGraw over Yolles and Wilkes (6-6, 6-1); Skinner and Brown over Cooke and Milne by default; Feyerer and Patzaleck over Blaker and MacDonald (6-0, 6-1). The last team rounding out Young and Smith, won their match on Tuesday from Cole and McBloom by scores of 6-2, 6-2.

Frosh Track Men Scrape Bowl Today

It has been announced that post e It has been announced that post entries will be accepted at the grun in today's junior track meet which officially opens the year's track and field program. The meet will get under way sharp at 1:30 this afternoon at Varsity Stadium with 16 events on the schedule. All freshmen are eligible for entry in this meet as well as any student in another year who has not won an intramural track event in previous meets.

year who has not won an intended track event in previous meets.

In order to avoid confusion, post entrants should place their entries with Hec Phillips at the track as early as possible. There will be a full and varied program with distances ranging from 100 yards to two miles in the running rtment in addition to the usual field

If contestants co-operate by making If contestants co-operate by making sure that they are on time for their events the meet will be run off as quickly as possible. It is hoped that all events will be concluded by 4 p.m. so as to make way for the rugby game which takes over at 4:15.

which takes over at 4:15.

Hec Phillips expects a better than average turnout for this meet which has been a success since its inception a few years back. This early meet gives the first new ment above meet gives few years back. This early meet gives the first year men a chance to make a niche for themselves in the intramural track world before they compete with the experienced senior members of the

Again the call goes out to those stu-Again the call goes out to mose sud-dent members of the track standing committee who are expected to officiate at the meet. Please be there early. It should be pointed out too that all entrants must sign the eligibility list for track which will be available at the meet before they can compete

By Phil Shackleton

TODAY'S THE DAY . . .

After a very short two-week conditioning season in which every available moment has been crammed with signal drill, scrimmage, and just plain conditioning, the annual intramural rugby struggle gets off on its well-oiled way this afternoon at 4:15 when those long established arch rivels, Jr. Meds and Jr. School, line up on the Stadium field. That an organized league sport has been put into action so soon after the opening of the curricular year is indeed remarkable. Only through the very able management of Mac McCutcheon and his intramural aides could such a piece of work have been accomplished. And to the various team managers and coaches we say "Well done. The amount of work which has been done by you is tremendous." To the players we say "Play hard and play well. Your managers and your coaches have done their part. From now on it's up to you." To the students in general we say "Get out—support your team. The players are doing their best. It's your duty to get behind the boys, to turn out and let them know that you're interested." Today's the day. Four-fifteen is the time. Varsity Stadium is the place. See you there!

Now here's a team that's got what it takes. Last week it was announced that the No. 2 Army Course had entered the field of contestants for the Mulock Cup. But little was said about them and little or nothing has been made known about them.

little or nothing has been made known about them.

But yesterday afternoon we were talking with Bill Neale, who is acting as player-manager-coach for the newcomers, and now the story can be told. Overcoming their greatest difficulty the student soldiers are providing their own equipment. And we mean each and every one is somehow or other scraping up his own personal armour. Any team that anxious to play, deserves more than a passing glance when it comes to predicting a winner. For the determination of the players is, in our estimation, the most important factor in moulding a winning combination in any sport. We wonder if School or Vic or U.C. men would be willing to provide their own equipment under such a setup.

The Army team may have some difficulty in arranging their games

would be willing to provide their own equipment under such a setup.

The Army team may have some difficulty in arranging their games for their classes end each afternoon at 4:30. And since it has always been the custom to schedule intramural games for 4:15 it will be up to their opponents to give them a few minutes grace and to perhaps start the games at 4:45.

While they have, as yet, had no scrimmage, the team had considerable practice in plays and singals while taking their basic training at Brampton. They hope to make up in the scrimmage department before their first game, which will probably come late next week U.C. their first opposition.

INTRODUCTIONS IN ORDER . . .

The team is made up, for the most part, of former high school rugby players from all parts of Ontario and a few from the West. While at Brampton they were coached by their adjutant, Captain Casson, who is a former Varsity and Balmy Beach player, and up until a short while ago, teacher and rugby coach at Humberside collegister.

collegiate.

But coaching duties are now being handled by Bill Neale, who, as far as we can see, is the big brain behind the team. Bill, who was a member of Victoria's championship team last fall, plays quarterback. Jimmy Grierson, former North Toronto Collegiate star and member of the city's All-Star team in '42, is a chief power in the Army backfield. Don Howson handles the passing and kicking duties. He's from Lawrence Park and was also a member of the '42 All-Stars. Johnny Tamblyn is from Forest Hill and will soon be seen in the Army back-field. Harold Mather is their running back and hails from Peterborough. Pat Suddich is another of those '42 All-Stars, from North Toronto, and will play inside. Bob Shortt, from U.T.S., will play middle. Bob Nelson, from Scarborough, is their snap, and Doug Mossop, from Pickering College, is another powerful half.

Space, of course, will not permit us to mention each player now but we've got a dollar here that says you'll be hearing no little about the No. 2 Army Course rugby team before the Mulock Cup is won in '43.

The Sportswoman

By Betsy Mosbaugh

FAN FARE . . .

Which heading seems to sum up your still tired old Sportswoman's "Day at the Golf Course" yesterday. It can also herald the winnahs of the elimination rounds of the golf turney. It can likewise announce the final match scheduled for tomorrow afternoon in which six damsels will dig divots for the cup.

THE WINNAHS!

THE WINNAHS!

The match was quite representative of the various faculties and colleges with Lois Lloyd of Vie winning the low gross with a neat 90; Dorothy Sanders taking Trinity laurels with 113; Peggy Carrick carrying the day for U.C. by shooting 106; Jean Haig placing top in P. & H. E. with a 95; and Dorthy Ley representing Meds with a 99. These are the above-mentioned damsels who will battle tomorrow afternoon and whose golf would be well worth a look. So if anybody feels like spending an afternoon kibitzing they will be guaranteed all the concommitants which an audience gets. (???) The low net was won by Leone Eunson of Vic while the low gross for the 36 handicappers was won by Anne Corrigun of Trinity. Meds finally pulled through in the approaching and putting contest when Dorothy Ley won it from Peggy Carrick in a second round.

THE LOSERS . .

The Losers...

The only fact that marred the day was that 23 had signed and promised to play but only 13 turned out. This put not only the cateers but Sylvia Cadesky, the head of golf, in a very embarrassing position. Naturally the ten missing persons had to be paid for even though they weren't there to profer their four bits. It seems that we have been doing a goodly amount of criticism about lack of interest in sports but it is a disgusting thought to realize that women's athletics has reached the point where a supposedly intelligent girl volunteers to play the game and then leaves somebody holding the bag. Such a thing not only puts the University in an unfavorable light with the club but also speaks ill of any sense of sportsmanship. The evident remedy is that there be a re-organization of the athletic representatives and that they be superseded by people more interested in their executive positions. The duty of an athletic rep is not only to place a list for potential athletes to sign, but also to imbue a bit of spirit and interest throughout their college.

THE BACON . .

If you see a gal floating around with a rather autumnal corsage of war saving stamps, you'll know that you are beholding one of the much discussed winnals of yesterday. If you similarly note several smug, well-fed looking individuals doing the good old touch-your-toes-bend-your-arms-routine, you'll also know that they are "the campfollowers" who dispensed with the lunch of the absent ten. But even for those who didn't bring home the bacon the proverbial "walk in the counter" around an earthwisiasm that heides more friendly cames the country" aroused an enthusiasm that betides more friendly games in the near future.

U.C. FOOTBALL

U.C. football team report for short meeting Thursday, 12:30, at P. and H. E. locker room, Hart House.

U.C. TENNIS

A mixed doubles tournament will be held on the Annesley Hall courts beginning Monday next. Lists for men are posted in the Junior Common Room, for women in the Women's Union. Partners provided in case of need. "Come single, go home doubles tournament."

Variety of Plays Exhibited

MEDS' TEAM PROMISING

Junior S.P.S. won the opening rugby game of the season when they overran Junior Meds by a 12-0 score. It took the gold flashes the first half to solve the Meds defense but once this was accomplished they rolled downfield at will. Most of the scoring was the result of plays which hammered the line into subject to the scoring was the result of plays which hammered the line into submission. Some force seed were tesant or plays within nammered the time into submission. Some fancy end running by Robbins and Hamm, the passing of McCombe and the trained booting of Orr were the features of the game, along with Cleland's running and Stanley's heaving.

S.P.S. showed a well balanced variety of plays which educated interesting a property of their public educated interesting.

of plays which reflected favorably upo the coaching of Wally Sharpe. Their defense was a feature in itself while the backfield showed signs of being able the backneld showed signs of being able to hold their own. Meds, with only one practice under their belts, showed promise of rounding into a team to be reckoned with. The line took a terrific pounding and opened up large holes for the ball toters.

From the opening whistle the School team marched downfield but were unable to penetrate past the Meds 20. able to penetrate past the Meds 20, 185 through its rewind back of the line by Evans. On a blocked kick the Meds drove to the brief recital. School 10 but lacked the necessary power to carry them across.

In the second half the marked

superiority of the winners was exposed.
After Meds kicked off, S.P.S. moved the After Meds kicked off, S.F.S. moved the sticks on an end run by Robbins. A 20-yard pass from McCombe to Evans was finally stopped at the five. On the third play Robbins went over standing up. Spear converted. But the now well oiled machine did not stop there. McCombe threw another long one, this time to Recorder who was finally time to Bromley, who was finally brought down on the four as the quarter

The line held and Meds regained possession of the ball. On the first play Robbins intercepted a pass on the 22. McCombe moved the sticks on an end run and then Hamm went ov The convert was blocked. Meds open up with an aerial attack in a do-or-die effort. Staley was the artist but his efforts were to no avail for the final whistle went before they passed mid-field.

Praised by Wastenevs

Through the Art, Music and Glee nical courses of the University, Professor H. Wasteneys told the fifteenth Annual Dinner of the Committee of Hart House, held last night in the Great Hall, Over 100 committee members. both graduate and undergraduate, at-

Professor Wasteneys pointed out that History Club in Great Britain there is a greater demand for finer plays and music despite the blitz war. In this way, Hart House is more worthwhile then ever because has maintained its contribution to the Arts in spite of difficult times, he soid

Principal H. J. Cody addressed the nembers and paid tribute to Sir William Mulock, University Chancellor, who reaches the age of 100 in January His life, Dr. Cody stated, symbolizes the growth of the University since Sir William came here with the first class to graduate from King's College.

In paying tribute to Hart House, Dr. Cody reminded the members that it holds together each college and faculty as the whole University of Toronto through its many activities.

Vic Parliament Opens Tuesday

The Victoria Debating Parliament will hold its opening debate of the year in Alumni Hall Tuesday evening, Oct. 19. Chancellor Brown will read the speech from the throne, and of-ficially open this year's session. The subject for debate will be: "Resolved, that it is feasible to negotiate an Anglo-America-Soviet pact for the maintenance of the peace."

Prime Minister Glen Tennant and the Frime Minister Glein Lennant and the Minister for Foreign Affairs, Goldwyn French, are supporting the affirmative, and the negative is being upheld by the Leader of the Opposition, Barbara Mc-Nabb, and Finance Minister Alan Beckett.

Concerning the subject, Tennant said.

University Settlement Week-End Meeting Convenes Tomorrow

U.C. FIRST YEAR

All first year people must sign the lists for the Soph-Frosh banquet the lists for the Soph-Frosh banquer before the end of the week. These are posted in the U.C. Rotunda, Junior Common Room, Women's Union, 73 St. George, and Whitney

To Hear Munzer

Dr. Egbert Munzer, former minister of Economies in pre-Nazi Germany, and the university of Toronto, will address the Modern History Club on the topic.

After introductor talks by prominent of the people among whom the Settlment works. All students will be welcome. After introductor talks by prominent of the people among whom the Settlment works. All students will be welcome.

The Spanish Club of the University opened its season last night at the Women's Union with sing-song, dancing and an address on Spanish music.

Mr. de la Casa's subject was Spanish music and its history. He mentioned Albeniz and De Falla as being the musicians who contributed most Following Mr. de la Casa's snepch.

For Potential Officers

As you all know, University students are privileged because of their deferment from compulsory military of a type, and for a length of time, which is satisfactory to the District Officer Commanding. Probably you think this is a sort of necessary evil to make you pay to a certain extent for your privileges. However, this is not the purpose of the military organizations on the campus.

Most of you intend to enter the Armed Forces either upon, or before, graduation. Naturally, you hope to become an officer, and rightly so. If you have been trained in a technical course, you are equipped with some of the requirements of an officer in an applicable technical branch of the service. If to think, and develop facts to their logical conclusions, which is also a requirement of an officer. You are potential officer material, and the government recogmilitary training while an undergraduate.

There are very few really good officers who have never spent any time in the ranks. It is necessary for an officer to serve in the ranks so that he understands the reactions and feelings of his men in every circumstance. An officer who has never had to mark time needlessly for five minutes, will never realize how tiresome this is to his men. In addition, under the present regulations, an officer candidate must spend a certain amount of time at a Corps Training Centre before proceedings to an Officers' Training Centre. The length of time he spends at this C.T.C depends a great deal upon his previous training. If a candidate shows he has mastered such fundamentals as Drill and Weapon Training, and is a good soldier, besides showing evidence of qualities of leadership, he is posted to O.S.A.C. and O.T.C.

The fundamentals of basic training are taught, of the event. and taught thoroughly, in the U.N.T.D., in both battalions of the C.O.T.C., and in the U.A.T.C. in the music he plays produces an aura of conference many students who remark that there is a young man whose complete immersion appears the vision, with themes of dreamy impressionistic style. There are many students who remark that they are and regard it as a waste of time. The only reason these students do not learn anything is because they lesson taught is important, otherwise it would be omitted from the syllabus. There is an old adage The o

The purpose of drill is to train men to react instantaneously and without question to any command which may be given. Some day your life, and the lives of those under your command may depend upon this instantaneous reaction.

The military training organizations on the campus are here to help you, not to waste your time. It is in your interest to make the best possible use of You will be surprised how interesting and them. helpful the training is, even in civilian life.

May We Introduce

compass of a small four-page daily, or alternately casting about in anguish for something to put into the rag when nobody on campus seems particularly interested in participating in notable activities such as munching on the tails of poor little puppydogs.

With these feets in the case of the morning fixing her fingernails and hair and talking to all the other nice girls that worked there too.

With these facts in mind may we introduce E. Jean Southworth, News Editor, and her two faithful assistants, Elizabeth Serson and George Elliott. E. Jean comes to her present position after three service. However, the government has decreed that years' service to the paper and a number of summers all male undergraduates must take military training staffing a small town weekly. She served last year as Women's News Editor on the then double news department. She has been noted as a conscientious and co-operative worker, and above all as a demon interviewer who has never failed to snare the elusive celebrity and make it talk.

Liz is a Senior of three years' experience, who served last year as an assistant to the Women's News Editor. She early starred as a promising cub and last summer broke into the bigtime as a reporter on the Ottawa Journal. In Liz and Jean The Varsity has inherited a seasoned team.

George-or more frequently, since he is the you have taken an Arts course, you have been trained junior—"Hey You" Elliott, comes of an old Varsity junior—"Hey You" Elliott, comes of an old Varsity family, and is a bright boy in his own right, being equipped with flaming hair and no mean ability with words. A Sophomore, he has rapidly risen from the ranks where his record last year was nizes this. That is why you are required to take from the ranks where his record last year was distinguished, to become a man of some importance in campus journalism. In addition to his work on The Varsity he is Undergraduate Editor of the University of Toronto Monthly.

Theorem Of Beauty

Eaton Auditorium

Helmut Blume made his Canadian debut as concert pianist at Eaton Auditorium last night. What a pale picture that sentence paints of the epic nature

centration that almost negates the music itself. His not learning anything during their military training, technique is immense. In the Bach and Brahms with which he opened the program, he etched the thematic material in solid material line of the state of the distances on the trek. Finally there is thematic material in solid, massive lines. Then in the asper to conclusion, a passage of rest are not interested in the instruction being given. Yet Andante Espressivo of the Brahms he educed a some of those who are most disinterested expect some monolit calm which can only be expressed in Hilton's the same time. The piece is interesting, day to hold His Majesty's Committees. day to hold His Majesty's Commission. Every apt phrase of "a theorem dissolving limpidly into a

omitted from the synants. There is an oid adage which says "You have to creep before you learn to F Minor Fantasie, of which the less said the better, as background to a moving picture. which says "You have to creep before you learn to walk." This applies to the type of student we have mentioned.

Some will say "How about drill, why is it important?" Drill is a very important part of military training. When you are an officer, you are going to have to drill your men, and you yourself must know how to drill before you can teach them efficiently.

F Minor Fantasie, of which the less said the better. Chopin seemed crass in such company. Debussy's "Children's Corner" was pure fun from beginning to end. Mr. Blume seemed to revel in the fluid phrases from the late George Gershwin's folk of Doctor Gradus ad Parnassum, while the impresion istic Little Shepherd received full justice from his agile fingertips. Balakirew and Granados concluded how to drill before you can teach them efficiently.

Once upon a time there lived in a thriving and busy metropolis a little cheesecake who operated under the name May We Introduce

Today we reach what is theoretically the most glamorous department of The Varsity, the News Department. The people who constitute it are the campus counterparts of the be-eyeshaded city editor of the movies whose lash and shout sends reporters scurrying and sleuthing in all directions in response to anonymous and mysterious telephone calls.

Actually, however, their work in The Varsity News Room is an early morning job of either trying to gather all the threads of campus events into the compass of a small four-page daily, or alternately

One Saturday afternoon Powder City Flo danced merrily out of the shell-filling plant after punching her timeclock a lusty punch and hied herself to the railway station and onto the train for Grandmaw's place.

But evil eyes were caressing our fair Flo from behind the door into the

graceful and dynamic in execution. May there be more.

Donald Dickinson was guest artist at last night's Prom Concert, the last of

Perhaps the highlight of the program consisted of the two arias in French on the broadcast portion of the program. In Avant de Quitter Ces Leux, an ex-cerpt from Gounod's Faust, and in the rolling Chanson Bachique from Thomas' Hamlet, he demonstrated his exceptional ability to portray the spirit of serious music.

At the other end of the scale were three negro spirituals, all sung with a rhythmic gusto which captured the hearts of the entire audience. This proved a striking contrast to the beautiful but melancholy melody Hath Sorrow Thy Young Days Shaded. Another highlight of the program was

the world premiere of Paul Creston's Frontiers. Inspired by stories of the great trek westward, it consists of three

Following these the second part, with its discordant, harsh harmony, repre-senting the great struggle with all the especially the final movement, but the one criticism that might be directed at it is that it sounds too similar to the nnet."

The other half of the evening included the Chopin it is that it sounds too similar to the incidental music that one so often hears

smoker. These were the evil eyes of a gre-at, b-ig, ba-ad wolf. And whatta wolf! Long yaller pointed shots, big broad shoulders, ship white teth, gleamy eyes and a narrow hooked nose. Really sharp, Flo thought. Hmm? Oh yes. She knew he was looking at her. Ya get that way when ya work in a big plant like Flo.

rout?

ya onna kisser ["

"Awwww, now, ba-aby, I wuz onny bein' palite."

"Wellll, since ya ast me so nice . "WellIII, since ya ast me so nice . . . I'm going to see my dear sweet old grandmother in the next town. I have a pair of nylon stockings for her and two boxes of Kleenex I been hoardin' just for her."

"What's yer racket, pal?"
"Why I am a welder at the ship-

"Garn!" screamed Flo, "Dya know my dear old grandmaw?" "Whatsher name?"

"Susie Splitwasher-The Fastest Girl

Idele Wilson of the Workers' Educaes. She knew he was looking at her, a get that way when ya work in a gip plant like Flo.
"Hiya babe? Whatcha doin' on this but? Hnumm?"

The Sud at the Opening meeting of the Student Labor Club Monday night at 8 o'clock in the Women's Union.

The Student Labor Club was founded "Shaddap, mallet-head, else I bust last year for the purpose of viewing the problems of labor, the interational situa-tion, and the relation of university stu-dents to these matters.

Last year the club was instrumental in seeing that the Student-Staff meetgrandmother in the next town. I have a pair of nylon stockings for her and two boxes of Kleenex I been hoardin' just for her."

Flo gently lifted her false eyelashes from the scat beside her so her new travelling companion could sit with her. "What's yer racket, pal?"

"Why I am a welder at the ship-"

"Why I am a welder at the ship-"

Flo paces up and down.

Will Powder City Flo save dcar old grandmaw Courtney? from the clutches

Grandmaw for her roll?
We're willing to bet, though, even money, that Powder City Flo will get a job in the shipyards and start boring within. Courtney will desert Thus it was that our little heroine Flo learned that Courtney Countersunk, the wolf, was making advances on her dear old grandmaw. And so we find the trio seated about a rickety card table in grandmaw's apartment. Grandmaw is flexing her biceps for Flo. Flo is all agog. Courntey is hovering over Susie, haking whistling noises through his teeth at her. Grandmaw is oblivious. Flo is worried. Courtney is confident.

RUGBY ROLLING ...

Intramural rugby is under way again. And Junior School has hoved into first place of Group II by virtue of the first and only win of the season, a 12-0 decision over Junior Meds. Strictly speaking the game was no spectacular contest but the short training season and the traditional 'opening game is never anything to write home about' excuses are being accepted by this department.

The Meds team is sadly without condition and the players and their plays seem to be barely on speaking acquaintance terms. Reason for this sad state of affairs lies in the fact that the Medicinemen have had but one practice—barely time to get to know one another.

The Schoolmen worked as a much better machine. In fact those long forwards by McCombe caused Meds' downfall yesterday. The team is built on a foundation of a half dozen of last year's players, although the starry players yesterday were all newcomers to the Junior School line-up. McCombe, Orr, Hamm. and Spear pulled off the greater part of the effective ground-gaining plays to prove themselves an their first appearance in School sweaters.

Meds line-up features notably two veterans from last year's squad, Cleland and Clement in the backfield department, and newcomer Stanley who passes a slick piece of pigskin.

THE CHASE???

using THE CHASE???

So the men are demanding horse suffrage? So they have to use a new the so on very subterfuge of a Champus Cat to promulgate their ideas? So they want to horn in on our riding club? What about the centaurs? What about the Wife of Bath in Chaucer? For whom was the side-saddle Young made? To all this we only add the following:

Our riding club declaration

Is not a feminie declaration.

But female equestrians
Oft become pedestrians
Oft become pedestrians.
But perhaps there is still a spark of chivalry left on this campus. If this were so a spark plug wouldn't be amiss. But after that, we'd better go on to tennis.

COURT NEWS . .

For the first time since the beginning of tennis at the University there will be a mixed doubles tournament for U.C. They will start around the same time that the interfaculty is scheduled which, according to the latest news, is Monday next. Place all your entries with Ruth Margesson at Hutton House and she will get in touch with you before the match. Practically all the colleges and faculties have decided on their six seeded players and have promised publication of the names in Monday's issue. near on the Amestey Hall courts be-ginning Monday next. DEADLINE FOR ENTRIES-SATURDAY 12 NOON

First Soccer Tilt Closely Contested

The soccer season opened yesterday on the tack campus as Meds first team took a closely contested 1-0 decision over Dents. The game was remarkably close to scoreless for a contest so early in the season and even at that it was not until the last three minutes of the final half that A. B. Antoni slipped the ball into the Dental net for the only

core of the game.

The Meds team, supported by veterans like Delaney, Mikaido, Wilford, and Spooner, were on the offensive for the greater part of the game and kept the ball in Dents' territory for practically

than last year's, made up mostly of fresh talent. Boroditsky perhaps might be singled out as one of last year's players doing well for himself and his team again this year.

Killed by Enemy Action

The death by enemy action at Regalbuto of Capt. George Turnbull White-law, Library School class of 1940 has recently been announced. Prior to his enlistment in the 48th Highlanders in August, 1940, Capt. Whitelaw served on the staff of the Oshawa Public Library Highlanders in young boys. on the staff of the Oshawa Public
Library. His interest in young boys
led him to organize the Library of the
Toronto Kiwanis Boys' Club. Shortly
after his enlistment he left for service
in England. Concerning him, his company commander, Major Ian Wallace,
wrote: "George Whitelaw was undoubtedly one of the finest officers I
have ever met and was responsible to
a great extent for the outstanding
reputation which the company has won
in this campaign."

Optometry welcomed its Freshmen at
a banquet at Diana Sweet last week,
Dean J. C. Thompson impressed the
Freshmen with the values received from
school life. He repeated a favorite old
definition of education, being, "That
which is left after you have forgotten
everything you have learned." Major
Dennis Snell of the class of 3T2 was
welcomed back to take a refresher
reputation which the company has won
in this campaign."

and sway in the Great Hall and in the will deliver the introductory lecture and Prof. K. S. Bernhardt of the De-Human Factors in Prevention, Nov. 8

Students Service will sell tags at the dance; but on this occasion, the purchasers' names will be taken and a \$50 Victory Bond will be raffied. The I.S.S. feels that this should provide greater incentive to buy a tag and customers will receive something tangible for their goodwill.

Library School Graduate

Human Factors in Prevention, Nov. 8. Commencing tomorrow evening the University Extension will conduct a series of lectures on Traffic. These will also be held in the Economics Building. In the first lecture, W. J. Rac, of Lever Brothers, Ltd., will discuss the importance of the traffic manager. D. B. Wallace, of Canadian dan Nov. 2 S. B. Brown, Canadian Manufactures' Association, will conclude the series, speaking on Government.

These lectures are open to all citizens of Ontario on application and the presentation of a small fee.

TOWARD VICTORY

Today begins the nation-wide campaign for raising the fifth Victory Loan and giving the periodical much-needed financial support to the War Effort of Canada. This appeal is made to all Canadians, young and old, poor and rich. For the successful prosecution of the War, our country is called on to give men and women, money, munitions and material supplies; and these she is giving in large measure.

Over 7,000 of our graduates and undergraduates have joined the Active Service Forces and already more than 100 have given all that man can give-life itself. Some of our number can give but little money; others of the staff and students can give something. Really we are not asked to give money, but Over 7,000 of our graduates and undergraduates have joined the Active to lend it on the best of security. These loans will be a valuable asset in the days of readjustment after the war.

In raising Victory Loans in the past this University has a good record.

I am sure we shall maintain or even sureass it in the present effort. The Allied upon the feet, "Dr. Cody remarked that

Year's Plebiscite Favouring Political Science Course for Engineers

STARTED THURSDAY

"Every Engineer is by nature an economist" is a phrase the late Dean Mitchell never tired of emphasizing to his hearers. His contention is now bearing fruit as fourth year Schoolmen begin a lecture course in "Current Economic and Political Trends," given a sound philosophy of life, and a noble by Prof. L. T. Morgan, Associate Promorality. The text, he claimed, was a call to self-respect and to confidence in Faculty of Arts. The first lecture was consected in others and in God

V For Fifth

Today the Dominion's Fifth Victory Loan drive This University is expected to make a big contribution, and it will. Most of the bonds bought to make up the University's quota will be paid for by members of the various staffs. Students as such are not expected to buy bonds. Those of us who have let the Fifth Victory Loan drive pass us by without giving it much thought.

Some of us will take an actual part in promoting the sale of bonds, there will probably be a parade in which our training units will march, and some of us may be able to buy bonds. But there are other things which we can do. A large number of us

The progress of the war today should lead Cat or a Hither this person must supply one. us to think of ourselves as reserves of the nation and the cause training for the fight which will begin unsympathetic academic ears, strengthens this view. never before tackled on this campus.

The crucial point of the great world struggle has the directing power, it will be up to the reserves now the coming of the Fifth Victory Loan the students of Canada may draw inspiration for their task from the symbol which stands not only for Five, but also for ictory which will be their to maintain in wisdom. skill and humanity.

School!

School, S.P.S., or, more properly, the Faculty of Applied Science and Engineering is a rough, tough and long slide rules who hatchet the humanities at least year in spite of threatened interference by the every turn with a craftily swung T-square. If you don't believe it, just ask anyone. Despite the efforts of competitive Frosh and some Sophomore agents provocateurs to perpetuate this view the tough old halls of the Little Red Schoolhouse and affiliated buildings have always harbored a surprising number of people who appreciate the finer things of life.

It is sometimes a shock for Arts students to meet numerous School men on street cars headed for Hart leaves and the street and was considerably enhanced by a repetition of the sort of third act introduced by a repetition of the sort and nasty place full of people of practical natures

Our Myto.

essential personality of the Engineering Faculty on this campus. As a matter of fact between the raucous shouting and the general trend toward a broader culture amongst Engineers there is a definite and vital character which operates continuously and forcefully in campus life.

To student politics, for instance, the Engineers ing much more than a loud noise. They bring to bring much more than a loud noise. every conference table at which they sit the scientific attitude allied with a practical approach. A large, young and vociferous faculty, the Engineers have not always lent unanimity to campus opinion. Where they have differed, however, they have generally held to their opinions to the last, because an Engineer is accustomed to making sure of his position before

putting himself on the spot.

To Intramural Athletics the School men bring not only numbers, but an amazing spirit. For proof we refer you to their activities as they are being and will continue to be recorded on Page Three throughout the year.

As a faculty of Applied Science School has naturally been in continuous process of change as science has developed and been applied. Perhaps one of the most crowded of faculties, despite the number of buildings it possesses, Engineering looks forward to great expansion following the war. Along with this there is a gradual change foreseen in its curriculum featuring broader training in engineering fundamentals and a greater place for the liberal

arts in the lower years.

For the present the Engineering faculty in concentrating on producing skilled personnel as fast as a size possible without acceleration. Reference to the Dominion Government was made early in the war on the subject of speeding up the curriculum, but military and technical men in Ottawa advised against in the war with the control of the reders and its newpoper at horse, the second its newpoper at horse, and the results of the received the second its newpoper at horse, and the results of the received the second its newpoper at horse, and the results of the received the second its newpoper at horse, and the results of the received the second its newpoper at horse, and the results of the received the second its newpoper at horse, and the results of th the money will be needing it before the term ends it as preventing the acquisition of valuable "clinical" it has turned instead to a question of pay fees, therefore we who are in a somewhat experience on holding projects. Less publicized than privileged position in a nation at war may be inclined to let the Fifth Victory Loan drive pass us by at present being undertaken to find the research of the Vorsity and its staff? present being undertaken by faculty members. Most of these remain merely numbers and may not appear in print even though some have resulted in successful actions against the enemy.

and forecast the most astonishing

It is October, 1963. The scene is the familiar Hart House Office of The Undergraduate Newspaper, traditional home of the Editor and his evil com-panions. And seated alone among the debris of apple-cores and party-posters is a familiar figure, Hexx Nillson, erstwhile ace cub-reporter of The Var-He is chewing distractedly an a pepsi-bottle and peering glumly out the window at the dank and dismal autum-

"Gawsh," he mumbles to himself be-veen hicupps. "Alone. All alone."

he says bravely. "The presses must roll again tonight. Let's see, now, must write some editorials—that's easy; I kin scalp 'em from the Christian Science Monitor. Must write a Cat - that's easy; I'll just look through these back files. Must write a front page—that's a little harder, what with there ain't no stoodents left on campus and all. files Oh well, I'll worry about that down at

the Press."

And so saying, he begins lugubriously to copy out an editorial from an old 1957 copy of the Monitor. Surely by now you have guessed what

has happened to the illfated Hexx. Two decades before he had been frozen in his job by a National Selective Ser-vice ruling. "An essential journalist," vice ruling. "An essential journalist," they called him wryly. But all his staff were ruled non-essential, quite justly, and were drafted. That was bad enough; but a worse blow fell when all students on the campus were drafted the armed forces and war industries.

Nillson was left on a deserted campus. But he had to carry on-the Govern

But he had to carry on—the Government had told him so.

So year in and year out he faithfully produced The Varsity, 100 issues a year, with news stories and editorials and hithers and cats and sportswomen and all. He wrote the copy, took it down to the press, night-edited, linotyped, handset the headlines, and then brow-bcat himself when an issue was late in

St. Mikes Squad Rain Prolongs Trounce Trinity Tennis Tourney

Friday's Game and Ball Is Slippery; Turner of Trinity Injured in Third Quarter

YOUNG IS ST. MIKE'S STAR

YOUNG IS ST. MIKE'S STAR

The second game of Varsity's intramural football season Friday afternoon brought a 13-0 win for St. Mike's over their traditional Trinity rivals. The game was played before a good sized crowd and in true football weather with rain during the latter half of the game. Young, a freshman at St. Mike's, put on a terrific show, easily the best performance seen on the local grid so far this season. His running was spectacular and kept his Trinity rivals on edge throughout the game. St. Mike's tackling was good, Rocchi in particular doing a lot of heavy work. Tim Turner's kicking and running before he was carried off the field in the third quarter and Lambert's fine all round display were glowing features for Trinity.

The first quarter, although it pro-duced no scoring, revealed some flashy football by the Gaels who moved the sticks four times. Their faulty ball handling at opportune moments resulted in two fumbles with Trinity recover-

in two lumbles with Trinity recovering both times.

Catching a Trinity kick on his 15,
Young battled his way through his
rivals until he was finally brought down
on his 48. An end run and a lateral,
Flaherty to Mancini, went for 15 and then Young again plunged, this time gaining 12. On the third down Teows kicked and Rocchi charged in fast to catch Turner behind his line for a

On the first play of the third quarter, Turner's knee gave away and he was carried off the field. St. Mike's drove deep into their rivals territory but wer forced to kick when the stout line held. This resulted in a kick to the deadline by Agro. A few minutes later Agro repeated, this time after Young had blocked a Trinity kick close to their own line. Gathering in the ball after a kick, Young ploughed his way through for 20. A Flaherty to Man-

chrough for 20. A Planetry to Man-chin forward was good for another 15 and Young went over from the 8 on an end extension. The convert was wide! In the final quarter Mancini inter-cepted a pass on Trinity's 35 and was finally brought down heavily on the 15. Flaherty made 8 on a line buck on the next play. A forward from Agro to Rocchi brought St. Mike's their second major score. Again the convert was wide. The game ended with a be-wildered and a disorganized Trinity

Tranty—Lambert, Turner, McDonaud, Carter, Gall, Pashler, Elliott, Mathews, Clarke, Shepperd, Kingston, Stevenson, Mcdonald, I., Grant, Baker and Clarke. By Phil Shackleton

While the athletic program hereabouts has but settled itself compositions of the autumnal complications involved in such stremous exercise as rugby, soccept, track, and the like, news has filtered to our editorial ears concerning the opening of hockey training camp for Toronto's 1943-44 N.H.L. entry. And wafting from St. Kitt's way is a communique breeze which reveals the names of three of Varsity's sons who are seeking the trite fame or fortune or both as members of Hap Day's brood.

Perhaps I should say two members are seeking said positions since Jack McLean, now an S.P.S. sophomore, made his debut as a Leaf last winter. And a highly successful debut it was too. But this year there are two Varsity men, Windy O'Neill and Frank this year there are two Varsity men, Windy O'Neill and Frank at wing position. Dunlap however was not satisfied with one league alone and after St. Mike's had completed a none too successful season he moved to Oshawa's team in the C.A.H.A. series play-offs. Dunlap was from there on the star of the Oshawa team as he paced them to the Provincial and then the Eastern Canada title. Winnipeg however turned back the Generals in the Dominion finals.

At any rate Dunlap was ints about toos in the bockey field at

then the Eastern Canada title. Winnipeg however turned back the Generals in the Dominion finals.

At any rate Dunlap was just about tops in the hockey field at Varsity last fall and is easily rated beside McLean, who has already won his Leafian spurs. Which means that St. Mike's can probably bid a hasty good-bye to two of their top O.H.A. players.

Bobby Copp, whe held down another Leaf berth last season while a fifth year dental student, has since graduated and joined the Dental Corps.

The Sportswoman

FINIS . .

FINIS . . . Another leaf was added to the history of interfaculty golf on Friday when the winners of five different colleges played off for the cup. Such a score is no mean feat, as par for St. Andrew's is 79, faculty as she swung through the 18 holes with an 89 to carry off the cup. Such a score is no mean feat, as part for St. Andrew's in 79. Lois Lloyd of Vic came in two strokes below Haig with a 91. Both gald displayed strong drive but Lloyd's approach on the last nine cost her the two losing shots. Peggy Carrick of U.C. holed in with 106, while Dorothy Ley of Meds finshed with 112 and Dorothy Sanders of Trinity had 122. A drizzle in the middle of the match slowed up the greens considerably but with the good old die hard golf spirit the match was carried on without a stop. Helen Taylor, an up and coming Sportswoman who reported the game, made special mention of the amazing versatility of the gals on the fairway and out of the stand trap. stand trap.

THE BEGINNIN' ...

While finis was being written to the golf tourney, the tennis fensive work of the United theologs finals were being played off in the various colleges in preparation for the interfaculty games which begin on Wednesday. Incidentally, the mixed doubles seems to be arousing interest. If you want to sign up for it, it isn't essential that you have a partner. Just send in your mame to Ruth Margesson at Hutton House, Mi. 3482. She has to an eye injury. Seven stiches were what might be termed a date bureau and will arrange for a tenuis needed to close the gash above his left partner. There need be no worry as to the quality of your game as for the time being the head of tennis is interested more in quantity and in seeing how many will turn out from U.C. through the stonewall line of the Gaels
Trinity—Lambert, Turner, McDonald,
and in seeing how many will turn out from U.C.

Marie Lustig, who has encouraged interfaculty baseball, has presented us with a schedule which will appear tomorrow. Likewise the basketball schedule will appear. Today in the realm of baseball U.C. is to play Vic at Vic; St. Hilda's is to play P.&H.E.'s first team at St. Hilda's. Basketball games start in two weeks and Jean Barnhart specifies that each team must bring their own basketballs with which to play.

Friday and Saturday; Semifinals and Two Championships Scheduled this Week

QUARTER FINALS COMPLETE

The interfactuly tennis tournament was further prolonged this weekend when three of the six matches scheduled for Friday and Saturday on St. Hilda's courts were postponed until the fol-lowing week. With the decisions of the other three, however, the quarter finals of both tournaments have been con-cluded and the semi-finals are well

under way.

In the singles tourney, Scott of In the singles tourney, Scott of P&H.E. took a closely-fought decision from Ian Morrison of U.C. with a score of 8-6 and 9-7. U.C. took another tumble when Mel Jones of Trinity upset Young in the first match of the semi-finals by easily taking the required three sets out of five at 6-2, 6-2, and

three sets out of five at 6-2, 6-2, and 6-3. This latter victory guarantees Trinity a considerable number of points in the Reed Trophy contest, for Jones is now ensured at least second place.

The sole match of the doubles tournament was won by Skinner and Brown of U.C. who defeated Fremes and Hendra, also of U.C. after three sets at 4-6, 6-4, and 6-3.

The doubles matches of Skinner and Brown vs. Young and Smith and Feyerer and Patzalek vs. Jones and McGraw which were scheduled for Friday at 3 p.m. were postponed because accurate winter were seneutiated for Fri-day at 3 p.m. were postponed because Jones and Young, who had just finished their singles engagement, were not in condition to play another. Rain on Saturday postponed the remaining singles match between Feyerer of Meds and Scott of P.&H.E.

These semi-final contest and the two championship matches will be held this week. Dates and time will be announced in The Varsity.

No Score as Emmanuel Meets Knox in Soccer

The theological group in soccer got under way Friday on the back campus as the Knox eleven were held to a scoreless draw by the Emmanuel team Both squads showed some fine team-work and it was only the good de-fensive work of the United theologs

ART, MUSIC & DRAMA (Continued from page 2)

Hicklin, this year's Bob director, has suspect, however, that the success of such productions as Le Fils Prodigue danced in this year's Bob by Les Ballets de Longbranch are strongly dependent on the dynamism and grace of the premiere ballerina, Yanka Stedyum, as impersonated by Hicklin.

The first two acts, heckling in turn the staff and the Frosh of Victoria, were as usual, written on the afternoon of the performance and showed it— and that's half the fun. It was unfortunate that's half the fun. It was unfortunate that there were so many attempts made to pilfer material from our favorite radio program, Mirth oud Modness, for although the flattery was sincere, the east of the Bob lacked the experience and pace of Messrs. Kirkwood and Harris.

Most appreciated entracte of all was the singing of the Bob quartette who added eight new verses to the traditional Bob song for the edification of the Frosh and the amusement of all.

For once the Freshmen class did not shout down their supposed superiors the Sophs, but they made a spirited attempt and had the bout gone on longer might to whom uniform has been to whom uniform has been the Sophs were definitely on the wane at curtain time. The Frosh deserve 6. PROCEDURE FOR DEFERMENT OF MILITARY "CALLS"

The year than ever before. He also ex-pressed his pleasure at seeing so many adult students in the Conservatory this aguir students in the Conservatory this year. He concluded his remarks by saying, "This is not the end but the unfolding of your careers—from among you may come many great musiclans," and added that the graduates now assume the responsibility of making sure that mutic is considered.

that music is spread.

The Reverend Alexander MacMillan, D.D., who this year received the degree Mus.D. honoris causa, delivered the main address of the evening. Highlights main address of the evening. Highlights to make it possible for students to take part who would not have time for several rehearsals.

A practical demonstration of this idea was put on, when students were asked "Some of you," Dr. MacMillan said, "may go on in this University to take Music. You have a long way to go because the realm of Music is vast." He explained that this involved some courses not directly allied with Music but that it is desirable to have musicians who are people of broader culture as whell. Dr. MacMillan said that when the graduates go on to study the history of graduates go on to study the history of music, they would learn first of the fundamentals of music drawn from Nature herself, the waterfalls, the waves, the birds. He referred to the music created by man, the folk songs. "We in Canada," he said, "may pay great attention to the folk-songs of French-Canadians, the Russians, Poles, the Scandinavians and the Germans who have brought these songs to the New World in their hearts."

He pointed out the extreme range in the subject of the story of Music, start-ing with the inarticulate noises of nature (Continued on page 4)

NEWSFRONTS

condition, not only for the sake of the students of today, but in order to be prepared to meet the peacetime demands for these channels of activity.

Mary Ellen Fenwick, Social Director, announced that this year it is the inten-tion of the executive to arrange monthly meetings, at which readings of one act plays may take the place of the Alumni Hall presentations formerly produced from time to time. This being done to make it possible for students to take

Students Should Notify Directory of Address

The University Directory, a record of the names and addresses of the stuof the names and addresses of the stu-dent body, is scheduled to appear about the middle of November, the University Registrar amounced yesterday. Thus far, many of the out-of-town students have not advised the proper authorities of their Toronto addresses. It is reof their Toronto addresses. It is requested that these, and those students who have any change in address, do so immediately. Both the Registrar at Sincoe Hall must be notified. It is to your advantage that the correct information appear in the Directory.

The Opening Gun

It is with great interest that we await the opening tonight of the Victoria College Debating Parliament and its treatment of the subject-"Resolved: that it is feasible to negotiate an Anglo-American-Soviet pact for the maintenance of peace." The Vic Parliament has a long line of interesting and wellfought debates to her credit and her members have always ranked high in University debating circles. Undergraduates who have had the pleasure of listening to or participating in Vic debates will need no urging to find their way to Alumni Hall tonight. To the uninitiated we say, if you like debating and are interested in the problems of Russian alliance you will find it a stimulating evening at Vic.

Debating has always been a popular activity on the U. of T. campus. Each of the four Arts colleges has its debating society as do many undergraduate clubs. These societies stimulate student thought and provide opportunities for regulated discussion of current problems or controversies. Subjects are predominantly political, indicating the university student's lively interest in the outside world and its problems.

The University suffered a sad blow when it was deemed necessary to discontinue the Hart House Debates for the duration of the war. These fulldress debates, which had become known throughout Canada and which were carefully reported by the downtown press, formed a great contribution to the intellectual life of the undergraduate world. these debates men from all corners of the university met on a common floor to discuss questions of immediate interest to the future citizens of Canada. The Hart House Debates were a great unifying factor in the University. Today their empty place is not filled but rather emphasized by the sectional groups which carry on despite the war.

The subject of tonight's debate is a particularly in groups, whenever the presses roll. Every student will have his own opinion of the feasibility of such a peace pact. It is the object of the Vic Parliament to offer two well-studied sides of the subject and then throw the question open to the floor that each listener may add his own ideas to

graduate course offers approximately one year of training for a vital position in civic day nurseries.

The course has the double advantage of being popular and constantly expanding field. The need more ond more trained workers for nursery schools was first brought out in England in the early years of the war. There schools were set up and nurseries staffed in an amazingly short time. Their progress was closely studied by members of the Toronto Institute of Child Study.

There is immediate need for trained workers here in Canada today to staff the war-time day nurseries but the Institute course has one eye cocked to the future when day nursery schools become a regular feature of the post-world world. Women taking the course will be trained for a permanent career, not merely a war-time position. The Institute of Child Study opens a new door for the would-be career girl and offers her an interesting and highly useful future.

May We Introduce?

The CUP department of The Varsity is your link stricken with a disease that has never with other campuses on this continent. The job of before been encountered. Commenting the editor and assistant is to send, receive and edit on this discovery, Dean O'Malley said the editor and assistant is to send, receive and edit the copy which flows over the wires of the Canadian University Press and cull from the pages of Canadian and United States exchange papers such items of mane to it yet. We're getting around general interest as they may contain. Their hands to that," he added.

It all began a week ago when J. Q.

It all began a week ago when J. Q.

It all began a week ago when J. Q.

It all began a week ago when J. Q. type (CUP).

you outside news, and whose sleep is menaced nightly by the possibility of jangling telephone bells summoning them to take down a wire report, are Janet Bryce, CUP Editor, and Barbara Jones, Assistant CUP Editor. A Vic Senior, Janet succeeded to her present post after two years with The Varsity, the last of which she spent in the Assistant CUP post. She brings to the job experience gained the hard last year assisting Harriet Leigh-Mallory in what is probably been the busiest year the department has ever seen on this paper.

Barb, or "Jonesie," her assistant, has also served The Varsity for two years, and started working in the CUP department the middle of last year. She is also from Victoria College where she is pursuing or being pursued by studies in the third year of the English Language and Liturature Course.

John Coveart, Gold Medallist A.T.C.M., opened timely one. The problem of Anglo-American-Soviet relations is being discussed wherever men gather of the Three Oranges." It was closed by the Three Oranges." It was closed by the Three Oranges to the Three Oranges to the Three Oranges to the Three Oranges. of the Three Oranges." It was played brilliantly and well and the stacatto friskiness of the piece was maintained to an abrupt but majestic finale. This was followed by Debussy's Arabesque No. 1. Mr. Coveart executed this selection, which has the familiar ethereal fluidity of Debussy, with fine feel-

New Appointment At Varsity Press

Dents And St. Mikes Tie In Football Clash, 7-7

Bill Young, St. Mike's Star Half, Injured in First Quarter of Second Game of Series; Extent of Injury Unknown

GAELS FIRST TO SCORE

Playing their second game in the intramural football league, St. Michael's were held to a 7-7 draw by a surprisingly fast stepping Dents team at the Varsity Stadium yesterday afternoon. The tie may prove to be quite an expensive one for the Gacls for their flashy half, Bill Young, was carried from the field late in the first quarter. The extent of his injuries are not known.

known.

St. Mike's set about from the opening whistle in pushing the Dents downfield, which one ned up whistle in pushing the Dents downfield, featuring the line-work which opened upenormous holes for the backs. The first aerial play of the game came when Agro threw a 30-yard pass to Rocchi who stopped on the 8. On the next play Flaherty plunged for the touchdown. The convert was blocked. A half-blocked St. Mike kick gave Dents the possession of the ball on the Gae? 20. After an offside pass, Castalid

play Flaherty plunged for the touchdown. The convert was blocked. A
half-blocked St Mike kick gave Dents
the possession of the ball on the Gael's
20. After an offside pass, Castalid
icicked and Agro was tackled behind the
line for a single.

In the second quarter Dents moved
the sticks twice but lacking power in the
needed spots failed to capitalize on them.
The comedy of offsides took over in
then second half. First one team and
then the other were set back for overanxiousness. Steadily Deeps advanced
downfield against a stubborn St Mike's
line handily aided by two fumbles.
Catching a kick on St. Mike's 15,
Castaldi reversed to go over the line
standing up. Murray converted.
In the final quarter a Teolis-Kelly
pass ended on the Dents' 30. After
two fruitless bucks Kelly kicked to the
deadline for one point. With three
minutes to go and trailing by a point,
Markley Westerly Montavailla and
Cooney.

U.C. MEN AND WOMEN

By Phil Shackleton

TRICOLOUR TOO ...

TRICOLOUR TOO...

McGill, as we reported some weeks back, hase entered a rugby team in the QR.F.U., and are now preparing for their season opener with the local Navy squad. But now comes news from Kingston that the Tricolour of Queen's is also in action. Our neighbouring university last Saturday turned back the Vimy Signals in the Kingston City Football League.

Coach Bob Elliott has drilled his team into first rate condition in the last few weeks and the game showed results—but good. The students hit the Vimy soldiers for four touchdowns in all, holding their opponents to a lone and unconverted major. Jounalistic opinion had it that condition was the chief factor in Queen's win.

This, then, is the situation. McGill has a team entered in the Q.R.F.U. Western has a team which is playing (and winning) exhibition games with any local teams willing to compete. The U. of Manutoba in Winnipeg' is playing exhibition games. The same goes for the U. of B.C.

All of which leaves Varsity pretty well in a class of its own. Now it's all very well and quite understandable that any college should like to be different. But this is no department to exercise such opinion. If other colleges and universities can raise and support wartime rugby teams, then surely this University can at least attempt to do something similar. What about it, Varsity?

SMITTY DID IT... on the open different. But this is no department to exercise such a such

SMITTY DID IT ..

It seems that the source of information which yesterday inspired our usually accurate and meticulously prepared column was somewhat undependable. That deep well of sporting knowledge, Mr. Smith, of grads who wish it, a chance to keep the so-called essential managing department of this publication, is the physically fit by means of exercise, nefarious party who provided us with the faulty lowdown on the status of one, Mr. Dunlap, hockey egg about to hatch in the Leat's training camp. And it seems further that the deeds yesterday credited to the said Mr. Dunlap actually should be rum as a personal biography Cutcheon of the Athletic Staff.

All members of the faculty and graduate students are livited to attend.

The boiled down result of all this confusion is that I am expecting

The boiled down result of all this confusion is that I am expecting The boiled down result of all this confusion is that I am expecting a signed and beribboned apology from the now infamous Mr. Smith. To Dunlap, Bennet, and to any others involved unfavourably in yesterday's columnal fracas, we extend our apologies. It's your move, Mr. Smith. (Managing department note: How did we know there were two Frank's at one University—and just try to get us to write an S.O.S., Shackleton—JUST TRY!)

RECORD REGARDLESS .

pass ended on the Dents' 30. After two fruitless bucks Kelly kicked to the deadline for one point. With three Cooney.

minutes to go and trailing by a point, the Gaels seemed doomed to defeat. Hambley, Marshall, Whitley, Titanic, the Wowerer a bad snap by Dents ended up behind the line where Green recovered but was rouged by Rocchi be-

IT'S AN ILL WIND . . At U.B.C. a little fresbette got caught in a Frosh serimunge and took at gip in the little. The orderly officer at a well-known army camp was going his rounds and stopped at one table with the usual query: "Any complaints?"

Somebody jumped up and said, "Yes Sir; this tea tastes like chloride of time."

The officer took the mug and a side the side of the sounds and stopped to the states of the side of the sounds and stopped at one table with the usual query: "Any complaints?"

Somebody jumped up and said, "Yes Sir; this tea tastes like chloride of time."

The officer took the mug and a side that the side of the sounds and the side of the sounds are the side of the sounds and side of the sounds are the side of the side of the sounds are the side of the sounds are the side of the side of the side of the sounds are the side of the si query: "Any complaints?"

Somebody jumped up and said, "Yes sore of lime."

Sir; this tea tastes like chloride of lime."

The officer took the mug and snifed its contents, then sipped delicately.
"Nonsense," he pronounced, "THAT'S CARBOLIC ACID."

Something is a need that it is a proper to the firm out of the country and to the British Ministry of Information. Additional scenes were made in Hollywood for the picture.

SOPH-FROSH PICNIC WAS

MISHY ASSETTION TO THE SIDE OF THE SIDE O

The film begins with a sober and simple prologue given by Charles Boyer. The picture itself, which begins in 1870, retains this simplicity throughout. It tells of the fortunes of three generations of the Froment family. Papa Froment is killed in the Franco-Prussian war leaving his children to grow up alone. Between this war and that of 1914, the film deals with the that of 1914, the film deals with the times in the "Paris we all know and prefer to remember." A grandson of Papa Froment is killed in a fying ac-cident in the last war. From the Armistice of 1918 to 1939, the picture tells of the fortunes of the Froment family. Christian Froment, great-grand-son of the first Froment to die fighting the Germans, is called up and the pieture winds up with the older people in the story remembering two wars and praying for the safety of young France in this present war. Without any knowledge of French

actors and actresses in the pieture out-side Charles Boyer and Michele Morgan, it is easy to understand what

alongan, it is easy to understand what the producer meant when he said the cast was "unbelievable."

In co-operation with the Fighting French Committee, the film will be premiered beginning Thursday, Oct. 21 at the Eglinton theatre.

plete approval from provincial and cleric authorities in Quebee. It is ex-pected to prove of great uplifting value

Interfaculty Track Meet To Feature Two-Mile

The senior interfaculty track meet

The senior interfaculty track meet gets under way sharp at 1:30 tomorrow afternoon with the low hurdles and the discus throw heading the program parade. The various sprint events as well as the distance events have been separated on the program so as to ensure a specialist to enter more than one event in his field.

Hee Phillips has announced that the winner of the two mile race, new to the program this year, will be credited with the interfaculty record. The winner's name will be added to those already on the record board high in the Hart House gym. This extra appeal is expected to make the two mile the feature event of the day.

feature event of the day.

All competitors must sign the eligibility list in the Athletic Office today at the same time as they list the event at the same time as they list the events in which they expect to compete. Num-bers will be issued in the Office upon signing the eligibility list. Athletes are warned that their faculties will be heavily penalized if they fail to sign the required form.

Sportswomen

By Belsy Mosbaugh

'TIS FOLLY TO BE WISE!

Since the Sportswoman is an allinclusive column, we cannot refrain from saying a few words about that athletic production annually kicked off by the eds and co-eds—the U.C. Follies.

The chorus and the skits Have a follow through, And as for all those song hits, They're in there punching too. So I would like my Senior T As a token of my strength In dancing with a string of G

Dr. Karpinski then gave an interesting lecture on "The Telescope, Microscope, and Barometer as a Point of Departure of the Natural Sciences." Dr. Karpinski then gave an interesting lecture on "The Telescope, Microscope, and Barometer as a Point of Departure of the Natural Sciences."

AFTERNOON MEETING

B. K. Sandwell, editor of Saturday Night, will speak tonight at 8 o'clock at a meeting of the newly formed Independent Students 'Committee on Refugees, in the Economics Building, Other speakers include Mr. Evan Grey and Miss Hayward. The meeting will discuss a petition, now circulating throughout the campus, urging the admittance of refugees to Canada.

This committee, with Miss Clare Pratt as president, was organized to acquaint students with a petition urging the Branch of the Canada and the Ca Yesterday afternoon at 2 o'clock a

AFTERNOON MEETING

In his second lecture on European Reconstruction in the Middle Ages, Professor C. C. Coulton, special lecturer in History at the University, discussed the problems of Land and People, beginning with a discussion of the factors that paved the way for feudal.

The first meeting of the Chemistry Clib will be held on Thursday, Oct. 2:

ism. "Feudalism came as a relief from anarchy," explained Prof. Coulton, and went on to say that, although Feudalism followed its own lines of development, it succeeded in perpetuating Roman Law.

He explained how through the ages men had been divided into three distinct classes. In Mediaeval times the third class, which was 90 per cent of the population, was divided into free men and series. Serfdom was accepted on both moral and religious grounds.

Prof. Coulton elaborated on the principal that there was magnifications are provided in the properties of the prop

tion, and housing, fevers, wars and famine. He then returned to a discus-sion of the feudal system of land

Peace Time Service

In a speech recently Arthur Hays Sulzberger, President and Publisher of the New York Times, voiced the opinion that the ships which go overseas after this war to bring back the victorious service men should "be loaded to the rails with 18-year-olds who would be going out to do their year or two years of service while those who carried the brunt of the war came back to readjust themselves to civil

The idea is fundamentally a just one. There may be those, especially their parents, who would deplore the sacrifice of time required of the 18-year-olds once the war was finished. And there would be those who view life still in a thoroughly competitive way who would find in the scheme a vicious attempt to supply jobs for one group at the expense of another. Especially when viewed from this angle, the justice of the plan is apparent. First call in the postwar sorting out should belong to the returned men, but they cannot take jobs unless they are at home. The character of the task facing the Allies will change when peace is concluded and it will continue to become more and more administrative and less purely military as reconstruction progresses. It is sensible then, as well as just, to the troops now fighting, to replace them with new drafts trained for the last phase of this war, the Peace.

University students graduating into the new phenomenon of peaceful international society should be ready to take their place along with the new draft classes who will be called upon to sustain the peace by necessary and unglamorous spade work. This is the job which will show the world, which still contains no small number of bitter critics of the college student, that he to has been preparing to do his part in the last and final phase of the war.

That this phase is important we should have

learned after the uneasy hiatus which we thought was a lasting peace won in a War to End All Wars. Haste to return to peacetime conditions is to be expected. Wartime conditions, even as they are experienced on this campus, are not the sort of thing any normal person would want to go on forever, but the tendency today is toward a recognition of the necessity of maintaining many controls and taxes throughout the levelling-off period. Rationing, for instance, is expected in some quarters to last for two years following the peace.

Compulsory military service has always been viewed with abhorrence by Anglo-Saxon democrats and only the most strenuous conditions have ever succeeded in forcing in upon them. While European nations required military service of their young men for carrying periods during the "peace" of 1918-39, British and United States youth was freed from all such responsibility. Even high school cadets were deplored and the majority of Canadian mothers who interested themselves in school board affairs decided that they had not raised their boys to be soldiers.

The deplorable result of this attitude was seen in the almost total unpreparedness of the Western democracies for war, both materially in manpower, and psychologically. This was manifested most strikingly, if not most vitally, in the painful pedal left-handedness of C.O.T.C. recruits early in the

That this nation and its democratic allies will long be able to stomach compulsory military service of an out-and-out military nature after the war has become a thing of the past is not to be expected, but the adaptation of the idea of compulsory service to

something constructive in the peace-time service of the state and of the more closely-knit world we hope to find has much to be said in its favor.

That Directory

Soon to appear on this campus is a blue-covered volume which is awaited with eagerness by all those who have an interest in the finer things of life but haven't been able to get their phone numbers. The book is the University Directory published each year as soon as all addresses have been checked at Simcoe Hall. This useful publication is traditionally ex-pected to appear about now, but is generally held up in preparation for almost a month by the thoughtlessness of students who fail to check their addresses on their registration cards in the Registrar's Office.

This is the cause of the present delay, one which affects not only the lovers of the finer things referred to above, but also a busy office staff and all regular users of the telephone on this campus. You are expected to check your card whether you have moved or not since you made it out. Don't forget to check your optional subjects at the same time and initial

May We Introduce?

Despite the loss of prestige and glamour it suffered with the suspension of intercollegiate sport, the Sports
Department of The Varsity contains the hardestworking staff of editors on the paper, if measurement

Senior Schoolmen Trounce In Shutout Gridiron Battle

ing and Kicking to Chalk Up
10 - O Score; Cross, Moffat and Henry Star

VIC HARD HIT

Yesterday afternoon a powerful Sr. School rugby squad ran up a 10 to 0 score against a hard-pressed Vic senior team. S.P.S. combined a heavy charging line with some good plunging to move down the field for their touch-down. Cross, Moffatt and Henry did some fine blocking and hurried Cooper on his punts. Cross also played a first-rate defensive game at centre-secondary. "Truck" McIntyre and Hal Seymour plunged downfield with the aid of their linemen and Seymour went over for the only touch of the game, Vic never got close enough to the

Vic never got close enough to the S.P.S. line to threaten to score. Numerous fumbles and offsides slowed down the game considerably. Intercepted passes, especially by S.P.S., kept the ball in Vic territory and kept Vic constantly on the defensive.

In the first quarter, the play see-sawed back and forth between the Vic 10 and 40 yard lines. Line plays failed 10 and 40 yard lines. Line plays failed to get either team anywhere. Clare of S.P.S. was getting more protection than Cooper of Vic, enabling him to get more distance, and S.P.S. moved into suitable position for him to boot one behind the line. Jones was pulled down by S.P.S. tacklers before he could get

Vic got the ball on their own 25 but immediately fumbled. S.P.S. recovered and in two plunges took it to the Vic 10. One of these was a 12-yard effort by McIntyre. A pass failed as the quarter

Evans kicked a placement to put S.P.S. on top 4-0. Vic started with the ball on their 40 and added five yards on a forward. Another pass was incomplete. Cooper's kick was blocked, complete. Cooper's kick was blocked, Collings picked the ball up and ran to Vic's 18 yard line before being tackled. An S.P.S. pass was intercepted by Jones who lateralled to Burnwell to bring it back to the 18. Play returned to midfield where Clare was dropped after Cooper's kick. Another exchange of kicks left the ball at the centre stripe as the half ended.

Two line plays netted nothing. An attempted end run resulted in disaster as the pass went wide and Vic recovered on their own nine. Vic kicked to the 47. Seymour ploughed his way to the Clare picked up 12 more on a ge. White sneaked through for plunge. White sneaked through for seven. McIntyre went through centre to the two. Seymour took the ball over to make the score 70 - 0 for School.

School Seniors Combine Block- SPS Soccerites

School's second soccer squad last night won their season opener from Pharmacy with a 5-0 score. The S.P.S. Pharmacy with a 5-0 score. The S.P.S. team were much more powerful than the Druggists and were on the offensive for the greater part of the game. Mc-Nair and Mayne paced the booting Engineers with two goals each while Hamilton received rectif for one.

The School team opened strongly and collected four goals in the first half. But the Pharmacy defence stiffened as the second half began with the result that School was held to one tally in that frame.

that frame.

WHAT'S IN A NAME . .

As yet we have received no actual criticism regarding the matter of the spelling of names on this page, but since we are expecting some of the most caustic of same now that the rugby season has gotten itself under way, this little treatise is published in the interest of continuing the best of feelings between the doughty sporting staff of this publication and the athletes of the campus. Perhaps an explanation entitled "How a sportswriter is able to twist the spelling of the name Smith so as to have it appear as Jones" at this none too early date might help to prevent the needless spilling of sporting blood in the cruel dim light of a future early morning edition.

It should be made known to all and sundry that the names of the RAH, RAH, VICTORIAL sportsmen involved in any athletic fracas must be put through a special disintegrating and atom-smashing process before the gaunt and usually sleepless sports reporter is allowed to see them. He might, of course, inquire personally of each competitor the manner in which he would like to see his name spelled. But Varsity sports taff tradition has it that this is not the proper procedure. The reporter must make use of his ingenuity and originality, which is of some truly course indispensable to aspiring journalists, by turning in for the inspection of the managing department (dirty Smith) his interpretation of team members' names after they have undergone the aforementioned disintegrating process. mentioned disintegrating process.

COMPLEX PROCESS . . .

COMPLEX PROCESS...

This highly technical treatment takes place regularly at the beginning of any game on the campus, and broken down into its various component chemical reactions, runs something as follows. First the manager of the team, who was probably out late the previous evening, gets a hazy idea of the true spelling of the names of his players. Whereupon he transmits to the referee his hazy spelling impressions by a condensation process which tends to narrow his discrepancies to as few as six in each name. If the overworked referee (plug—more referees needed by Athletic Office) is fortunate enough to have an official scorer on hand he can in turn impart his new-found knowledge in the name department to this party. At this point either the official score sheet. If you had not been watching closely you might have failed to notice that these hicrogliphics represent the official's interpretation of the players' names. Then someone at the centre of the field, floor, or rink, as the case may be, blows his official have started 15 minutes ago.

The score-sheet is then forgotten until the game is finished, where-

The score-sheet is then forgotten until the game is finished, whereupon two usually desperate team managers rush up to the person who
has, in curiosity, picked up the idle sheet, knock him off his surprised
feet, scribble their own versions of their respective names at the
bottom of the sheet, and disappear in clouds of managerial dust.
Before the imnocent but curious student can recover he is set upon by
the gaunt sportswriter who has probably arrived in time to see but
two minutes of the last half and wants to know all there is to know
about the game. The reporter scribbles down on a piece of notepaper his interpretation of the scorer's interpretation of the referee's
interpretation of the managers' interpretations of the spelling of the
players' names. This he does as quickly as possible because rain is
falling at the rate of several inches per hour and the mercury is
floropping like a paratrooper before he has finished counting three.
Impartial tests made by an independent concern show that sportswriters on The Varsity suffer more pneumonia as a result of wet and
cold rugby weather than all the players in the Mulock Cup race.

This then is the version of the names which is printed. Our case The score-sheet is then forgotten until the game is finished, where-

This then is the version of the names which is printed. Our case stands for you, the jury. We, the sports staff of The Varsity, refuse to be held responsible for the spelling of any name, whether correct or otherwise, on page three from this date, October 20, 1943.

The Sportswoman

(Editor's Note: Today's Sportswoman is written by Ruth Virtue, a fourth year Vic gal who heralds in the Sports-woman's polciy of hearing the history and general information about various colleges and faculties, written by their own

By Ruth Virtue

To give an account of athletics and Victoria College's contribution to them in so short a space as this, seems to be a rather large order, but a brief round-up and comment on sports at Vic might not come

but a brief round-up and comment on sports at Vic might not come amiss.

The spotlight at present is centered on tennis. In this regard, there are no less than ten splendid courts, of which Vic men and women usually take full advantage, and as a result have produced some truly great players—Virginia MacLeod, last year's titleholder, being one such example.

Basketball, an American-born game yearly becoming more popular in Canada, is likewise a favorite sport with Vic-ettes. Not since 1940, however, have we managed to carry off the prized basketball "silverware" to repose on the shelves of Wymilwood. That was the year which saw the nimble-footedness and fast shooting of such basket charmers as Jean Crawford, Ruth Danard and Molly Moore, driving the Scarlet and Gold to certain victory. Nevertheless, with three teams entered in interfaculty competition this year, and a veritable spring of freshettes to draw from, we may even go so far as to venture the return of such good fortune this season.

Volleyball, swimming, badminton, baseball, bowling and ski-ing (how about becoming more ski-conscious this year, eh Vic?) are some of the other sports destined to absorb the attention of the attlletic minded co-ed of Victoria College; although if we may go so far as to say so, our chief pride and joy is our fine hockey team and outdoor rink.

Shakespeare (I think!) said "Frailty, they name in woman.—But then he never lived to see the 1943 werite of the Victoria.

outdoor rink.

Shakespeare (I think!) said "Frailty, they name in woman.—But then he never lived to see the 1943 version of the Vic girl's hockey team. It would be no understatement to say that the hockey exhibited in last year's finals was of the finest calibre ever known around this campus. And a word of warning to all contenders this year! With the exception of Marg Dillon, that same snappy bunch which made up last year's team is back intact, eager to retain that cup it took so much bard work to regain.

Yet regardless of the number of ribbons on her chest, Vic can, without any contesting, hang out the banner of the sportswormer.

Yet regardless of the number of ribbons on her chest, Vic can, without any contesting, hang out the banner of the sportswoman. For being a sportswoman means much more than displaying great athletic prowess. It means a love of sport, its thrills and its disappointments. It means taking an active interest in everything associated with sports—whether it be yelling your lungs out at a hockey game or merely keeping the stopwatch on the basketball floor. It means injecting your enthusiasm wholeheartedly into this and every other phase of college life. For then you will know the real meaning of college snigit. college spirit

Now Fifty Teams In Volleyball Lineup

Volleyball seems to be coming into its own on the sport program here and this was further strengthened by the announcement that 50 teams have entered this year which is a record number. Meds with 12 lead the field but are closely followed by U.C. with This is rather surprising for U.C. wed showed only five teams last year. School have seven while the rest are made up by the other faculties.

made up by the other faculties.

The league has arranged for an average of five games a day and will open when Sr. School I tackle Dent A at 12:30 on Oct. 20. The rest of the schedule has been drafted so that the teams will play their games without undue crowding during the week.

Give The Boys Room

For some days past The Varsity has been publishing a plaintive little box entreating the University public to stay off the Front Campus during military training hours. This request is certainly a just one and should be heeded by all students fortunate enough to be wandering about the campus on their own, these brisk fall afternoons.

Surely it is no great chore to walk around the

a vital one today. When so many young men are leaving their studies to serve in the world's most brutal war it is necessary that some effort be made to keep the youth of today in touch with the mind to feed upon than scientific murder. We at don't agree with him, take issue-he'll love it. home must not lose sight of the fact that the youths in the camps and overseas will be part of that bright new generation which is to reorganize the world and establish a permanent peace. They too must be educated in the philosophy and ideals of our western They too must be civilization. Too complete a submersion in the things of war tends to warp the mind and destroy that tolerance so necessary to the formulation of a just

Much is being done to provide servicemen with entertainment and intelligent reading matter. Books were collected here on the campus last year and may still be donated through the University Library. These books proved very popular with the forces and there were a surprising number of requests for the student's bugbear-textbooks.

The University Extension makes a very real connecessary incentive to send many men back to school after the war.

Another, more concentrated plan for providing intellectual exercise for our forces overseas was given a trial performance recently by the University of Manchester. This University, in collaboration with the Canadian Legion Educational Services, devised a plan for a "short leave" course for a group of 25 Canadian soldiers. The plan was to give soldiers on short leave a complete change from their military life, to provide them with food and shelter in restful at the provided provided by the pact as proposed, or on some other basis.

Finally, we wish to point out that The Varsity is signed: Another, more concentrated plan for providing

spacious gardens and lawns. The program was based primarily on discussions but there was also time for ectures, talks, demonstrations, music and visits to nearby places of interest. The soldier was taken completely out of his war-world for the space of a short leave and given a sort of mental stimulus. He would have much to remember and think over during the long days back at camp. For this experiment the intellectual activities, by request of the soldiers participating, were centered on psychological matters. The very request would serve to indicate the soldiers' interest in matters of the mind.

This experiment is mainly interesting because it takes the soldier into an atmosphere of home and family as well as providing an educational interlude. There are many straight courses offered in the cities but a city is full of interesting things for the soldier Assistant. Barbara Jones 475

Correspondence VIC DEBATE

The Editor, The Varsity.

We feel that the write-up given the Victoria Parliament debate seriously misrepresented the tenor of the discussion. The resolution read: "Resolved that it is feasible to negotiate an Anglo-American-Russian pact for the preservation of peace." The debate did not centre, as your headline seems to imply, around the diserability of co-operation between Britain, The University Extension makes a very real contribution to the serviceman's education by arranging tribution to the serviceman's education by arranging and the Victoria Debating Parliament courses for troops serving overseas. A variety of "scores" an Anglo-American-Russian pact is to courses are offered under this scheme and many men are taking advantage of this method of keeping up allow the possibility of interpretations which are not only misleading but harmful. The argument of the only misleading but namiful. The argument of the with their university work. Credits may be under negative was based on the assumption that an agreement which included only the three powers mentioned ment which included only the three powers mentioned was too narrow a basis on which to lay the founda-tions of a permanent peace. It was argued that any

on short leave a complete change from their military life, to provide them with food and shelter in restful at the present time the only organ for the expression of student opinion. From it the world at large gains cussion and mental exercise. For the Manchester experiment the soldiers were student body. For this reason we feel that it is housed in a lovely old English home surrounded by of great importance that any possible misunderstand-

with the declared point line at being able to go your lown way at your own pace the extra walk becomes a pleasure. Or if you desire further justification of those additional steps consider it a slight contribution to the war effort in giving Canada's future raw recruit to concentrate on military tactics without being faced with the added distraction of sauntering civilians and the eye-catching co-ed. It takes concentration to grasp the intricacies of military manouevres. Let's give the boys a chance.

Education For Peace

The problem of education for the armed forces is a vital one today. When so many young men are letters at the contraction with the maintained program agont in fall, and after graduating went away to work for a while.

He returned after a time to enter theology at Emmanuel College and pick up his undergraduate sports in manuel College and pick up his undergraduate sports in from the sampus and the eye-catching co-ed. It takes concentration to grasp the intricacies of military manouevres. Let's give the boys a chance.

Education For Peace

The problem of education for the armed forces is a vital one today. When so many young men are lettered and the contraction to grasp the intricacies of military that its vision was not up to the Navy's standard.

The problem of education for the armed forces is a vital one today. When so many young men are lettered and the contraction and the expression of sauntering civilians and the eye-catching co-ed. It takes contraction to grasp the intricacies of military manuel college exactly ten years ago this fall, and after graduating went away to work for a while.

He returned after a time to enter theology at Emmanuel College exactly ten years ago this table under the raw to work for a while.

He returned after a time to enter theology at Emmanuel College and pick up his undergraduate sports "resulting and the eye-catching co-ed. It takes contention to grasp the intricacies of military intended by a group of "chancer esembling bingo. On each eard were stamped the from military service as a prize. The attitude of a few surly individuals in cocked hats who continually received 5's under the "M" without any other reaction than a faint babble was a little difficult to understand.

Comment on the raid was made by the chief of the University police, J. Wallguard Beatpounder, "It's truly disgusting the depravity revealed by this action. You wouldn't believe it, but we found avid gamblers on the premises touth and gamblers on the premises who had actually stripped themselves to gain money with which to play. We found them in a back room huddled in a \$2.98 bathrobe and three pitiful sandals made out of Hart House paper towels. In a dungeon-like basement were found sets of talegraph to the country of the property of th

In a dungeon-like basement were found sets of telegraph keys and head-sets believed to have been a link with the principal racetracks of the continent. This is supported by evidence of an intricate bookie and racing-form require found on the unper floor where an intricate bookie and racing-form service found on the upper floor where, under the shingle of "The University of Toronto Alumni Federation" as cryptic correspondence with "graduates" was carried on and a brigk traffic in "fees" flourished. A publication purported to be "The University of Toronto Monthly" is prepared here and is believed to be one of the most highly developed racing forms on the continent. The key to it has not yet been discovered, but a detective has succeeded in picking out a number of likely looking fillies from the office window overlooking the main route to Baldwin House.

ing be cleared up with regard to an issue which is of such vital importance at the present time

ORGANIZATION MEETING OF ART CLASSES

The first meeting of the art classes for the season will be held in the art gallery of Hart House tonight at 7.30. Mr. Caven Atkins, artist and art instructor will direct the classes. Men who are interested in drawing, painting, modelling, wood carving, etching or lino cuts are invited to attend.

S.P.S. Runs Off With Track Meet

Engineers Trailed By Meds, Cheaking / OF

Fordyce of S.P.S. and Burgess of Trinity Share Individual Honours; Dents Win 3 1sts and 1 2nd in Entry of Five

DENTS WIN BROAD JUMP

By Mickey Michasiw

"The meet was exceptionally good. I am very satisfied with the way things were run off and especially with the times in the quarter and the half miles." times in the quarter and the half miles."
That was the way Hee Phillips, coach
of all Varsity trackmen, summed up
yesterday's senior interfaculty meet
which was the feature event of the
current track season. S.P.S. made a
runaway of the meet by taking more
than half the total points. Meds placed second, Trinity third, Dents fourth and U.C. fifth.

The individual honors were evenly divided between Fordyce of S.P.S. and Burgess of Trinity. Each had two wins, Fordyce taking the half and two Wesson of Trinity was third. The time of the event was 2029, the fastest that we have a compus for several years.

gaining it and then failing to come run off today. The line-ups through with the winning kick, Fordyce (Continued on page 4)

miles while Burgess swept the shot put and the javelin. The feature race of the day was the two mile, the winner of which was the two mile, the winner of which was reedited with the interfaculty record for this event since this is the first time it has been included in the intramural program. To heighten the interest, Fordyce, the winner, and Watts came down the home stretch neck and neck which left the result in doubt to the tape. Lorimer of S.P.S. was third followed by Delaney of Meds.

Dents set some sort of a record by pulling down three first places and a second on an entry of five men, each in a different event. Channell was their first victor by taking the final in other wire by Wilford (Meds), Jacobs (Meds) and Booth (S.P.S.) in that order.

The half mile also provided no little interest although it was, more or less, strictly a two-man affair. Fielding held the lead, losing it to Fordyce, regaining it and then failing to come through with the winning kick, Fordyce (Tournet of S.P.S.) in the first with the winning kick, Fordyce (Tournet of S.P.S.) in the order.

By Phil Shackleton

SERIOUS MATTER . .

their physical limitations.

I quote here from the Athletic Association rulings: "The medical examination determines whether or not the physical condition of the student is such that he may participate in University Athletics or Games or attend required Physical Training Classes."

EXAMPLES ...

Late last week Knox and Emmanuel played to a scoreless tie in the second soccer game of the intramural season. But both teams were playing with ineligible men in their line-ups. Several men on the Knox team had failed to get medical examinations before playing and one man on the Emmanuel team was in category E. For this infraction the teams have suffered the loss of two points in the soccer league. That is to say, the game has been counted as a loss for both. A more serious infraction of the regulations has been committed by Dents rugby team and Vie's first soccer team. Each had played one game to date but the managers failed to turn in their signed one game to date but the managers failed to turn in their signed a "virtually suspended" class until further notice. Neither team will be rescheduled until this infraction is satisfactorily explained to the Athletic Association and the proper regulations have been observed. Warren Stevens yesterday stated. "If the maximum penalty is enforced, Dents' tie game will be counted as a loss for them." However, final authority in this matter rests with the Athletic Directorate who final authority in this matter rests with the Athletic Directorate who will meet some time next week.

WARNING . . .

WARNING . . .

This much-needed sermon has been printed not only for the benefit of those offending parties mentioned, but also as a warning to other students that they comply with the Association regulations. This page has emphasized the eligibility lists and medical examinations for some weeks now so there is no excuse for ignorance on the part of anyone in this matter. Medical examinations are provided here to safeguard your well-being. Eligibility lists enable the Athletic officials to prevent over-willing but unfit students from endangering their state of health. The Athletic Directorate is not made up of joy-killing sport censors but is a group of senior students and staff members who provide the best possible means of protecting the student at play. Let's co-operate with them! at play. Let's co-operate with them!

Aquatic Students Taught By Psychology --- Willy

was a closely contested game all the way through with rather good plays in some instances. Stinson, Haig and O'Connor of P.&H.E. were the most notable, while Cruess, Lustig and Rider clugged out long balls when they were up to bat. There will be another game on Friday afternoon at 4:30 . . . and this time it would be a fine thing if the players were more prompt.

sense psychology.

VOLUNTEERS?

There seems to be a dearth of freshies for U.C. basketball this year. Vic has a fund of young enthusiasts from which she can draw, but U.C. so far will have to rely on her tired old seniors and jumiors. New material is urgently needed so you freshies who scan this go out and deliver the goods to the Royal College. Basketball is a game of skill, more than anything else. It requires precise footwork, a keen eye for judging distance and quick wits at all times. To our foggy old mind, basketball well-played tends to induce a certain amount of gracefulness in the sportswoman. One explanation, possibly, for the disinterest in the sport in U.C., is that there is too seldom an audience before which girls can pirouette anr gyrate with the reckless abandon that makes basketball such an exhilerating pastime. swim classes at that House, room the first splash to the final wiggle. He also graduated from a four-year course in Psychology at Setton Park Private School in Liverpool, England.

Psychology, according to Willy, is important in encouraging a swimmer's could confidence at the nutrit. While the Course of the confidence at the nutrit.

played at 4:45 p.m. since the Army Course cannot be excused from classes

By Frank Rasky

Sixty-year-old William "Willy"
Winterburn leaned back in his swivelchair at the edge of Hart House Pool today and explained the matter simply: "This business of teaching youngsters how to swim is just a matter of horse-

Willy ought to know. For the last 34 years he's been conducting learn-to-swim classes at Hart House, from the

important in encouraging a swimmer self-confidence. As he puts it: "You've got to approach him subtly—and in a positive, not a negative way."

To show you what he means, here a six illustrative points Willy keeps

in mind when teaching the University ugly ducklings:

NETS TO YOUI

Old Man Weather stepped into the tennis matches this week and slowed up the elimination rounds in some of the colleges. Victoria College completed the elimination rounds and is now in a position to select her six seeded players. This leaves the interfaculty games on the starting point for Friday or Monday, provided that the rains take a holiday.

The U.C. mixed doubles have started. It is essential that the entrants go view the lists in the Women's Union and the Junior Common Room and determine the date when they play. The list specified who is to get in touch with whom . . , incidentally, if the players don't get in touch with their opponents, they lose the match by default. ugly ducklings:

1. Never tell a student to try a "dead man's float." That's negative. The term "dead man" is apt to scare lim. Instead, tell him to try floating like "a duck or a boat."

2. Don't term it a "non-swimmer's class." That's discouraging. Rather say a "learn is a swim class."

WITH MASK AND FOIL . . .

The other day we were leafing through some back issues of The Torontonensis and we noticed that way back in the days of wasp waits fencing formed a very active portion of the Girls' Athletic activities. In those days they had a real live Fencing Club and the members of the club were an active bunch of people, from what we could gather in the big book. Foils and epees clattered and rattled up in the tower room of U.C. We tend to view with alarm the fencing situation as it stands on this campus today. It's practically non-existent. We'd like to see interest revived in this ancient and graceful sport.

3. That's not a "spitting and scum trough" or "gutter" around the pool. Too crude. Tell students it's an "over-dow" edge.

4. That's not a "spitting and scum trough" or "gutter" around the pool. Too crude. Tell students it's an "over-dow" edge.

5. Teach them in small doses. Two classes of a half-hour each are better than one class of one hour.

6. Be pleasant in your speech. Be (Continued on page 4) a "learn to swim class."

3. That's not a "spitting and scum trough" or "gutter" around the pool.

Too crude. Tell students it's an "over-

Drafting Of Women To Be Issue Today In U.C. Parliament

Sitting to Be Introduced By Speech from Throne; Dis-cussion to Centre About Status of Modern Woman

BOB BELL PREMIER

The first sitting of the U.C. Debating Parliament for the session 1943-44 will take place today at 4 o'clock in the Junior Common Room. Highlight will be the discussion of a bill to give the government power to conscript women government power to conscript women on the same basis as men in the inter-est of the war effort. Prime Minister Bob Bell and Attorney-General Paul Reecke will support the bill, while the opposition will be led by Sol Littman and his right hand woman, Monty Daly.

Governor-General Frank Watson will Governor-General Frank Watson will read the speech from the throne, out-lining the program for the Debating Parliament. Following that, Watson will induct the new Speaker, Forry Rogers. Well informed sources at the Junior Common Room predict a stormy

Junior Common Room predict a stormy session to test the government's strength. Speaking of the new bill, opposition leader Sol Littman stated: "We intend to convince the government that the woman's place is in the nursery and home rather than in the factory and armed forces." Prime Minister Bell retorted: "Phooey, the times have passed when women should be treated as frail creatures of beauty."

A record crowd is expected to hear this controversial issue, and scats for 60 parliamentarians will be available If you are interested in debating, plan to attend this first session.

C.C.F. Club To Hear M.P.P.

First meeting of the term for the University C.C.F. Club opens Monday evening at 8 o'clock in Wymilwood. Charles Strange, M.P.P., C.C.F. member for Brantford, Ontario, will speak on "C.C.F. Plans for Post-War Reconstruction."

Nathan Zive, II Social Work, will be acting chairman, as last year's ex-ecutive graduated from the University. A new executive will be elected at

A new executive will be elected at Monday's meeting.
"In view of the C.C.F.'s tremendous advances in the Ontario political scene this summer, it is expected that the club will greatly expand this year," Zive said.

U.C. Election Results Announced at Banquet

The results of the University College Literary and Athletic Society elections, announced last night at the Soph-Frosh Banquet in Hart House, are as fol-

lows:
Literary Director: David Bairstow;
Assistant Secretary-Treasurer: Fred
Garner (accl.); First Year President:
Perc. Grader; First Year Secretary-Perc. Grader; First Year Secretary-Treasurer: Hugh McCree; First Year Athletic Representative: Jack Fine. The nominees conducted their cam-

paigns by displaying posters informative of their respective merits in both Uni-versity College and Hart House.

*It wasn't true yesterday . . . R. G. LeTourneau

V.C.F. Speaker Today But it is today.

SORRYI

*The Varsity's error! Mr. R. G. LeTourneau will be speaking today at 12:30 in room 25, Engineering Building.

Women Now Comprise Over 25 Percent Of Pharmacy Students

In 1903 the first woman registered in the Ontario College of Pharmacy; this year one quarter, or 12 of the 46 enrolled in the College, are women. The large demand for graduates has attracted many, and since men are subject to military call during their three years apprenticeship prior to entering the creased.

Dean Hurst of the College said that Pharmacy was suited for women, since they are well adapted for fine laboratory work. All graduates are welcome in hospitals and medical clinics; their work consists of dispensing and looking after consists of dispensing and looking after technical details such as blood counts and blood analysis. The College enrols an average of one Sister a year, as Catholic hospitals require a graduate to supervise the dispensary. Many of the women go into business independ-

ently upon graduation.

The first three years before entering the course are spent in apprentice-ship, during whith the student meets the public and acquires a knowledge of business. While such subjects as of business. While such subjects as botany, physiology, chemistry, and dispensary are studied, the student is familiarized with the medical man's language. The College is affiliated with the University, and subjects not peculiar to Pharmacy are taken in other concern building. campus buildings.

U.S.-British

last night, Dr. R. M. Saunders, Asworld security.

Dr. Saunders resolved his discussion on post-war conditions into two problems: first, the shifting of power from

In the post-war world the United tates will probably be more powerful States than Britain, said Dr. Saunders. Yet this must not mean American or Anglo-American imperialism, since either would lead to detestation of the U.S.A. and Britain by all other countries. In the future the British Commonwealth must rely on its own resources for defence and to a certain extent on those of the U.S.A., rather than on Britain The solution should be co-operation

Dealing with Russia, Dr. Saunders advised suppression of antagonism and distrust between Russia and ourselves Co-operation with Russia is necessary for the post-war reorganization of Europe and also for the allied defence against Japan.

against Japan.

According to Dr. Saunders it would be a catastrophe if Britain were forced to choose between Russia and the United States. Then English-speaking world will not be strong enough to control the post-war situation. The future must depend on force as a weapon of defence, and force depends on 'continued co-operation between Great Britain, U.S.A., Russia and China.

Dies Suddenly

Dr. John Garvey Mickler, gold medallist in the Faculty of Medicine in 1942, died Wednesday in St. Michael's Hos-pital after a brief illness. The 26-yearold Mickler, who was medical director of the Ciba Pharmaceutical Co. of Ca-nada, had been spending the weekend with his parents, Mr. and Mrs. George J. Mickler, when stricken, and died shortly after being taken to the hospital.

be limited to 40 and a course will not be commenced for fewer than 20. No academic standing is required for this first year Medicine, and upon graduation was awarded the gold medal, presented to the man with the highest standing throughout the course. In recognition of his outstanding record he was elected to Alpha Omega Alpha, honourary medical fraternity. After intertuing in St. Michael's Nospital, he served one term as pathologist at St. Joseph's hospital. Last August he became medical director of the Cibas Pharmaceutical Company of Canada in Montreal.

During his undergraduate days Dr. Nickler was one of the outstanding golfers about the University, and was at one time captain of the intercollegist golfers about the University, and was at one time captain of the intercollegist golf team. He took a leading part in medical activities, being secretary of the Canadian Interne Board. He is survived by his parentts and one sister, Mary Kathryn Mickler.

No Limitations to Be Imposed on Ticket Sales Because of Eaton's Size; Hope for All-Campus Crowd

DIRECTED BY MEL BUTLER

The 24th Annual Dentantics will this year move from its traditional setting in Hart House to Eaton Auditorium because of the Board of Syndies' ban on necause of the Board of Syndies ban on the campus theatre. The event is slated to take place on Tuesday, Oct. 26, 1943. Because of the larger seating capacity, there will be no limitations on the ticket sales as in former years, and the committee hopes the show will be-come an all-University affair.

This year's production is under the capable direction of Mel Butler, Butler has had a wealth of experience in Dentantics, having written parts for or Dentantics, naving written parts for or acted in three previous productions. Once again, the Dentanties Orchestra will be under the guidance of Jack Fuller. The Melodofitists promises to be one of the most solid jive sensations on the campus.

The program will consist of skits, one for each of the five years in the Faculty of Dentistry, vocal numbers under the direction of Don Hillier, and a piano solo by John Kaye. The high-light of the evening will be the Dent-ettes, a chorus of 24 beautiful Dental

Thirty Girls Take New Course

Dr. Jessie B. Brown, head of the Household Science Department, announced that over 30 students from third and fourth year Household Economies have selected the new Dicticians' Aides Course as their choice for Women's War Service Training.

men's War Service Training.

Three local hospitals have made special provision to train student dicticians with the approval of the Canadian Dicteties Association. Each student receives individual instruction and may spend part of her allotted 60 hours attending the hospital for a working day in and the hospital for a working day in and the hospital for a working day.

attending the hospital for a working day in order to become familiar with the daily routine.

As well as proving valuable to the overworked dietician who must struggle against the ever-increasing difficulties of wartime demands, the course provides practical experience that average graduate in Household Eco-nomics so often lacks.

Refuge

Not that they suspect an influx of a hoard of armed "tourists" in the Hitlerian fashion, but the subject Military Editor and is known to the C.O.T.C. as of ultra-smart Washington country for immigration laws has grown to be a vexed one within the lifetime of many a citizen and attitudes.

He is referred to ometally life as a ultra-smart Washington country house, permits the play-wright to indule in some of the sophisticated. of immigration laws has grown to be a vexed one within the lifetime of many a citizen and attitudes are undertandably vague and troubled on the subject.

It has been explained that this not a question of lifting immigration restrictions permanently, and the number concerned is small compared to the population of this country, so all bogies of prejudice along immigration lines may be safely tucked away until some time when their presence will be less detrimental to the well-being of people who are essentially one with us in a common cause.

remarked that the reason for so much of Europe's military terminology and protocol. trouble is that the continent is inhabited by foreigners. Amusing as this smug truism may seem, it is undeniable that Europe contains many unsolved and vexatious problems of racial and national ambitions which we would not wish to see transfor the moment on humanitarian grounds.

Although the group in question is undoubtedly a tion of journalistic rigors. mixed one, all elements have one thing in common They are all refugees from oppression. In addition to giving them a common basis of understanding, this factor is one which will assure us of a strong tendency on the part of these people to become part They will not generally be the of our country. type who will come here to make a fortune in a promised land in order to be able to return like lords to their old homes. This must seem to be a promised land to them, but it is not an economic one to be exploited, but a true promised land of the spirit to serve as an abode. Their motivating pianist, played a program that must have been have been denied them where they were before.

It is truly amazing that no strong move has been

Arts And Letters

We understand that you received an invitation and Letters Club. The facts concering the origin of resources under iron control, of distributing them

this informal association are given along with the invitation, so there is no need to repeat them there, but we would like to add our commendation of a club whose basic idea has appealed to us strongly ever since it first emerged on the general campus scene.

The Medical students who conceived and developed the club and their successors who are carrying it on have made an important contribution to the forces which tend to unite this campus. Their primary purpose was, of course, to broaden and enrich the intellectual life of the busy students of their ac-celerated faculty. Success in this, however, did not mean the end of their efforts. With a breadth of mind not frequently found in faculty or college groups they not only threw open their meetings to all faculties, but spent considerbale time and energy in urging them to come.

Their invitation was accepted more than 600 times | War in a Drawing Room by students in courses other than Medicine who heard by students in courses other than Medicine who heard 20 speakers including such prominent ones as Dr. Leopold Infeld, Wilson Woodside, Lt.-Col. George Drew and their own Dr. William Boyd. The subjects ranged from such topical ones as Antiscentism, to the more curious "Why People Climb Mountains."

Mountains."

May We Introduce?

Except for those who read the masthead of The Varsity very few people are aware that this year thereby and beautifully done.

U.C. Defeats Army Course In Action-Packed Grid Bout

Game Well Attended by Army Doubles Finals Course Rooters; Matthews Doubles I mais and Smith Star for U.C., This Afternoon; Bill Neale for Army Squad

FINAL SCORE: 19 - 11

A strong U.C. squad yesterday defeated the boys from the Army Course by a score of 19 to 11, with several hundred cherning spectators mostly from the Army Course looking on. The game was action-packed from start to finish with the Army team supplying most of the thrills with their running and passing. Bill Neale, coach, capand quarter-back, starred with his running, as did Howson and Grierson with their passing and catching, re-spectively. Matthews and Smith went with their passing and catching, re-spectively. Matthews and Smith went well for U.C. Matthews ran for one touch and Smith kicked a placement and a convert. Saltzman went over for another U.C. touch and Warren was credited with a try when a pass was; ruled complete because of interference.

ruled complete because of interference.
U.C. kicked to Army. On the first play Army fumbled and U.C. recovered on Army's 28. Two plunges made yards. A pass failed. Smith kicked a field goal from the 15. Army had the ball on their 40. A bad snap on third down gave U.C. possession on the 45. A pass caught by Nesbitt was good for 20 yards. Another pass was ruled complete over the goal-line because of interference. Smith kicked the convert. Army then opened with passes. From the centre stripe a Howson to Grierson pass went for 5; Neale plunged to the 41. Another Howson to Grierson pass brought the ball to the U.C. 28. pass brought the ball to the U.C. 28. Army kicked and U.C. just got out from behind the line. U.C. kicked to the 35. Army's pass combination clicked

Tambiyii crassice over from the 2 yaru Tartagiia, Clayton, Saltzman, Matline. This play was set up by a pass thews.

and several plunges moving the ball Army Course—Neale, Mossop, Grier-from the 35. Saltzman scored the last son, Mathers, Suddick, Nelson, Shortt, touch for U.C. with only a minute to Howson, Cook, Tamblyn, Cummins, go. An Army pass was caught by an Praski, Casburn, McNicholl, Downe, ineligible player thus giving U.C. the Bobbie, Miller, Shaw, Wade, Leycoe.

WHAT'S NEW?

WHAT'S NEW?

It's a certainty that women's athletics 'are not new, according to annals of the University. Our authority for this forthcoming history of sporting fems is gleaned from an article written by Miss Parkes, secretary of the S.A.C., in the '41 Torontonensis. One of the first was formed after a tourney in 1896 had aroused enough enthusiasm to assure a good gal turn out. From '96 to 1913 the great centre of attraction was mixed doubles, so U.C. has nothing new in its inauguration of such matches this year. It's merely reviving an old torch. Whether or not the torch will be carried, is another question. We said a few words last night about the former fencing club. It boasted of 50 members in 1895 and was under the presidency of Clara Benson who is now president of the Women's Athletic Association. In 1899 the golf club was formed and divots were dug anywhere from Wycliffe to Vic. Another favorite sport of the women students was paper chasing. There was even a Mistress of the Chase and hares and hounds to participate in it. Swimming first made its appearance around 1890 and had a membership of 60. The main department for athletics was the tower room or what is now the Fine Arts Department. The outstanding change was made in 1920 when the present Athletic Directorate was formed. This is only a sketchy outline of the story of athletics . . . space forbidding more details.

LeTourneau, V.C.F. Speaker Arts, Letters 3500 Cadets Urges That Business Men To Hear In Parade Take Time Out For Prayer Dr. Mercer At Stadium

President of Christian Businessmen's Organization Says God Needs Business Men as Demonstrators

INTRODUCED BY S. J. CONN

By Frank Rasky

The man who calls God his business partner, donator of 12 million dollars to Christian work, Robert G. Le Tourneau, paced up and down before a packed lecture room in the Engineering Building Friday noon.

"It's my conviction that every busi-ness executive ought to take at least

ness executive ought to take at least a few minutes from his work and prayti would be his salvation," he said.

Addressing more than 100 students and members of the Varsity Christian Fellowship, Mr. Le Tourneau, president of one of the largest tractor equipment businesses in the United States, kept up a rapid stream of words, which burst out at such a quick clip that The Varsity reporter had difficulty recording them.

His speech went on this way

"You'll find me talking about horse-power, manpower and Godpower. That is what an old mechanic like myself and I am just an old mechanic-is inter-

'I sure love that machinery. Just as I love God. He has done so much for me. I have tried to do something for him. If only others would do the same.

"Business men are finding out that they can be loved by God, and they can help God by carrying his message to others. God needs us business men as demonstrators. We can demonstrate his message to laborers in the factory better than can priests. Now I am not saying we do not need priests, but the business man can become more intimate with

"What is a demonstrator? He is like one of the demonstrators for an engineering executive. Can you imagine an ordinary salesman laying out the blueprint of a new machine before the eyes of a prospective factory buyer? No. You need a specialist—an expert demonstrator who knows what the business is about."

Mr. Le Tourneau told of one of his factory demonstrators — one of his 12,000 employees—who made a danger-(Continued on page 4)

To solve this problem the College held its first summer course in Ine College authorities stated that since the war the number in their courses have understandably decreased and that last year considerable alarm was felt as to whether there should be sufficient teachers graduating to meet the demand. To solve this problem the College held its first summer course in which there was an enrolment of 80. This course, together with an additional four weeks' refresher course to be given next summer, will constitute the equivalent of the usual teacher's course. The situation was further alleviated by the decision of the government to freeze teachers in their jobs.

same basis as men in the interest of the war efforts was defeated at the first session of the University College Par-liament for this season, held last Friday

PARLIAMENT

in the Junior Common Room.

Reading the speech from the throne, the Governor-General, His Excellency Lord Watson of St. George and Whitney Hall, told the representatives that it was both their duty and their opportunity to weld the diverse elements of college life into a composite whole. He commended the movement towards greater unity and co-operation between the Lit and the W.U.A. of the past few years. He outlined the problems which confront the 1943-44 parliament, and announced that at the next session, the government would seek authority to set up a committee to revise the constitution of the parliament.

Following his speech, the Governor-General inducted the new Speaker, Porry Rogers, who, he stated, was well suited to this position by reason of his research in the field of Political Science. J. Turchin was elected Deputy Speaker

In support of the motion of the day, Prime Minister Bob Bell said that this

that there is great need of woman-power of on the industrial front, and the efficient organization of the country's resources would help to solve this probtion

Leader Sol Litman pointed out that women are now serving in their homes. He stated that the high wages being paid in industry are sufficient to bring into the factories any women who will into the factories any women who will be needed. Women have not the same attitude towards their jobs, he said, that men have had for hundreds of years. Additional woman labour in factories will create a large surplus of it in the fluture.

Supporting the bill, Attorney General Paul Reecke insisted that everything and everybody should be conscripted. If women are taking over the places of men in business, religious.

the places of men in business, religious the places of men in business, religious activities, and parliament, why should they not be conscripted the same as men are? Women demand equal pay, week for the convenience of the pport of the motion of the day,

Preposterous Picture

To see campus groups curtailing and telescoping re-open Hart House Theatre."
their musical and dramatic performances, or moving to halls and theatres remote from the University while there is on the campus itself a well-equipped May We Introduce? little theatre would appear as madness to an out-Add to this the twice-repeated request of

to some to be ogres, the Syndics of Hart House Theatre really are not. It is certainly not through ill-will that they have closed up the enchanted palace which we of this campus have come to look upon We do not feel that they have shown as our own. as great flexibility of outlook as possible in seeking a solution for opening the theatre, and with Mr. Massey on the opposite side of the Atlantic such a lack is not surprising. But we do feel that these people, all of them lovers of the drama, have done their utmost to solve the problem as they saw it and reluctantly have had to confess their failure. Certainly it is not to be expected that Mr. Massey, who built the theatre with a vision of its becoming the principal home of amateur drama in Canada, and who has kept it open through what have been declining years in that field, would consent to its

closing without the deepest regret.

But all those people had conceived of one pattern on which the theatre could be run. professional, full-time manager. Having lost three managers to the forces, one of whom, William Thompson, gave his life at Dieppe, and being unable Thompson, gave his life at Dieppe, and being unable to find another, they found it necessary to close beginning of Dr. Kerplunkski's address the theatre.

A New Solution

To the Syndics affairs must have seemed to have reached an impasse. However, although nothing was bearing a working model of a devised one at the time of first closing, a committee of students representing the Students' Administrative which he claims will relegate the arometer of Torricelli to the museums. Council and a number of the groups who had used of the press has been shown recently by a number the theatre in the past, submitted suggestions to of people who have asked The Varsity, "Why don't the Syndics for opening the theatre on a new basis Varsity reporters, scrubwomen, Sports-you get to work and re-open Hart House Theatre?" last summer. The suggestions, briefly, were that If The Varsity could, through any amount of work it be opened for use by campus groups for the it will correct exam papers, manufacture in its own field, succeed in bringing about the reopening of the Theatre it would gladly do so.

It be opened for use by campus groups for the
improductions. At such times opening of the Theatre it would gladly do so.

It be opened for use by campus groups for the
productions. At such times opening of the Theatre it would gladly do so.

It is opened for their productions. At such times opening of the Theatre it would gladly do so.

It is opened for their productions. At such times opening of the Theatre it would gladly do so.

It is opened for their productions. At such times opening of the Theatre it would gladly do so. We have been accused of considerable weakness of the theatre would be in the hands of student cleaning rugs is offered for a small constitution of the subject in which committees.

one who examines that editorial closely will see that siderable reason when their natural point of view despite the resignation indicated in the headline is considered. As it stood the new plan did not (due to the fact that the question mark at the give them satisfactory assurance of responsibility, end of it was lost in the technical process of producing the paper) the editorial deprecates the cur-committee suggested that a faculty member might rent state of affairs and does not hold that the be found who would head it and supply a measure utmost has been done to find a working arrange- of permanence to its makeup, but they neither subment whereby that theatre could be opened for the mitted names of willing candidates nor offered to do so

A Formidable Task

The Syndics have not decreed a closing of the is that Hart House Theatre is connected with the gestions. It seems, however, that the Syndics and with but with letters identifying parts one Syndic who has assumed much of the burden who and the second of the older generation on this campus. one Syndic who has assumed much of the burden who would like to see the theatre re-opened, have of its problems at this time is a University professor lost all hope that it will be possible to do so as long is only a coincidence. The theatre is controlled by the structure of the device. "Disused coffee is only a coincidence. The theatre is controlled by the structure of the device of the device, and the structure of the device of the device of the device. The structure of the device of t

that it is necessary that the establishment be used are devoted to one specialized task outside their on such a fine invigorating afternoon, McSidrool was faintly apologetic. "The weather foreasts are handled by the not expect The Varsity to be able to produce the of having the theatre here and paid little if any of having the cost, to grumble.

and the hidraces of theatre hand gaid little if any not expect The Varsity to be able to produce the "Open Sesame" to the doors of Hart House Theatre. It is up to the theatre-minded students of The theatre picture at present is preposterous, this campus to help the Syndics "to get to work and

Perhaps it's jealousy due to the proverb that one sider. Add to this the twice-repeated request of the President of the University that students keep their social affairs as close to the campus as possible and the exodus appears in a thoroughly lunatic light. At the very time when students are trying to avoid their old-time reputation for frivolity one of their most restorative, enjoyable and least format types of amusement is being forced into the public eye where it will draw an unwarranted amount of criticism.

wait for the end to applaud.

Starting with the suite Iberia (Albeniz-Arbos), the same element of
theatre was present — from Walter
Cassel's sailor ehanty, Road to Mandalay
and the Torador himself, to RimskyKorsakoft's Caprice Espagnole. And as
an encore there was the Stars and
Striper rating full speed ahead with
the piccolo twirling away like mad. As
the program went along, the noisier it
got and the better with orchestra and
audience warming up to a burlesque audience warming up to a burlesque

will call Lynn Gordon. In order easily to remove the oil involved in his work, this rating wore his hair prush-cut style. His measurates, who belonged to the César Romero school of hair-do, thought that this was placing cleaniliness too close to godiness. They used to line up at attention on the engine room deck plates and give him a saluted "HELL" every time he descended the ladder.

One day Mr. Gordon received altert from the University, with a return address superinscribed. Up until that time he had maintained his incognito, but now his soul was bared. Other stokers scated around the measedck table stared open-mouthed and finally chorused, "SO THAT'S WHY YOU WEAR YOUR HAIR THAT WAY!"

PICTURE:

It is a dank misty morning in from of the No. 2 CA.C. Barracks in Burwash Hall. The time is 0630 hours as they say.

and most prominent scientists.

and most prominent scientists.

and most prominent scientists.

and most prominent scientists.

Sure, there was evolution from prominent scientists. We at the University are preparing to take our place in a world which is daily becoming smaller and more closely integrated. We, because of our higher education, will be expected and called upon to help guide our own small part of the world along ways congenial to and in conformity with other parts of the world. In order to be of greatest service to our country we must have an intelligent view of the international scene. We must know nations and our problems in connection with them.
We must know what has occurred in the past in order that we may best know how to deal with the present and future.

Every citizen, be he doctor, probusinessman, has a voice in the conduct of his
country. Similarly every student on this eampus
will at some time be called upon to express his
opinion on a matter of foreign policy or international

"Take a look at this," he said, abruptthe his Every citizen, be he doctor, professor, engineer or a part of the thought of the nation. However, it is important that the thought of a nation be clear and well founded. Hence the value of a University group which will acquaint the student with international affairs and give him an opportunity to apparently simple question. Mental contact with spontaneous applause. people in other lines than one's own is stimulating and usually beneficial. In any case the International Affairs Group offers an immediate opportunity for broadening the outlook on present day events. We suggest you investigate it.

A Woman's Place

The U.C. Parliament exchanged its first verbal fire of the present term last Friday on the subject of conscription of women. Unfortunately for this department the Parliament decided against the bill, thus depriving us of the opportunity of conducting another heated debate on the side. We are given another heated debate on the side. We are given only the opportunity to express our interest in the timely and eminently debatable subject and our approbation of the stand taken on it by the Parliament.

The proposed bill, to give the government power to conscript women on the same basis as men in the interest of the war effort, opened a broad subject and one which has come up for much discussion since the beginning of the present war. The subject since the beginning of the present war. The subject is a ticklish one, especially since workable plans for the conscription of women have been in effect in England and in Russia for some time now. However, the advisability of such plans will not be fully known by their present function but rather through their future effects. British women may function their future effects. British women may function very efficiently as gun crew or as factory workers, but what will be the psychological effect of the levelling of the sexes? What will the idea of woman be surprised. be to the child of World War II, to the man whose burden has been shared almost equally?

Here in the New World woman has enjoyed a hope of the course.—Anthro-

Here in the New World woman has enjoyed a postion of so-called equality; that is, equality of opportunity. She has entered every field of endeavour in which she could prove her ability to stand. If she could show herself capable of per-For the past two years there has existed on this campus a little-publicized organization devoted to the study and discussion of current topics in international affairs. Known as the International Affairs. Known as the International Affairs. Stown as the International Affairs. Royal Alexandra Theatre

In these days—and that phrase is not used in its ordinarily banal sense—a play like "The Patriots," by Sidney Kingsley, has a message for every ear. This drama, which commenced last night a week's the standard of This drama, which commenced last night a week's run at the Royal Alexandra, is based on the life and times of Thomas Jefferson, the first Democrat of the American republic. It sketches a period in the American republic. It sketches a period in the American republic in the American republic in the American republic.

Walter Hampden, who will be remembered by some for his Shakespearean twitches and physical animadversions in the farcical "Arsenic and Old Lace" of last year, has a role worthy of his true calibre in Thomas Jefferson. His prow-like profile national affairs and give him an opportunity to discuss such affairs under competent guidance. In a group of this sort, which draws its members from all corners of so diversified a campus as Toronto, the student receives an excellent opportunity of exchanging thoughts and formulating new ideas. He gets an insight into the other fellow's He gets an insight into the other fellow's his exhausted secretary at the helm of state, evoked

Stuart portrait come to life. Their colloquy in the third act, when the dying president sought to keep his exhausted secretary at the helm of state, evoked spontaneous applause.

Miss Julie Haydon, as Patsy, Jefferson's daughter, was a little croupy in the Prologue, but warmed up considerably in her later appearances. First nights are always difficult. The only other outstanding part was that done by Guy Sorel in the meaty role of Alexander Hamilton, the fallen angel of the American Revolution. Vibrant in voice and of the American Revolution. Vibrant in voice and

Squeeze Out 1-0 Win For Second Straight of the S.P.S. Meet Meds

any School hopes.

The SLOWS PLAY

The U.C. football team served notice yesterday afternoon that they will prome for midable foes to all comers in the race for the Mulock Cup this fall when they supeceed out a 1-0 win over the highly-rated S.P.S. Jrs. for their second straight win of the current season. The weather had no little effect upon the play of the game for the cold showed up the players and caused numerous fumbles. Passing was almost impossible because of freezing hands and the flickers attempted were short ones over the line for little, or as was the case in one instance, no gain.

Horwitz was the standout for the winners with his brilliant field running. The passing combination of Givens and Sturgess gave the U.C. supporters a few thrills as did the kicking and running of Clayton. However, the team as a whole performed.

were the line for filtile, or as was the medially file. Men of higher years and here for the pasting combination of Gleman Surgess pave the U.c. supporters where the pasting combination of Gleman of Chyston, However, the team as whole performed well up to the SPS. Indies was a statuse of the pasting combination of Gleman of the CP, pulsers found on the Corbin and Robbins stood in the badded along with Or, whose birds were a thing to beload, Given and Smirtary.

The Sportswoman

By Hugh Kenner

A FINE OLD INDOOR SPORT . . .

Out of modesty your editor has always soft-pedalled parlor games in this column, her embarrassment being akin to that of friend Shaekleton writing up a track meet. Now that she has carried her bronchitis north for the week-end, we hasten to fill the gap left by the omission in this column hitherto one of the most finely organized activities on the campus sporting scene.

The principal indoor sport of the women's residences hereabouts is (our spies avow it) the folly game of Mothing. Those who would broaden their sports horizon (who wants outdoor games in this weather anyway?) would do well to master its rules, which are brief, and practice tonight at 7 purchase the equipment, which is readily available. The equipment is a wardrobe of dresses and a textbook (thin and flat ones are better; the Works of Shakespeare will do, though, in an emergency). Now There will be a pitoday in the big gyr for the rules

THE CRUX OF MOTHING ...

Hang up your dresses, open the closet door, and await your first moth. (Most authorities consider it Foul Bad Form to smoke them out, though one school advocates this.) When it comes, leap, textbook in hand. The leap takes some practice. It should carry you from your desk (you always start sitting down doing French) clean across your room-mate's bed to where the moth is circling. This will generally be near a light. (Mothing differs from most indoor sports in that light is essential.) Swing your text-book and smash the light. This counts three points and will cost you twenty cents. A score of three lights is called a Lollapalooza or Goshawfulmess, and entitles you to a bill from the Superintendris office.

lights is called a Lollapalooza or Gosnawitimess, and entities you to a bill from the Superintendent's office.

If you miss the light, keep leaping and swatting until you hit it. It is characteristic of the skilled player that she never swats the moth; a month of missing the moth entitles her to a New Dress.

And that is all. Don't wait another minute. Get started at Mothing and watch for regular schedules after Christmas.

With Tongue In Cheek

With tongue in cheek and, we suppose, a twisted smirk on his face, a representative of Canada's Third Victory Loan once left some application forms with haven't."

To his surprise, and to some extent to the Council's, this gesture resulted in the sale of \$200 worth of bonds in that loan and was repeated when the Fourth drive started. At that time the total was raised to \$250. Now. with the Fifth Victory Loan drive in full swing the S.A.C. has again obtained on this year's budget.

Individual students who will be able to take make this excellent investment. Such individuals and organizations should bear in mind the fact that by buying bonds through the S.A.C. they add their purchase to the University's quota.

Those who have less substantial surpluses, even though they amount only to the occasional quarter, should remember that the S.A.C. also carries a full line of War Savings Stamps.

School Of Law

The School of Law of the University of Toronto several faculties including Medicine, Dentistry, Commerce and, Forestry.

Law students in the University of Toronto are enrolled in the various arts colleges but spend most of their time in and around the School of Law building on St. George street. Although less numerous than the Meds they are notable for their equal preoccupation with their work and may frequently be found in knots at the luncheon or dinner table, or, in the Spring, on the new grass of the campus, earnestly worrying some legal point or

By this characterization we do not mean to imply broad. In most cases a large part of the responsibility some sweet licks on the trombone and Lucile Berry for this breadth of interest may be traced directly doing a hep Night and Day for her vocal. A white to the school's own approach to law. It is one which deals with the law as something other than a possibility and the law as something other than a possibility and make the law as something other than a possibility and provided and the law as something other than a possibility and the law

an aboslute, and which seeks rather the philosophy and the social basis of it.

One attractive feature of the teaching in this school is that lectures are considered as the relic of a once necessary expedient adopted in the days when books were scarce. Classes are conducted on a seminar basis and students are encouraged to read in many fields besides law, to follow their own suriosity and to make practical investigations of various phases of the law at work. The Law Reading Room has become the receptacle in which the

midnight oil burns with a more intense and with a more sincere flame than anywhere else on the campus.

As a result of this somewhat more intimate form of instruction student-staff relationships are very close and cordial. There is a strong informal bond between the staff and graduates which has been known to last even into the middle life of some

The quality of the training gained in such a school has won wide recognition throughout the world and holders of law degrees from this University are granted ad eundum statum anywhere. All its staff members have international reputations as legal

A recent development which has added prestige to the school and greatly enriched the life of the Champus yet, have you? Here Champus University is the one by which West Indian students has been entertaining you all these long have been permitted to take their legal training lonely cold nights and you haven't even here for admission to the English Bar. More than been introduced. Readers — this is 20 students are now attending the University from Champus Cat, Champus - please lift the West Indies as a result of this and it is ex- your head and meet our readers. (At pected that their numbers will increase greatly in the sound of the "s" on readers Champus

The Social Spirit

Once upon a time this season of the year was Whoever he or she is, he or she is customarily the one in which many of the professors beyond the range of my bifocals, but of this campus entertained the students majoring howdedo anyway." Champus takes out in their departments and generally fun and food flowed freely, but in the past few years the war has all but stopped this. Occasionally a few students has all but stopped this. Occasionally a rest state their instructors at tea and something of the bar on Harbord Street," invites Champus bar on Harbord Street," invites Champus the Students' Administrative Council "just in case leisure and informality of peacetime years is resome students have some money which they wish covered, but on the whole both students and faculty and leads the way with a quaint hop-covered, but on the whole both students and faculty and leads the way with a quaint hop-covered, but on the whole both students and faculty and leads the way with a quaint hop-covered, but on the whole both students and faculty and leads the way with a quaint hop-covered, but on the whole both students and faculty and leads the way with a quaint hop-covered by the covered by the covere to invest in Victory Bonds-which of course they are too busy for this sort of thing. This loss of the warmer, more leisurely contacts between the two analyzed as a conga-minuet, but when great groups of the campus has been mourned by Champus is in a hurry it looks more many, but, if a dispatch from a University in the like a Hawaiian war-dance. He always United States is any indication, perhaps the war travels on his hind feet too because he has forced such informal meetings to the fore again.

On one campus the labor shortage was the cause 1941 in the United States), for we recognize (along best efforts was translated by the lino-Individual students who will be able to take with certain wise historical philosophers, that cycles advantage of this service are doubltless few, but there may be student organizations who are able to us to be the new stars in student confinement of this in the Champus Cat us to be the new stage in student-staff informal social

> In what we have considered since its inception to be the ultimate in topical cartoon developments, "News Items," a strip conducted by L. F. van Zelm in The Christian Science Monitor, some possible developments of this trend are foreseen. first place there is the picture of things as they are, at least in one University where a be-gowned and be-mortarboarded figure takes an order. "Root beer and milk, Professor," and replies, deftly delivering Chorus:
> the dosage, "One black cow coming up with tail "Lay that pistol down-babe, shaking,

From there the prospect becomes almost too unis something of a paradox. One of the youngest happy to contemplate, as a loveable academic of the Champus whistles a low whistle in the as someting of a paragon. One of the youngest happy to contemplate, as a loveagle academic of the faculties on the campus, being organized as such Monty Wooley type shags with feigned pleasure to key of C as a cute little kitten, probably consider its ultimate origins which go back exactly from the progress is toward utter degradation passes she drops her Kleenex but no 100 years. It is small, having about 100 students as the representative of the faculty remarks to a one picks it up. "Nobody ever picks it spring co-ed across the counter, "If you tell me lup," smirks Champus. "That's Kitty for the progress of the progress of the progress of the progress of the progress is toward utter degradation passes she drops her Kleenex but no one picks it up. "Nobody ever picks it up." "Smirks Champus." That's Kitty for the progress of the progr enrolled in it, but its scope of teaching is broad sipping co-ed across the counter, "If you tell me since it gives courses to 300 more students in how to make a raspberry supreme parfait I'll tell you how you made out in your exams."

We view with alarm ...

Dentantics

Eaton Auditorium

Eaton Auditorium was the scene last night of the that law students on this campus are a group of dry, narrow, legastic quibblers. On the contrary their interests are generally found to be extremely by the Melodontists, with Jack E. Fuller putting in man. And he has been known to give

which deals with the law as something other than an aboslute, and which seeks rather the philosophy and the social basis of it.

Then 12 — Dentettes — 12 did a tricky chorus a chorus of 12—Dentettes—12 pointed onto the social basis of it.

One attractive feature of the teaching in this bulked out the first half of the program, which was well received.

HEH! GANG--MEET THE 'CHAMP

leaps three feet into the air with squeal.)

"No, it couldn't be," he mutters. "Puky is my only faithful reader and he's a moron. . . . Who's your friend, Puky?his teeth, buffs them up on his sleeve,

the typewriter keys, using his hind feet on the spacer bar. Before he adopted was so demoralizing that the whole University had to shut down for two

As our gavotte-conga line makes its way past Whitney Hall to the tune of Pistol-packin' Co-ed:

"Oh, the manpower shortage ain't so bad
That you should tote a gun-

Twenty hundred men around, You want only one."

Lay that pistol down. Pistol-packin' co-ed,

up," smirks Champus. "That's Kitty Foiled—she works for me. . . A lot of frustrated people work for me. . . They join the staff with high hopes of learn-ing to write English . . . Finally they go mad and write "Cats."

As we waited for our double malted Champus breaks into "I get the leg of the table . . ." exhibiting bumps on his head to prove it. You will note that head to prove it. You will note that Champus has been predominantly masculine so far—but you never know what Champus will do next. He has been around longer and more than most of us; he is at times an imbecile, at times an erudite philosopher, sometimes a medieal authority, sometimes an engineer. He can lecture on politics, nutrition, history, English; he is a poet of the first water; he is a confused fresh-

Meds Players

Army recovered from last week's set-back and proved that they will be tough contenders for the Mulock Cup when they whipped Meds 18 to 1 yesterday afternoon in one of the smartest exhibitions of football played this season. Staley and Haslett were the best for Meds, while the Army's team-play eclipsed any individual star in its line-up. Its linemen broke up Meds playe.

Dents jumped into a 3-0 lead in the first period on Ryan's opening goal and convert to amass the 18-point total Meds' only point was scored on a single by Staley.

In the first quarter Army fumbled a

Mith Jr. S.P.S. were soundly trounced by Carbon total Michael States and proved that they will be tough contenders for the Mulock Cup when they whipped Meds 18 to 1 yesterday afternoon in one of the smartest exhibitions of football played this season. Staley and Haslett were the best for Meds, while the Army's team-play eclipsed any individual star in its line-up. Its linemen broke up Meds plays before they could get started and gave their own backfielders good blocking support. The backfield men in turn counted three touches, a rouge and convert to amass the 18-point total Meds' only point was scored on a single by Staley.

In the first quarter Army fumbled a

In boxla Struggle With Jr. S.P.S.

A dictionary defines a sport as "Diversion, amusement or recreation; pleasant pastime." The same dictionary defines a sportation; and when a whom exhibitions sports, such as fairness, self-control, freedom from merceurary motives." Then our old friend Bill Shake-town of the statement of the school on the estatement of the school on the first quarter were playing holidays, to sport would be as tedious as labour." And Bill never said a truer word. Sport produces recreation from labour, good health, and learning for meet with and against other fellows who are rivals only on the first part were playing holidays, to sport would be as tedious as labour." And Bill never said a truer word.

Sport produces recreation from labour, good health, and learn

When play remused, Dents seemed to port for Meds. Meds recovered a firmble at midfield but lost the ball on the next play when they fumbled. Army ran the ball to the 19 before they were stopped. Three plunges made a first down. Army lost 15 on a penalty. A pass connected for 12. Hamlin went for 7 and Tamblyn plunged the remaining 5 yards for a touch. The convert was blocked. Before the half ended Army had added two more points on a rouge. A pass which Grierson hobbied landed in Cross's arms and he was dropped behind the line by Grierson.

In the second half Army started a March from the 40 for a touch. Tamblyn plunged for 11. Grierson tacked on 13 in two bucks. Tamblyn added another six. Neals enacked for sex to the test of 13 in two bucks. Tamblyn back 10. Neale cut through on an end run to score a touch. The convert was blocked by Haslett.

The convert was blocked by Haslett.

When play remused, Dents seemed to port was a storing spree as Murray scored four goals during the two up and went on a scoring spree as furthing the pict was and the was defined and Ryan to a bear of the table of the third period and Ryan tallied twice. The players are as enthusiastic as ever but after running onto the grid and againg at the empty stands, this enthusiasm sinks to an all-time low. And little wonder. Half the thrill of a game comes from the test of the table was deficials supply this badly needed incentive. It is up to the men and women of every college to get out and lend their needed support. It is up to you to co-operate with your players who are giving up valuable time to carry their respective colors into the games. The walk to the Stadium and their readed support. It is up to the men and women of every college to get out and lend their needed support. It is up to the most appring book-worm. To satisfy ourselves, we walked up to a character the other day, because the final score of the teams favored to take the Mulock Cup by our editor? Blankly he replied, "Izat so?" "Yes," we persisted. "Do you agree?" Dunno, have'

other six. Neale sneaked for seven to put the ball on the 3-yd. line. A holding penalty set Army back 10. Neale cut through on an end run to score a touch. The convert was blocked by Haslett. Army added another touch after Meds kicked off. An end run for Neale to Howson went to the 45. Neale passed to Grierson to move the mall to Meds' 25. An end run added eight. Neale passed to Grierson to move the mall to Meds' 25. An end run added eight. Neale passed to Howson over the goal-line for the extra point.

Plan to Continue Relays At Stadium Today

It was announced late last night that the relays which started at Varsity Stadium yesterday afternoon will be continued today. All teams are asked to be on hand at 2 o'clock so that they may run off early. Those that are not cleaned up tomorrow will be run off at the Stadium any afternoon this week after 4 p.m.

Members of the track team set out by Hec Phillips for the Tri-Meet on Thursday are asked to be on hand early. Thursday are asked to be on hand early. Early reports from the enemy camps reveal that some stiff competition will be in the offing. O.A.C. boast a team which will do well in the sprints, while Jarvis R.C.A.F. have some weight men who, according to their coach, F.O. Feed Pawait, will perchabit up no figuith. Fred Rowell, will probably run off with

ATHLETIC FEE PRIVILEGES

The U of T Ski cabin and trails are situated near Glendale, King Township, about 4 miles west of Newmarket. Secure trail maps at the Athletic Office, Hart

All men and women students entitled to Athletic fee privileges are automatically members of the U of T Ski Club. Badges can be secured at the Athletic Office on presentation of Registration Card with Athletic portion attached

The Athletic Association has again made arrangements with the Toronto Ski Club making it possible for students to apply for senior membership in the Toronto Ski Club at a special reduced fee of \$2.00. These application forms can only be secured at the Athletic Office, Hart House, on presentation of Registration Card, starting November 1st.

In order to insure receiving Toronto Ski Club badge for use over the week-end your application must be in by Tuesday of each week.

Guest fees will not be applied as partial payment of special membership fee.

The Sportswoman

By Micheal O'Mara

Sometimes even the most efficient of Sportswomen come to a point in their journalistic careers to which they refer euphemistically as "the end of their tether." It is at such soul-searching times that they turn to their old crap-shooting acquaintances and sob to them, "Gee, shux, Mylo, write us a Sportswoman strictly from hunger, eh?"

In four long years of slaving away in the cause of The Varsity, we never did get around to writing a Sportswoman before. So, now, quite untrammeled with any preconceptions about how the thing should be done, here we go:

be done, here we go:

In the first place, Betsy tells us between heartbroken sobs, that
the babes' interfaculty tennis tournament is now entering its second
round. This, she says, is good for a couple of paragraphs. All these
little girls who are in the second round should "get in touch with
their opponents," says Miss Mosbaugh.

This sounds pretty sinister to us, at first glance. Women are a spiteful bunch at best, and the thought of them going around "getting in touch with their opponents," is inclined to appal us, just like our initials were R.W.

However, casting aside these baser suspicions that really we are encouraging mutual murder, we urge them to look around for the luckless characters that have been bracketed against them and arrange the time for their over-the-netting conflict on the crimson clay of the St. Hilda's courts.

Nuther thing that Betsy assures us we should urge upon our unseen and probably unlettered audience is that a large crowd really ought to be on hand to witness these court classics.

There are all sorts of reasons for wandering up to Devonshire Place these afternoons and watching the interfaculty Willses and Nuthalls at work and play. They might be friends of yours, or thought be pulchritudinous enough to merit a half-hour of respectful gazing-from-afar, or they might—unlikelier things have happened—be playing a brand of tennis worth seeing. It's for free.

Betsy lifts her beautiful and tattered head and asserts apropos of nothing at all: "U.C. has mixed doubles."

This is no revelation to us. We went there for four years.

Betsy adds, however, that these here mixed doubles are now in the third round. Winners of this titanic tournament, she confides to us sotto voce, will receive handsome crests donated by the Athletic Association of the Royal College.

"Thow in," sez Betsy, "about how Meds have a tennis team." She elucidates further that they have 30 freshies and lots and lots of the more haggard variety of women on their team, which includes a half-dozen seeded stars. This is probably very interesting to tennis

Saturday morning at 10 o'clock. A large entry is anticipated and it is hoped that every faculty will be represented. A special invitation is issued to all freshmen to participate.

It should be evident by now, even if we hadn't explained right that the top, that this Sportswoman is strictly from hunger. But after all, she asked for it, even if you didn't. Sometime we must write a column about something we understand.

DANCING. REFRESHMENTS

Plans for a campus canteen in the Women's Union, open to all Airmen and Army Course men stationed on the University grounds, are being made by the Panheilenic Association of this University, it was learned yesterday.

The association, representing the ten campus women's fraternities, intends holding a series of "canteen evenings" in an endeavour to entertain the service men, Miriam Allison, executive member of the group, explained.

The first evening of the program will take place Friday, Nov. 12, in the Women's Union from 8 to 11 o'clock, when more than 80 male guests will be invited to enjoy dancing and refresh-

"It will be a trial, though," said Miss ful, then more such projects will be conducted."

THURSDAY, OCTOBER 28, 1943

For Servicemen

In a recent editorial (Oct. 21) we advocated the establishment on this campus of a "leave course" for men in the armed services along line already followed in England at Manchester University Our suggestion was picked up immediately by the Simcoe Hall office of the Canadian Legion Educational Services and such a plan is now being given careful consideration by Captain A. Harden, who is Regional Secretary for the Central Ontario Region of the C.L.E.S. Capt. Harden sees many difficulties to be ironed out before such a plan could be put of the University.

The proposed course would offer the hospitality athletics, recreation, and some social activities. Those attending the course would be servicemen stationed in the Toronto area who are unable to spend their leaves at home. Many men in training here whose homes are in the Western or Maritime provinces or other parts of the Empire are continually faced with the problem of where to go on their leaves.

I memorable experience.

This year, the inaugural concert will be given by the Hart House String Quartet. The personnel of this ensemble are as distinguished individually as they are en masse. James Levey, first violinist, a set routine Dr. Outfelder would take is world-renowned as teacher and soloist; Adolf

The plan sounds good on paper. It is certain from the staff, who have long since proved their good music is known. willingness to assist in any wartime measures. But in order to make this leave course a success every student on the campus must stand by to assist. Since the student body represents the vast majority of campus personnel it is from the students that the hospitality must spring. It is up to the student to realize his present fortunate condition and offer what he can to the man in uniform.

The main problem to be faced is that of accommodation for the men attending the leave course. It would be preferable to have them billeted on or near the campus but this might involve considerable search and perhaps even temporary inconvenience on the part of co-operating students. Since the taking over of campus residences by the military the student housing problem has become increasingly acute. However, we rest our hopes on that encouraging little axiom: "There is always room for one more." If 25 student or campus organizations could find room for just one more, for a period of seven days, the problem would be solved. Student co-operation in this regard would be greatly ap-preciated both by Capt. Harden and by the men attending the course. Anyone willing to assist in the accommodation of servicemen for such a course are asked to report to Capt. Harden of the Canadian Legion at Simcoe Hall.

There are many other ways in which the students can be of assistance in the management of a leave course but these will not be fully outlined until the possibility of conducting a course is definitely established. If the problem of accommodation can

Signals!

Co-eds with an eye for the picturesque should make it a point to frequent the front campus one of these late afternoons when the U.N.T.D. is out Published five times a week by the Students' Administrative Council of the University of Toronto. Opinions corpressed in these columns are not necessarily the official opinions of the Students' Administrative Council.

of these late afternoons when the U.N.T.D. is out in force. It was rather a shock to our rain-weary opinions of the Students' Administrative Council. eyes yesterday to round the corner of University College and behold the hitherto damp green circle a mass of red and yellow flags whipped sharply one position to another by stiff, blue-clad sailors. So colourful a manifestation of that grim institution -A University at War-gave us pause to think of the compensation we are given by the pageantry of war for the loss of rah-rah peacetime days.

> We have heard many sighs for the pre-war in Experiments glamour of campus life. But to us that carefully fostered gaiety fades to insignificance beside the Kullaannkkk! Wheeeeeeeeem vital reality of campus life today. The University is overhung with the spectacle of war, which serves the double purpose of adding interest to the landscape and providing thought for the mind. What co-ed would trade her hero in Air Force blue for the commonplace tweeds or even football garb? Who would prefer the antic contortions of knobbykneed soccerites to the intricate flash of Navy signals? And who does not find interest in the ever-changing Army manoeuvres? Our memories of college life will be vastly different from those of college life will be vastly different from those of our predecessors but they will not be less interesting.

A Bow To Ernie Rawley

Royal Alexandra Theatre

Yes, we know a review of Sidney Kingsley's The Patriots-and a good one at that, by Mr. Bracealready has appeared in this column. But this is not a review. Call it what you will, a footnote, a mashnote. In any case it's dedicated to the courage of Ernie Rawley, manager of the Royal Alex, for staging The Patriots at his playhouse.

For Mr. Rawley knows well the peril involved when he brings to Toronto a play-no matter how well-publicized-but still regarded as serious fodder. The spectre of a grim landlord appears before him as Mr. Rawley recalls l'affaire Ladies in Retirement, which serious item played one week at the Royal, but alas, to empty stalls.

Toronto, Mr. Rawley has been wont to say, is be overcome and a suitable curriculum arranged, a laughter-loving town; give them a song and a more definite appeal for help will be forthcoming. dance and they'll eat it up. Give them comedy and they'll gorge themselves happy. Give them a song

Slot Machines Now Used

whuddunk, whuddunk, whud-dunk, whud - dunk, whud dunk, whud dunk whud

THAD DUMP!

Last Friday night, the Honorable Ole Oakenbucket, Adtorney General of Ontario, released 400 slot machines for use in the University of Toronto De-partment of Applied Mathematics. They

An exclusive interview with Dr. Out-fielder was granted The Varsity by the Department and a reporter was allowed to visit him in his specially outfitted laboratory in the former Hart House Theatre. Access was gained to this room through a little-known secret entrance in the south-east leg of table No. 5 in the Pool Room.

The laboratory was found to be dimly lighted, but the 400 slot machines were seen resting in the dust on 400 of the tattered seats. A demonstrator who was to guide the reporter explained, "There are really 500 seats and we have used 100 more machines, but those other seats are reserved for the Board of Syndics and stuff like that there."

next machine.

Sceing two other visitors and no wishing to disturb the mathematician in the midst of his work we engaged them in conversation. They were Dr. them in conversation. They were Dr. I. Gotcha and Dr. Lotzun Latz of the I. Gotcha and Dr. Lotzun Latz of the Psychology Department. Dr. Gotcha bobbed his head and said, "'s too bad about poor old Outfielder, he's been playing these slot-machines for so long now that the Head of the Psychology Department, E. A. (Jack) Pott, felt we'd better come down here and keep an eye on him."

"Kulllaaannkkkkk! Whhhheeeeeeeem. Whudunkwhudunk - whud - dunk whud dunk whad dunk thad DUMP, thad DUM, thad DUMP."

DUM, thad DUMP."

By Phil Shackleton

RAIN OR SHINE . .

That used to be the byword before a sports event in the past but it seems that the local intramural rugby league is this year bowing to the weatherman and we see the gallant team retire to the dressing room when the clouds threaten. Or such was the case yesterday afternoon. Trinity and Dents were scheduled to meet at Varsity Stadium but the game was postponed presumably because of the weather. of the weather.

of the weather.

Now we have always been led to believe that it is the proper thing to play a match or game as scheduled come hell, high water, or Dorothy Thompson. Perhaps we're old fashioned in this belief but it seems to us that sport, having already kow-towed before the almighty box-office, should at least be able to hold its own in a short bout with the meteorological department.

If a team has trained hard they will have a great advantage over another team if they meet on a heavy field. It is well known that a really good nag would place second not even to the darkest of dark horses on a heavy track.

horses on a heavy track

It might interest you too, to hear that U.T.S. and Pickering played during the best part of the rainy afternoon prior to the scheduled interfaculty game. And before a crowd of students which would outnumber the turnout of any four intramural games.

But perhaps our teams would rather sit at home by the fire on a day like yesterday.

REED TROPHY ...

Contrary to any wild guesses which we have made recently, these standings are the straight stuff. Trinity leads the race with 1,373 points. Medicine is second with 1,248, U.C. is third with 1,211.5, and School is fourth with 783. These totals include points for team entries in rugby, soccer, lacrosse, volleyball, and swim league, and the complete results of the tennis, golf, and the junior and senior

Note to freshmen: The Reed Trophy is awarded annually to the faculty which gathers the greatest number of points in intramural sports. It was taken last year by S.P.S.

NEVER TOO EARLY ...

Well, hardly ever, but especially for the junior harrier which is scheduled for ten o'clock this coming Saturday morning. The Athletic Office expects a very large entry, and in order to eliminate confusion and to save time Saturday, asks that all entries be placed in the office before five on Friday afternoon. And don't forget to sign the before five on Friday afternoon. And don't forget to sign the eligibility list!

The Sportswoman

By Betsy Mosbaugh

LAY THAT PISTOL DOWN, BABE . . .

Will soon be the cry of many a lithe maiden as she substitutes a foil for a gat and swings into action. We hardly thought that the mention of fencing the other day would create such a stir but numerous damsels have shown so much interest that the WUA. is considering the possibility of inaugurating the sport. But gone will be the glamour of fencing in the tower room of U.C. as in days of yoor—the Lillian Massey gyn will probably be the coursey field and it will also supply the equipment. The fee, so far, stands at three bucks per person per season for the rent of the equipment. This is really worth while when you consider the cost of masks, chest guards, foils and gloves, The W.U.A. will pay for the instructor who is Mr. Walters, one of Cauada's well-known artists of the foil.

The history of fencing is almost as old as the race. In India we hear of Branah revealing the art of protection with a sword. Two thousand years before our era, in China, the science of the sword was predominant in its own field. The Japanese and French were known throughout history of earlier times as absolute masters of the art. Then in the 16th century fencing became refined and the first books were written about it. But the era in its history which holds most intrigue is that of the swashbuckling lads of Merier England with bluff King Hal. By the time of Pepys, however, the sport acquired the dignity and science that it has today. The duel originated in the 15th century and owes its beginnings to the Germanic race.

Aside from its background of romance and splendour, fencing has other fact that once a fencer, you belong to the fraternity and are received automatically as a guest into any club. It's a universal sport that can be found wherever you travel. So put your name on the list in your college, toss out Dale Carnegie's book and try polishing your poise instead of poisonality . . . get the point?

Any time's SHOPPING TIME!

SPARKLE... every fittle thing sparkles and looks whiter when it's JAVEX rinsed. Try it on dishtowels, on a dishmop, and face clothes and handkies. Just a few drops in water as you rinse your white things and you'll appreciate why it is some people's wash maintains that superior air. Also... if there's been one of those autumn colds playing tag around the boarding house tell the landlady (with infinite tact mind you) that a supecon of Javex in the you) that a soupcon of Javex in the dishwater discourages that head cold virus. And just in ease you've mis-taken your handkerchief for a penwiper, Javex will remove ink stains from linen and cotton.

BE BEAUTIFUL ... there's no rule about it, but those who are, tell us it's fun. A few moments spent in cleaning up and softening up the only complexion you've got are not much out of a smart girl's day, and totals you up a better score in the long run. Du Barry Cleansscore in the long run. Dis Barry Cleans, ing Cream on your dressinglable is your first aid station for a beauty elean-up, night and morning, efficient as always, with that gentle, warm, and lingering fragrance which reminds you of sunderwheld flower batter. drenched flower petals.

On Muddy Field Triumph Over Vic

Behind a hard charging wing line, U.C. ran up a 5-0 count over Jr. Meds yesterday afternoon, the issue never being in doubt. The game, played in a closely fought game yesterday afternoon at the Stadium. The play was being in doubt. The game, played in very slow because of the heavy field, a soaking rain which eliminated any chance for sensational play, developed into the conventional two bucks and a kick type of football and it was here that U.C. showed unexpected power. S.P.S. His kicking was the feature Behind the steady quartering of Ross of the game, as he returned several of Surgess, plungers Saltrana and Horvitz Behind the steady quartering of Ross of the game, as he returned several of Surgess, plungers soltrana and Horvitz tran 40 yards down the middle for a touchdown only to have it called back on the five yard interference rule.

Despite the consistent long kicking of Staley and the fine work of Haslett and Laugheed on the secondary for the purple of the second quarter ended with S.P.S. leading the work of Haslett and Laugheed on the secondary for the purple of the second quarter ended with S.P.S. leading the work of Haslett and Laugheed on the secondary for the purple of the second quarter of the second quarter of the clare's boots put S.P.S. in the lead by two points.

Another rouge on one of Clare's boots put S.P.S. in the lead by two points. O'Malley of Vic also got some good hoists away. However, S.P.S. added another point on one of these when Clare returned it to the deadline. Vic tried to open the game up with passes. Two completed passes in a row made yards but after several more went hard-tackling U.C. line gave their plays little chance to get going.

little chance to get going.

point.

By Phil Shackleton

WEATHER WET, TRACK SLOW...

That's a mild way of describing the atmospheric and topographical conditions at the meet yesterday. We heard several runners express much the same sentiment in a much more colourful manner. But despite the worst possible conditions the meet was run off and, with the exception of the pole vault which continued to a late hour last night, it was run ahead of schedule.

Of course the meet was not without its tragedies. Coast guard extreme which were in a late of the pole was the second of the pole without the statement of the pole was the second of the pole was the second of the pole was the

to see that an goes as planted. Tessif, our choice in the outstanding star of yesterday's meet is Coach Hec Phillips.

HARDY PERENNIAL...

That's tas when it comes to the department of intramural information. It seems that yesterday we chided the case of the postponed rugby game but the Athletic Office became highly indigant over our criticism because it has now been definitely proved that there was no game scheduled for yesterday. Reason for our confusion on the subject came from a mis-print in the daily schedule. And so we tender our humble apologies to the intramural officials and trust that they will bear with us in our well-meaning but sometime inaccurate journalistic ventures. journalistic ventures.

A moderate sum, say 50 cents or a dollar, would be more acceptable to fencing enthusiasts along with the natural proviso that they pay an extra amount for any damages that they inflict on the rented equipment. This, according to the consensus of co-ed opinion, would do away with the greater financial worries and lend encouragement to the continuance of the foundation of this sport.

What with added concentration on studies, the gals feel that the revival of fencing in the University would give them an opportunity to participate in a sport which provides an element of novelty as well as a chance to combine skill with poise.

Parliamentary Decision Results In Defeat Of U.C. Government

Bill to Nationalize Industry at War's End Introduced by National Socialist Democratic

'CROC POPULAIRE' FORMEO

A bill to nationalize industry at the cessation of hostilities was defeated at Friday's session of the University College Parliament meeting in the Junio Common Room.

into areas where needs are greatest, and this is only possible in a free and untrammelled industry. He condemned the government's policy which, he said would necessitate the formation of a large burcaueracy for which the taxpayer would have to pay.

In support of the bill, Minister of Re-Construction Gord, McCaffrey, said that under the free enterprise system there is free enterprise only for millionaires. While we pride ourselves in our political democracy, we are in a state of economic dictatorship. If the proposed system were instituted after the regional variation and during the weekend with gains varying from a few years to a few miles.

Post-War Campus, U.S.A.

Last week President Roosevelt asked the United States Congress to provide additional education of at least one year's duration for service personnel after the war at government expense. Roughly equivalent to a scheme already operative in Canada for the benefit of those who have interrupted their education to serve in the national emergency, the plan, as visualized by the President would make available three further years of education to exservice men and women of exceptional talent.

The Canadian scheme, in comparison, offers further education in proportion to the time served plus additional assistance if the case would seem to merit it. Post-graduate work is also financed for those capable of benefitting by it.

Once again the United States seems about to wartime legislation. It is understandable that Canada, two years longer in the war, should serve to some extent as a model or proving ground for the larger neighbor to the south. However, in this case, where the United States has treated the college and the educational machinery of the country much more harshly than Canada has, it is surprising the states has, it is surprising the surprising that the canada has, it is surprising the surprising that the surprising that the surprising that the surprising the surprising that the surprising the surprising that the much more harshly than Canada has, it is surprising that restorative measures for the post-war period were not undertaken sooner.

bound to result from the drastic conversion of the colleges to wartime training posts. The sense of shock which the emergency drafting of all physically fit college men thrust upon those who look with profound thought and sincere affection on the progress of higher education may soon be replaced by hope for a future in United States colleges which will see more young citizens than ever profiting from increased educational opportunities.

Canada Pays The Bursar

President Roosevelt's recent appeal to the United States Congress to underwrite a major part of the postwar education of members of the Army and Navy brings to the fore the parallel scheme instituted in Canada more than a year ago. A large number of people are aware of the Dominion Government's plan but few realize that it is in actual operation at the present time.

Ilish, at Eaton Auditorium, this pageant of "youth beauty"—to quote the ads—played to a packed house. A pleasing innovation on this occasion was the playing of a concert orchestra in the foyer before the show, and during intermission.

And now a few of the credits. First, a bouquet to Brenda Miller for her spirited Rosalinda. It is impossible to pick any particular instance for ap-

When it was first annonuced the educational was most amonuted the educational section of the government's rehabilitation scheme was greeted with warm approval, but in a world naturally concerned primarily with the prosecution of the war the educational privileges offered to service personnel quite naturally fell into the "Pend-ing' file of the national mind. However it received no such treatment from the government. Thus it is that today there are on this campus a small number of men who have been discharged from the forces and are now continuing their education while the

and are now continuing their education while the Dominion Government makes all cheques payable to the Bursar.

Besides being a hopeful sign for the future administration of many worthy postwar measures the Canadian system of educational rehabilitation serves to point the way to a time when the state will undertake to see that none of the worthy shall lack the educational opportunities they desire. No one would now deny that any young man of mental

calibre suitable to university training who has served his country in wartime is deserving of full financial assistance in continuing his education. He is more than that. He is a national assest proved worthy of greater development.

When peace comes the country will lack so drastic a test as wartime service to help in picking out the most deserving of its intelligent young men and women. But when this convenient and partly emotional criterion is gone, we hope that the basic ideal of financing the education of those who have served the nation will find easy transition to those ose qualities of character and intellicet would indicate that they will serve the nation and the thriving broader cause of humanity once they have received strong, by

Symmetry

Hart House Sunday Evening Concert

These four gentlemen play with fine unity of purpose. Add to them one Robert Rogers, clarinetist, urchin from under the seat. "But even if we ain't no more helpful that they if we ain't no more helpful that they if we ain't no leave a right small that they is a single to leave a right small am speaking of course, of the Hart House String Quarete, which inaugurated the Sunday Evening Concert series in the Great Hall last night. For the record, they are: James Levey, first violinist, Henry Milligan, second violinist, Allard de Ridder,

violist and Boris Hambourg, violoncellist.

The marvellous symmetry of Mozart's music, with ascending and descending figures almost invariably opposed and balanced in the allegro movement was lucidly portrayed. This ensemble, by their unanimity of attack and graduated crescendi, at times achieved the impression of a full chamber orchestra. Not a bad achievement, that.

In the larghetto the group attained an apex of art in melody. Here for a space the clarinet became truly a solo instrument, with iridescent tone projected against a subdued background of muted strings. The smooth melodic line of the clarinet take a leaf from Canada's book in the matter of however, nicely contained within this particular concealed some formidable difficulties, which were,

from this man.

Schubert and Sentimentalist was represented with his Quartet in E Flat. It is an anomalous piece, but It is very gratifying to the President offering this suggestion now, for it is none too soon to be thinking counterpoint in the scherzo was played with fine to to get into it and pour was the scene to know what it was for.

LOWEST SCORE 26 POINTS Tamblyn Scores Both Touch down for the Army; Robbins Comes Through for the Schoolmen

ARMY NEXT TO U.C.

Army their first touchdown and tie the score 5-5. School blocked the convert.

As the quarter ended School had pos-

half and the Engineers fumbled on their own ten, Army recovering the ball. On their third down, Tamblyn plunged over the goal-line for his second touchdown, making the score 10-5. A pass convert was attempted but missed. After this score, School took to the air, but with ill luck, as many of their passes were intercepted and few completed.

School kicked to the Army 25 and on their first down Army was penalized ten yards for holding. Neale of Army kicked and S.P.S. ran the ball back to the half-way mark. An attempted pass was intercepted by Grierson but School recovered the ball three plays later, Play changed hands several times dur-ing the third quarter but most of the ball-carrying was done in the Engin- Pharmacy 5-0

with the ball but School regained it and McCombe and Smith plunged through for yards. An extension lateral end-ing with McCombe netted only one yard and an the next play McCombe threw a 30 yard pass which Evans just missed. School kicked and Army held the ball.

Tamblyn made one yard and then Army was penalized again for holding. On the kick, School ran the ball back to their own 30 and then lost the ball when Houston of Army intercepted a forward pass. Neale plunged for four yards and then Grierson eaught a pass and ran the ball to the School 18. Tamblyn plunged for five and Neale Tamblyn plunged for hve and Neale made four to put the Army team on School's nine yard line with third down coming up. However, Army attempted a pass which was missed and the ball was taken out to the quarter-way mark. School took to the air in desperation School took to the air in desperation but Evans intercepted a pass on the first play and ran it back to the Engineers' 16. Army made seven yards on their down and then lost the ball. S.P.S. tried a last-minute pass but tilis, too, was intercepted by Phillips, who ran the ball back to the School ten.

UNIVERSITY SYMPHONY FIRST REHEASAL MONDAY

The first rehearsal of the University of Toronto Symphony Orchestra will be held in Recital Hall, Toronto Con-

By Phil Shackleton

JUNIOR HARRIER . .

There are always two sides to any ledger, the credit and the debit. First the credit. Hec was very pleased with the large entry, in fact the record entry, which turned out for the race on Saturday morning. It did our tired old heart a great deal of good to see the locker room thronging with be-shorted students lined up to receive their numbers. And the athletic host which galloped across the back campus at the crack of Chesty Martin's pistol was a tonic to eyes which had not expected to see more than the usual select but small group of regular runners at the starting line.

ARMY NEXT TO U.C.
The heter part of the course which is laid out as a three-lap marthon on the campus. Second was Goering of Trinity nearly a hundred yards behind Watts and third was Baxter of U.C.
Fourth place was filled by Cooney, first of the two St. Mike's men in the race. Brown of S.P.S. was fifth, Lawlor St. Mike's sixth, McDonough of St. Mike's sixth, McDonough of S.P.S. seventh, and Matthews of U.C. eighth.

The winning team was School whose first four finishers totalled the lowest score of 26 points. Watts in first, Brown fifth, McDonough seventh, and Slemon thirteenth, made up the top team. U.C. ran second with 31 points as Baxter, Matthews, Skinner, and Farbor finisher that heters, and eleventh respectively. Trinity with 42 points was well back in third position with Georing second, Hickman teath, Rarpy is seventeenth, and Kirkwoode eighteenth. Meds placed four with 10th.

Army kicked off and School held the care the standing on the company of the control of the control of the control of the care of the care was beginned to the care was beginned to see more than the usual select but small group of regular tunners at the starting line. score 5-5. School blocked the convert.
As the quarter ended School had possession of the ball on their own ten.
Play shuttled back and forth during the second quarter but at half-time School had been forced back to their own six yard marker.

Army kicked off to open the second half and the Engineers fumbled on their own ten, Army recovering the ball. On the second half and the Engineers fumbled on their t the fall.

Arter nair-time the play improved, as Pharmacy made a better showing. How-ever, they were dangerous only occasion-ally, and even failed to score on a penalty shot. U.C. meanwhile had not been idle, and before the end of the been idle, and before the end of the game Blackstone and Rothfels scored.

Final Spurt Beats School

In a hotly-contested soccer match on the back campus Saturday morning, Trinity defeated the S.P.S. II team 2-1 with a last-minute goal. The playing of both teams was spirited but the excellent passing co-ordination of the Tri-nity players gave them a decided edge which kept the ball in the Schoolmen's half most of the game.

Play in the first period was irregular of Toronto Symphony Orchestra will be held in Rectial Hall, Toronto Conservatory of Music, corner of College St. and University Ave., on Monday, Nov. 1 at 7:30 p.m. All student musicians will be welcomed. Please bring instruments in preparation for rehearsal.

BOXING -- WRESTLING

Water Polo - Speed Swimming **Gymnastics**

Fancy Diving --Fencing

Coaching and Training Classes will be held in the above activities starting the week of October 25

BOXING -- Tuesday, Wednesday, Thursday, Friday at 5.00 p.m. WRESTLING -- Tuesday, Wednesday and Thursday at 5.00 p.m. Water Polo -- Tuesday and Friday at 4.00 p.m. and Saturday at 9.40 a.m.

Speed Swimming -- Tuesday at 11.30 a.m. and Saturday at 10.30 and 11.30 a.m.

Gymnastics--Monday, Wednesday and Friday at 5.00 p.m. Fancy Diving -- Wednesday and Thursday at 4.00 p.m. Fencing -- Monday, Wednesday and Thursday at 5.00 p.m.

Note: It is not too late to enrol. If you are interested in receiving instruction in any of the activities listed kindly enrol with the coach or instructor in charge immediately. It is not necessary to take all the classes scheduled for any one activity. If you can only turn out once a week you will still be welcome.

These activities may be taken as regular Physical Train-ing classes to fulfil the Attendance Requirements

Major M. B. Hastings Ends Term Of Office As Alumni President

Strengthened Alumni Contacts Through Correspondence and Out-of-Town Alumni Clubs and Organizations

ACTIVE TWO YEARS

The annual meeting of the Alumni Federation of the University of To-ronto Nov. 17, will see Major M. B. Hastings step down from the presidency of this organization after an active twoyear term.

Despite the dampening influence of vartime conditions, he tried to mainain the contact of the Federation's 4,000 members with the University and to awaken undergraduate interest in Alumni associations.

Major Hastings started the publication of the "Alumni Bulletin," an annual folder which summarizes graduate and undergraduate affairs to keep graduates who are members of such associations in touch with University activities. By active correspondence, he has also been instrumental in inducing out-of-town Alumni clubs to continue operation during the war.

Tickets for the U.C. Follies, which will be staged Nov. 10 at Eaton Auditorium, will be provided for only 500 will be more than a fair of the Stage of the U.C. To t

President Urges Campus To Buy More Bonds

I am informed by the members of the General Committee, charged with the sale of the Fifth Victory Loan in the University, that we have not yet come up to our record in the last campaign. For another week this sale of bonds continues. Our country needs the money for the efficient carrying on of the war. Victory is certain, although hard fighting must intervene. We dare not relax our efforts at this stage or indeed until the enemy unconditionally surrenders.

May I again urge that everyone do his utmost to provide the necessary monetary sinews of war through subscriptions to this Victory Loan.

Someone has analized the V for Victory into valour, vigour, vision, vicariousness. We need all four points now.

Women and the Engineers

Oike gave them a ready-made attitude toward the arguments pro and con.

other men (i.e. non-engineers) but how were they

It should be made clear that the petition does human being, the women?

He can remain aloof from the lesser things of life and move about the social world unhampered by a companion of the weaker sex. We admire the engineer's fortitude in keeping his eye on the straight and narrow path of reason, in determining realize the fallacy of this view—the extra consumer that women, "however desirable," are not necessary to his way of life. And since this all-important precedent has been established we are sure no one will even mention the possibility of a counter-debate on the subject: "Is an engineer essential to the life of a woman?"

Other officials declined to comment to The Varsity investigated further and room the war. It does not take much thought to the war to take much thought of the versity College actually did contain a power they bring will create more work. Moreover, will even mention the possibility of a counter-debate on the subject: "Is an engineer essential to the life of a woman?"

Women's Rights

The Congress of the United States is presently considering a proposed amendment to its constitution insuring that "Equality of rights under law shall not be denied or abridged by the United States or by any state on account of sex." In view of this it would seem that equal right for women may finally emerge, in the States at least, as part and parcel of the written law. Every democracy is constituted on the fact that all men are created equal but men have been a long time admit-ting that the term "men" is here used in the generic sense, and refers likewise to women.

In reality this amendment, if passed, will serve only as a legal gesture, an official benediction of the equality which has already been so vigorously fought for and obtained. For woman today stands on an equal footing with man in any field-education, industry, government, the professions. Her position is admittedly precarious in some few instances but on the whole she is accepted as a willing control of the state of willing, capable and steady worker who is not afraid to enter competition with any man. Her advance has been most rapid, of course, since the beginning of the war. With the sudden exodus of men from the business and professional world women were given a clear field. Some will argue that this growth of equality is solely due to the war and that after the war women will again subside and content themselves with the minor position of satellite at man's feet. But any man who knows his women (if such there be) will agree that any advance, however won, feet. But any man who knows his women (if such there be) will agree that any advance, however won, in the fight for women's equality will not be easily relinquished. Women have advanced their cause a sojourn in the Sketch Room, where there is an inch by inch through all the years, their plan of action being to consolidate every step and make fast their gain before going on. Since the beginning of the war women have entered many fields formerly the war women have entered many fields formerly that the description of the watercolours and etchings of Peter Milne, Canadian artist.

Mr. Milne obviously has an affinity for the Chinese (Continued on page 4)

Division. "We foresee the end of the German House On Jackstaff, of the U.N.T.D. Ship's Office, "as soon as we can get them in exhibition of the watercolours and etchings of Peter Milne, Canadian artist.

Mr. Milne obviously has an affinity for the Chinese (Continued on page 4)

the sole possession of the stronger sex and they will remain because their contribution is now recognized as valuable and necessary. They have no intention of taking over a field to the exclusion of the men who have turned aside temporarily to finish another They will welcome him back but remain to job. add the weight of their skill and intelligence to his.

This fight for equal rights is not an attempt on the part of women to take what they can away from It is merely a natural desire to add whatever they can to the general sum of human knowl-edge. It is grudgingly admitted today that women have brains and can use them. It has been demonstrated in many war plants that women have a certain facility for manual labour. Is there then, any logical reason why they should not enjoy equality of opportunity with men of brains and manual dexterity? There is not unless one has the misguided fear that women, given so much, would seek to take over man's domain. But such is not the case. They only wish to do away with this idea of a woman's world and a man's world in competition with each other. True equality will come when women assume their rightful place in one world common to both.

Correspondence

To the Editor. Dear Sir.

A recent editorial in The Varsity discussed the Much space has been devoted in The Varsity merits of a petition now being circulated on the cently to a discussion of women and the engineer. recently to a discussion of women and the engineer. campus and elsewhere, requesting that the govern-It seems the men of S.P.S. sat down to a serious ment of Canada remove the restrictions on race. debate to determine whether a woman is essential creed, and financial condition, which now prevent in the life of an engineer. The very choice of immigration of bona fide refugees from political subject would seem to indicate that the mighty men of School were in a quandary. Their scientific at a time when the movement for signatures had minds were unsettled. Tradition and the Toike hardly begun, it seems worth while to review now

to define their feeling for that third species of not request mass immigration into Canada, but only a haven for refugees as described above. Their Due thought and discussion was brought to bear number is small-perhaps 10,000-and at a time upon the question, and after much debate a decision when our industries are crying for men, it is hard was reached and Schoolmen were relieved of their to see how they can fail to find a place here. Some worry-to the life of a full-blooded, self-sufficient students have objected that they will become public engineer women are not essential. Now is he strong charges. To this, the answer is that the Canadian in his independent might! Now truly he is a man National Committee on Refugees, which sponsors of School! Now he can abandon that interesting the petition, undertakes to continue to find places but none too satisfactory game of want-ad dating, for them in the future, as it has so successfully He can remain aloof from the lesser things of life in the past.

However, in the improbable event of their proving undesirable after the war, there is always the opportunity to send them back to Europe. The petition "just between I and you, we never does not ask for citizenship for them—none is granted to war-time immigrants. And being here is no guarantee of stying here, as many thousands of British immigrants painfully found during the despectation."

British immigrants painfully found during the despectation of the provided that the province of the p

only one answer—they are refugees because they were the best elements of their respective countries, the intelligent and likewal are refugeed with the countries of their respective countries. were the best elements of their respective countries, the intelligent and liberal men and women of all creeds and races, who opposed the Nazis most strongly. They will add greatly to the spiritual resources of this country. resources of this country.

Britain and Portugal, small countries with large populations and difficult food problems, have sheltered many thousands. It is the least we can do to take in those whom transportation limitations will allow. We have prided ourselves on the supposed fact that we are more just and humane than our enemy. Here is a chance to show whether we our enemy. Here is a chance to show whether we are really sincere, or merely loud-mouthed hypocrites.

Yours truly, H. Kalant, V. Meds.

U.N.T.D. Warship To Be Launched Today, Maybe

Eighty - year - old Prophesy to Come True If Hydraulic Engineers Succeed; Arrangements Elastic, Says Goodrich

SNIDER SILENT

Tizzy-Bazaar, Afghanistan, Nov. 2, 1863—(Special to The Varsity by Lama, llama, and sea mule)—(Delayed)—Construction of an ironclad war vessel in the tinsmith's shop at University College, Universty of Toronto, situated in erstwhile Muddy York, was announced here today by the noted seer Abdullalı Witz, the Guzzlin Muzlim, "It will be launched in exactly 80 years to the day, if they ever find a way to get it out of the basement."

"Well," asked your unworthy corespondent, "will they?"

"The vision fades," said Abdullah, The vision races, said Addullar, reaching out for our sarsapartilla flask. We regret that we had to demur in order to save some of the precious potion for our courier that readers of The Varsity might have this news.

Simcoe Hall, Nsf., Nov 2—Receipt of an 80-year-old prediction that a war vessel would be launched today on this vessel would be launched today on this campus was greeted with some amazement here. Dr. B. F. Goodrich, head of the University Extension Department, prophesied grinly, "The first I've heard of it. Obviously the University has over-extended itself at last. I hope it snaps back to normal."

Other officials declined to comment

of a foaming brow liquid and glass receptacles set at various levels. It is expected that after experiments have been completed in the model stage they will proceed to the practical application of their discoveries and attemp to drain Hart House pool into the U.C. base-

ment.

Once the ship is afloat it will be armed with the two cannon now resting at the base of the flag pole. It is then expected that with due ceremony the vessel will be turned over to the University Naval Training Diddies. Division.

Touch By Beattie

MED BACKFIELD STRONG
Long periods of static mid-field play interspersed with frequent sensational licks and break-throughs featured the grid battle at Varsity Stadium yesterday when Sr. S.P.S. romped to a 13-6 win over their traditional enemies, the Sr. Med squad. The Medico's backfield maintained a fairly high standard of running and kicking but was no match for the superior S.P.S. team led by star halfback Clare, whose kicks and plunges accounted for seven points of the winning score.

The interfaculty volleyball schedule is coming along quite well accord-ing to Hart House Athletic Office authorities. The teams are divided up Meds kicked off and held School on their quarter to no gains. Clare kicked to Meds who then worked up to the S.P.S. 40. Arnup then made a long kick which School fumbled behind their but every team has played at least

By Mickey Michasiw

This wartime National Hockey League has produced some strange, unexpected things, but none more bizarre than the movement of Varsity's sons to the different teams.

Varsity's sons to the different teams.

Last year, Jackie McLean, now an S.P.S. soph, made his debut in no uncertain manner. Playing in home games, Montreal, and the odd game across the line, McLean established himself as a regular with such hockey greats as Apps, Schriner and Taylor. This year, the seasoned Leaf was accompanied to the St. Kitts' training camp by Frank Dunlap and Windy O'Neill both of last year's St. Mike's Juniors. Reports from the camp stated that both seemed destined for berths, either with the Leafs or with one of their numerous farm teams.

A pass by Probert of Meds was then intercepted by Evans to return the ball to School. Clare made a long kick which was caught by Arnup behind the Med line; he was promptly tackled for a rouge score, the last of the game.

Trinity, U.C.

Deadlock 0-0

Yesterday afternoon the bitterest struggle of the soccer season was fought on the front campus, as U.C.

HE SHOOTS HE SCORES

WILL Sample of their numerous farm learns, the Leans or with one of their numerous farm leans. Thursday's annual Blue-White game further stressed this fact when Frank and Windy each came up with a couple of goals that were crowd pleasers all the way. Why one of them at least was not in the lineup Saturday night is still a mystery, which can only be cleared up by time. While we are in hardly the position to criticize the Leaf management, it does seem that they could have done a lot worse than start one of these men.

The Detroit Red Wings have added Frankie Bennett to their roster and this choice was justified Sunday evening when Bennett set up a beactiful play ending in a goal by Joe Carveth. This same Frank the ways the cause of a lot of controversy earlier in the season amongst which was the cause of a lot of controversy earlier in the season amongst when struggle of the soccer season was fought on the front campus, as U.C.

HE SHOOTS HE SCORES

yesterday afternoon the bitterest struggle of the soccer season was yards and a kick by Arnup gave School the ball on the Med 45. S.P.S. drove 20 yards and attempted a placement but the punt fell short and Meds ran it to the 20.

In the second quarter the Medicos moved into S.P.S. territory with the aid of a School fumble and Arnup's licking. A long kick by Clare, however, soon put School back on tope when Meds fumbled the eath on their 20 yard line and Moffat of S.P.S. secovered. Hard, driving plunges by Seymour and White then took the ball to Med's ome has the medical moments, but the U.C. halves, the Trinity and began to apply the pressure, and the U.C. chards the control of the land been over the line and S.P.S. therefore the sock the ball took the ball to Med's one yard line. Clare plunged into a mass of Med linesmen but was thrown back. The referce, however, ruled that the ball had been over the line and S.P.S. therefore the sock was as he to score before the final had been over the line and S.P.S. therefore the sock was as the socre before the final bad been over the line and S.P.S. thalked up a major score. Clare converted with a placement kick.

The second half opened with a Medick-off which was returned by Clare and the Medicos were stopped at their 20. Both teams shuttled back and forth until a Med fumble was picked up by the pressing OK.

The interferent well-early schedule selection at the action of the game was the beauteous and for the second fall opened with a placement kick.

The second half opened with a Medick-off which was returned by Clare and the Medicos were stopped at their 20. Both teams shuttled back and forth until a Med fumble was picked up by the pressing OK.

The interferent well-early schedule selection at the action of the season amongst with the sport staff here, so his success is warmly welcomed.

HE SHOOTS ... HE SHOOTS ... HE SHOOTS ... HE SHOOTS ... He saturday evening we had the so-called pleasure of sitting in on the Leaf-Ranger game, and while the brand of hockey displaye

gets going.

Really like the new face-off rule. It gives the centres a better chance to put the puck into offensive motion, which quickens the game up to no little extent. However, it still bothers us why the teams did not take more advantage of this new rule than they did. Blame in on the young season, the young players and whatnot.

SCHOOL OF THOUGHT .

SCHOOL OF THOUGHT...

The \$64 question around here lately is this: Why isn't the quick kick employed more in rugby than it is? Not only does this go for our intramural games but also for the O.R.F.U. Keen students of the game put up rather a good argument in favor of the practically forgotten weapon. Defensively, a quick kick can pull a team out of the shadows of its goal posts. Offensively, it seems to be more potent. The safety man facing a quick kicking team will be forced to play far back leaving a space wide open for a forward pass. Maybe this is faulty reasoning, but if it is we have to be shown.

Meds Firsts Take Sr. School 7-5 In Lacrosse Victory

NO BINGO CHART ...

But the gals' admit-to-lectures card gets them just as many places without it. We don't mean this remark to be at all in the form of slander but purely in an athletic sense! One of the campus benefits that so few seem to realize so much about is the athletic privileges which your card offers you.

Probably when you become a tired old graduate, you'll feel the urge to attend rugby games at the Stadium. But then you'll have to fork out MONEY which will be scarcer then than it is in your palmy undergraduate days. Right now you can see any of the games going on at the Stadium all for free.

Another thing that pursentation of this gard cates two is a few.

Another thing that presentation of this card rates you is a fifty cent cut on riding. The Kingsway stables offer very good horses for four bits an hour . . . which is as reasonable a price found. When old man winter sets in, those who whip off to the rinks with intentions of skating merely have to flourish their cards to be loosed from financial contributions . . . They also skate (gratis) to the Varsity band.

NO COKE BOTTLES?

U.C. and St. Hilda's went to town yesterday on the baseball field, with the results in favor of the Royal College. The game was quite well played but lacked the good old traits of spectators . . . with rolled up programs and the other concomittants. The gals would be willing to forgo the cocomitants if they only had an audience, so watch the schedule for the next game and see if the glamazons can compare to the Brooklyn Dodgers.

The match only progressed to five innings but it was long enough to see some good pitching on the part of Eileen Cameron and to watch Marie Lustig slug out a homer. The Saints were outstanding for their small number of errors. Women's baseball usually discloses innumerable "faux pas" and misses. But yesterday's match was relatively free from them.

HOLD THAT SCHEDULE!

HOLD THAT SCHEDULE!

Three games were played off at the O.C.E. gym last night with very definite results. Physio took U.C. Seniors 18-14 in the first match. Alice Lambe gained the laurels for the victors by nailing five baskets and chalking up ten points to her credit. Miriam Allison of U.C. slammed the ball into the basket four times for the Red and White, while Jean Hoult also made a good showing.

The best game of the evening was between P.&H.E. Seniors and Vic Juniors. Although the score was 28-6 for P.&H.E., the battle was a bard fought one all the way. If P.&H.E. had let up at all, Vic would have raised her score.

Vic Freshies took Dental Nurses 30-1 in the last game of the evening. The games are running according to schedule . . . very smoothly and efficiently, too. Congratulation to Jean Barnhart, III P.&H.E.

Mosquito Plane Main Interest

The variety of engineering problems involved in designing the Mosquito aeroplane was the highlight of an address given last evening by R. B. Mc-Intyre to a meeting of the American Society of Mechanical Engineers. Mr. McIntyre named the Mosquito as one of the outstanding achievements in aero-nautical engineering in this war. A 3T6 graduate of S.P.S., and later a

A 3T6 graduate of S.P.S., and later a member of the Applied Mathematics Department here, Mr. McIntyre is at present Project Engineer of DeHavilland Aircraft of Canada. While in attendance at the University, he was active in the Engineering Society and the A.S. M.E., and later spent two years in England as a scholarship student. In discussing the design of the Mosquito, Mr. McIntyre emphasized the fact that its exceptional speed and versatility may be attributed to the careful attention paid to detail, rather than to

attention paid to detail, rather than to any radically different features. The wooden primary structure and plywood skin are responsible for cleanliness, the outstanding characteristic of the plane. The choice of wood, rather than metal as the basic material of construction has had profound effects on the production of the aircraft. The abundance of wood, coupled with the comparatively untapped resources of skilled manpower available for working it, were in some part responsible for the choice. Additional advantages included the high resistance of wood to buckling, as compared to metal, an important consideration when

The Bogies Of Peace

There has grown up on this campus recently a very earnest group of students who have taken upon themselves the task of being the champions of a worthy and philanthropic cause. They are at present circulating forms of a petition to the Dominion Government "urgently entreating" that Canada offer sanctuary to refugees of religious or political persecution.

This substantial and sincere group is not promoting any empty or hopeless scheme. refugees do exist, their number is increasing, although the ugly phenomena of disease and suicide are helping to keep it down. There is not a person on this campus who will not immediately recognize the startling and urgent need of sanctuary for these people. However, an accurate and detailed knowledge of the refugee situation has not been made available to the student body generally and many reasonable doubts and half-formed objections have so far impeded the progress of the committee's work. To sincere skeptics, therefore, the meeting this evening in Cartwright Hall, St. Hilda's College, at eight o'clock offers an opportunity to confirm or dispel their objections to the committee's project.

The invitation is extended to everyone to come the petition is a highly personal one. The committee offers you a chance to enlighten yourself at you can give.

Go Find Out

peace is an attitude of mind which is represented in numerous panicky manifestations at the present time. harboring misgivings about the peace and jockeying rest of this struggle. mentally for positions in the world that will follow the unconditional surrender of our enemies.

own future in the potential actions of others fol-lowing the war. The overwhelming appeal to our natural and generous humanity has lost the support of the imminent possibility that we might very soon need compassionate treatment from others ourselves. Now we find general selfishness which is, we believe, based on what is essentially a feeling of panic.

It has become normal for individuals who have been spared the more direct effects of wartime service to seek to establish themselves in permanent positions before the boys start coming back. Similarly national and local groups no longer think of merit or of humanity when they are appealed to to provide haven for strangers who have long suffered from oppression and the bitter anxieties of flight toward an unsure freedom. Instead of viewing the immediate need they use the dire, but still hypothetical, economic consequences of an unshaped future as mediate need to the the hold of the many pointeres, consequences of an unshaped future as guides to consequences of an unshaped future as guides to conduct. In parallel activity businessmen that promise is made by our leader, our war effort in the so-called United Nations seek either mentally cannot intensify itself.

or actively to gain for themselves the fruits of a victory not yet won at the expense of the other nembers of a partnership not yet dissolved.

These statements have been made in rather broad and general terms and are not meant to express the view of this paper insofar as they would imply that such a spirit is felt to be unanimous. Indeed, we feel that while there is prevalent a general undercurrent of panic and anxiety concerning selfish interests in the post-war period the general attitude of mind prevailing today is one of hope verging on dangerous optimism. The incipient panic which underlies this, however, while it has become in-creasingly evident on this campus recently, is the more dangerous for its more general subtlety

This is no time to be raising additional bogics, Recent Events Have Resulted but such a compound of hobgoblins as we have in Formation of New and detected can grow to constitute a total paralysis of all efforts toward reconstruction after the war.
We cannot say here what the underlying cause of CO-EDS TO THE CONQUEST! such unpleasant and unbecoming mental outlooks may be, but the cure is obvious. All such tendencies of mind must be rooted out as fast as they manifest themselves.

An excellent watchword for our post-war think- versity to inaugurate a new course which ing was supplied by Nurse Edith Cavell when she said, "Patriotism is not Enough." Unless we keep eternally vigilant and mindful of these words we may but it is believed to be "How to win well find that the shadows cast by the light of dawning peace will contain enough evils to furnish "You too can be the wife of a party." a second Pandora's Box.

Ottawa Calling

By Neil MacDonald

POST-WAR PLANNING

Just when the government thinks that it has nicely interred the problem of post-war reconstruction until the post-war period of resurrection, something comes along and disturbs the complacent calm of the atmosphere. The most recent explosion in said that she had been surprised at the Ottawa, the repercussions of which are being heard in Washington and London, is the Honourable W. D. Herridge's book, "What Kind of Revolution."

Probably many readers of this column have run across Mr. Herridge's work. For those who have the atmosphere. The most recent explosion in

across Mr. Herridge's work. For those who have not, it may be summarized as an analysis, penetratin its understanding of psychology, of the reasons behind the war we are now fighting. Finding these inedaquate to bring about the maximum support of people behind the war effort, Mr. Herridge offers the solution of planning for post-war security now, in order to give us an ideal to strive for. The security he envisages is one in which total and find out all the factors involved in the problem production is the continuous order; in which, by the at hand. The question of signing or not signing elimination of want, the other three freedoms are made possible.

Just now, Ottawa is full of temporary wartime first hand upon the subject. If you are in doubt, go civil servants, within whose ranks are some of the and learn, if you are opposed, go and ask questions. smartest brains of Canada. To many of this group That is all the committee asks; it is the least that of young men, Mr. Herridge's book has acted as a crystallizing agent, bringing to the fore in their own minds ideas which were previously only vague

own minds ideas which were previously only vague and nebulous.

So, today, Ottawa is full of discussion about the kind of world we should build after the war. The men who are doing the discussing are, for the most part, too young to have experienced, outside of textbooks, the psychological letdown which followed the last war. However, they are aware that, if the discussions are along, long time ago," and so saying she stumbled off to learn the war. However, they are aware that, if the discussions are along long time ago," and so saying she stumbled off to learn the war. However, they are aware that, if the discussions are along to the coming Whitney formal. In or the coming Whitney for the coming whitn The greatest peril besetting our hopes for a lasting men who are doing the discussing are, for the most Having been delivered out of the shadow of the last war. However, they are aware that, if the major perils of war which overhung us in 1940, same tremendous slump is to be avoided this time, 1941 and the first half of 1942, we now satisfy our we must make preparations now for a standard of craving for sensationalism and imagined danger by harboring misgivings about the peace and lockeving rest of this struggle.

They point to the fact that our aims in the war we are fighting are limited to the destruction of Formerly united under the peril of war, not only Fascism in its broad sense. We shall eliminate the the individual allies, but also groups within the dictators, but after that is over, what? They point United Nations now tend to foresee peril to their to the fact that Canadians have adjusted themselves with what amounts almost to apathy to the wartime economy of scarcity.

As the Fifth Victory Loan rolls on towards its objective, it is noted that when the time allotted was half over, many areas had not subscribed half of their quota. It is not enough to say, they add, that we are not fighting in the front line. Every man and woman in Canada knows that this war is being fought to save his own, personal existence.

The talk goes on, among the younger civil servants of Ottawa. Why doesn't the government say, out-right, that when the war is over it will start producing the maximum output of the necessities of life? haven for strangers who have long suffered from Why doesn't it go on record that no more shall there

Co-Eds Offered Course on Men

Startling Course

The increase in the number of co-eds carrying pistols around the campus has prompted the governors of the Unimen and Alienate your girl friends" or

Events leading up to the governors' action have been happening all over the place. Only last week the girls had a conga line past the well-known Osgoode Hall Annex and mobbed a policeman who was sent to break it up. However, it turned out to be a policewoman and the girls lost interest and went home blubbering softly.

Miss Dina Saur, the well known anthropologist at the museum, in an exclusive interview with The Varsity, and anyone else who happened to be around,

HOW THEY STANO . . .

HOW THEY STANO...

This year's intranural rugby league is three weeks old today. And during those three weeks practically every team has played three games, to complete the round robin series in each of the three league groupings. Dents are the only team who have yet to play their second game. League standings at the present time we believe will remain much the same for the rest of the season and the top teams now will be the top teams when the playoffs are announced.

Group One, made up of Senior School, Senior Meds, and Victoria, is now led by Senior School, whose team has taken three straight wins, two from Vic and one from Meds. Thus six points for School. The Senior Medical team has played each of its group companions, dropping one game to School and winning the other from Vic to account for two points. Victoria, last year's Mulock Cup winner, is at the bottom of the group with three losses marked up against the squad.

squad.

University College leads Group Two, also with three straight wins in the books. Six points to give them the group leadership were won in games with Army, Junior Meds, and Junior School. The No. 2 Army Course team is in second with four points by virtue of wins over School and Meds. School has one win in their column, that over Junior Meds, to give them two points. Meds have failed to take a game and thus find themselves looking up at the rest of Group Two.

of three yards, the Black Ties punted to the 25. Here Teolis kicked and Rocchi caught a Trinity man behind the line for a point.

Group Three is made up of St. Michael's, Dentistry, and Trinity. Group leadership is held by St. Mike's with two wins over Trinity and a tie with Dents for a total of five points. Dents, in second spot, have played but one game this season. Their single point was won in the third quarter Trinity succeeded in hanging onto the pigskin for only five that so two games to St. Mike's.

A PROPHET'S LOT ...

A PROPHET'S LOT...

Is not a happy one. Mostly because this one is seldom right. The sensible thing to do in such case of foggy foreseeing would be to retire from the prophetic field and to enter some more dependable and steady employment. But the urge is too great. And besides sports writers in this department have been doing it from time immemorial. Group One results are very clear in the crystal sphere as we see a blue-clad team galloping to the fore shouting "School!" and "Toike-Oike!" Since they lost the bulk of last year's roster the Mulock titalists from Victoria are hopelessly outclassed. At the season's beginning the Senior team from Meds looked strong, but School now looks stronger and consequently there is no doubt in our mind as to the identity of the group winner.

But we're going to have trouble picking the squad from the

identity of the group winner.

But we're going to have trouble picking the squad from the second group. The Army Course and U.C. through our eyes seem to be about equally matched. A more definite communique will be issued after we see the results of this coming Thursday's game between the two teams. One thing we are sure of is that Junior Meds and Junior School will not figure in the playoff series.

Although Dents' tied St. Mike's in their one lone game this year, we believe that St. Mike's can take them in their next meeting to decide definitely the leadership of Group Three. Trinity has lost two games and appears to be hopelessly out of the running.

PLAYOFFS ...

Playoff arrangements for the intramural championship are as follows: The winner of Group One will play the runner up in Group Two and the winner in Group Two will play the winner in Group Three. Winners of these two games will meet in the finals. And to sum everything up we will venture further into the prophetic field to say that we are expecting to see in that final game two of the following: Senior School, the Army Course, or University College.

The Sportswoman

By Betsy Mosbaugh

The gals around Varsity got a strike when they dangled bait for a bowling team. Apparently arrangements have been made at the Midtown Bowling Alleys to bowl 20 games for one buck.

This is another of the athletic privileges of which we were speaking yesterday. Usually a fling at the pins cost 15 cents or so, but co-eds are given a 10 cents cut an each game.

All of which is music to our tired old ears as we recall afternoons of last year when the gals of Hutton House would make exhorbitant loans of four or five bits for a few hours of relaxation at the alleys. This year you purchase a card at the beginning and then get it checked off each time you bowl. Consequently when you're flush at the beginning of the month you can invest in a card. Then, come the last few days of the month when the mailman never seems to come through, you can run up to the Midtown and bowl, all for the showing of your card.

The Midtown has excellent alleys and—despite Bobbie Rosenfeld's Column on 'pin up' gals—they have boys to straighten out your pins for you. Quite a pointed remark, wasn't it? There are numerous alleys, so the time of waiting is comparatively short.

As we remember last year, bowling was almost an accepted thing of a Saturday afternoon. This year there are great plans for tournaments. Vic, St. Mike's and U.C. cach have a team. You can belong by adding your name to the lists in any of the houses of Whitney Holl or the Rotunda in U.C. Those in Vic and St. Mike's can get in touch with their athletic reps.

U.C. is thinking of inter-resident tourneys, aside from the tradi-

Holl or the Rotunda in U.C. Those in Vic and St. Mike's can get in touch with their athletic reps.

U.C. is thinking of inter-resident tourneys, aside from the traditional match with the boys of "73." All these noble plans are to be encouraged and a humble prayer is offered up that this project will not flag or fail in the proverbial woman-like way! It is to be likewise hoped that it won't meet the fate of the much-talked-of riding club. The Gallup poll (if there'd been one) would have favored the club definitely, but there seemed to a lack of initiative in organization. So here's to bowling—may she ever thrive-oh!

threw a lovely forward to Sanson to

put the Gaels in scoring position on the 15 yard line. Mancini plunged for a few

"You are NEWSPAPERS when YOU were young II"

This is one we overheard at a young 'ten agers' Hallowe'en party. The crowd was having quite a time in the crecation room and after a while they decided to have a blackout dance. It wasn't black enough with just the lights of the pumpkin lantern so thas went out too. At which point the mother of the young hostess observed to the father:

"They're too bashful to neck with the light ON."

Speaking of Hallowe'en, a three-year-old who didn't quite know the score yet was promised a pumpkin. Her mother told her that they would cut out eyes, a nose and a mouth, and, as an after-thought, added that they might put in some teeth.

"Whose will we ges?" said wome?

Whose will the fact the supposed to troub this one is supposed to true. It seems that a recruit fath fath feer from the crew of the fath feer for the crowd was having quite a time the fath of the crew on each toe. The sad part of the story is that the M.O. didn't appreciate the joke at all and the poor recruit ended up spending a couple of weeks in the guard house for insulting a superior officer.

Do you suppose he took the aspirin with him?

And now we'd like to quote from a bulletin issued by Doc Savage, a famous hitherer of yesteryear, who is now hold bis check-rein lightly but dirmly; unfortunately he relaxed it in a mous hitherer of yesteryear, who is now better.

And now we'd like to quote from a bulletin issued by Doc Savage, a farmous hithere of yesteryear, who is now putting in his time for his Uncle. He was describing how he had to cover a gricess from Piastro, but — also portion of the assault course unterpretation of the assault course unterpretation. The famous cadenza, which, I susp was describing now he had to over a portion of the assault course under barbed wire and surrounded by powder flashes and other disconcerting items; but this was only the beginning, because later the same course had to be crossed under real fire. Needless to say, the officers made a point of telling the men

Thunder & Whispers

Perhaps the reason why students shy away from organ recitals may be ex-plained by the excess organ music that plained by the excess organ music that serves as time-filler on CBC airwaves. Or maybe they shun them because they don't attempt to understand that kind of music, passing it off as too solemn, too reminiscent of church hymns. Whatever the reason, students in huge numbers certainly didn't flock to Convocation Hall Monday afternoon to enjoy the first of a series of eight organ recitals.

The handful that did turn up, though, were rewarded with a rich program of six selections, masterfully handled by Frederick Silvester. A veteran who has played the instrument for 30 years—in fact, since he was a 14-year-old boy in England—Mr. Silvester came through with a neat performance, marred only by with a neat performance, marred only by one instance. That was a snag, known by musicians as a "cypher." It tripped bim up in bis interpretation of the Sonato in the Style of Handel, when the console jammed and the notes "stayed on."

Apart from that disturbance, though, there was nothing further to grumble about—and much to praise.

Most striking, probably, was bis version of the Legend of the Mountoin, a sombre, mournful piece that wakened the rafters of Convocation Hall with thunder, then receded to quiet, moody

Bancroft's Pastorole, as the name sug-gests, stole nothing from thunder but maintained a smooth, whispery effect, while the Suite from Bonduco, a 17th century piece, was flavored with that period's Merrie Englande. It made no bones about the matter, striking out at a quick, merry pace.

The Little Windmills, another 17th century item, served as a brief prelude to the finale, Hcaley Willan's Intro-duction, Passacaglio and Fugue in E Flot Minor. A many-faceted selection, Mr. Willan's Introduction is marked by three sharp divisions. The first eight variations are built as decreases. variations are built on deep, sombre lines, the ninth and tenth frolicky, then from the eleventh to the seventeenth, the tone swells into a booming climax. Mr. Silvester merged all three divisions into an agreeable and well-contrived whole. FRANK RASKY.

Helen Morton Speaks to S.C.M. Swim Thro' Rain

evoked Tipples of mirth from the audience was Mr. McIntyre's description of the problem of designing the party tonight at 7:30 in Wymilwood, oil tanks, which must be shaped so as to as its second regular monthly meeting present no obstruction to the undercar-riage struts which are drawn up when Games,

No More Bonfires

November 5 has long been celebrated in England by the burning of huge bonfiers in commemoration of Guy Fawkes Day. Here in Toronto tomorrow we will mark the occasion with a general collection of paper to be used, not for bonfires, but for salvage purposes. With the paper shortage remaining acute it is imperative that every possible scrap be reclaimed and used again. All forms of paper and cardboard are acceptable.

In this salvage drive, as in community matters of still greater import, the student must look beyond the confines of the campus and fulfill his share of the civic duty. Those in residence within the campus area will probably find that the salvage of paper is carefully looked after by the residence personnel. However, the task of running a residence is any thing but simple these days and so apparently trivial a thing as a waste paper drive might easily be over-looked. And since each student can hardly start a private collection of his own, his best contribution lies in reminding his house staff of the collection and in doing his best to assist their efforts.

Students living in the city cannot, of course, be asked to interfere with the young brother or sister's Junior Commando drive but they can add the weight of their approval to the younger generation's efforts. It is a little thing, this collection of scrap, but it performs a necessary duty. If your contribution is only a gentle reminder or a word of encouragement, it will be a help.

Know Your Professor

It is often the tendency in a University as large as ours for students to regard professors and lecturers as beings from another world, creatures set apart, whose only contact with the undergraduate is one of formal instruction. To the ordinary Pass student his history professor or economics lecturer is an unknown quantity in a more or less tattered gown who strides into the lecture room, delivers himself of fifty operative, not a competitive, basis. minutes worth of his favourite subject and then stalks back to his mountain top to live in unapproachable dignity until his next eight-thirty. Deplorable as it may seem, many undergraduates spend three long years at Varsity without ever getting closer to a professor than the first row of seats in a lecture room.

This habit of regarding the lecturer simply as an animated textbook leads to a rather barren student life. For one of the great advantages of university life is the opportunity it offers for contact with men of reason and judgment, men who are experts in their particular branch of study. A university is the centre of culture in the community. It is a unique section of society set apart by the knowledge and intelligence of its permanent members. The ordinary undergraduate spends three or four years of the main theme, there seemed to be enjoyment abounding!

The Boston Comic Opera Company, which is life. For one of the great advantages of university

in this society. He lives for a short time within the charmed circle but only too often he comes away untouched. For it is not in books or lecture notes that one finds the true and living university. It is rather in the views and judgments of its professors True education lies not in learning facts but in learning how to think. So for the student the important thing is not so much what the lecturer says but why

Thus liberal education becomes a matter of knowing one's professor. Of course it is impossible for every student to get to know all his teachers personally but the varied interests of most of the staff allow the student the opportunity of meeting many of them in an extra-curricular capacity. Many professors meet their students informally through the different clubs and student groups on the campus Professors are, on the whole, a congenial lot and seemingly not a bit averse to mingling with the undergraduate portion of the gens humanis.

But for those who somehow cannot make per sonal contacts with the staff there remains that under-rated and umplumbed source of enlightenment: the lecture. No man can talk for fifty minutes without revealing some phases of his individual personality. And the observant student often gains for more through a consideration of the professor's proach to his subject that he ever could by studying a textbook account of the problem.

Tribute To Valour

The British Government recently called a nation-wide conference of its women to discuss and pay tribute to the great work they have done since the purpose by the thoughtful visitor.

In an unprecedented convention of the war. In an unprecedented convention of the war. In an unprecedented convention of the war, with additional \$50 bills left for that the purpose by the thoughtful visitor.

Miss U. R. Next, nurse at the clinic, and the presence of mind to slip away with additional \$50 bills left for that the matter of the general alarm, with additional \$50 bills left for that the purpose by the thoughtful visitor.

At the presence of mind to slip away with additional \$50 bills left for that the purpose by the thoughtful visitor. 6,000 representative women from all over the country were called to London for a day-long conference on had the presence of mind to slip away on the progress of the war from the woman's point and phone Dr. Scotch N. Sody, president of the University, who spent the of view. These delegates assembled to accept the tributes paid by the Ministers of the Crown and to re-affirm their solid determination to continue their their solid determination to continue their the various colleges. When interviewed, work for victory and for peace. They represented
7.750,000 in the auxiliary services and industry,

inilion serving in their own homes.

The Ministers frankly acknowledged that the

The Ministers frankly acknowledged that the women of Britain held the key to victory. By their instinctive and untiring efforts to assist in the waging of war they helped pull England through the Battle of Britain. Their helping hands were found in canteens, hospitals, factories, offices, air-raid shelters, and in all the auxiliary services. canteens, hospitals, factories, offices, air-raid shelters, refugee centres, and in all the auxiliary services. With the first threat to their home-land they asked to be allowed to help and they have not yet relinquished a single duty. In praising their inestimable assistance Prime Minister Churchill said: "Nothing had been grudged, and the bounds of women's activities had been definitely, vastly and permanently enlarged."

The women of England have been the very soul of generosity throughout this war. They have given themselves over to work which no man would ever have required of them. Their zeal and burning desire to be of assistance in the tremendous effort

have required of them. Their zeal and burning desire to be of assistance in the tremendous effort of saving their country from invasion has known no bounds. Through this intense activity they have given all women a boost in the right direction. A woman's contribution is no longer viewed askance. They have proved their capability and are accepted as the here he is still snapping, crackling and the same to be a second to the contribution of the same than the same than the contribution of the same than the same than the contribution of the same than the same than the contribution of the same than the woman's contribution is no longer viewed askance.

They have proved their capability and are accepted as valuable members of society. British women have an apopping, so to speak.

Asked what they were going to do with their new ford a rether than the proved themselves capable of standing on an equal of the provided and popping. footing with men. And they remain on a co-

Mister X" At It Again

(Special to The Varsity from the Mop and Pail)
A strange figure in a grey flannel nightgown appeared at the Women's Medical Centre last Friday and distributed \$100 bills to gaping co-eds waiting to be examined. The two lady doctors in charge of the centre are still undecided as to whether this fabulous figure has a hart as big as a barrel or figure has a heart as big as a barrel or a vat, but they are at present in con-ference with the reportorial staff of the Mop and Pail, and it is to be expected that a decision will be reached soon. The mysterious stranger arrived at 44

Hoskin some time between 10.33 and 10.47. Due to a slight confusion in the appointment book there were even more freshies there than usual, and these immediately screamed loudly and fainted away. They were later revived with additional \$50 bills left for that

with their new-found wealth, several co-eds decided that they could now pay their late-book fee at the library, while another group are going to pool their money into a fund to build a women's Sunbathing Solarium on top of Hart House. One very altruistic freshie ex-plained stoutly, "I am going to invest my money in a new bulb for the Whitney Hall night entrance!"

The Sportswoman

(Editor's Note: Our guest today is a Schoolman, known for years on the newsbooks as jaxon. When we challenged him to prove that women might not be essential he wearily seated himself at a typewriter, took a stiff drink of water and beat out the following, muttering all the while, "I can't get along without themmaybe I'm not a Schoolman.")

By Ray Jackson

Men's sports—never touch 'em. So whaddyuhno—look where we end up. Take a lesson, kiddies, and don't let it happen to you. We mean girls should take up some sport besides wrestling or they will end up in the men's sports department. This would cause funny bumps to appear on their arms. These are known as muscles and are un-

mean girls should take up some sport obsales weeking or all you him here is sports department. This would cause fump bumps to appear on their arms. These are known as muscles and are unbecoming in large quantities.

So get a copy of the Mothing rules from Hugh Kenner or join the ping-bowling club—or take the freshies at 5 Willcoks for example (you take them—Tim broke). They are evidently taking up the royal sport of hunting because they have acquired a full-sized pack of hounds. Anyone who can sacrifice their parlour to a pack of these beasties must be really interested in sport, we'd say, Just what they intend to hunt, we don't know, but we have our suspicions.

Flash—hottest release just off the wires (courtesy Bell Telephone—In a thrilling, mose tense game, St. Mike's basketball team scraped out a win over Meds, 24 to 7. St. Mike's basketball team scraped out a win over Meds, 24 to 7. St. Mike's basketball team scraped out a win over Meds, 24 to 7. St. Mike's bown, the bulletin adds.

But this is supposed to be a Snort—pardon us—Sportswoman on School. A propos on that, it seems there were not many Schoolmen present at this game. This is a sorry state of affairs when teams must fight on without support from the sidelines. Not one Toike Oike was heard, not one shout of encouragement was heard from the Engineers, and we are ashamed to admit we weren't even there out allowed merely shows more strongly what a deplorable lack of spirit there is these days.

But to get on about School. The female population of the red schoolhouse is less than three per cent according to the latest figures. Now, for a discussion of sports in this faculty from a woman's angle, our statistical training tells us that for all intents and purposes this small porportion must be ignored in a general discussion of the whole. Not that you can ignore the girls in School would not be descriptive of women's sports in School if it described would not be descriptive of women's sports in School if it described would not be descriptive of women's s

THERE IS STILL TIME TO

BUY VICTORY BONDS

ON SALE AT S.A.C. OFFICE

In the 440 Dents are leading the Meds The team of T. McDonough, Cohan, Castaldi and Channell covered the distance in A75, while the Meds, with Wilford, Rutherford, Fielding and Lewis, did it in 482.

The same teams were reversed in the 380. Meds time was 1.402, Dents 1, addication of the competition.

The same teams were reversed in the school of the Well from now on its Shackleton you'll be hearing and not me free says..."

""Correspondents from all over America were present at the game and there were writers from Brazil and Trinidad. Football has taken a strangle hold in Trinidad since the appointment of Bill Neale to supervise proper organization of the game. Before the game I visited the silver-plated broadcasting booth where Happy Smith had a continent-wide and European hook-up. Smith went out on the limb for the Redmen of McGill. Our views were different. In this final struggle of titians the advantages would be with the team most favored by the circumstances. Breaks would play a large part in the verdict. It had been by contention that the Blue and White machine would emerge the final victors."

THEM GOOD OLD DAYS . .

THEM GOOD OLD DAYS...

Ross Lang, rugby reporter for the European Syndicate, said he thought the winner of the game would take Columbia with ease. And Lang's word is law among all sportsmen from Siwash to Uraskal. "The teams lined up, the Redmen kicked off and it was first and ten on Varsity's 25. Johnstone faded back, was trapped, threw a lateral to Jarvis who ploughed to the 38. Three passes by Johnstone were good for a major score. The convert was good." The O.T. paused, took another, sighed and read on. "McGill now took the offensive, swiftly moving downfield on a series of plunges and end runs. Woodfuff carried the ball across with Willett converting." Another pause. "We'll skip the next few pages and pick Shakey up in the fourth with the score tied 24-24." (Pause.) "Thoms received a flicker from Johnstone and ended up on the McGill 20."

And so, flipping a tiddleywink in the the direction of a reader of two, your correspondent groans and hobbles away on two sliderules

TEAMS

4. Keep track of expenses and present an itemized account to the Treasurer of your Athletic Association at the end

5. Keep a record of time and place of every practice and home game in order to check correctly with Miss Parkes.

5. Buy a score book at Wilson's Sport Shop or Toronto Radio & Sports in which to keep a record of every game played. (Ask your basketball rep. if there are any left from last year.) 7. See that you have a timer and

scorer at every game. 8. Get the stop watch from the care-

Army Almost Fully Provided F. C. James With Technically Trained Emphasizes Liaison Officer States

Col. Beecroft Outlined for Mem- I.S.S. Elects

STATUS UNCHANGED

In his address to members of the Toronto Branch of the Engineering Society of Canada, Col. Geo. W. Beecroft, Military Liaison Officer of the Wartime Bureau of Technical Personnel, pointed out that regulations concerning students in the Faculty of Applied Settence and Engineering are the same as those of last year. Following his talk in the De-bates Room of Hart House last night, bates Room of Hart House last night, Col. Beecroft told The Varsity that "students will be given the chance to volunteer for service, and while present indications are that the numbers re-quired in the armed forces aren't as big as last year, the picture may change overnight."

Oct. Beccroft was on the campus last January with Department of Labour officials. He said that for this year, the same procedure would be used as that

Before his main address, the second in a series sponsored by the E.I.C. Toronto Branch, Col. Beecroft outlined the work of the W.B.T.B.. Its main function, he said, was to provide for the efficient distribution of technically the efficient distribution of technically trained personnel in essential industry and in the armed forces. Now the armed forces receive most of the trained personnel and the Burcau has Col. Beceroft as Military Liaison Officer to in co-operation with all three

branches of the forces.

In his speech, Col. Beeeroft, a graduate of the University of Toronto in the Faculty of Applied Science, out-lined the branches of the three services where engineering and science technical personnel receive appointments. Train-ing in all departments of engineering is necessary in the various branches of

the Navy, the Army and the Air Force. Today, the three services have almost a sufficient number of technically trained officers. In some branches there is a surplus, he said. Now there are only special appointments for men with special qualifications. Col. Beceroft officered as an explanation the light casualties in the Canadian Army in this special properties. alties in the Canadian Army in this war. Engineering officers of the Seventh and Eigth Divisions and a part of the and Light Divisions and a part of the Sixth Division will have to be absorbed now that these divisions are being broken up. He pointed out, too, that after four years of training, there are a number of men in the ranks of the Army who are eligible for promotions and commissions.

The speaker, who was officer com-manding the No. 2 Army Field Workmanding the No. 2 Army Freu wous-shop overseas, was invalided home and at the request of the Department of National Defence took over his liaison job with the Bureau of Technical Per-sonnel in August, 1942.

Hart House Recitals Open With Violinist

The first of this season's informal recitals at Hart House will be given in the East Common Room on Tuesday,

An official student committee was delected by the International Student Service last night to handle the L.S.S. business on the Toronto campus. Fran Waitken, Vic, was elected chairman. Three S.A.C. representatives were also elected, Naney Fraser, U.C., Alice Evans, Vic. and Frash Watter Technology. An official student committee was Cevans, Vic, and Frank Watson, U.C.
Other members include Mary Shickland,
Trinity, Henry Osberg, S.P.S., Barbara

ing. The movement was revived in the United States and Canada in this war to help refugee students continue their work and have nuclei for reconstruc-tion after the war.

Sadie Hawkins Soon Patron Saint Of Coy Co-Eds

By Kit Schiller

Current reports have it that an old Dogpatch custom is invading Varsity over the weekend. Coy young things all over the campus will celebrate Nov 8, Sadie Hawkins' Day, by bravely

and many fraternities are digging in for a longe siege.

A well-know wolf-about-the-campuwas heard to remark, "Oh, fudge! For me every day is Sadie Hawkins' Day." Everyone seems to have a view on the subject, however, and one cut young think said, "Pick up a Man? But I'm

A familiar St. George St. residence is working out a complicated system, it complete with electric eye. When a Man sets foot on any neighboring portion of sidewalk, he is automatically tossed bodily into a pit by the side of the house. After that your guess is as good as ours.

One thing however.

One thing, lowever, is certain in the coming weekend. The Men just won't have a chance. . . . That's all for now, folks, we must go and buy a lasso.

in the East Common Room on Tuesday, Nov. 9, at 1 p.m. A violinist, Robert Graham, I Medicine, is to be the recitalist. Accompanying him at the plano will be J. S. MacDonald, III U.C. student, who is well-known on the campus for his musical ability. Mr. MacDonald will also give the second recital. The list of artists lined up should assure the continued popularity of these recitals. Featured on this season's programs will be vocalists, flautists and several other instrumentalists, including one who specializes in Indian finter music.

Montreal-(CUP)-International cobers of Engineering Society

FRIDAY NOVEMBER 5 1943

Education For Victory

Almost simultaneously with the announcement here of Education Week we have heard of the granting of the first honorary degree in free Italy by the University of Naples. The theme of the special week which is opening on Sunday is "Education for Victory" and the granting of an honorary degree of Doctor of Political Science to U.S. General Mark Clark at Naples is at once a mark of the beginning of the victory and an indication of the part to be played by education when it is completely won.

This war should have taught us a great deal about the meaning of those two words "Free Educa-Before the menace was generally felt here of the barbarism which we are about to overcome, the words simply meant "education that the individual does not have to pay for in actual tuition fees." We may have realized hazily that such education was a part of our way of living, at least we assumed as much, but we had to see it lost in some countries and parcel of our political and cultural establish ment. The two words may also be read to mean "education for the free." In this sense they are closely attached to the deeper meaning of the first. An exclamation mark supplies a third reading: "Free Education!" a hattle cry for educators and all others who wish to see the first two fully The third reading fits the coming week applied. well. Through education, their special field, the teachers of this continent will seek to do their part to free it for the world.

Only the Beginning

Striking and appropriate to the times as is the theme "Education for Victory" its announced object is really only the beginning of the real battle. To begin close to home; once Victory comes the wartime pressures will be off the school and colleges and in the case of high schools and universities there chairs for our night office. will be a great reflux of those who have interrupted their education. The government has promised them the completion of the process. This is the beginning of a greater widening in the concept of free education in the pecuniary sense. It is also a great challenge to the powers of expansion and adaptation of the institutions of higher education.

In the matter of education for the free there will be even more work to be done. Indications from Italy at least show that, aside from the pitiful examples of the dazed proletariat seeking to ingratiate themselves with the conquerors by besmirching posters of their Duce for the benefit of the newsreel cameras, the students have so far proved the first to throw off the chains of their Nazi masters at the approach of the Allied armies and have in many cases, notably around the university in Naple, actually seized arms and fired upon their still-mighty overlords.

These youths and young men have shown a gratifying willingness to do away with the hollow pomp and misery of a false doctrine and accept, showing grim misery of a laise doctrine and accept, showing girlin of the keyboard. tokens of their sincerity, the free ways of the of the keyboard. Biherators. There is something almost stunning and Bach's Prelude and Fugue in G Minor was the liherators. There is something almost stunning and only half believable in all this, and it may well be that the youth of Germany will be a different proposition. But even taking the case immediately at hand naturally wants the ways of freedom and is quick to

Bach as few concert performers can.

An arrangement of a Sarabande

slavery without opposition, although slowly. Therefore education for the free must also contain such elements as will make it education to be free education to oppose in every way all tendencies which would fetter it through its own agencies. Education must not only be made available to all and in all aspects unadulterated, it must also provide the means of its own defence which rests chiefly in the stern ideal of the sacredness of free education.

Education for Life

Being in sharp contrast to what has been called Education for Death that the Nazis have imposed democratic education will probably find itself understaffed in Europe. A large number of great and liberal instructors have heen lost and in addition there has been a dreadful hiatus in free processes of education. Libraries and lahoratories are doubtless in a state of decay, wherever they have not been ruined utterly. European education will, therefore, require much help from the victors. This will come, we hope, not through military channels or impositions by educational commissions, hut, since the rudiments of university staffs seem to be available amongst liberals remaining in the countries and those who have found refuge in the free part of the world, through the genial co-operation of academic men and women in supplying temporary deficiencies in materials and personnel.

The Free Press In China

The condition of the world today is not such that self-esteem can long last in any such sheltered spot as the University of Toronto. We who produce The Varsity make much of our trials in the way of manpower shortage, increased news and a staff steadily melted away by military service and pres-sure of studies, but our smugness has disappeared, for we have just discovered that Shanghai Evening Post and Mercury, the paper, you may recall, which went on publishing in Shanghai under the very guns

discovered that only tour engineering students use the Partly.

The Varsity learned though that these went on publishing in Shanghai under the very guns of the Japanese before Dec. 7, 1941, has re-established itself in Chungking.

After the control of publishing in New York, the itself in Chungking.

After an interim of publishing in New York, the paper has returned to Chinese soil where, on Oct, 30, Randall Gould and Frederick Burr Opper published their first edition. The cost of printing the when Col. Les. Pants arrived to take lished their first edition. The cost of printing the before we appreciated to the full that it was part Herald is tremendous, but the editors console thempaper there on the antiquated presses of National selves that the expense accounts will be kept low as transportation in that area is strictly on the hoof.

The difficulties of production make us gasp, but they show the lengths to which a free press will go in overcoming physical difficulties. The presses, native made, are old and the two Linotypes belonging to the plant have been retired on account of old age. The handset type is handled by a complete the production of the plant have been retired on account of the plant have been retired on the plant have b The difficulties of production make us gasp, but old age. Versatility

Eaton Auditorium

That Alec Templeton is a many-sided genius was amply demonstrated by his recital at Eaton Auditorium last night. The variety of the program was truly startling, even for those who went with some foreknowledge of the pianst's talent.

First, as serious artist, he is one of the foremost, hindered in no respect by the fact that he has been blind from birth. In fact, from the effects which he can produce the listener would almost suspect that the deficiency is more than counterbalanced by the delicacy with which his fingers portray the tones

first offering, superbly played in the true classical style. It is no exaggeration to say that the subsequent pieces, flawless as they were, suffered as a we would do well to remember that, although youth result of their proximity to it, for Templeton plays

284 Artsmen Displace Four Engineers in Pink Study Hall as Dental Faculty Gnashes

DEEMED NECESSARY

Yesterday afternoon, the Superintendent's Office in Sincoe Hall announced that the Partly Plaztered Hotel will, next month, be taken over by the Uni-versity of Toronto.

"It will be almost a fifth arts college," Col. Les. Pants, Superintendent, told The Varsity.

As outlined by the Board of Gov ernors on the back of an admit-to-lectures card, the University has bought only the basement of the popular after-noon hideout. According to Col. Pants, the purchase was necessitated by the number of students who study in the

pink subterranean labyrinth.

From a survey conducted by Mr.
Funnel's staff of name-takers, it was revealed that in a normal afternoon, 284 arts students use the facilities of similar survey conducted by the Psy-chology Department, yesterday, it was discovered that only four engineering

Red and White Whips Army 7-2 Don Smith Sparks Touchdown Drive

U.C. climaxed a second-half downfield surge by pushing across a touchdown just after the teams had changed ends to start the last quarter to whip Army 7-2 in yesterday's game at the Stadium. The Army had held a 2-0 lead at half time on two rouges from kicks, one by Don Howson, the other by Harold Laycoe, in the first few minutes of the game. At three-quarter time U.C. was still behind 2-1. Howson was rouged by Grant Warren for U.C.'s point. That point seemed to add new life to the Red and White boys and they started a march from Army's 44 yard line that resulted in Ross Sturgess going over for a touch. Don Smith conditions are successful to the started a march from Army's 44 yard line that resulted in Ross Sturgess going over for a touch. Don Smith conditions are successful to the successful the successfu

SOCCER NEXT . . .

High time that some one cleared up the standings of the intramural soccer league. Like rugby, the soccer situation has been handled by breaking the teams up into three groups, each containing four squads. Group One, made up reputedly of the four strongest teams, is led by Meds' first who have won two, tied one, and lost one, for a total of five points. School firsts are in second place with a vin and two ties for four points. Dents have one point with a record of two losses and a draw, and Victoria is coasting along in the depths with no points for one loss.

The second group features an undefeated Trinity team with seven points which they collected from three wins and one draw. University College have five by virtue of two wins, one tie, and one loss. School seconds are running third with two points from one win and two losses, and Pharmacy brings up the gallant rear with three straight losses for a net gain of nothing in the score book.

The third grouping, which might be called quite appropriately the Saints and Sawbones Sanctum, contains three theological colleges and a lone squad from the Medical faculty. Emmanuel tops the foursome with five points. Two wins and a draw account for their points. Wycliffe is running second with four points from their two wins and one loss. Knox has played three games, won one, tied, one, and lost one, to grab three points. But, apparently overwhelmed by their saintly surroundings, the second Med squad is doing not so well. In fact the seconds are at the bottom of the group, having dropped a game to each of their group neighbours.

BIG WEEK...
That's next week. Some sort of a record will be established then for there are nearly 60 games scheduled for the intramural program. Five rugby games, 11 soccer, eight lacrosse, eight swim meets and 26 volleyball games will be played before next Saturday if all arrangements by McCutcheon and Company proceed as planned. The intramural officials are very pleased with the athletic business thus far carried out and wish to commend the team managers and participants for the manner in which they have been co-operating of late. In fact the only grief from intramural headquarters today is the referee situation on the lacrosse front. But there is a story elsewhere on this page to bewail that condition.

The Sportswoman

By Betsy Mosbaugh

The Sportswoman has been written strictly from hunger several times, but today it is suffering from over nutrition of the sports page. So our boss says the shorter the column, the better. On accounta because he pays us, we will make it short and sign "30" . . . with the hopes of a bonus.

ART, MUSIC & DRAMA "Ultra-Poetical

times so quickly that the ear could not detect the striking of the individual notes in the runs. There was only a flow of sound. The piece was chamber music in its greatest degree of perfection.

After the intermission came the less serious side; Templeton's talent in this direction must be heard to be ap-preciated, as mere words cannot do pri-tion of the preciated as mere words cannot do it justice. Pieces of bis own and an arrangement from Schubert were still in serious vein, but were refreshingly dif-ferent—a blend of the classical with the

Then came some improvisations, first Then came some improvisations, it is of which was on five notes suggested from the audience. idiom has yet produced.

KEN MCRAE

Super-Aesthetical"

Royal Alexandra Theatre
One of the lesser known Gilbert and Sullivan operas, this performance of "Patience" made a sparkling appearance last night at the Royal Alexandra

Theatre. It owed most of its brilliance to Kathleen Roche, in the title role. This good-looking gal, vivacious and well-endowed as to contrasted with Lady Jane (Marie Valdez) as the "massive" aesthete, shone against a background of 20 Lovesick Maidens. Patience is the cynosure of two green-ery-yallery types who droop about, un-able to find their true selves, and above

gether until they overlapped contrapuntally. His skill at this is positively amazing.

One of his final encores was the impersonation of Bach as he would write
today, apply fugal treatment to swing
themes. This ability has made Templeton famous; and rightly so, for in my
opinion this type of music, though still
relatively unknown, is one of the most
interesting developments that the modern
idition has yet produced.

Feston to be Speaker At CCF Meeting Tonight

To Hear Underhill

Professor F. H. Underhill of the History Department will be the speaker at the opening meeting of the International Affairs Society to be held this afternoon at 4:30 in the Common Room of the Women's Union. His topic will be "America's Foreign Relations." Following the address there will be a period of open discussion.

be "America's voluments be a period of open discussion.

There will also be an election of officers at today's meeting as there is only a temporary executive at present. A membership of at least 35 is sought this year.

The Carnegie Foundation provides the society with books on current affairs. These books are at present in Baldwin House and further information concerning them will be given at the meeting.

The Ontario College of Education is the only training centre for high school teachers in Ontario. Its Library School is the only one of its kind in Canada and draws its members from all parts of the Dominion. Its research department attracts learned students and specialists, and its library is one of the most complete educational references in the world. Replacing the Ontario Normal School was organized in 1907 at the University of Toronto following the recommendation of the Royal Commission of 1906. The headquarters of the faculty were in a former girls' school, St. Margaret's College.

In 1910 the present building was opened, incorporating a model school, which added to the facilities for practice teaching in Toronto. In 1921, the Faculty of Education was reorganized in developments in education in Canada and developments in education in Canada and draws are reorganized and foreign countries.

This year registration is down to 130 Faculty of Education was reorganized in and foreign countries.

This year registration is down to 130 Faculty of Education was reorganized in any given year. Despite its size, O.C.E. in its first year was 143.

Since 1910 several additions have been made to the building, including lacrosse.

In Convocation Hall This Afternoon Sir Robert Falconer

Sir Robert Falconer, President of the University of Toronto during the 25 years previous to 1933, who passed away late last Thursday night. The Funeral service is being held in Convocation Hall this afternoon, and the interment will be at Mount Pleasant Cemetery.

Archaeologist To be Speaker

Professor Charles T. Currelly will address the Medical Society's Arts and Letters Club tomorrow evening on the subject-"Tales of Egyptian Excava-

tions."

Prof. Currelly, a native of Ontario and a graduate of Victoria College, has a world-wide reputation as an archae-ologist. In Toronto C. T. Currelly is known as a founder of the Royal Ontario Museum, a former chairman of the Board of Governors of the College of Art and an amateur horticulturist.

of Art and an amateur norticulturist.

The club is looking forward to a
most interesting evening as Prof. Currelly has the reputation of a fine
speaker. He spoke to the club last
year on a similar topic, his personal
adventures in the Orient.

The other invities tradeuts of all.

The club invites students of all faculties as well as Medical students.

VARSITY STAFF

There will be no Varsity new lecture today. In its place a brief preliminary lecture will be given for copydesk candidates. The following are requested to be present in Room 37, University College at 4 o'clock

Mary McIntosh, Virginia Kay Dale, Peggy Bates, Ray Jack-son, B. Johnson, Frank Rasky, Rose Rabkin, Greta Lett, Ken MacRea and Dorothy Harley.

Pianist Will Present Sunday Concert

Reginald Godden, pianist, will give the programme at the Sunday Evening Concert on 14th November at 9 p.m. in the Great Hall. He will play a programme of modern music and will be assisted in the Prokofieff Concerto by Naomi Yanova who will render an orchestral aecompaniment on the second piano. The programme is as follows:

Eugene Goossens Kaleidoscope Manuel de Falla

The Fisherman's Song

Debussy
Les Cloches à Travers les Feuilles
Deux Etudes Prokofieff

Concerto No. 3 in C Major Representatives of the various colleges and faculties are requested to call at the Warden's office any time after 11:30 a.m. today for their allot-

ment of tickets for the concert. Members are asked, if they find they cannot use their tickets, to turn them in as soon as possible to the hall porter's desk as there is a great demand for tickets for these concerts.

Dr. Cody and Dr. Russell Will Conduct Service

The funeral of the late Sir Robert Falconer, former president of the University of Toronto, will be held in Convocation Hall this afternoon at two o'clock. President H. J. Cody and the Rev. G. Stanley Russell will conduct the service, and University classes after 1:00 p.m. will be cancelled.

Sir Robert Falconer, who died last flursday night after a brief illness, was president of the University for 25 years previous to his resignation in 1933. Sir Robert, who was 76 last February, had for 40 years been one of the foremost educationalists of the Empire. Since his retirement from the University, he had spent his time studying the New Testament, writing theological books, and speaking on behalf of public projects.

It was as Honorary Chairman of the Canadian National Congress on Refugees that he made his last public appeal. He pleaded the cause of thousands of refugees who are stranded in Portugal, and asked Canadians to sign a petition to the government for their admittance.

Son of a Presbyterian minister, Sir Robert was born in Charlottetown, P.E.I., in 1867. His early education was at Queens Royal School, Trinidad. On his graduation, he won both the Colonial and the Gilchrist scholarships. From here he proceeded to the University of Edinburgh, where he received his M.A., B.D., and Litt.D. He finished his formal education in Germany, at Leipzig, Berlin and Markhure. Berlin, and Marlburg.

Upon his return to Canada he was appointed lecturer in Greek exegetics at Pinchill College, Halifax. In 12 years he had risen to the position of Principal, and had become one of the most respected and admired men in the Maritimes. In 1897 he married Sophie Gandier, daughter of the Rev. J. Gandier of

In 1907, the governors of the University of Toronto were forced, by the resignation of President Loudon, to search for a man capable of taking over the presidentship. Out of 80 men who were qualified, the final choice was Sir Robert.

As early as 1907 Sir Robert was one of few to urge that sports should

Bert Niosi did the musical honors.
At the Meds dance the skeleton supplied by the Osteology department was
spotlighted and changed its pose several times during the evening. In the
beginning it assumed the austere air of
a lonely soul who was hung for his beginning it soul who was hung for his misdeeds. Later the cadavre took on an appearance of the eyebrow-raising chaperon. Medical authorities who have been called in to investigate the missing fore-arm are fairly certain that the accident or wilful crime was committed five hundred students attended his fare-

cident or will refine was committed in one of these frequent changes of pose. Meds also supplied their own entertainment in a skit performance portraying the six years of the medical man's student career.

LOST

The fore-arm is missing from one of the skeletons displayed at the Meds-at-Home. Since these bones are essential for the teaching of Anatomy and since they cannot be replaced, would the possessor kindly that when the Ostellay Pages. return them to the Osteology Room, 4th floor of the Anatomy Building.

By Bill Nicholls
The only dark blot cast upon an otherwise gala evening held by Meds, Dents and S.P.S. at the Royal York Hotel on Friday evening was the unexplained mystery of the missing forearm on the skeleton displayed at the Mcds.at-Home.

S.P.S. Frosh and Seebs the executive of the seed of examinations be lifted from the students' shoulders. At the outbreak of World War I, he was the directing genine behind the contributions of the University. He organized the cade to continued clusters are medical students. Meds-at-Home.

S.P.S. Frosh and Sophs cavorted to the exhibitantian swing of Bill Thompson's orchestra. Later in the evening, an invitation was conveyed from Meds who were just across the hall, to come over to hear Gren Hobson's orchestra. The admittance was a nominal sum which was to be devoted to I.S.S.

Way up on the roof, overlooking the

honour of presiding over the Carnegie Federation, and in 1923 he was offered the coveted Sir G. Watson chair by the Anglo-American Sociey. Under their the coveted Sir G. Watson chair by the Anglo-American Society. Under their patronage he gave a series of lectures in England on "The United States as a Neighbour." In 1924 Sir Robert worked unceasingly to achieve the union of the Presbyterian, Methodist and Congregational churches into what is now the United Church of Canada.

After 25 years of constant service to the University, he was forced to resign in 1933 because of poor health. Twentywell address at Convocation Hall.

. Despite his retirement Sir Robert still took an active interest in Canada's life as a nation. In 1936 he went on record as being strictly opposed to the group which suggested isolation as the cureall for Canada's economic sickness. In 1940 he was elected to the honorary membership of the Royal Canadian Institute.

Surviving are his widow, Lady Fal-Surviving are his widow, Lady Fal-coner, two sons, Dr. Gilbert Falconer and Robert D. Falconer, a brother, Rev. J. W. Falconer, of Pine Hill Divinity Hall Hallifax, and a sister, Miss Jean Falconer, of Nova Scotia.

MONDAY, NOVEMBER 8, 1943

Sir Robert Falconer

This afternoon students, members of the University and a large number of friends and acquaintances of the late Sir Robert Falconer will gather in Convocation Hall to pay their last respects to a great man. It is regrettable that the passing of Sir Robert should have been the first intelligence that many students had of the character and work of this former president of the University. Many of us now here have parents who attended this University when he was president and all of us now attending classes in the midst of the Second Great War are given the opportunity of appreciating his great work in the First,

His contemporaries and his friends of all ages will long mourn Sir Robert. His ample public spirit and his great energy in patriotic and philanthropic projects are borne witness in the mere recital of his achievements.

It is significant that shortly before his passing Sir Robert was speaking-on-behalf of victims of the oppressions leading to this war. It is deeply regretted that so useful a life was not spared a little longer, but it is obvious that Sir Robert was one of those people who was destined to be fully active in some righteous cause as long as he lived. In these days when we are frequently called upon to mourn the loss of younger men whose potentialities were never felt to the full, our grief at the passing of one so rich in years of service must be tempered with a deep gratitude for having benefited from

O.C.E.

Formerly a potent influence in University life, the Ontario College of Education has been forced through the nature of the present times to withdraw very largely from campus activities and concentrate on providing adequately-trained teachers for the indary schools of the province. Its students now find less chance to mingle with undergraduates of the various faculties since their curriculum has been enlarged and frequently they are required to do supply work in schools where temporary vacancies occur. Although their work has become heavier and is subject to interruption at almost any time, the teachers in training have not had their course accelerated. In an effort to make up the lack of teachers a short course was given this summer.

In peace times, although their work was broken up by alternate periods of teaching and classes, O.C.E. students participated in all phases of University life, from Hart House debates to Athletics. The College was instrumental in bringing to this campus an enriching element of graduates of other universities, and its students who had graduated performance. from this University served as a strong link with the undergraduates of the campus:

Today there is an understandable tendency to regard O.C.E. as something remote from the rest of the University both physically and intellectually It is important that during this period of partial eclipse when the College of Education is bending all its efforts to the one purpose of supplying teachers for the coming generation, it should not be forgotten as a strong and enriching element of the University. When peace comes again and the pressure is once relaxed the campus will once more be made aware of a great graduate college which will then be an rich full barrowise with the proportion of the university of the guest artist. The main work of the afternoon was César Trank's Quintet for piano and strings in F Minor The piano was noticeably predominant throughout, and style of the guest artist. The music itself is Secondary School symphony concerts, were exciting and emotional, opening with stirring chords interspersed with gorgeous melodies. The melodic line of the first movement is transitory with a great graduate college which will then be an rich III barrowise which it is afternoon was César III thouse, alternate Tuesdays, beginning to morrow, Nov. 9.

First rectal will be played by Robert The beanough of Vancouver at the piano was noticeably predominant throughout, and style of the guest artist. The music itself is Secondary School symphony concerts. The most of the guest artist is reasonable to remove the former concerts, it is reasonable to suppose that these affairs will former concerts, it is reasonable to suppose that these affairs will former concerts, it is reasonable to suppose that these affairs will former concerts. regard O.C.E. as something remote from the rest regard O.C.E. as sometiming remote from the rest of the University both physically and intellectually It is important that during this period of partial it is important that during this period of partial with Jan Cherniavsky of Vancouver at the piano eclipse when the College of Education is bending The piano was noticeably predominant throughout,

active participant in University life as it was before. The leadership which it now supplies in the educational field may then be expected on the campus.

Innoculation For Prejudice

A timely little booklet called The Races of Mankind has just been issued by the Public Affairs Committee Inc. Coming at a time when the ugly phenomena which we once deplored in our present mittee Inc. adversaries are seen to be rising in our own midst, this pamphlet combines humor with simple scientific fact to give a straight basis for our thinking on the baffling and snare-filled subject of race. writers, Prof. Ruth Benedict and Dr. Gene Weltfish of the Department of Anthropology of Columbia University have enlisted the support of Reinhardt, the PM cartoonist, to give a humorous fillip to their hard facts.

The text is exceedingly clear and simple, but cannot, because of the size and scope of the booklet, enter into any startling, or profound facts on the subject. As a matter of fact all the authors are attempting to do is establish the familiar, but often forgotten, basic truths of the subject. A few simple and revealing statistics are added and some of the claims and arguments of the arch-promoters of racial hatreds are turned back upon them.

The addition of the Reinhardt cartoons to the text The addition of the Remnarce careous to the Not helps immeasurably to clinch each point. Not cartoons of the sort you'll find in the New Yorker, these are merely illustrations supercharged with a hatchet into the old man's brain? Couldn't remember now. Mebbe it'd couldn't remember now. Mebbe it'd couldn't remember now. Mebbe it'd couldn't remember now for these days. This is the element generally lacking in people who indulge in racial hatreds and prejudices and is particularly useful here in destroying any vestiges of the disease which may be harbored within

Racial prejudice is a strange disease and this humorous but essentially sound little antidote is she ever get up and make herself useful?

The decay of Holocaust Avenue seemed powerless if the malady has spread beyond the stage where the reader can be amused by the illustrations. We therefore strongly recommend it to this campus, which of all communities should need it the least, but where, if our observations are sound, it could do a great deal of good.

Realism

Eaton Auditorium

A distinctly pleasant and invigorating concert was nails, toe-nails, as long as he could given by the Hart House String Quartet Saturday remember it had been toe-nails. Some-afternoon in Eaton Auditorium. This was the afternoon in Eaton Auditorium. This was the second in a series of four concerts of great variety and interest. The program opened with Franz Schubert's very-popular Quartet in A Minor, op. 29. Schubert's music is always satisfying, well-balanced and colorful, but never garish. This composition begins slowly and sadly but this mood is soon lost in the familiar theme of the second movement. The third wanders from major to minor, with a sprightly minuet rhythm. The part-writing is perfect with the melody tossed dexterously from one instrument to the other. The last movement is gay with a swinging rhythm, becoming more complex, but never stays so for long.

Quincy Porter's Quartet No. 3, performed next, was in direct contrast to the well-rounded, flowing pressed emotion. melodies of Schubert. This composition is written by a modern American and his music is, like others of his school, very realistic and rather disillusion-The work sounded like a tone poem, possibly ing. of New York City and harbour in its varied moods. It is a curious mixture of the sublime and the discordant - strange eerie melodies with a touch of Gershwin rhythm for variety. There is a tremendous breadth of style and the part-writing is exceptional, each instrument retaining its individuality but creating a unified and amazing whole. For a modern composition, this one is very melodious. Quartet is to be congratulated on their distinctive

As an added treat for the very young, as well as the older listeners, the Quartet played Drink to me only.

When peace comes again and the pressure is once chords interspersed with gorgeous melodies. The relaxed the campus will once more be made aware of melodic line of the first movement is transitory with a great graduate college which will then be an rich full harmonies, which is typical of Franks'

INFORMAL RECITAL

Robert Graham, violinist, of 1st year Medicine, will give an informal recital in the East Common Room at 1 p.m. on Tuesday, 9th November. J. S. MacDonald of 3rd year U.C., will play the accompaniment for him. Senior Meds Gain a Shutout in Intramural Rugby with the Aid of Arnup's Kicking and DEFEAT MEDS

second within two minutes of the game's end. Bill Armup's booting and Georgie Lewis' running were the bright and valued features of the drizzly afternoon. A minute after the kick-off Meds were settled 30 yards outside the Vic line. Lloyd Probert plunged for a few. Then Georgie Lewis plunged twice for yards. Groover recovered a Meds fumble but Gord Beatty stepped into an end run toss on the next play and ran end run toss on the next play and ran fumble but Gord Beatty stepped into an end run toss on the next play and ran 15 yards for Meds' touch. Jack Spence kicked the convert point. In mid-quarter Vic pushed into Meds' home quarter vic pushed into Meds' home ground and attempted a placement for a field goal. The kick fell short and Probert scooped it up just behind his line to run it out to the two yard line. Bill Arnup kicked on the next play to avert Vic's only real scoring threat of the game.

went into the second quarter to large gains for the first few Vic went into the second quarter to make large gains for the first few minutes. But the backs were soon slowed up by Medical ends who were stopping all opposition in their tracks. On the last play of the half Jack Spence tried a placement for Meds but like the Vic boot it fell short. However Meds' ends

coming in fast, rouged the Vic receiver.

Vic continued their offensive in the
third quarter but all the breaks went against them. Every critical play was loused, either by a wide awake Medical student or by a Vic fumble.

The fourth quarter brought a kicking display by both teams as the ball soared from one end of the Stadium field to the other. Groover made yards for Vic on his end run but the Meds' line recovered and held the Vic team for no further gain. Vic kicked out or Meds' 20. Arnup then booted for Meds and recovered his own kick. Arnut completed a long pass to Bryans for another 20. When Vic recovered they tried to sleeper but George Lewis sur prised everyone by intercepting the long for which the following men are saked pass to the left side of the line and to turn out: Eilbeck, McGraht, Warren, 'Nesbit, McNulty, Lane, Morton, William and McCoulty, Lane, Morton, Weshit, McNulty, Lane, Morton, 'Nesbit, McNulty, Lane, 'Nesbit, McNulty, McNulty, Lane, 'Nesbit, McNulty, McNulty, McNulty, McNulty, 'Nesbit, McNulty, McNu

Scoring Spread out

Senior Meds fought to their second win over Victoria in the intramural rugby league last Friday in a 13-0 shuttout. Scoring was well scattered. In fact the first touch came within two minutes of the game's start and the second within two minutes of the game's end. Bill Arnup's booting and Georgie Lewis running were the bright and valued features of the drizzly afternoon. A minute after the kick-off Meds were settled 30 yards outside the Vic line. Lloyd Probert plunged for a few. Then Georgie Lewis plunged twice for yards. Groover recovered a Meds famble but Gord Beatty stepped into an end run toss on the next play and ran end run toss on the next play and ran and run toss on the next play and ran and run toss on the next play and ran and run toss on the next play and ran and run toss on the next play and ran and run toss on the next play and ran.

and Davis came in first and third in and Davis came in first and third in the 50 yards free race. Latremouille of P.&H.E. finished second, thus clinching victory for his team, his placing making the score 18-12 in favour of P.&.H.E. The time for this race was 21.7, Meds won the 200 yard relay by a convincing margin in the time of 2.41.1 to add three more points to Meds total, making the final score 18-15 for Physical and Health Education's team.

SPEAKING OF SCRIBES .

seriously depleted). Therefore it is highly necessary to dot the stories with lots of names.

The actual joy comes in the writing for there is an endless open field to jazz the King's English and work with colourful verbs. Admittedly, the sportswriter picks up a peculiar jargon which is perhaps understood only by himself, and understood at least dimly by his discriminating reading public.

It follows logically, if somewhat illogically stated, that the day in the life of the harrassed sportsed can only be lightened by the regular presence of an enterprising staff.

the life of the harrassed sportsed can only be lightened by the regular presence of an enterprising staff.

Otherwise this is what is likely to happen. After returning the unread book of last night to the library and running the full gamet of the lecture grind, the sportsed looks at the sportsbook. He finds he has three or four games to cover before six. At the best he can see half a game, get the final score sheet, and imagine what happened. All these have to be written is a sadly dislocated evening, and then the S.O.S. Observation quickly drives home the fact that more S.O.S.es are written after midnight than before.

ILLUSTRATIVE ANATOMY . .

Sr. Meds whitewashed Vic on Friday, and the 13-0 score looked more than unlucky to last year's Mulock-muggers. Last year Meds fielded a strong team, but not strong eoungh to stand up to Vic and S.P.S. This year the story reads differently, and there is no sense in probing into the details, for the Meds team could obviously explain that there is a changed picture in the anatomy of the Scarlet and Gold

BASKETS BY THE PECK!

BASKETS BY THE PECKI

Vic basketball teams seem really to be going to town this year.

Last Wednesday night they took St. Hilda's 63-7. The Saints have a good team but they didn't seem to be clicking. The star of the game was Mildred Donaldson, HII Vic, who managed to bag 28 points. Ruth Virtue of Vic also earned a fair share of the winnahs' laurels by tossing some very neat shots. The schedule for this week is in today's paper with the hope that it will not only prove an easier way for the teams to know when they play, but also a bulletin board for cither eds or co-eds to come and cheer the gals on. There is usually very little enthusiasm shown in the matter of basketball audiences. There's a two-fold value in watching these games . . . you give the team a boost for their good old ego and you also pass a very satisfactory evening as far as enjoyment goes.

BATTER UPI

BATTER UP!

BATTER UPI

This afternoon at Vic field, U.C. and Vic clash in the baseball tourney at 4 o'clock. U.C. has been steaming right along with only one loss to P.&H.E.. However, it's anybody's game as Vic has also exhibited a good game. So far the weather has held her up, with the result that she has played only once. U.C.'s strength lies in her pitching and in her good batting knocked out by K. Creuss. This is another sport to which the addition of an audience would be a valuable asset. So if you're going towards the direction of Bloor Street for some dry old reason, stop off at Vic field and throw in the odd bronx cheer to make the game more like a baseball game.

A SENIORIS MATTER.

bronx cheer to make the game more like a baseball game.

A SERIOUS MATTER...

The secretary of the Women's Athletic Association has a good legitimate beef about the slap dash manner of the managers of the various teams in the matter of elegibility slips. These forms can be obtained at the S.A.C. office any day and merely have to be filled out by the participants and taken up to Hoskin to be signed by the doctor, It is not particularly the best form of cricket to slip one over on your manager, nor is it playing the game on the part of the manager to show reto no interest in distributing these forms to the members of her team. The penalty is very severe for slipping up on these rules and rightly so... All this seeming red tape is merely a part of the efficient well run machine of the Women's Athletic Association.

ALL INTRAMURAL GAMES CANCELLED

Owing to the lamented death of

SIR ROBERT FALCONER, K.C.M.G.

President of the University from 1907 to 1932

The University will be closed on Monday afternoon from L.00 o'clock.

THE GYMNASIUM WING WILL BE CLOSED FROM 2.00 until 4.00 p.m.

Postponement of the Following Intramural Games

Replacement ls Difficult

It will require some stretching of the Athletic Office manpower, "but with the staff working a bit harder than usual, we'll make out all right," said T. A. Reed, financial secretary of the Uni-

versity Athletic Association, last week.

He was commenting on re-organization of the Association's instructional staff, caused by loss of Warren Stevens, 17:30—Vic Fr. vs. P.H.E. Interm. He was commenting on re-organiza-tion of the Association's instructional staff, caused by loss of Warren Stevens, director of athletics at the University. who has been granted leave of absence to assume special duties at R.C.A.F. headquarters in Ottawa.

Mr. Reed pointed out that arrange-ments bad been made for Stevens' duties to be assumed through extra classes to be taken over by M. G. Griffiths, J. E. McCutcheon, Hec Phillips and Charlie Zwygard. But this plan has been dis-rupted by occurrence of an accident last Tuesday to Zwygard, who is in To-ronto General Hospital suffering from sprain of a tendon in his leg.

The mishap, Mr. Reed said, affected Zwygard, former Canadian Gynnastic Champion in the '30's, while he was practising mat exercises in the gym-

Since it is expected Zwygard will not return to the University for at least four weeks, Mr. Reed said, additional burden had been placed on the shoulders of the other three Association instructors.

let's go places

There is no point in discussing Seversky's ideas about the use of long-trange super-hombers to destroy the enemy's producing-power, especially in the Pacific. You are probably familiar with them anyway, and have your own opinion of their value. At any rate, they deserve a hearing—and a seeing. Even the shop-girls will probably be entertained by the liveliness of imagination underlying the account of areonautics and a burlesque history of aviation. One ironic scene stands out into. tion. One ironic scene stands out in our memory. It shows a bird building its nest in a Maginot-line cannon after the Luftwaffe has caused the defeat of

The other feature, "Young and Willing," is one of those hair-brained farces that, oddly enough, succeeds in being quite hilarious. It's all about six young stage-struck people out of work who share an apartment. A sort of "Stage Door" cross-bred with "Yo Can't Take It With You." The situa tion and the bewildering ramifications of plot are too much for any man to tackle in one column, so we'd better let

We had always thought of professors as being the sort of individuals who darrive on the dot, and scowl ferociously of at late-comers, with many a subtle significant little glance at a watch, then later on are either late or don't turn up at all. Great was the surprise then, as when we were walking down a hall one day, a door poped open, and out peeked a young woe-begone professor. Catching our sympathetic what's-the-dimatter-glance, he explained plaintively, that he was looking for his class which is hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried hadn't turned up yet. Suddenly his type lit up, "There they are!" he cried about as exciting as the March his come to been able to see Disney's Basic here given proof that the cartoon movie here are lited to see the story of "Sahara" is util; and about as exciting as the March of when here are lited to see Disney's Basic here given proof that the cartoon movie here are lited to see the story of "Sahara" is util; and about as exciting as the March of when here are lited to see Disney's Basic here given proof that the cartoon movie here are lited to see Disney's Basic here given proof that the cartoon movie here are lited to see Disney's Basic here given proof that the cartoon movie here are lited to see Dis

CONVOCATION HALL BUILT FOLLOWING U.C. FIRE

Convocation Hall, one of the most of Ontario with Dean Reeve presiding impressive buildings on the University over the ceremony. The opening cere-campus, was built in 1907. In 1903, after the east wing of University College had ben destroyed by fire, those interested in the University realized the need for a hall in which graduation exercises and other functions could be held.

Business and financial men of Toronto, Alumni Associations, and all years of soon after they were carried out.

Alumni Associations, and all years of the University organized to raise \$10,000 that was at first thought suitable for the construction of a Convocation Hall.

The Ontario government was prepared reason on Feb. 6, 1918, "Daffydil" to add \$20,000 to the sum. Later it Night marked the closing for the re-

The motion "Resolved that the use of force will be necessary to preserve stability in the post-war international community" was defeated by a close S.A.C. President margin at Friday's sitting of the Uni-

He said that in his belief there are three elements which are essential to a good education; the training of character; and training in habits of clear thought and clear expression of those thoughts in words.

He said that in his belief there are three elements which are essential to a good education; the training of character; and training in habits of clear thought and clear expression of those thoughts in words.

He said that in his belief there are three elements which are essential to a great with the welfare of this organization at heart, the policies our hope is tattis will go on. We must now think of the world in terms of the community of nations rather than of the individual states. Previous to the assertion of the restriction words. Commenting on the criticism levelled states. Previous to the present war against him, Mr. Batten said that swing activities on which the directorate was engaged have been labelled as unsuited to the type of music that should be fostered in a university.

The Student Previous 10 and 10 activities and this sort of thing should be prevented.

For the Opposition, Dave Bairstow said

We Say Farewell

The rain came steadily down yesterday afternoon and the slow toll of the carillon lent an air of solemnity and quiet sorrow to the campus as relatives, friends and admirers paid their last respects to Sir Robert Falconer, great friend and former president of this University. A full account of the funeral services will be found elsewhere in this issue but we here wish to express the feeling of issue but we here wish to express the feeling of loss which fell upon this University with the news of Sir Robert's passing. For 25 years he shaped of Sir Robert's passing. For 25 years he shaped of Sir Robert's passing. For 25 years he shaped of Sir Robert's passing. For 26 years he shaped of Sir Robert's passing. For 27 years he shaped of Sir Robert's passing. For 28 years he shaped of Sir Robert's passing. For 28 years he shaped of Sir Robert's passing. For 28 years he shaped of Sir Robert's passing. For 28 years he shaped of Sir Robert's passing. For 28 years he shaped of Sir Robert's passing. For 28 years he shaped of Sir Robert's passing. For 28 years he shaped of Sir Robert's passing. For 28 years he shaped of Sir Robert's passing. For 29 years he shaped of Sir Robert's passing. For 29 years he shaped of Sir Robert's passing. For 29 years he shaped of Sir Robert's passing. For 29 years he shaped of Sir Robert's passing. For 29 years he shaped of Sir Robert's passing. For 29 years he shaped of Sir Robert's passing the life of a met with no success. I was sorry to sir Robert's passing the life of a met with no success. I was sorry to miner, the strikers have not asked for very much see this happen though—one must have

Sir Robert's departure leaves a blank which will the early thirties. Sir Robert's departure leaves a blank which will not easily be filled. And as the funeral cortege moved out of the University grounds the air seemed fraught with a mute appeal to all who watched, to all future products of the University Sir Robert and reshelved until they were driven, wisely or not, as Shackwarmer's voice vibrated the helped to make, to take up the torch he now lays to take matters into their own hands. helped to make, to take up are down, to take his place as champion of academic freedom and progress, to continue his noble work now done. The world has need of many men like action. We should never forget the fact that the fact that the formula of the content o him, and from whence could they more fittingly strikers are as sincere in believing in the justice spring than this, his University? In the present of their case as it is possible for men to be. world catastrophe education and the university remain the key to a better life. If, in saying farewell to Sir Robert, we how are now privileged to avail at Shawinigan Falls are striking for a principle. ourselves of the fruits of education, produce even one man for the cause in which he laboured so long, his going shall be less tragic; he shall remain with us in spirit at least,

Any Bones Today?

The triple bill at the Royal York last Friday night provided lots of fun for lots of merry eds and co-eds but the fun went a little too far when some misguided person or persons made off with the fore-arm and lower jaw of an extremely valuable and irreplaceable skeleton loaned by the Osteology De partment for display at the Meds-at-Home. We can appreciate the temptation; skeletons always were fascinating playmates. And the fame of any intrepid male who could successfully gain possession of an authentic skeleton or part of same within full view of all the Medsmen should justly go far. good jape, fellas, and you've really got them going, but now is the time for all good men to come clean and return the body. These skeletons now used by Meds originated in North Africa whence they came by devious routes through Paris and London to Canada and the U. of T. to see the hardy explorer who would volunteer to trace this same route today in search of bones. Lacking this means of replacing the missing jaw and fore-arm, Meds are asking the responsible person or persons to relinquish the trophy. Bones are bulky souvenirs. Let's give them back to the Doctors.

Pipers Take Warning

Shades of Stuart and Campbell! The world is oming to a pretty pass when the women encroach on that holiest portion of a loyal Scot's birthrighthis kilt. The modern woman has truly reached her goal of equality, the zenith of women's rights, in this tradition-shattering event. For the 25-year-old Carnegie Tech Kiltie Band has seemingly lost all sense of time-hallowed propriety, has done the unthinkable, has admitted three young women to the care of its sacred bag-pipes and the wearing of the

is the climax, when a Kiltie Band can find no men and must give over its kilts to women. Now will recently printed in The Varsity, the decreasing number of Toronto pipers be watched with an eagle eye, for once a start is made the women are ever eager to follow along. We have the women are ever eager to follow along. We have the word women are ever take over the garb of navy, army and air force. Now let the pipers look to

Sr. Intramural Harrier Race To Take Place Saturday

Race Over Five Mile Course in REED TROPHY
All Undergraduates IncludTUSSEL BEGINS ing Juniors

FIRST FIVE FORM TEAM

The annual senior intramural harrier race will be held this coming Saturday morning at High Park. The course will be approximately five miles in length and will be laid out over varied types of the Park's terrain. The race is open to all undergraduates. Hee Phillips reports that there seems to be a feeling among the juniors who competed in the harrier race of two Saturdays ago, that they are not eligible for this contest. But on the contrary the Athletic officials are very anxious to see as many The annual senior intramural harrier ficials are very anxious to see as many juniors as possible turn out. Although the race is primarily a team

event, individual winners will also gain points for their respective faculties. The winning team is decided by totalling the place numbers of the finishers. The faculty which has the lowest score for their teams will win the race. The teams this year will probably be considered to be made up of the first five finishers from each faculty.

Drew Addresses Teachers Assoc.

taches great importance to scientific win the crown. Thus, theoretically at research, however, and said that he least, Forestry with the smallest regbelieves we should have "technical in- istration has as much chance to win the stitutes second to none, with the facilities trophy as S.P.S. with most students. believes we should be stitutes second to none, with the facilities to training those with special skill in advanced forms of scientific development which can put our resources to work in a way of which we have not yet victoria College last year. TUSSEL BEGINS

The fight for possession of the T. A. Reed Trophy is now in full swing. The trophy, presented by the Athletic Associations of the faculties and colleges and the faculty of the faculties and colleges of the faculties and colleges and the faculty of the faculties and colleges of the faculties and colleges are divided in to free classifications. The Faculty of Medicina, and the

However, Mr. Rawlings shows himself to be somewhat an incon-

However, Mr. Rawlings shows himself to be somewhat an inconsistent character also for in his letter he spells our name in two entirely different ways. This is something which illustrates non-coordination by Mr. Rawlings' consistency cells which are located sporting world, can be excused, but diverse nominal interpretations on the same page provokes editorial wrath in great quantities. Heed well this warning, Mr. Rawling.

The final paragraph of our Agricultural correspondent's letter pleads the case of sportsmanship at the College. He says, "I hope you do not think-we are poor sports, because we thrive on being beaten, and always come back for more." This is good stuff. Our impression of the O.A.C. sports field is one of pleasure and almost amazement. The College is, in actuality, a faculty and one which should properly compete in the intramural league of our University, and yet it can field a track team which can travel to Toronto and put up stern olonger," he said wryly restreday when interviewd in hospital. "There'll be no more advanced for more a track team which can travel to Toronto and put up stern olonger," he said wryly restreday when interviewd in hospital. "There'll be no more advanced for more a track team which can travel to Toronto and put up stern olonger," he said wryly restreday when interviewd in hospital. "There'll be no more advanced for more and better teams in very define a bit old now; turned 40 last the contract of the con opposition for a track team cliffed from all the faculties here. No, Mr. Rawlings, we consider you quite the opposite to poor sports. Carry on the splendid work. Field bigger and better teams in very athletic department. If you thrive on being beaten then surely you will thrive and reach that point where you will do the beating. You say that you always come back for more. Well, by all means, feel sure that you are always welcome to come back to Varsity for more of whatever we have to offer

The Sportswoman

By Betsy Mosbaugh

HOW TO WRITE A SPORTSWOMAN.

Various estwhile sportswriters have dashed off the different aspects of Indoor Sports-such as mothing or the U.C. Follies—but no one has mentioned the most stremous and athletic game of the Great Indoors—writing a Sportswoman.

Now this is a comparatively simple battle if you have the constitution for it. The best time to pound it out is just after you have sightled and missed a few meals. Then you look up the sports schedule and take in all the doings for the night. If you suffer from some sort of juvenile delinquency and find that you can't slavays hit the mark, the best thing to do is to carefully select An Admirable Aid. That is the first step in the writing of a Sportswoman.

Then we leave these Admirable Aids strict injunctions to phone in the results of the basketball or whatever's cooking, and hie ourselves off to sneeze around the stacks for a change.

Upon your return you can expect to collect the data and whip off to the press to knock it into shape. All of which is a very fine expectation. The next step is one of bitter disillusionment. Morking on the principle of excluded middle you dispense with the Admirable Aid when she hasn't come through with the goods. This is well and the protection of the principle of excluded middle you dispense with the Admirable Aid when she hasn't come through with the goods. This is well and the protection of the principle of excluded middle you dispense with the Admirable Aid when she hasn't come through with the goods. Thieves Arouse Caution Of Residence Girls

During the past week three cases of thefit have occurred in Whitney Hall. Miss M. B. Ferguson, Dean of Women at University College, said that money seemed to be the main objective, as purses containing a total of over ten dollars were taken. She described the residence as being a "rabbit warren," with many ways of making an inconspicuous entry. Miss Ferguson urges all residents to keep their doors locked at all times in order

their doors locked at all times in order

to prevent further thefts.

The housekeeper in the Whitney Hall Annex reported a valuable opal set with diamonds taken from her room at the beginning of the week.

Arts And Letters Club Hears Archaeology Expert On Egyption Excavations

Professor Currelly of Museum Describes Difficulties and Adventures of Search for Ancient Tombs

DISCOVERIES OFTEN LUCK

Professor C. T. Currelly, Curator of the Museum and Professor of Archae-ology, addressed the Med's Arts and Letters Club last night on the subject "Tales of Egyptian Excavations."

"Tales of Egyptian Executations."
The Curator, whom most of us know as a white-haired gentleman who looks like one of Dickens? most genial characters, made use of his well-known talent for telling stories as he divided his address between humorous anecdotes and the fascinating search for the "safety deposit vaults of the Egyptians."
He described the difficulty the Egyptians had in the line of murder because

tians had in the line of murder because tians had in the line of murder because it was not enough to "bump off" a guy in those days, but you also had to "make short work" of the corpse lest in a future existence it might take up its bed and walk quite comfortably after you. Thus it was that the important Egyptians deepest concern was to find a safe place for their earthly remains and then to make sure that no one else

This led not only to the immens fortifications known as the pyramids, but also to an unknown number of secret tombs, sometimes hidden 600 feet under cliffs, sometimes disguised by the ex-terior of a peasant's grave, sometimes with written directions designed to lead the searcher astray, but any of which could form the basic material for some mystery writer's masterpiece.

mystery writer's masterpiece.
Prof. Currelly described the strangeness of the calm upper desert where the flints look like rows upon rows of chocolate bars and the stillness is so different from the movement of the wibrant nature of our country, that you are struck by it as if you had walked into a different world altogether, where there is nothing at all except the sun.

there is nothing at all except the sun. Everything, he said, is the same as it was centuries ago. In one walk he came across a broken waterpot which had been left there by its owner 2,000 years ago, and a little farther on he found a spear-point belonging to some primitive

spear-point belonging warrior.

He explained bow great archaeological discoveries were often just a
matter of blind luck and at other times
it was straight hard slugging year after year without getting anything

French Club Outlines Plans for Coming Year

Three short French plays instead of the customary long one will be put on by the University College French Club early in January, it was announced at the club's first meeting last night in the Women's Union.

Throughout the season the meetings will include, as well as songs and skits, guests, who will speak on topics of interest to students of French. During the evening all conversation is carried on in French, the chief aim being to promote some understanding of the language and culture of France.

At last night's gathering some ten records, lent by the French department, were played. These "disques francaises"
Were of different types, including on the classical side, a selection from Molicre's suffering civilian victims of Axis ag-Bourgeois Gentilhomme" and two of Lafontaine's fables; while the ligher van was represented by many old French folk-songs. "Les Fares," a poem Allied drive. In spite of this, the by Baudelaire, and "Le Cygne" by Sully-Prud'lhomme, closed the program.

Birds In Their Nest . . .

Little birds in their nest, says the homely aphorism agree. But this campus is learning that untimely ejection from the nest may well lead to disagreement over where to find a new home. The current embroglio. evidenced in the news yesterday of the Hart House Theatre.

The difficulties which have led to the impasse

in the Guild's affairs have been realized by other student groups, but they have not heretofore been brought so abruptly to the attention of the campus. It is true, as the Syndics of Hart House Theatre have pointed out in a regretful letter to one group of inquiring students who sought to find a way to re-open the theatre, that there are others on or near the campus, but so well-suited by location, size and equipment is Hart House Theatre to our tastes and

It is understandable that one party in the Guild should be awed at the thought of using the large and remote Victoria Theatre for an amateur production. They were probably wise in avoiding such a move, although it is very regrettable that they seem forced to abandon their production. Meanwhile the lack of a suitable stage, or at least the being felt by all other amateur producers in the orchestra. University community. The character of many productions which have become traditional in nature is being forcibly changed.

Where once there were substantial yearly runs, stands arranged in larger auditoriums, and apparent-out first attaining any objectives, produces an effect ly, because of difficulty in obtaining more than one which does not satisfy the ear. ly, because of dimensity in obtaining more least one night for a faculty in other auditoriums at least one college has been forced to further impoverish the followed. Even though a tone poem portraying a series of pictures, it uses rich, solid chords to create distributed evultation that

but it is dangerous that they should be forced to harmony freely. do so. In the first place there is the incongruity, viously mentioned, of a University with a policy of keeping extra-curricular affairs as close to the campus as possible being forced to send out its dramatic and musical productions to public stages Here the clear passages of the horns were worthy to the anomalies of a nation at war and a student into the following ones. The more one hears of anyway after what happened in Ford's

Exile by Choice?

In the second place it has been pointed out that campus producers might move away from here for good if they found success attending their ventures outside. This is a very real danger, but one which we predict will not materialize. Not that we mean to imply that the current crop of producers can't do a good job, but we feel that there will always be a strong attraction back toward the campus and but the good natured and somewhat rushed manage-

is a subtle and general weakening of the solidarity of our rather sprawling campus.

A third danger in which our fears do stick deep

is that there may be little or no theatrical life left to come back to the Hart House stage. More than one production perished last year. Hart House was founded upon a dream of great amateur theartical products to come. That dream faded 'ere it was quite fully realized. University drama groups offer the last remaining fresh and vital promise of the realization of the founder's dream. If they die then the dream will perish and the Theatre, once a symbol of hope, will become a dark, dead cavern full of dust and decay.

Revival Of A Magazine

Applause is due for the efforts of our colleague Vern Lang, in starting the University College Undergraduate on the way back to its old status as a magazine. We warmly approve what details of his plans we have heard, but they are so far overshadowed by the main fact of the publication's return from the doldrums of annualism as to seem insignificant at this time.

boldly against the current of the times. Those seemingly hard-pressed individuals in other colleges who are saddled with even more ambitious pub-lishing schedules at least have some of the momentum of former years left to help them in these uphill times, but the editor of The Undergrad will find a staggering inertia to overcome. While these are rays of stimulating thought they make huge demands on the time of potential contributors. The Undergrad under its new semi-annual schedule and with termination of rehearsals for the University College its plans and aspirations is needed. Students of U.C. Players' Guild production of Candle in the Wind is will be very ungrateful indeed if they do not support another unfortunate by-product of the closing of their enterprising editor with many and valuable contributions.

For Young People

Toronto Symphony Orchestra

equipment is Hart House Theatre to our tastes and audiences that it was forgotten in referring to other in Massey Hall was David Johnson, a student at theatres that they might not be suited to University Jarvis Collegiate. His contribution was Grieg's Concerto in A Minor for piano and orchestra, under the baton of Sir Ernest MacMillan.

Throughout this work the piano was continually drowned out by the orchestra; the only place where the piano had the prominence that was intended for it was where it played solo. Probably this was not "If Miss Gerfuson wants a fling we're the fault of the orchestra; rather it may be ascribed willing to let her appear in person in the to weakness in Johnson's volume of tone. As yet his touch lacks the brilliance and power necessary stage to which they have become acustomed, is to assert the dominance of the piano over the

The Concerto itself is a difficult piece, and in some ways not especially attractive from the listener's died assential standpoint. It seems a restless piece, always veering off in another direction before it can reach a point of equilibrium. This constant changing without first attaining any objectives, produces an effect there are now timorous and unsatisfying one night point of equilibrium. This constant changing with-

Too Clean, Charge As Follies Sued

Script Too Clean, Weeps U.C. Dean; May Appear in Nightie to Alleviate Distress; Dody Diaries Support Counterclaim

MUST HAVE FLING

The Joe Miller chapter of the U.C. Follies Scriptwriters' Union and Presi dent H. J. Dody of the University were named in a sweeping breach of promise significant at this time.

Significant at this time.

White is striking out suit brought yesterday by Miss Vern's task will be a hard one. He is striking out Marryin' Bee Gerfuson, U.C. Head

Charging that the dress reheasals proved the show to be altogether too spiceless, Miss Gerfuson pointed out that she deserved a little fling once a year

"Since The Varsity Jazz Issue went "Since The Varsity Jazz Issue went under the axe when I was a wee girl, the Follies has been the only bright spot in my year," she wept. "They promised me it would be spicier than ever this year, so I just couldn't wait and sneaked off to yesterday's rehearsal. But it was lily-white. It's maddening."

Drawing up her skirrt to display a trim pair of ankles, Miss Gerfuson revealed that some of the best items had been removed from the script by President Dody for his private collection.

ident Dody for his private collection.
"Hoarding, that's what it is," she sobbed.
"He keeps them for coffee parties after the LLD. ceremonies and then passes them off as escapades of his youth. But I aim to show that his youth was characterized by a mediocre purity."

President Dody's attorneys revealed

that they were contemplating a counter claim of slander. "Our client was once claim of slander. "Our client was once as gay as the best of them," said one of them, "and we shall produce diaries to prove it." A further charge against the Follies scriptwriters for theft of material from the said diaries was contemplated and abandoned for fear Miss Gerfuson's description of the show should prove correct and leave the case without a

leg to stand on.
''If Miss Gerfuson wants a fling we're nightie scene," stated producer Goldwyn Mayer, "but it would mean extra rehearsals and would postpone the show another week. We are awaiting word from her attorneys."

President Dody's response to the latter activities backing the attack on far-flung fronts; as I have so finely said on an

He was interrupted by the banging of his office door as The Varsity reporter left to line up for rush seats.

Woo-Woo

critical look at the current revival of Blossom Time. We preface our remarks with the warning that we were, after all, practically on the stage with the company and therefore had a much closer view of proceedings than is gen-

erally advantageous to the performers Acutely conscious of our own position music and sentiment was still sound of what more of verve than precision in ensemble numbers.

The story, if such things count for

anything in so musical a production, is not much in the way of improvement, but it does not detract from the wealth of music and humorous incident unless you "IT DOES TASTE GOOD IN A PIPE!"

Join the Picobac Fraternity. It means pleasant hours in every day-hours of mild, cool sweet converse with a pipe-that companion which enlivens company and enriches solitude.

WHAT'S IT FOR?

According to the latest results from track officials S.P.S. lead in the annual Intramural Relay but are very closely hounded by Meds. S.P.S. have 19 points while Meds show 14. Dents rail with six. Meds can overcome the tead and win the meet by taking the two mile event to be run off at noon today.

The School team of Lorimer, Fordyce, Wilcox and Watts took over the lead in the 880 from Meds by a split second, 1.40 and 1.40.2. Dents are leading in the 440 with Meds next and then S.P.S. Their respective times are 47.5, 48.2, and 48.4.

St. Mike's ran the sprints yesterday.

One Title

WHAT'S IT FOR?

Sometimes you may wonder just what good this page is. At least you may when you run into a page with sketchy, scanty, or incorrect variety properties on the play-be blamed on the reporter shortage. There are days when two or one or no reporters at all find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or no reporters as a fill find their way to the sports assignment one or some other such gruesome subject.

To allay this poor condition we can only send out frequent pleas to the sports assignment of the sports assignment one or some other such gruesome subject.

To allay this poor condition we can only send out frequent pleas to run articles which outline the program of some women's residence and the sport as a firm one rung's page, for example, was written one or some other such gruesome subject.

Their first meeting, value in had find their may to the sport as a firm one ru

ATHLETIC DIRECTORS CAN HELP .

This then is our proposed ideal set-up: The sports editors are figure-heads through whom pass the countless reams of vital sports copy. Serving them is a staff of sports reporters, several from each faculty, who cover not only games of their own colleges, but those of every college and faculty. Then each athletic director would keep a continual flow of publicity type copy extolling the athletic and sporting vitues of their faculties. Team managers we should like to see as a constant source of player information who would eliminate through this service all incorrect statements and what is usually even more important improper name spelling. more important improper name spelling.
Well, we can dream, can't we?

Volleyball referees are good for a half a dollar each and every time that they pass decisions on a game in Hart House. Swim meets will net the young official a cool two bits per meet. Hockey games pay a dollar to each official used during a contest. Basketball is in the fifty cent class as is water polo. Baseball employs two umpires. Seventy-five cents goes to the man behind the plate and fifty cents to him on bases.

All of which appears to be a very literative field for the enter-

anty cents to min on pases.

The Sportswoman

By Betsy Mosbauah

SUCCESSI

SUCCESSI

The life of a Sportswoman isn't so bad after all. A potential sportswriter who had agreed to cover such things as basketball, arrived trembling into our sanctum yesterday morning waving a copy of The Varsity in her hand, and with tears streaming down her face, asked, "Am I really fired?" Whereupon we felt quite magnanimous and said benignly, "Naw," with the result that we have accounts of the games played last night.

No longer can beligerent babes stop us in the rotunda and demand the cause of a lack of basketball accounts. Nor is it necessary to fall exhausted out of a phone booth. So we now introduce our basketball representative, Helen Taylor, a first year student in U.C. who will take charge of reporting such goings on. She lives in Cody House and her phone number is Mi. 4733. So toss in all your basketball data to her.

In Solemn Remembrance . . .

CODY ENCOURAGES **BLOOD DONATIONS**

Today we are commemorating the sacrifice of those fellowmembers of our University who in the Great War of 1914-18 and in the present global struggle gave all that men can give— life itself—to secure those spiritual values for the triumph of which we are now fighting. We are dedicating ourselves once more to winning the war and the peace which will follow the unconditional surrender of the enemy.

While others are shedding their blood for us, we may surely and literally give our blood for the recovery of the wounded. The Red Cross is asking for a large increase in the number of blood donors, and the Students' Administrative Council is making the necessary arrangements, whereby student donors may give their offering. The details are published elsewhere in this issue. I heartily commend this form of personal service in the war effort.

We must not forget Mr. Churchill's warning in his speech at the Lord Mayor's Banquet in London that in 1944 there will probably occur the severest fighting and the heaviest losses on the part of the Allied Nations. The war is not yet won, and can be brought to a successful end only by renewed and increased effort and sacrifice on our part.

Sapper Robert Edward Knowles, R.C.E.,
former student in University College and in Applied Science and
Engineering,
killed on active service in England, December, 1941.

Flying Officer Allan Wilson Troup, R.C.A.F.,
former student in Applied Science and Engineering,
missing, presumed dead, after air operations, December, 1941.

Flight-Sergeant Melvin Elliott Tayler, R.C.A.F., B.S.A. 1938, died of wounds in Libya, December 5, 1942.

Sergeant Gordon Carruthers Haio, R.C.A.F., University College, B.A. 1935, missing, believed killed, after air operations overseas, December 9, 1942.

Flight Lieutenant ELMER OSCAR RICHARDS, R.A.F., former student in the Teachers' Course, killed in an aeroplane accident in New Brunswick, December 11, 1942.

Pilot Officer Harold Francis Burt-Gerrans, R.C.A.F., former student in University College, missing, presumed dead, after air operations, December 19, 1942.

Flight Lieutenant Herbert Elgin Mitchell, R.C.A.F., University College, B.Com. 1935, killed in action in North Africa, December 22, 1942.

Pilot Officer JOSEPH PETER BULANDA, R.C.A.F., former student in Applied Science and Engineering, missing, presumed dead, after air operations, December 22, 1942.

Sergcant-Pilot Douglas Joseph Farrell, R.C.A.F., former student in Trinity College, killed on active service overseas, about January, 1943.

Flying Officer Torkel Torkelsson Lundberg, R.C.A.F., former student in Trinity College, missing, presumed dead, after air operations, January, 1943.

Flying Officer ROWLAND STEWART THORPS, R.C.A.F., B.S.A. 1937, killed in an aeroplane crash in Manitoba, January 11, 1643. UNIVERSITY OF TORONTO

Service of Remembrance and Consecration

November 11th, 1943

IN FRONT OF UNIVERSITY COLLEGE, COMMENCING AT $10.45\,$ A.M.

Conducted by the Alumni Federation of the University of Toronto

HYMN—(One chord will be struck by the band. The whole congregation will sing, led by the Hart House Glee Club.)

O God, our help in ages past, Our hope for years to come, Our shelter from the stormy blast, And our eternal home. Under the shadow of thy throne Thy saints have dwelt secure; Sufficient is thine arm alone, And our defence is sure. Before the hills in order stood, Or earth received her frame, From everlasting thou art God, To endless years the same.

OPENING SENTENCES
THE LORD'S PRAYER
THE MAMES OF THOSE FALLEN
PRAYERS OF REMEMBRANCE AND CONSECRATION
THE LAST POST
TWO MINUTES' SILENCE.
REVEILLE
GOD SAVE THE KING
BENEDICTION

Following the Service, the troops will march past the soluting base in front of the nain door of University College, and then proceed to the Memorial Tower and salute the Tablets bearing the names of the fallen.

A Carillon Recital will be given by J. Leland Richardson before and after the Service beginning at 10.10 a.m.

Flying Officer Edwin Roy Gray, R.C.A.F., Victoria College, B.A. 1941, missing, presumed dead, after air operations, February, 1943.

Sergeant-Observer Ross Maddaugh Agnew, R.C.A.F., former student in Applied Science and Engineering, killed in action overseas, February 11, 1943.

Pilot Officer George Andrew McQuillin, R.C.A.F., B.S.A. 1938, missing, presumed dead, after air operations overseas, February 23, 1943.

Flight-Sergeant John Alfred Paterson, R.C.A.F., former student in the Teachers' Course, died as the result of an aeroplane accident in Canada, March 3, 1943.

Lieutenant EDWARD VICTOR POLLEY, R.C.E., B.A.Sc. 1942, accidentally killed in England, March 3, 1943.

Sergeant John Marne Storey, Canadian Army, Trinity College, B.Com. 1937, killed accidentally in Canada, March 4, 1943.

Pilot Officer WILLIAM GEORGE McLAUGHLIN, R.C.A.F., former student in Applied Science and Engineering, killed on active service overseas, March 10, 1943.

Leading Aircraftsman Duncan Cameron MacKenzie, R.C.A.F., Victoria College, B.A. 1941, killed in an aeroplane accident in Souris, Manitoba, November 6, 1943.

complishments; Experts to Consider Many Problems

IS A "FACT FINDING BODY"

Students have been given a special invitation to attend the Congress of the National Council for Canadian-Soviet Friendship in Toronto to be held this ek-end

The opening event of the Congress will be a banquet to be held tomorrow night at the Metropolitan Church at which Dr. B. Stevansson, Arctic explorer, and Prof. E. J. Simmons, Chairman of the Department of Slavic Studies, Cornell University, will be the speakers.

On Saturday there will be panel discussions on ianour, agriculture, art, education, science, medicine and public health, at which experts on the Soviet's Willcocks St. annex exceeds fity dollars, accomplishments in these fields will be present. These will include Sir Bernard Pares, Dr. W. H. Gantt, Director of the Pavlov Institute, Johns Hopkins ada. Among the members of the Unito those that she met in the corridor, versity staff who will take part in the who presumed she was on her way to discussions are Dr. Leopold Infeld, Asvisit someone. discussions are Dr. Leopoid Inteld, ASsociate Professor of Applied Mathematics; Professor Eric Arthur of the
Department of Architecture; Dr. R.
Brauer, of the Mathematocs Department
and Dr. J. G. Althouse, Dean of the
Ontario College of Education.

Anyone may attend these discussions by registering at the Royal York Hotel tomorrow afternoon. Officials of the Council have described the assembly as a "fact finding body" whose purpose is to discuss Russian problems as they are.

The Congress will be concluded by a thanksgiving for victories to be held at Maple Leaf Gardens, Sunday night at 9:00. The principal speakers will be Leonard W. Brockington, K.C., and Edgar Snow, author of "Red Star Over China." Mr. Snow has just returned from a several months' survey of the Russian battle-

Chess by Wire U. of T. vs McGill

At a meeting of the University Chess Club yesterday afternoon in Hart Ho M. Dixon was elected president and R Orlando, secretary-treasurer of the club. An inter-university tournament with McGill is being planned. The game would be played by telegraph, the moves being recorded by a system of number-ing the squares. It is believed that the tournament would not seriously inter-fere with more immportant messages since the Universities of Saskatchewan and Alberta have already held such a tournament. As far as is known such a chess tournament have never before been held at this University.

The club is planning to repeat its tournament with The Queen City Chess Club this year, and the annual club tournament, which was not held last year, will be renewed this year.

Begin Drive on Monday to Register Students of All Colleges and Faculties for Red Cross Use in Bringing Up Blood Quota to Meet Augmented Requirements of Canadian Armed Forces in Action

HOPE FOR ENOUGH TUESDAY AFTERNOON

The enrolment of 100 per cent of the physically fit students of this University The enrolment of 100 per cent of the physically fit students of this University as Red Cross blood domors is the objective announced by the Students' Administrative Council for its forthcoming drive for blood donors. Constituting the first major contribution of University undergraduates to the war effort, exclusive of donations of money and books, the drive will get under way next Monday. The S.A.C. hope that by Tuesday afternoon the objective will be reached, but should results at that time be unsatisfactory they are prepared to continue the drive for as long a time as is necessary.

In a statement to The Varsity Pete Aykroyd, III Applied Science, chairman of the drive committee streat these threatments.

of the drive committee, stated that the need for more blood donors was particularly

acute at this time since the intensified action of Canadian troops in Italy had increased their need for plasma greatly while at the same time the clinics of this city have noted a decrease in attendance attributed to the lightening of the general aspet of the war

Convenient Resgistration Booths On Monday and Tuesday of next week

conveniently located registration booths will be open to all faculties from 8:30 a.m. to 4:30 p.m. They will be staffed will be op by representatives of the Red Cross and members of the University of Toronto Detachment of the Canadian Red Cross Corps in the uniforms of Red Cross nurses. The booths in the four women's faculties will be staffed by senior medical

Precautions have been taken to avoid enrolling any one who is medically unfit to give blood, but all will be asked to to give blood, but all will be asked to volunteer. There will be a medical student in each booth who will check the "Admit to Lectures" card of each volunteer for his or her medical category. Those in low categories will not be accepted, but their names will be externed on a social list to he included in entered on a special list to be included in the final total of volunteers. This pre-caution is instituted for the double pur-pose of saving the time of both the individual and the Red Cross, for the medically unfit would be rejected at a later date by the clinic doctors.

Two other lists will be kept as well.

One of those who are accepted as new donors and another for those who are already donors.

Blood Thermometers

Blood thermometers in each faculty will record the percentage of the total while a giant enrolment volunteering. one in front of Hart House will pro-claim the University total. In front of Hart House there will also be a central booth for the convenience of students of all faculties who may find this location more convenient.

On Monday a Red Cross mobile can teen will be stationed in front of Hart House for demonstration purposes.

Joint Meeting Hears Dr. Hewson

"Atmospheric Pollution by Heavy Industry,, was the subject of an address delivered Tuesday night by E. W. Hewson, Ph.D., before a joint meeting of the Royal Metcorological Society, Canadian Branch, and the Toronto Chemical Association.

Dr. Hewson described a new method which varies the emission of the waste products of manufacturing with at-mospheric conditions. Under certain of these conditions atmospheric diffusion processes are so active that even the maximum outputs of industrial opera-tions are attentuated rapidly until the concentrations are no longer On the other hand diffusion might be so slow that neighbouring crops woul be seriously affected. Therefore, Dr Hewson suggested that plant operations be made flexible in order to avoid harm-full contamination by releasing to the air the maximum concentrations of the product when diffusion is good and by curtailing their emission when diffusion is poor.

Dr. Hewson emphasized that turbulence must be the major element in any system of control of atmospheric pollution by industrial processes.

Anne Nicholls-beauteous "Glamazon"—is pictured applying to Marg Strahl the grease paint artistry that helped put a high gloss on the eighteenth annual U.C. Follies production last night. Set Fate of Bureaucrats Lute to Preach Sunday Evening

The University's Midnight Hour" is to be the subject of the sermon preached by the Rev. Ed. Lute at the Student Christian Movement service this Sundand south of Kiev today, reaching a position 35 miles southeast of Zhitomir, the rail city.

"It is a real question today whether our universities should be called universities or "multiversities", "Mr. Lute told The Varsity. "Increasing specialization in every branch of learning is forcing us all to live and think in our own special kind of mental company to the company of the com

Monday night at 8 o'clock in Alumni Hall the Victoria College Parliament will debate the subject, "Resolved that the last shot of the war should be used to shoot the bureaucrats."

The Unfinished Work

The most fitting words for such an occasion a that which we observe today were spoken almost exactly eighty years ago by Abraham Lincoln at the dedication of the Gettysburg National Cemetery on November 19, 1863. His words, spoken while the nation of which he was president was engaged in a great civil war, gain additional significance today when the principles which were then being tried within one nation are fighting for their continuance all over the whole world.

It is to our own University dead of two wars that we wish to dedicate this issue of The Varsity, and it is in their memory that all of us will meet in a solemn Service of Remembrance and Consecra tion this morning. With the first gleams of the victory for which these men died shining in the November dawn we would do well to bear in mind that final plea of Lincoln's at Gettysburg:

"It is for us, the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced."

There may well be hearts among us today in which the general feeling of mourning is mixed with bitterness at the thought of these lost lives, most of which were cut short in the early years of manhood. Such hearts should turn toward the unfinished work which our honored dead have left us to complete.

Those there are who can see in death in battle the completion of a worthy task. Of such there are few in such nations as ours, but even these can find little satisfaction in the way in which some of our classmates have lost their lives. For the ways of a modern war are perilous, even in the preparation. Some have passed on in the service of their country without experiencing the glory of a conspicuously gallant death. These have passed on to us a primary task unfinished and it is to that task that our endeavours must first be applied, but ultimately it is to the wider task for which all of the regards this form of war effort. The University fallen gave their lives that we must turn our thoughts and energies. After calling for dedication to the unfinished task, Mr. Lincoln went on:

"It is rather for us to be here dedicated to the great "It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom and that government of the people, by the people for the people shall not not the people. the people, for the people, shall not perish from the

How firm was this resolve we all know, for that nation did have a new birth of freedom and the concept of democracy was preserved at that time The nation has endured anf fights beside the British Commonwealth today in the larger sphere of the world struggle for those same principles.

We would do well to bear in mind how wisely Mr. Lincoln's side of the struggle won it and how the settlement, imperfect as it was in many ways, had endured, for we are faced with the spectacle of having fought once in the world arena for these principles and won, only to have to fight for them The dead of the First Great War have seemed, at times, to have died in vain. It is our duty now, the duty of all who fight and think on our side, but especially the duty of the privileged and somewhat sheltered group now in the universities, to make sure that the fight which soon will be twice won will never have to be fought again.

We have mentioned the primary necessity of getting on with the war. What is far more important in the long run, however, is the necessity of winning the peace. To the individual that seems be the job of someone quite differently qualified than he is, but actually the problem is at bottom an individual one, for the world is made up of countless small units called men and women, and it is from their thoughts that action arises wherever there is government of the people, by the people, for the people. It is therefore their duty singly and Know Your University collectively to keep those thoughts forever governed by the spirit of liberty, tolerance and love and thus to cast out the basic tyranies and irrational prejudices which have made our enemies the threat to world justice and humanity that they have been.

A Worthy Cause

The Students' Administrative Council deserves high congratulations for its forthcoming drive to enrol every physically fit student on the campus as a Red Cross blood donor. The undergraduate body may well be proud of its leaders for their wisdom in taking advantage of every opportunity to increase the campus war effort. It is most encouraging to find the Council awake to immediate and pressing war needs, and active enough to institute a campuswide drive aimed to reach every single student in the

The urgent need for more and more blood donors cannot be underestimated. Recent extensive activities of Canadian troops in Italy and the promise of greater activity to come on all war fronts has resulted in highly increased demands for blood plasma from all branches of the service. Blood donor quotas in Red Cross clinics all over the country have been drastically revised and a nation-wide drive is currently under way for increased enrolment.

Many students are already wearing the badge of Red Cross blood donor and many faculties have sent whole classes to the clinic for a mass blood letting but by far the greater majority of underdregduates have either considered the idea without ever acting upon it or have never even been aware of the yawning need for even one addition pint of human blood. The Red Cross has made things considerably easier for the student donor by opening the handy St. George Street clinic but, human nature being what it is, the S.A.C. has wisely decided to leave nothing up to individual inclination. In view of the widely-known necessity for more donors and the comparative ease with which students may now give blood there should be no necessity for extravagant ballyhoo and pressagentry in the coming campaign. Through the efforts of the S.A.C. and the Drive Committee all things have been made easy. All the student has to do is to register his intention of giving blood. Under the circumstances nothing less that 100 per cent enrolment should be contemplated.

We would also commend the Council's decision o enrol students who have already given their blood and are willing to continue doing so. Under this arrangement, when the drive is over the Council will have an accurate count of all student donors, both experienced and newly recruited, and will so be able to measure the complete campus score as will have a definite and concrete contribution to add to her steadily growing list of war services.

Conservatory Concert Hall

First of a series of fortnightly chamber music concerts was held yesterday afternoon in the Toronto Conservatory concert hall. The string orchestra, under the unassuming direction of Ettore Mazzoleni opened with a suave performance of the Corelli Concerto Grosso in C Minor. This old classic made good listening, thanks to the unanimity of spirit evidenced by the players. William Byrd's Fantasia for String Sexlet, come down to us from the dawn period of English chamber music, was played with subtle appreciation of its elegant counterpoint

By contrast, the String Octet did two Shostakovitch sketches, a Prelude and a Scherzo, the former illumined by dexterous stretto passage-work, the latter distinctly reminiscent of Raymond Scott's Power-House. It so pleased our fancy, that Mr.

Rare Old Documents Reveal University Woulda Been Older Only It Wasn't Founded Soon

STUYVESANT NOT NUYVES

The University of Toronto, old as it is, would have been an awful lot older if two shady swindlers hadn't been so shady. The thrilling story was revealed last week when some old and battered scraps of paper were found by Uplift O'Reilly, janitor at Simcoe Hall. Ac-cording to information from these clippings, plans were being made for a pings, plans were being made for a University in 1643; and money was being sought for this venture by two alleged "educators" from England named Tinears and Squinch. The first priceless bit of Canadiana, reproduced here, reveals the whole story.

Muddy Yark, April 1, 1643—Gnests at Ye Old McKensie's Taverur and Assorted Beere Purveyares were treated to wrate treate this week by the presence of J. Whistler Tweers and Elias I. Squinch, pronunchte educatores from The Olde Countree. Thereas and Squinch who arrived on Sunday, have been exciting the people of Muddy York with their brave plans for a new and navele univer-sitee of colleges which they wish to build in Hogan's hag pasture below the Blaor Concession. It is experted

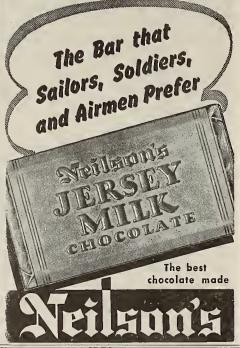

Apparently wealthy men in Montreal were approached to donate money for the founding of the University of To-ronto, for the second document reveals that Montrealers, too, were foxed

Hochelago, P.Q., April 30, 1643— (by caureur ou bois)—Monee famouse financiers and manied men of this fair citye are contributinge a offe theire galde and silvere t funds beinge raisede by Messrs. Tinears and Squinch, late of Eng-lande, now in Muddy Yark seekinge moneye to builde a new and navele universitee of colleges. There is a

As revealed by the third clipping we that the whole business was a nasty old hoax on the part of Tinears and Squinch who beetled off to New York with the money they had collected. They probably would have bought New

SUNDAY EVENING CONCERT TICKETS

Fifty single tickets which will admit men only to the concert to be held at 9 p.m. in the Great Hall of Hart House, on Sunday next, 14th November, will be issued from the Hall Porter; desk after 12 noon today. These tickets are available to undergraduate members of Hart House, members of the R.C.A.F. University Detachment and members of No. 2 Canadian Army Course at the University.

5-0 Win Over St. Mike's Puts Dents In Playoffs

These boys are abiding by rules and properly many the part with a 45 yard punt which put the ball in St. Mike's territory again. Starting the second quarter with a completed pass to Foley, St. Mike's were stopped at the centre stripe. The ball went to Dents and Murray made another long punt which started a period of see-saw action at centre. A Dent less first half, Mould opened the scoring fumble was seized by the Irish but they failed to make yards. A 40 yard punt by Murray set the St. Mike's squad back considerably but a heavy drive

Faling on a fumbled ball behind the St. Mike's goal line, Bob Marshall correct the touchdown which brought both as 50 at the end of the period.

This victory qualifies Dents for the group playoff with Trinity which will be held Saurday at 10 eclock.

Both teams were fairly evenly matched but St. Mike's line date and tackling line showed superiority later in the game. Bob Marray sparked the Dental attack with consistently good kicking and tackling, while speedy Bill Young and kickers of Brian Kelly starred for St. Mike's his whore the speedy Bill Young and kickers of the St. Mike's kicked and stopped with a completed plass to Argo.

Opening play after the Denta kick-off was in the St. Mike's kicked and stopped as for the St. Mike's kicked and stopped by the speedy Bill Young brought on by Nolan of Dents. Held to make a form the stage of the speedy by the speedy by the speedy be speedy by the speedy be speedy by the speedy be speedy b

to rules is much more difficult than brawling aimlessly, and hence it becomes an excellent test of their athletic provees and (b) they like it. Fortunately the athletes in Hart House haven't got press-agents and sport remains unsullied in the Athletic Wing. You, Gentle Reader, may say, "Phooey! It sounds like a mess of Little Lord Fauntelroys

We also say "Phooey!" and add, truculently, that if you angled over into the Athletic Wing of H. H. as a spectator, you'd see what we mean and you'd also see why U. of T.'s comprehensive Intramural ahtletic program is about the finest on the continent.

Mr. "Bob" Campbell, of McGill, will preside at the Saturday sessions, assisted by Miss Catherine D. McLean, B.A., Toronto, general secretary.

Following Mass on Sunday morning the closing Communion Breakfast will take place in LaSalle Hotel. Hon. Paul J. J. Martin, M.A., Ph.D., K.C. M.P., Assistant to the Minister of Labour and a former president of Toronto Newman Club, will be the guest speaker.

Sees Miniature University International Club

A university within the University was visualized by Dr. W. J. McCurdy, of the Department of Philosophy, addressing the International Students' Club at St. Hilda's College last night. International Students' Club should be a university in itself, bringing a variety of ideas and cultivating them for the best service of its society," said Dr. McCurdy.

The club, with members from British The club, with members from British West Indies, England, Holland, Nortway, Austria, Germany, Poland, India, Cfina, Mexico, Newfoundland, the United States, and Canada, and representing almost all faculties, is intended to provide a common ground upon which students of all nationalities may meet.

Dr. McCurdy stated that the main Dr. McCurdy stated that the main Purpose of the international student is to come into immediate personal, friendly contact with other peoples. Saying that Canada is most important to the inter-national student because of social de-velopment, Dr. McCurdy suggested the veropment, Dr. McCurdy suggested the following topics for discussion: the relation of technical studies to society and the future; the relationship of Americans to Orientals; racism and groupsin. He stressed the importance of conversation

other's civilization.

In conclusion, Dr. McCurdy said,
"The future looms bright before us, but
we are on the edge of a precipice. Thus,
ear units on parade were Licut. Commander

the snow-covered front campus to do bonor to the University's war dead at a Remembrance Day service yesterday morning. During the ceremony President H. J. Cody read the names of 84 of the University's sons who had given their lives in the past year. Following the service the entire force of troops attending marched past the platform erected at the steps of University College, where the salute was taken by the Honorable Herbert Matthews, Lieutenant-Governor of Ontario. Passing Hart House tower the parade saluted the Memorial Tablet containing the names of those who fell in the last Great War. A guard of honor, composed of representatives from each of the U.N.T.D., the C.O.T.C. and No. 23 Pre-Air Crew Detachment of the R.C.A.P., stood with arms reversed before it.

As the bells of the earrillon sounded from Hart House tower the different sections of the parade took up their positions on the campus and a crowd of student spectators began to gather in front of University College. The first and second battalions of the C.O.T.C. and the No. 2 Army Course stood facing the platform, while the U.N.T.D. occupied the cast and the U.A.T.C. and the Pre-Air Crew Detachment the west side of the campus.

The entire force formed three sides of

The entire force formed three sides of a square made up of three solid blocks of navy, khaki and air force blue. At one side of the reviewing stand could be glimpsed the gray wedge caps of the C.R.C.C. who, although present, did not march in the parade.

At 10:45 the colorful procession of the members of the Board of Governors, the Board of Directors, the deans of faculties and heads of colleges arrived at the platform, accompanied by repre-

the blood shed for them.

As the blowing of the city whistles announced 11 o'clock, a bugle sounded announced II oclock, a bugle sounded The Last Post and the whole stretch of campus was silent. Then the notes of Reveille called the parade to a salute and the service closed with the playing of the National Anthem and the Benediction.

The march past to the music of the band followed. The parade, numbering a strength of approximately 3,160, took 20 minutes to pass the saluting base.

Before the memorial service, wreaths

Before the memorial service, wreaths were placed at the tablet by the following: for the province of Ontario, Mrs. Kenneth Taylor; for the University of Toronto, Dr. H. J. Cody; for the Albumi Federation, Maj. M. B. Hastings; for the Students' Administrative Council, Jack Ward.

With President Cody and Lieutenant Governor Matthews on the -platform were Commander J. J. Connolly, Col. K. M. Holloway and Flight Lieut. C. A. Ritter, of the navy, army and air force respectively, and Major M. B. Hastings, president of the Albumi Federation.

In charge of the University training

Federation.

In charge of the University training units on parade were Lieut Commander D. A. F. Robinson, in command of the U.N.T.D.; Lieut-Col. H. H. Madill, commanding the first and second battallions of the C.O.T.C.; Wing Commanding of the C.O.T.C.; Wing Comman

'Great Books' and the War

"Great Books" is the tag line by which St. John's College, Annapolis, Maryland, has been known since it first achieved prominence on the modern educational scheme in 1937. With the smaller colleges of the United States threatened with extinction, this most liberal, or at least, according to popular belief, most impractical of all arts colleges, has come to the fore again with a plan to provide a liberal education for young men which would be completed before they reach draft age.

As a wartime emergency measure President Stringfellow Barr and his colleagues have devised a threefold plan which should provide students with a well-rounded education before they are inducted and at the same time ensure a steady supply of welltrained and basically disciplined young men for the

The Plan

The points of the plan are:

- 1. Matriculation at the end of the Third Year of high school-a condition now accepted by many larger universities in the country.
- Substitution of a compulsory curriculum for the elective system.
- Acceleration of a four-year course to be completed in three years.

None of these are startlingly new. St. John's College, originally founded in 1696, was established on its present basis in 1937 in an attempt to restore the liberal arts of thinking, speaking and writing by means of a four-year course based on the compulsory study of some hundred great books from Homer, Plato and Aristotle to Marx, Veblen and Freud. Accelleration and the admission of high school Juniors to the universities have been accepted for some now as part of the wartime educational scene in the United States,

This combination of existing elements may lead to far-reaching changes in liberal arts education on this continent. The extremity of the small college may result in a more widespread adoption of President Barr's "radical" but conservative curriculum which offers a maximum in personal development and discipline.

The Basic Curriculum

The "Great Books" system of liberal education breaks with the general trend toward professionalized arts courses and is therefore called radical, while at the same time it represents a return to the classics of all ages for a basic and well grounded education in the liberal arts and in the history and development of the fundamental sciences.

This curriculum quite obviously doesn't prepare the student to "do" anything, but its proponents believe, as President Barr expresses it, that "Too many people have come to regard the books that have fed the stream of western thought as symbols of a dead culture, as dusty tomes to be kept under lock and key and examined as mere curiosities. What was good enough to shape such minds as Washington, the Adamses, Jefferson and Madison, Franklin, and Lincoln, ought to be good enough for boys of

To those who wince at the thought that this course leads to no definite means of earming a living the St. The ceramic Family showed a spiral grouping of John's staff point out that their graduates do not children, from big to little, around the slighly harriedstarve. "Most persons still learn their business the looking mother; quaint humour this. way their great-grandfathers did, by the method | Youth was a satirical terracotta of adolescent types.

formerly known as apprenticeship. Those who have first learned to think make the aptest apprentices.'

Adoption in Canada?

The St. John's curriculum has aroused widespread interest, but there has also been considerable opposition to it. It is not probable that it will soon find much support in Canada where changes come more slowly and where requirements for matriculation have been steadily maintained despite the war and where acceleration is looked upon with general disfavor.

However, with recent emphasis having been put upon the establishment of junior colleges here and with something of a partial eclipse of university arts education expected after this academic year, conditions would seem right for the trial of this scheme, or some modification of it in this country. Certain it is that although specialization has not gone as far here as it has south of the border most of us now studying at this University lack a genuinely broad and integrated basis for our advancing education. We are obtaining an interesting and valuable culture here, but nearly every one of us has found it necessary to neglect the sub-structure at many points. As wartime pressures increase and surface interests widen the number of such gaps will probably increase in most cases. Is it not worth while giving the "Great Books" curriculum serious consideration here:

Upstanding Business

It is a fine upstanding business this matter of getting up on a street-car to give a lady your seat. That and a few less helpful gestures are about all the modern male has left to remind him of his once lordly position. In spite of what they say—and as irritating as it may be when they say it women are still the weaker sex and men are still, by and large, the ones who can stand hardship more readily. Therefore it is not remarkable that so many still practice the fine old custom of standing in street-cars and letting the ladies sit.

It is true that under wartime conditions it becomes more difficult to be the slightest bit courtly about this matter. Sometimes there are so many people crowded along on top of the chivalrous that he has a difficult time standing and when he does so, uncertainty as to the exact position of the hand-rail is apt to lead to his cracking his sconce against it if his rise is at all rapid.

Perhaps this is the reason why so many of the more solid-appearing citizens of Toronto prefer perusal of the daily paper to a general observation of the social niceties as they journey to and from their cushioned office seats. The theory gains added plausibility when it is considered that most of the exponents of the pursuit belong to the ranks of school boys who generally do not possess the altitude that would make it dangerous for them, or laborers who are a naturally hardy lot, or college students whose crania can withstand denting because of ample internal stuffing, or else elderly gentlemen who, through long practice starting back in the days of the horse car, are adepts at avoiding obstructions

Yes, it's a fine upstanding business and besides you don't, when you are standing, have to look at your fellow passengers, or the static scenes of Toronto's uninspiring streets. You have an excellent view of the advertising cards and you can, as they suggest, "Bathe Your Eyes in Colour."

Plastic Art

Wymilwood

About a week and a half ago, there was an after noon show in Wymilwood of sculpture by Eugenia Berlin. It left such an impression on this reviewer, that, better late than never, we mention it now.

Nativity, a ceramic group treated with simple dignity; Adele, plaster bust, every angular plane suggesting gangling adolescence; Negro Boy, a head elongated for dramatic effect. The Eagle, in plaster, stems directly from Brancusi's bust of Mile. Pogany, which created such a furore in the Armories Show of 1913; commonplace enough, now.

In the terracotta medium, African Antelopes was outstanding, with its curvilinear rhythms and compact disposition of the figures. Two Horses seemed almost two-dimensional, pared down as they were.

Epistaxisometer to Plug Crucial Blood Leakage

Startling product of unprecedented collaboration between the faculties of Applied Science and Medicine, a new levice is expected to contribute much to the success of the coming University
of Toronto blood drive where it will
first be tried out. If experiments are successful it will be produced in quantity and is expected to eliminate much waste in collecting blood dona-

Called an "Epistaxisometer," the new machine will be attached to all trees on the campus and installed in as many on the campus and installed in as many other obstacles more than four feet in height as there are experimental models remaining. The purpose of the invention is to conserve the inadvertent flow of blood resulting from the accidental clash between the human proboscis and

any solid and immovable object.

When such an unlucky event occurs
the Epistaxisometer catches the flowing blood in a specially designed trough which carries it off to a handy re-ceptacle. The amount of blood thus inadvertently donated is measured by a built-in flowmeter and the amount recorded automatically on a dial. Up insertion of the Admit-to-Lectures care in a slot, the meter stamps it with credit for the amount given, photograph: it thus automatically recording an ap it, thus automateanly recording an ap-propriate number of points for the proper faculty in the T. A. Bleed trophy race, issues the victim a compli-mentary pass to a special double feature showing of "Captain Blood" and "Blood and Sand," wipes his nose and sends him on his way with an encouraging

IIC 4th VEAR SKIT

Today, 2:00 p.m.—Everybody inter-ested in writing skit for the Open Joint neeting on Wed., Nov. 17, come to neeting at Women's Union.

UKRAINIAN STUDENTS' CLUB Sunday, 2:30 p.m.—The Ukrainian Students' Club will hold its meeting in Newman Hall, 89 St. George St. Pre-ident Cody will address the club 4:00. All interested please attend. U.C. S.C.M.

Today, 2:30 — U.C. S.C.M. Study Group meets in Women's Union Com-mon Room. Subject: "The Christian Basis of a New Society," under leadership of Ed. Lute.

Nancy, head of a spritely infant with flaired pigtails, while Kay was a plaster bust, a none-too-successful attempt to use a creamy patina over a shallac base, but modelled boldly for character but model! delineation.

Such a show, of singlar quality, sug-gests that there must be many a plastic talent in these environs, waiting to come out in the open, with a little encourage-ment. Why isn't there an annual sculpture exhibition at the Art Gallery? Work like this deserves a much wider

NEW DANCE CLASS MONDAY - 8.30

DACOSTA STUDIOS OF DANCING BAY and CHARLES STS. N

Whatever your plans for the future, you will be happier and more independent if you and more independent if you have invested in a Mutual Life Pension Plan.

By doing so, you can assure a comfortable, regular income later on. The income starts at normal "retirement" age (50 or 55) . . . the age when, if

married, you and your husband will find some extra money doubly welcome.

How much does such a plan cost? That depends on your presentage, the income you wish to receive, and the date you want it to start. For further information write for the free booklet, "The Future Belongs to You."

INSURANCE IN FORCE OVER \$638,000,000

Rumor Says School Beat Army

Yesterday's intramural rugby tilt finished with a 3-1 win for Junior School over the Army Course. That's what we're told. For, to tell the truth, there was no sports reporter near the game The situation of the sports department has reached such a low point that we no longer can field a single live reporter on Tuesdays and Thursdays.

On the remaining three days of the On the remaining three days of the week we mange to scrape a few people together and to dispatch them to the far corners of the campus in search of sports copy. But if the Tuesday and Thursday shortage is not soon alleviated then page three will suffer even more than it also also have the search beautiful suffer even more than it also also have the search beautiful suffer even more than it also also soon alleviated them. then page three will than it already has.

This then is a plea. If you have any spare moments in your time-table and would like to take a whack at the sports writing field, this is the time. We've got breaches galore to be stepped into. You need only stick your head inside The Varsity office, Room 42A, University College.

By Mickey Michasiw OUR ST. MIKE'S ...

Next Tuesday evening a team will skate onto the ice at Maple Leaf Gardens which will be the nearest to our dream Blue and White so far as this winter is concerned. Father Mallon's St. Michael's Junior O.H.A. squad will take with them all of the good wishes for

Junior O.H.A. squad will take with them all of the good wishes for a successful season, not only from this department, but also from every hockey fan on the campus. Since we have no Varsity team to cheer on to victory, a natural outlet for hockey fever would be the Irish juniors. In previous years the cheering section has been made up of St. Mike's students and only St. Mike's students. There is no sound reason for this condition.

The students on the campus should look upon this team as their own rather than merely another entry. With N.H.L. hockey on the downgrade, the spirit of the junior games will easily make up for the lack of experience. If you don't believe us, just think back to the Oshawa Generals-Winnipeg Rangers series of last spring. Crowds were turned away game after game. After that decided boost to junior hockey, this year's games will be very closely followed by that section of the public that enjoys real sports that are played for the love of the game rather than the odd filthy five dollar bill. (Who said odd?)

PRESENTING . .

PRESENTING . . .

Paul McNamara is the man responsible for the showing of the team on the ice and if experience counts, the Irish will be well up there come play-off time. Paul is well fortified with goalies but Johnny Marois, a holdover, seems destined for the job. It was this same Johnny who is was picked up by the Oshawa Generals in the play-offs to act as Bennett's understudy. Other candidates are Steve Coates, Roy Mitchell and Jerry Hector. Mario Pellizzari and Teddy McLean will move up throm the 'B' team to form one defense while Eddie Odette, Frank Malong and Gus Mortson fight it out for the other spots.

Front line holdovers are Bob Schnurr and speedy Dave Bauer, brother of the former Bruin flash. The lad with the big scrapbook is Johnny (Groan) McCormick, who caused the upheaval in the Leaf camp a few weeks back. McCormick has enrolled to take a special course and may decide to put on one of his brilliant stick-handling displays. A complete line from the 'B' team moves up in Joe a Marzalik, the leading scorer last season, Paul Kane and Bus Sadler, Joe Sadler and Ted Lindsay have also been attending practices.

However, the starting line-up will not be announced until Monday and that may mean a change in any of the positions as places on the team are earned by work rather than by reputation.

A MUST!

Virginia Kitto isn't stringing us along when she says that the interfaculty tennis has definitely got to be whipped off in a hurry. There have been few opportunities to find St. Hilda's courts approachable in anything less than a boat, but grab the nearest facsimile of a sunny day and snap off your sets in a hurry. The quarter finals have been reached and it seems a shame that we should have to wait until spring to finish 'em off. Ruth Margesson also adds a p.s. to that in reference to the U.C. mixed doubles. She expects these to be completed by the end of next week. If your opponents are the cause of the delay, it is strongly urged that whether you like it or not, you take the match by default.

HOOPS AND HEP BABES . . .

HOOPS AND HEP BABES . . .

The basketball schedule is progressing according to plan. St. Hilda's freshies trounced O.T. 20-9. Julianna Murray kept up the reputation of her big sister for the Saints. Halos also go to Helen McNicl, a forward, and to Jane Flock in the position of defence. Judy Scott of O.T. was the star of her tean.

U.C. senors looped 16 points to Meds' 15. Mary Ried, Mary Manson and Miriam Allison, all old standbys of the Red and White, played their usual good game. The match was comparatively fast and, all in all, tight (figuratively speaking).

St. Hilda's and Vie Juniors were undecided about the winnahs as they didn't break the tie of 12-12. Comie Fellowes and Betty Hungerford again distinguished themselves as forwards, while Betty McLean was the star guard.

Snow Flurries Hearten Skiers

Toronto experienced its first snow of the season yesterday. It had been on its way for quite a long time but people still were suitably impressed and astonished. Most students hauled out astonished. Most students hadred out the linings of their coats and brought the mufflers and mitts out of the moth balls. They cursed the weather-man, the country, the climate, and their honorable ancestors who had been endowed with the adventuresome spirit.

But there were some, oh happy, happy people, who with gleeful smiles gloated on each snowflake that fell. Ah, skis and wax and slaloms and stuff like

that there, they thought. S

When the sun finally came out wails
of dispair could be heard among the once more satisfied majority. Still, the prelude to winter did have its effect on the committee of the University Ski Club and there will be a meeting next

Students' Administrative Council Looks For 100 Per Cent Enrolment of the Student Body in This Red Cross Plea; Faculty Competition For the Largest Percentage Registration Has Been Arranged.

SERUM NEED INCREASED SINCE ITALY'S INVASION

Every student on the campus today and tomorrow will be confronted with the opportunity to register with the Canadian Red Cross as a prospective blood donor. Registration booths have been set up in the main halls of the larger faculties and the more frequented buildings on the campus and enrolment lists

have been made available in all the smaller faculties.

Sponsored by the Students' Administrative Council, the blood donor drive is the first campus-wide appeal on behalf of a war service to be made this year and the S.A.C.'s objective is the 100 per cent enrolment of all students in the University. Every student who is physically able to give blood is asked to sign NOTICE

workers will arrange appointments with the individual students.

Students who are prevented from volunteering because of physical dis-ability and students who have already donated blood are asked to sign special lists provided for them in order that the spaces at the and of the drive may represent the complete moral backing of the University is well as the total num-ter in may down gained for the Red Members of the No. 2 Canadian Army Course and the No. 23 Pre-Air-arely Squadrum of the Air Force came

Accounts Payable

Accounts are now payable to the men who are doing a magnificent job fighting for this country. If tolls could be levied in proportion to benefits received from our service men the universities would be assessed at a rate much higher than any other group in the country.

It is true that we have to some extent justified our privileges by turning to our studies with a will, giving up precious spare time to military drill and Mational Service training. Many of us have done much as volunteers, some have even given blood to the Red Cross already, but now we have a chance to show our willingness as a group to give our blood for the men who without it may unnecessarily have to give their lives.

When you volunteer and then give blood you may feel assured that you have helped to save a life, for under the pooling system now operating the plasma extracted from your blood will be diffused widely through many bottles. The effective application of what you pay into the blood bank does not depend on matching your type to that of a wounded man; some of your blood at least will be used.

Do not feel, as some debtors do, that after all, the creditor has lots, yours won't be missed. This is not merely a matter of scrupulous honesty in paying a debt incurred, but an urgent case of preventing mortal bankruptcy in the case of the man to whom you owe so much. When you sign the Red Cross blood donor pledge cards today, you sign a cheque. Be sure you go when called to give dona-This is a case where passing a worthless who is now overseas.

stat of a letter allegedly addressed to Rabbi J. Schwartz of Montreal by a Zionist organization, outlining plans to settle 100,000 Jewish refugees from

It should of course be pointed out that the authenticity of the letter has been questioned. It is The orchestra was in fine trim, as it needed to be,

stated that there is no such person as the H. L. Roscovitiz who signed it.

Whether Mr. Duplessis is completely assured in his own mind that the letter is genuine is unimportant; what matters is the undoubted fact that his action in broadcasting such a report through-out Quebec may have removed the last hope that remains of freedom to the hundred or so smuggled through France to Spain or Portugal. Whatever Mr. Duplessis believes, his words brought comfort to our enemies.

The Department of Mines and Resources, by some whim of Ottawa's peacetime bureaucracy, is responsible for Immigration. Its Minister, the Hon. T. A. Crerar, issued an immediate denial of any official backing of Mr. Duplessis' charges, but the matter rested there. No counter-publicity was issued, and the Canadian government has yet to take any action on the request of these unfortunates for admittance

The reason, of course, is practical politics. Immigration is political dynamite, and the Liberal government does not intend to handle any explosives which are not related to the war. The government is aware of the hostility-apathy facing it at present in Canada and such a move as Mr. Duplessis', and the cheers with which it was greeted, serve only to

to Canada.

in Landa and such a move as Mr. Diplessis, and the cheers with which it was greeted, serve only to confirm it in its intended course of action.

Like the rest of the post-war planning, the problem of Immigration is going to be shelved until the war is over. Cabinet Ministers have enough difficulties confronting them at present in their own constituencies without going out of their way to make political capital for someone else.

Of course, a decision will have to be taken some others if nothing else, to discard her attitude on this question and take positive action. It is only a few weeks since Ottawa's air was full of speculative propaganda for raising the bars on Chinese immigra-Like this later case, the problem has quietly shelved because of its political repercussions on the west coast, however.

One should add that the time for action on this One should add that the time for action on this kind of problem is now, while the time is still House tower for the last 11 years, unavailable.

Dual Effort

Toronto Symphony Orchestra

On Saturday night, the Toronto Symphony Orchestra, under the auspices of the National Council for Canadian-Soviet Friendship, presented a Canadian-Russian program.

The opening gun was a Fanfare, by Toronto cheque will not bring you a prison term, but if you composer Weinzweig, a strident piece for brass and are caught N.S.F. at this time it may mean death percussion. MacMillan's Concert Overture in A to someone, possibly to one of your own classmates Major, the next number, is inconsequential in content, but augurs well for further efforts by Sir Ernest in the symphonic form. The Danse Vil-Ernest in the symphome form. The Danse Vil-lageois of Claude Champagne, a Quebec composer, is a tunefully orchestrated glorification of a habitant audience listened to a most interesting hoe-down. It made excellent program-filler.

Major work of the evening, for this reviewer, was Robert Farnon's Symphony No. 2 in B Major ("The Ottawa"). It is broadly conceived, and shows a wealth of thematic material. Young Mr. Farnon REFUGEES AND IMMIGRATION

School Repeats In Harrier As Watts Leads Field Home

S.P.S. retained the senior harrier title Saturday morning when they swept the field in the aunual five mile jaunt in High Park. The entry list was small and two faculties only fielded the full team of four men. The School total was 15 points. Wycliffe, the only other foursome represented, was far behind with \$25 points.

Preshman Johnny Watts from School crossed the finishing line first in 29 minutes and \$82 seconds, a minute behind record time. Close behind came team-mate Gord Lorimer and as far behind again was Bob Delaney of Meds, running probably his last big outdoor race at Varstiy. Phil Shackleton of U.C. was fourth and Lionel Peckover of School was fifth. Geoff Parke-Taylor was the first Wycliffe man to come home and landed in sixth spot. Next in line were Jerry McDonough of School, Lawlor of St. Mike's, W. Adams of Wycliffe, and Slemon

Friday Rugby

In a one-sided grid battle at Varsity
Stadium last Friday, U.C. trounced a
hopelessly outclassed Jr. Med squad
13-0. Since they had the upper hand
throughout the game, all the U.C.
players were able to show up to good
advantage, but the starting backfield,
which included Horwitz, Alec Saltzman, Don Smith and Bill Givens, with
the addition of Matthews who made
several sensational runs, was outstanding. The Medicos, whose main handicap was the weakness of their line, had
kicker and passer Staley and speedy
Ted Cross as the backbone of their
defence.

Dents are rugby champions of Group
3 by virtue of their crushing 23-0 win
to wer Trinity in the survey for Tarnity Stadium Saturday morning. The Wortors now await completion
of the schedule of Group 2, when they
will hook up with U.C. in the semifinals for the Mulock Cup.
The low temperature chilled the ball
there so the transcaping numerous
timbles, especially in the first half. But
Dents were fortunate in the recoveries,
and this, coupled with brilliant field
running were the main factors in the
victory.

Dents are rugby champions of Group
2 by virtue of their crushing 23-0 win
virtueing. The wortors now await completion
of the schedule of Group 2, when they
will hook up with U.C. in the semifinals for the Mulock Cup.
The low temperature chilled the ball
beters on both teams causing numerous
and this, coupled with brilliant field
running were the main factors in the
victory.

2 by virtue of their crushing 23-0 win
the Varsity Stadium Saturday
for a Varsity Stad

converted with a placement kick.

Catching the Med kick-off, Wade ran
15 yards to U.C.'s 40. After a ten yard
plunge by Horwitz, however, U.C.
failed to make yards and Bill Givens kicked; Meds were stopped on their 15. Their first play was an end run which clicked for five yards but on a second clicked for nive yards but on a second down plunge they were stopped dead and Staley kicked. On the first U.C. down Saltzman plunged for 17 yards, bringing the ball to Med's 27. A long kick then went behind the goal line. Ted Cross made the catch but he was tackled on the spot for a rouge score

Meds were stopped for no gains on their quarter and Staley kicked. A sensational U.C. break-through followed. Saltzman, who received the ball, ran for ten yards and lateraled to Givens who, after avoiding most of the linesmen, lateraled in turn to Frank on Trinity' of passed to Nesbitt who then crossed the passed to Nesbitt who then crossed the Med goal stripe. The referee, however, ruled that the last throw had been a forward pass and so the ball went to U.C. on Med's 20. In the second quarter, hard, driving plunges brought U.C. to the two yeard line and from here Sturgess went over for another touchdown. A surprise pass by linesmen, lateraled in turn to Frank touchdown. A surprise pass by Matthews to Nesbitt was then completed

the next pay, nowever, Matthews made a sensational dash around the left end for 30 yards. At centre, U.C. was held to no gain and Horwitz kicked to Med's 27. Here the Medicos also failed to make yards and Staley kicked. The last play of the period was a U.C.

pass which was completed to Tartaglia for a gain of 20 yards.

U.C. — Watson, Hendra, Clayton, Smith, Tartaglia, Whittle, Morton, Wade, Horwitz, Matthews, Saltzman, Goldberg, Bronsten, Sturgess, Currah, Feigman, Warren, Nesbitt, Givens, and Goodman.

Jr. Meds — Clcland, Staley, Cross,
Jankobich, Hill, Hazlett, Lawler, Lowe,
MacKinley, Hutchison, Kinch, Coons,
Rogers, Stock, Mastromatteo, Phelps,
Paul.

Dents Are Tops Taken by U.C. In Group Three

The opening kick-off was made by U.C. and was run back to the Med 20 yard line by Cross. There the Medicos were held to no gains and Staley kicked to centre. A long drive then began which took U.C. right over the Med goal line. Five and ten yard plunges by Horwitz were followed by Saltzman who dashed for a further seven yards. Horwitz plunged again and brought the ball to Med's one yard line. On the next play Sturgess went over for a bouchdown. Don Smith then converted with a placement kick.

Catching the Med kick-off, Wade ran 15 yards to U.C.'s 40. A for but two more bucks proved fruitless. Starting on his opponent's 45, Murray plunged for five and a Trinity offside gave Dents a first down. A Murray-Leuty pass was good for 11. Crouch made four and then 12. He carried the ball over on the next play. Castaldi converted. Castaldi carried the kick-off to Trinity's 43. Marshall went 11 and then Murray plunged for 20. Crouch carried to the two as the quarter ended.

Murray scored on the first play with Castaldi convertings. After the kick-off Crouch carried the ball 22 yards to mid-field. A Murray-Leuty-Castaldi forward brought the ball to the 35 Dents were caught offside twice but a pass by Murray after he seemed hopelessly trapped resulted in Castaldi crossing the line. The convert was plocked he line. The convert was blocked.

The third quarter was scoreless with the Trinity team showing up to more advantage. However, the heavier Dent line broke through to smother a play on Trinity's 35. In the dving moments of the game Castaldi carried the ball for 12 and then lateraled to Green who went 20 for the touch. Marshall

VIC DEBATING PARLIAMENT

The Sportswoman

A SAD STATE OF AFFAIRSI

A SAD STATE OF AFFAIRS!

Only two games were scheduled for Friday night. U.C. Juniors got their game with Vic by default, while P.&H.E. trimmed Dental Nurses. Unfortunately, though, Dental Nurses have withdrawn from the league because of lack of financial support and a dearth of players. It seems a shame that such a thing should happen, especially as there were some good players on the team who were genuinely interested. At the beginning of the year this team had the required number of players but gradually gals have dropped out one by one, until Friday night only six members turned out.

Provided that more interest were shown by the Dental Nurses' team, it would seem that some arrangement could be made whereby they could get in their practices as that seems to be the prime factor in their lack of finances. Probably the loss of interest stems from the fact that they have no facilities or place in which to throw the odd basket.

basket.

Many faculties have been in much the same position but they have agitated and fought for small gains which they have consolidated with the result that they are in their present solid position. In the history of the University nothing has been obtained all at once, but has gradually evolved over a period of years and has always had an element of tenacity to keep interest alive even at its lowest ebb.

Owing to other excellent literature which fills this page, we haven't room to publish the new basketball schedule but here are tonight's games: at 5:30 P.&H.E. Seniors play U.C. Seniors; at 6:30 Physio meets St. Mike's, while at 7:30 O.T. plays Trinity Seniors. The schedule will appear in tomorrow's issue.

ARTIFICIAL RESPIRATION COURSE

The University of Toronto Athletic Association, with the co-operation of the University Health Service, is offering to men students and staff a course (lecture, practice and examination) on Resuscitation, starting Monday, November 22nd—Debates Room—Hart House—4:45 p.m.

All men enrolled in Life Saving Courses must take this Course to qualify for their awards. Members of the U.N.T.D., the C.O.T.C., and the U.A.T.C. personnel should take it.

To facilitate time-table arrangements the lecture period, the practical work and the examination will be duplicated as indicated below. This will give all interested students an opportunity to take the complete course in two periods. If interested kindly sign the list at the Athletic Office. For further details see either Mr. Griffiths or Mr. McCutcheon.

All male students and staff in the University are eligible to enrol and

Men who satisfactorily complete the course will qualify for the Resuscitation Service Badge of the Royal Life Saving Society.

Monday or Tuesday Nov. 22 or 23

Vic Debaters

shoot the bureaucrats" was defeated by a vote of 32 to 21.

Jim Younger, speaking for the govern-ment, opened the debate by declaring the question dealt mainly with the normal peace world; not the present time or the period of transition after the war. He then proceeded to point out that bureaucracy is objectionable both in practice and in principle. This state-ment was carried out in his speech and that of his colleague, Betty John-

Younger's themes were that the bureaucrats are possed by a misguided zeal, and that their continuing increase of power is a threat to responsible government. "Bureaucracy," he said, "violates the three points of justice . . equality, certainty and publicity."

The theory of practice was eloborated by Miss Johnson by the declaration that bureaucracy can destroy personal liberty because it is responsible only to itself and not to the parliament. Then she picked up the economic side of the question

"Once bureaucracy gets its hands on the purse strings there is nothing you can do about it," she said.

Burcaucracy, according to Miss John son, provides regimentation of our economy, and destroys free enterprise and initiative. She condemned the system for its despotism. "Any empire greater than its people dies," she added.

Rhys Dixon, first speaker for the negative, discussed the general world trend towards bureaucracy, and stated that planning must be done by the government, that a centralized fiscal policy set up in the form of a permanent bureau, in other words, collectiveness, is necessary.

The technical efficiency of bureaucracy he considered to be "not only more efficient but also quite compatible with our democratic ideas of govern-ment." He did not think that power should be allowed to slip into the hands the private individual.

Margaret Albright, the second opposi-"Who are the bureaucrats?" She de-fined the term as applying to all the otage in Northern Italy. fined the term as applying to all the government employees, the civil servants, who administer and execute. She said that bureaucracy was not capable of destroying our personal freedom but was instead increasing liberty.

"Someone has to enforce law and collect taxes," she said, "and law cannot be optional." She ended her speech with the statement that the bureaucrats were appointed by us but if they do not satsify, we can always dismiss them.

So Far, So Good

When the smoke and confusion of the first day of registration for the Blood Donor Drive had cleared away the committee in charge labeled results at the half-way mark "very gratifying" and looked forward to a successful completion of the drive in the enrolment of the rest of the University today. We are thus free to express our most fatuous pride in the great body of undergraduates who have been so prompt and generous in responding to this urgent We are glad to see the students of this University giving such whole-hearted support to a most worth-while war charity. The unifying spirit of the University, brought into bold relief by more flamboyant campaigns like the March of Dimes and last year's turbulent Whee for Wheat expedition, is seen with deeper significance in this quiet, determined registration of the student body for the purely personal business of donating blood.

More than 7,000 former students at Toronto are now on active service, faced with the ever-present prospect of being forced to shed their blood under circumstances none too comfortable. These Varsity men have accepted this possibility and spend little time thinking about it. Their thoughts centre rather on the world they left behind, the world they hope some day to see again. They think of the presentday students, men and women given the advantages of safety and opportunities of study in order that they may preserve and spread the heritage of our civilization and culture. They consider our task a vital one, equal in importance, if not in sacrifice, to theirs. They ask us only that we keep their world unchanged for them while they are making our world safe for us. Perhaps this is enough for us to give, but what student will admit it?

The flood of donors registering yesterday and to-day would seem to deny it. University men and women realize the importance of their task but they also realize its many advantages. And with this realization comes the urge to give more of money, time and effort to the cause of winning the war. That this urge extends even to the giving of blood is a further credit to the student's sense of justice.

To those students who have not yet volunteered to donate blood to the Red Cross we would suggest a quick trip to the nearest registration booth. This portion of the civilian war effort no longer belongs to a small group of heroic individuals with an ascetic desire for self-torture. It has come to be a brief and painless operation cheerfully undergone by even the most delicate-looking individuals. To those who are still hesitating over signing we prescribe a minute's agony of a soldier's sacrifice.

Room For Expansion

We note with interest that the Congress of anadian-Soviet Friendship, held in Toronto over the weekend, did not close without making a definite commendation that the universities of Canada and particular the University of Toronto, establish metergraduate and extension courses in Russian There were plenty of animals. Seven ducks. One the commendation of a woman floating through midating, (b) the apparent growth of roses from green leaves, and lots more.

There were plenty of animals. Seven ducks. One the company's forgot their petty differences and and the state of a woman floating through midating, (b) the illusion of a woman floating through midating, (b) the apparent growth of roses from green leaves, and lots more.

There were plenty of animals. Seven ducks. One of the work of the work and up beside Whitney Hall. She turned left and then right up St. George St. Still the Meds and Engineers were stupiled and before they Canadian-Soviet Friendship, held in Toronto over the weekend, did not close without making a definite recommendation that the universities of Canada and undergraduate and extension courses in Russian culture and language. This suggestion is a most timely and pertinent one and serves to emphasize the growing realization among thinking men that educa-

tion is the only true cure for misunderstanding among

We welcome the suggestion and express the liope that it will be carefully considered by the proper authorities in this University. It is not at all in keeping with the true nature of the university, the school of universal knowledge, that the language and culture of a nation whose people are scattered over one-sixth of the land surface of the globe should be denied a place on the curriculum. Surely there welcome the opportunity to study Russian. Toronto has already shown its willingness to expand its curriculum in secondary its interesting in the study Russian. are men and women in this University who would riculum in accordance with widening horizons by the recent introduction of a Department of Chinese Studies. This proved our University a living, growing organization, with an eye to the future and the best interests of the community and country it serves.

Harmony between nations depends primarily on mutual understanding. Canada, as well as the other United Nations, is committed to a course of friendship and co-operation with Russia. Such a course cannot succeed without a common basis of knowledge upon which to build this understanding. And it is through the universities, the training ground of future statesmen, that this knowledge is to come. The men who govern the post-war world and determine our devoutly-sought permanent peace must know whereof they speak. It is up to the universities to provide the necessary educational facilities.

For those who disapprove of the Soviet and all things Russian we would point out that nothing was ever gained through blind opposition and the stub-born "ignorance is bliss" treatment. Careful study of the country itself, its traditions and backgrounds, might lead to a more tolerant attitude toward apparent faults. Likewise, a firm crusader with a thorough knowledge of his subject would stand a better chance of converting the sons of the Soviet.

No Rabbits

Royal Alexandra Theatre

If Dante, the bearded Danish-American magician, had waved his little wand last night and caused the whole audience at the Royal Alex to vanish with a pouf, we wouldn't have been surprised in the least.

That's how it was yesterday. Pouf, and a pigeon disappears, Pouf, and beautiful lady vanishes. Pouf, the technique and finesse with which pouf, and Dante himself disappears from one body the Meds and Engineers cajoled their

pout, and Dante himself disappears from one body and emerges into another.

As magicians go, Dante, we suppose, can rear his majestic white head among the best of them. His sly, oldmanish line of patter—reminiscent of Montey Woolley at his best and Frank Morgan at his worst—kept the show moving at a quick pace, kept the acts cavorting across the stage with no dull spots. Sophisticates might say the humour was too much of the vaudeville variety, but then, they had no right to be at a magician's show in the first place.

Humour apart, though, the magicianly technique.

Humour apart, though, the magicianly technique was something else again—for both sophisticates and was sometimed use again an obooked up one command or are guestians the goodly number of youngsters, like ourselves, who the student's left car and held the other terminal close to the right ear in two confess, moreover, that we are one of those who always have wondered how it was done, and when Mr. Dante called for a volunteer as an assistant in the Hindu rope trick, this writer made the bold decision and let himself be whisked up to the stage.

But confound it all, man, we still don't know how is done.

We removed our tweed jacket and helped Dante put it on. We tightened the knots on a stout piece your third class papers for that," he said, of cord which we tied around his wrists, and pulled until his veins showed blue. We watched him go dent of the Medical Society, picked up until his veins showed blue. We watched him go behind a screen. Then before you could say poufmeditation on the contrast between the blood donor's with a presto and a sim bala bim thrown in for good quiet, efficient, 45-minute session and the prolonged measure—the wizard had our jacket off and the rope still intact.

in particular the University of Toronto, establish pulp, (c) the apparent growth of roses from green leaves, and lots more.

FRANK RASKY.

Herded to Clinics In Big Roundup

With Lariats and Warwhoops, Meds and Engineering Stu-dents Bring Volunteer Blood Donors to Sign Lists; Gee, It Waz Fun

McSLIDERULE ADAMANT

Revolutionary tactics were employed yesterday by a group of enthusiastic students in rounding up volunteer blood donors for the Blood Donor Drive on campus this week.

Thirty men from fifth year Medicine and an equal number of Engineers banded together about 12:30 and commandeered the nine mobile blood donor units that the Canadian Housewives and We-Mend-Sox Council presented to the Red Cross yesterday.

Careening hither and thither in utter disregard for the safety of themselves, these fine upstanding hoodlums had signed up 4,000 volunteers before one o'clock.

Their method was simple. One of the students would drive the mobile blood donor unit. Two would sit on the front bumper and act as observers. A third would balance himself on the roof of the car to steer the driver with quick sharp kicks between the shoulder blades. Four or five students would stand on the running boards

swinging lariats.

To cries of "Tally-ho, gosh ding it, thar goes one of them as what ain't signed the lists yet. Let's get him," the

signed the lists yet. Let's get him, the car would veer around and go after the unwary unsigner.
"Yippee!" cried the Engineers,
"Epsitaxis!" cried the Meds.
"Aw gee, fellahs!" whimpered their captives everytime the lariat slipped over

nails of the character whe dared to re-fuse to sign the lists. The Engineers hooked up one terminal of the generator

Later in the afternoon, though, this method of recruiting became unsuccess-ful as Meds and Engineers began to fight amongst themselves. One medical student wanted to singe hair off the stu-dents with the engineer's portable generator. Adamantly, Tangent Mc-Slide-rule, president of the Engineering So-ciety, refused to allow this. "You need a long sharp scalpel and advanced on Tangent. "C'mon, ya big punk. We let youse guys play wid our scalpels; let us have some fun wid the generator.

still intact.

Mr. Dante, apparently an old hand at sleight-of-hand, had with him a company of 35 mystifiers. That includes Moi Yo Miller, who looks the way her name sounds.

If you're the kind that likes knowing his entertainment beforehand, then you'll find that the company's bag of tricks includes among others, (a) the illusion of a woman floating through midiar (b) the most of the perty differences and fell into step behind the driver in her perty of a woman floating through midiar (b) the most of the perty differences and fell into step behind the driver in her perty of their perty differences and fell into step behind the driver in her perty of their perty differences and fell into step behind the driver in her perty of the perty of their perty differences and fell into step behind the driver in her perty of the perty o

Boxing is considered a dead sport in Toronto as far as crowd drawing is concerned but this is due only to the lack of fighters of a calibre which attracts crowds. Toronto always has and always will support any good sport but the public has been educated to football, hockey and the other team sports. Boxing has been englected. True, there are fights, but who wants to dish out good money to see

inexperienced fighters wildly swinging away at one another?

In the Hart House squared circle can be seen young pugilists faithfully listening to Coach Mel Glionna explain the finer points of the manly art and then sparring with maestro for a number of rounds. Then come the matches between carefully selected boxers and these are really a sight to behold. Don't take our word for it; just wander down some evening to see for yourself. The lads that fight for those five dollar bills certainly have nothing on some of these aspirants.

KID McCOY . . .

While watching these boxers going after one another, a gentleman well known in the athletic wing but who prefers to go unnamed, related to us a story which, although it has nothing to do with campus boxing, is well worth passing along.

campus boxing, is well worth passing along.

It seems that middleweight champion Tommy Ryan of a few years back, had as a sparring partner a lad with a burning desire and a good right. Ryan took special care to beat the lad up in training sessions for his own amusement, to give him little to eat and to make him sleep on a hard floor. After a time the youngster became convinced (with good reason) that he could beat the champ, but how was he to get in the same ring with him? An idea struck him. He quit camp and disappeared for a number of months.

By accident one day, Ryan bunped into a thin wheezing youth who had once been his partner. Down and practically out, the lad asked for a fight with the champ just so he could lay his hands on a few dollars. Thinking it a cinch, Ryan accepted but stipulated that the winner was to take 90 per cent of the fighters' cut. When Ryan saw his opponent as he climbed through the ropes, he stiffened. The kid was no longer pale and sunken but perfectly healthy and grim. To end a Horatio Alger story, Ryan was soundly trounced and received the ten per cent cut of the gate. The youth was Kid McCoy who went on to become world master in the game where quick wits are almost as important as hard fists. almost as important as hard fists.

TRACK NEWS ...

Hee Phillips has announced the formation of an indoor track class. Workouts and instruction will be held at the Hart House gym starting this week. According to Hec, the class will meet thrice weekly, Monday, Wednesday and Thursday afternoons at 5 o'clock.

Monday, Wednesday and Thursday afternoons at 5 o'clock.

Hee especially hopes that this announcement will bring forth a large number of track novices. So come on out whether you have done any running or not, so long as you are able and willing. Hee is one of the finest coaches around and does show a lot of patience. You may specialize if you wish to do so and the decision will be your own. All types of running will be held, dashes, distance and hurdles; so make up your mind and hurry down to see Hec. See you Wednesday at 5 o'clock.

Jr. School Splashmen & Win Over Vicmen

Jr. School took a 27-6 win from an outclassed but determined Victoria team at the swim meet yesterday in the Hart Honse pool. Martin of S.P.S. was the a 11-0 score. The slippery ball caused most outstanding swimmer of the meet, while Jeanes proved the backbone of the neffectual Vic defence.

S.P.S. took firsts in all events. Their

sylvich was taken with little opposition. In the 50 back Martin finished first In the 50 back Martin finished first in 382, followed by Jeanes and Galloway of Vic. Fydell of School took the lead in the 50 breast, finishing in 392. He was trailed by Rotenberg of S.P.S. and Graham of Vic. The 50 free was another victory for Martin who covered the two laps in 293. Fydell of S.P.S. and Jeanes of Vic finished second and and Jeanes of Vic finished second and third respectively. The Engineers also took the 220 relay with little difficulty.

WHEE FOR P.&H.E. . .

White FOR P.R.H.E...

While the master-mind sat at home writing an essay, the gals put in another evening of wear and tear, running up some of the highest scores in the basketball schedule to date. P.&H.E. Seniors swamped the U.C. Freshies in a fast game, 48-15. P.&H.E. gave a polished display and with their slick passing and their "six man defense" controlled the play through most of the game. Joan Davis, with 18 baskets, was a whizz around the basket and with a fancy twist of the ball made most of her shots count. Jeanne Stinson played a steady game managed to account for 16 points. Jean Barnhart, the old master hovered near the basket, seriously hindering the U.C. forwards as they charged through for the 'kill." Of the charging forwards, Mary MacIntosh proved the most potent, intercepting many of the opponents' passes. Bertie Tate was high scorer, with 6 points, and together with her facsimile, Betty, made a good passing combination. On defense Lois Wahn and Mary McKenzie were the best. Although rugged in spots, the game was kept will in hand by good refereeing. Part of P.&H.E.'s success may be attributed to the spirited support given them by the two spectators. Which brings us back to the question, "Why the deplorable lack of interest on the part of the other 99% of the female undergraduates?" Surely if these "glamazons" can risk indigestion three nights a week, they rate some encouragement. While the master-mind sat at home writing an essay, the gals put another evening of wear and tear, running up some of the highest

WHEE FOR PHYSIO . .

Fumble Festival Foozles Fans As Army Trounce Meds 11-0

Playing on the slippery back campus, numerous fumbles by both teams, thus enlivening the game. Meds carried the ball into Army territory on numerous occasions but could not penetrate the stonewall defence.

Laycoe, Army's flying wing, and Bill Neale carried the mail for the soldiers with able support from Grierson and Howson. Cross, Staley, Hall and Cleland were the best for the Meds.

On the first play after the kick-off, Laycoe intercepted a Med lateral and liotfooted 30 yards for the touchdown On a fake kick formation, Grierson passed to Casburn for the extra point. Meds moved the sticks twice after the

kick-off but were stopped on Army's 24. Play was mostly in midfield during the second quarter with Army holding a slight advantage. In the dying engaged at Varsity Stadium with Jr.
moments of the half they reached the School.
Med 30 but lost ground as the result of a 15 yard penalty.

Eligibility Certificates Women's Baskethall

There are still a number of eligibility cerificates in the Health Service office which have not been checked by basketball managers. Every manager who has not filed fully completed certificates for her entire team with the Secretary of the Athletic Association must do so

U.C. Boxla Squad Tie School 6-6

A weakened U.C. boxla team managed to stave off an S.P.S. rush in the closing minutes of the game to emerge with split points, the final score being 6-6. The regular members of the U.C. squad were

of a 15 yard penalty.

A fumble by a Med backfielder gave Army the ball on their opponents' 12.

An end extention, Neale to Howson went for five. Tamblyn plunged for three and Neale carried the ball over on a sneak play. The convert was blocked.

Meds strove desperately to move back into the picture as Staley heaved passes all over the field, ending up on the Army ten as the game ended.

Music Director Can't Resign Council Rules

Saskatoon-(CUP)-The resignation of Chuck Batten, of the Saskatchewan University music directorate, which was tendered to the Student Representative study and maintain their national culture, but also to throw threnselves wholeheartedly into the activities of the land of their adoption.

"Democracy is of value only if the individual realizes that the responsibility of government rests with him; a democracy is successful in proportion to the number of its educated citizens."

Dr. Cody stated. He also mentioned how important a university education is in developing a sense of comradeship and the ability to get along with people.

Following Dr. Cody's address, club.

Batten's resignation followed criticism Council last week, has been rejected on

Batten's resignation followed criticism Batter's resignation followed criticism which he declared was both unwarranted and unbearable. In his statement to the S.R.C., he said that he had continually encountered opposition and criticism which left no other course of action open to him. He further stated that the activities of the music directorate had been labelled as unsuited to the type of music which should be fostered in the University. By the unanimous conof Medicine in 1926, Lieut.-Col. S. D. Gordon, chief of the plastic surgery teams overseas, said, "One transfusion of dried blood serum is about all that of music which should be fostered in the University. By the unanimous conautonony in the peace settlement was defeated at 1st Friday's meeting of the rangements for an operetta Speaking to The Varsity last night, Mr. Norman Knight, national director of the Canadian Red Cross Blood Donor Service, said of the campus-wide blood

U.C. Rugby Win Over Jr. School

ss to Givens end run was good fo 11 yards. Then a long pass to Tartaglia went for a further 30 yards. A pass by went for a turther 30 yards. A pass by Sturgess, however, was intercepted by School which replied with a kick, to give the ball to U.C. on the 30. On an end run, Don Smith then dashed from there over the goal line for a touchdown. The convert attempt failed.

Towards the end of the last quarter S.P.S. put on a determined spurt which netted them their only score. From their 31 yard line, the Engineers began to work up with bard, short plunges to work up with bard, snort punges.

A School pass was intercepted by Clayton but U.C. was penalized and the ball returned to S.P.S. A Spear to Booth pass was then good for seven yards.

Orr kicked and Clayton, the receiver, was tackled on his five. A kick by was tackled on his nve. A kicke by Givens was returned by Orr and landed behind the posts, but Givens ran it out to the six yard line. On the following kick formation, however, the snapped ball went too high and landed behind the U.C. line. Givens then fell on it to give School a safety touch score of two points.

Yesterday's win ensures U.C.'s position as leader of her group, although she may have to play the Army Course in a match resulting from a protest by the latter of the decision of an earlier game. The second position in this group, which also entitles the team to take part in the final playoffs, will probably be decided in a game between the Army Course and Jr. S.P.S

Wycliffe Edge Knox On Muddy Soccer Field

On a mud covered field in a soccer game played yesterday, Wycliffe edged out Knox by a 1-0 count. The mud detracted from the game as falls were numerous and the slippery ball was diffi-cult to control. The only goal of the game eare early in the first half when Thompson took a pass from his wing to boot one in from close in. Knox pressed 8:00 p.m.—Modern History Club meet- hard for the equalizer but to no avail. ing at Wymilwood. Professor R. Self of Knox missed a close one when Flenley will give a talk on his trip to Sicily, illustrated with lantern slides. Refreshments.

BLOOD DRIVE STILL OPEN

Today is the last day for prospective blood donors to register in the University blood drive under their respective faculties. The goal of 100 per cent participation has not nearly been

reached.

Coed-manned registration booths will
no longer block campus hallways, but
lists will be available in the offices of
the various undergraduate organizations. Registration will close at noon and the finals results will be tabulated.

At 5:30 a.m. Tuesday, the statistics showed that the only two faculties with 100 per cent proplings are Western and Proplement and Western

100 per cent enrolment are Wycliffe and Occupational Therapy. Most of the others have about 80 per cent of the others have about 80 per cent of the physically fit students on their lists. Nine hundred new names were the result of yesterday's campaign. Of these 578 were new donors and 119 had already given at least once. The University total (excluding 135 students of Pharmacy who enrolled before the drive began) is now 2,577. The committee which organized the drive points out that much may be done to affect the total by students enrolling to the total by students enrolling.

to affect the total by students enrolling today, and urged all those who have not done so to register and help put their faculty over the top.

Travel in Europe Lecture Topic

Yesterday afternoon in University College Professor G. G. Coulton out-lined "Travel in Europe" in the sixth of a series of lectures on European Reconstruction in the Middle Ages.

"During the past one hundred years," Pro. Coulton said, "there has been the greatest change in the matter of human locomotion." He told how it was a punishable offense at the beginning of this century to travle faster than three miles an hour on any road in England. Furthermore a red flag had to be carried be given on Thursday and Friday of this week.

Recently Returned From England, High Commissioner to Speak on "The Future of the British Commonwealth"

IN CONVOCATION HALL

Recently returned from a trip to England, the Right Honorable Malcolm MacDonald, M.P., British High Commissioner to Canada, will address the annual meeting of the University of Toronto Alumni Federation at Convention Hall tonight at 8:30 on the subject 'The Future of the British Common

Mr. MacDonald was appointed to his present position in 1941 after ten years of service in different colonial offices, during which time he was elected to the British Parliament and served in the Churchill Cabinet. During his visit to England he had the opportunity of becoming thoroughly acquainted with current developments in the war situa-

In securing Mr. MacDonald as their guest speaker tonight, the federation is continuing its tradition of presenting outstanding men to discuss world events. Last year the guest speaker was Percy J. Philip, New York Times correspond-

Glee Club Must Have Tenors

Unless a larger number of tenor voices appear for the Hart House Glee Club's practice next Monday afternoon Club's practice next Monday atternoon at 4:45 the club will probably be unable to do its customary coast-to-coast broadcast this December, The Varsity was informed last night by Dr. Charles Peaker, F.R.C.O., Director of the Glee

Club.
At the last practice only 12 tenors turned up, Dr. Peaker stated, adding that at least 25 are necessary to balance the chorus. "We would like," he said, "to see as many tenors as the basses and baritones put together." One or two more low bass voices are also needed.

"Anyone who can sing a low E flat has our blessing," Dr. Peaker stated, "while for anyone with a high G we will

hold a thanksgiving service."

The coast-to-coast broadcast, which is in danger of cancellation this year for lack of enough voices in the club, is an annual affair of long standing which is usually broadcast from the Great Hall, Hart House at the Warden's Hall, Hart House at the Christmas Dinner.

WEDNESDAY, NOVEMBER 17, 1943

To Study And To Serve

Today all over the free world, and in many places still technically enslaved, International Students Day will be observed. In some places services of remembrance will be held for Czech students whose martyrdom this day commemorates, in others that will be impossible, but in the hearts of all who revere the cause of truly great and free education the events of Nov. 17 will be remembered as a source of courage

Last year there was a special service in Convocation Hall to honor the martyrs of Prague. This year finds students here too thoroughly involved in the dual task of providing as much wartime service as possible while at the same time seeking to perpetuate in themselves the cause for which students in occupied Europe died. That all students on this campus may better appreciate the sacrifice they commemorate in bending all spare-time efforts toward a United Nations Victory we here repeat the bare facts of the Martyrdom of Prague:

In the second week of November, 1939, students of In the second week of November, 1999, students of the University of Prague demonstrated for freedom on the Czechoslovak Independence Day. Jan Opletal, a medical student, was shot and died later at the hands of the Gestapo. Thousands of students attended his

funeral.

On the following day, Nov. 17, the Nazis moved in force against the students, and at 3:30 a.m. rounded them up in their dormitories, hostels and homes. Many were shot in the raids, others were beaten and driven in cars and busses to an airfield in the suburbs. There during the rest of the day they were tortured and shot in batches. Some were stripped, drenched with hoses and then made will one the ire ground. Others were whitened and to lie on the icy ground. Others were whipped and bludgeoned. One hundred and fifty-six student leaders were executed and 1,200 were taken to concentration camps in Germany. Czechoslovak Universities were closed by order of the Gestapo.

Survivors of this brutal ordeal who lived to escape Czechoslovak Universities were

from German concentration camps escaped to Britain and there, in collaboration with English students, insti-tuted international student day. The idea has spread from one meeting in London in 1941 to commemorations

Originally in honor of the Czechoslovak students brutality which has physically overwhelmed many of

The Martyrdom of Prague marks the first clash in blood between free education and the Nazi ideology. The sacrifice of the Prague students physically powerless against the aggressor, was in part balanced off by the students of Naples recently who took up arms against the Germans. In between these two events we have a record of heroic deeds ranging from the underground operations of students in occupied France to the wholesale migration of the Chinese universities-as thrilling a saga as any group could wish for its inspiration.

It is upon reflection on such a record that we should resolve to make this International Students Day mean something more than merely an oppor-Day mean something more than merely an opporsymphony Orchestra, Ettore Mazzoleni conducting,
tunity for paying our reverent respects to those who
died in the cause. The way lies open for us to do
greater things in the line of material service. We
have our service training, there are War Savings
Stamps to be bought, there are blood donations to
keeping and there are a best of other concentration.

Russian singers of his type. The voice has no real be given and there are a host of other opportunities

to serve. But the one prime action we should undertake is to perpetuate in ourselves the ideals and the materials of free education, assuring that in our struggle for its existence we do not allow the object of our efforts to be lost through disuse and decay.

. . . But The Shouting

While it will still be possible to enrol as a Red Cross blood donor at the office of your faculty student government until noon today, the Blood Drive as such is all over but the shouting—and the counting of final returns. It is too early yet to tell whether the Drive has been a success or not. Certainly any effort which produces the present known total of 1,746 new blood donors will not be viewed with dis- Refuses to Give Blood; Claims favor by the Red Cross, but it will be necessary to query ourselves very closely on our own satisfaction

The total figure available at 5:30 p.m. yesterday was 2,577 or a little over a third of last year's University registration. This, certainly, is far short of the optimistic 100 per cent aimed at by the Drive Committee, and is even pitiful when compared to the more conservative 75 per cent estimated by the University Health Service. This figure includes 306 mension of the time limit for complete registration was arranged by the committee so that the hoped-for 100 per inadvisable to give blood. The figure for those alterady donors seems small, and it is to be hoped that a substantial number have merely neglected to sign the lists provided.

See the record of the University any experienced versity Health Service. This figure includes 306 who are already donors and 527 for whom it is the lists provided.

For the record of the University any experienced For the record of the University any experienced moth holes anyway) and then resorting donors who have not signed the lists or any who to subterfuge the posse gathered in a are unable to give blood should overcome any diffidence they may have and sign the appropriate lists at once. There is no reason why every student of this University should not sign one of the three types of list provided. In every body there is bound to be a certain number of slackers, the extension of time provided by the faculty lists gives the squeamish, diffident, or merely absent minded group on this campus a chance to remove themselves from the company of the ill-willed, selfish and unpatriotic.

Youth And Tomorrow

An opportunity is offered to interested University groups to join a widely representative conference of Canadian youth in considering the problems of youth in the post-war world at the Ontario Youth Conference now being organized by the Canadian Youth Commission. The conference will be held at the Ontario College of Education on Nov. 27 and 28.

The Varsity has not yet heard of any group on this campus planning to be represented at the conference, and it is assumed that the lack of representation from this institution is due primarily to the fact that publicity concerning the affair has only just now reached the campus. Since registration of delegates closes on Nov. 22 it is of the utmost importance that action on this matter should be taken without delay.

The opportunity provided by the Commission for the youth of all groups to unite to discuss their problems in the world which is to follow victory should be grasped eagerly by undergraduates of this University. Students have always shown a lively interest in their own problems. This is a chance for them to meet other groups of their own generaof Prague who fell or suffered under Nazi brutality, tion with whom they will have to live, in a joint International Students Day today stands as the one effort to consider, and, in some degree, shape, their occasion on which all members of a large and power- future habitation. Our opportunities of education ful group of enemies of Nazidom meet in spirit in and thought gained in what is left of our ivory contemplation of their united part and interest in tower, gives us much which may be useful to other the successful and complete annihilation of the youth groups, while the practical experience of those brutality which has physically overwhelmed many of who have not had our opportunities should offer us a chance to temper our raw concepts and ideals to the point of greatest usefulness in the victorious

RUGBY PLAYOFFS . . .

Winners Advance to Mulock Cup Semi-finals; Will Meet Army Course or Junior School

By Phil Shaekleton

RUGBY PLAYOFFS.

The date for the intramural rugby finals, the game which will decide the winner of the Mulock Cup this year, has been set for Friday, Nov. 26. The regular reason play has been completed but for one game, that between Junior School and Junior Meds to be played this afternoon. All the group winners have been decided and the playoffs begin next Monday.

Group One settled all disputes last night when Senior School defeated Senior Meds in a sudden death game for first place. The School team now advances to the league semi-finals. Up until yesterday Meds and School were tied for top place and a special game had to be called to decide the top placer.

Group Two, however, will not be settled so simply. University College, with an undefeated record behind it, mowes into the semi-finals but the team in second place has yet to be officially recognized. As is the usaul case about this time of the year complications have reared their ugly old heads and are proceeding to make things difficult for the intramural rugby committee. The Army Course and Junior School at present are sitting in second place but the Army has protested the result of their second game with U.C. The referce in the game pulled some blunder or other which hardly favored the Army soys win this game for this coming Friday.

If the Army boys win this game then they will have the second place berth entirely to themselves and Junior School will be able to so lock the door on their equipment for another year. If the Army looses they will have to play a sudded death game with Junior School. This potential game is slated for Monday.

Perhaps it should be noted that Group Two alone will send two teams into the play-offs. Group One and Three each send only the team into the play-offs. Group One and Three each send only the contains the largest number of teams.

Group Three title was won by Dentistry but the Dental students run to advantage. Clare's kicking off-set this, until a bad School snap saw Meds recover on the school 30. Jack Spence attempted a field goal but failed, and Clare ran the ball out. At the quarter's clase a School kick was partially blacked and recovered by Meds on the School 40.

contains the largest number of teams.

Group Three title was won by Dentistry but the Dental students 45. An exchange of kicks brought them to Mcd's 25, and an offside penalty took them back to the 35. From here have impending examinations and are dropping from the competition. They suggested and the intramural rugby committee has approved that St. Milke's be allowed to represent Group Three in the semi-finals against U.C.. It might be of interest to add that the Dental representative told the committee that they feel that St. Mike's have

took them back to the 35. From here Clare booted 60 yards and Arnup was roughed for first blood. The remainder of the quarter ranged about centre field, with Meds showing some good the better team.

Now comes the Appas Tappas department in which we will tell you just how the whole situation will end up. (Note: This department is subject to constant revision and we must remind our readers that "to err is human and to forgive divine.") The protest game we refuse to gamble upon since the Army team is steadily improving and will be out for more than blood come this Friday. Should they lose, however, we do not hesitate in proclaiming that they will assure themselves of a play-off ticket by defeating Junior School mightily. The U.C.-St. Mike's game we feel will got to the Red and White. That leaves Senior School and the Army Course and we begin to feel as though we are on shaky ground when we say that the military up and down the field with no real threats developing. School's plunges were clicking with Clare and Seymour making good gains. The quarter also featured better running and tackling by feel as though we are on shaky ground when we say that the military team will advance to the finals. But it would not be fair to the reader to tell him everything and so we leave the result of the final game in our crystal ball. After all you can go to the game yourself. The last quarter saw School apply the pressure. A poor snap, caught pre-cariously by Clare was booted to the Med 25. Here a Med pass by Spence was intercepted by Seymour who ran

THE ATHLETIC OFFICE IS UNHAPPY . .

was intercepted by Seymout who hail all yards for a touch. The convert was good with Clare sending it between the uprights. School carried the offensive for the remainder of the game leaving Meds a little bewildered at its Its occupants are very unhappy because intramural teams are defaulting games on what is beginning to look like a daily schedule. Mac McCutcheon informed us today that the Intramural Sports Committee is very much concerned about the defaulting condition. While it has not assumed over-serious proportions as yet, it is a very poor state of affairs. When you compare the present rate of default with that of the season 1938-39 when but three of all scheduled intramural games were defaulted, it is indeed a pitiful showing.

games were detaulted, it is indeed a pittuit snowing.

The Committee is at present taking steps to bring extra pressure to bear upon those faculties which are chronic offenders. While the faculty is already punished by loss of intramural points for each default, this does not seem sufficient to cope with the situation. Let those who offend be thus warned. If the present condition is not improved, then they will find themselves penalized further.

Trinity Maintains Lead In Reed Trophy Race

Trinity still leads the Reed Trophy Race after the second release of point-age figures yesterday. With a total of 2,332 points they are in the same position now as they were last year at this time when they led with 2,122. The Faculty of Medicine is in second place with 2,276, a huge jump from their total last November which stood at 1,240. University College with 1,881 with still place and have more thair least and the state and th are in third place and have more than doubled the score they had added at the corresponding date last year when they had 875.

The School of Practical Science,

School, are in sometimes known as School, are in fourth place with 1,241, a slight drop from last year's showing of 1,280. School was in second place last year at this time but Meds and U.C. have shown a great deal more interest this year and although School's score stands at practically the same figure, it has been forced jute fourth spand on this week's sometimes known as reed into fourth spot on this week's

third period, but the Marlies came right back into the picture with a goal from close in. Dave Bauer came up with two dying moments of the game, the Dukes scored their third goal.

The game was a crowd-pleaser all the way, with the Irish showing a fast-checking team. Their defence, although loose at times, tightened up St. Mik when the opposition threatened. The forward's showed a smart passing attack Dents of the picture Emmanuel is running fifth with 987 as compared with last year's 652, and St. Mike's is sixth with 874, a drop of when the opposition threatened. The 134 from their last year score of 1,018. forwards showed a smart passing attack and skated hard both ways. The team's master-minds, Father Mallon and Paul McNamara, although savtified with the team's performance. Threaten to in ninth position. Victoria has 508 in

Paul McNanara, although sastified with the team's performance, threaten to mould the team into a force to be reckoned with come playoff time.

Knox College has a total of 647 points in ninth position, Victoria has 508 in tenth, Plarmacy has 432 in eleventh, and Forestry has 193 in twelfth.

Trinity still leads the Reed Trophy Flenley Speaks on Sicily

illustrating the talk with slides collected on a trip he made to that island several years ago.

The speaker stressed the importance of the central position that Sicily held in the Mediterranean, as it lay in the path of the movements of peoples. The of the traits of these various race The architecture also reflects their dif-ferent natures, being a mixture of Byzantine, Norman and Saracen.

He stated that the richness of the cenery and the fertility of the soil was n sharp contrast with the povertystricken, humble lives of the people,

who were, however, not unhappy.

By Betsy Mosbaugh

WHAT'S IT ALL ABOUT?

WHAT'S IT ALL ABOUT?
... we asked as we wandered into the press in a daze, having just done some hard fistening at the symphony. What with gals phoning in basketball results and sportseditors giving us free reign with space we were quite dumbfounded. This ideal life of having things handed to us on a platter is quite confusing. As a matter of fact it's quite uninspiring as we have nothing to disparage in the colyum. So in a very uncritical mood we plunge forth with the opener that . . .

THAR'S SKIING IN THEM THAR HILLS .

THAR'S SKIING IN THEM THAR HILLS...
All yon enthusiasts take note of the meeting today in room 4, U.C.
The president of the potential club would like a top turnout and
proffers the suggestion that even the rankest of rank amateurs make
an appearance. This is a sport that doesn't require intensive
knowledge in order to participate. A goodly amount of personal
enjoyment can be had just falling up and down the trails. When you
become adept at executing that fundamental action called the sitzmark
or fannydmer (as the case may be) you can watch the moving become adept at executing that fundamental action called the sitzmark or tannydunker (as the case may be) you can watch the moving pictures of famous skiers put on by the club. It is an admitted fact that the majority of skiers from Varsity can't ski, but compensate themselves for their lack of knowledge by having a whee of a time with the gang. We can't promise any Mount Tremblant or Domaine D'estrelle, but we can offer a good time at Summit or Rosedale or even Library Hill . . or even (plug) Huntsville.

It does our hearts good to see the club getting under way so soon, as we lear that farther north the experts are already digging their poles into a foot or so of snow. So let's see some of you up and coming athletes make a go of the meeting at least this afternoon.

MEDS COME THROUGH . . .

Is a very apt slogan for P.&H.E. freshies as they again took as match, 22-17, from the School of Nursing. It was a very fast game and quite closely contested for the first quarter, but the P.&H.E. cut loose with K. MacMillan and Joan Christie netting numerous points for the Phys. Eds.

Bateson Speaks To Chemical Club

Speaking on the production and use of flecting films, Dr. S. Bateson, research physicist and authority on the evapora-tion of films on glass, addressed the third meeting of the University Chemical Club held in the Women's Union last

night.

Dr. Bateson, who graduated from King's College, Halifax, took his Ph.D. in the Physics Department of Toronto, and is now employed by the Duplate Glass Co., in whose labs he has perfected the first large scale production of mirrors prepared by the deposition of metallic vapour on glass surfaces. With the help of sildes and sample mirrors, Dr. Bateson explained the development of this type of silvering to Massey Hall on Wednesday night (tomorow) for his first visit to Toronto on the produce mirrors which were silvered on the outer surface and therefore did not produce secondary reflections, as

on the oddres secondary reflections, as all ordinary mirrors, silvered on the back of the glass will do. This sec-ondary reflection from the glass surface, ondary reflection from the glass surface, though not objectionable in ordinary mirrors, causes serious trouble in pre-cise optical work. The new type mirrors are being widely used by the armed services, and their production has been made possible largely through the introduction of a new high-speed vacuum pump which uses oil in place of mercury, and can evacuate the chambers in which the metal is evaporated at a speed incomparably faster than any existing mercury vacuum

Daneing and refreshments completed the meeting.

Dante

"Sim Sala Bim,"

Fritz Kreisler, one of the master violinists of all time, will return to Massey Hall on Wednesday night (to-morrow) for his first visit to Toronto since his nearly-fatal accident in April of 1941.

The immortal Kreisler has recovered completely both in health and in tech-nique, and is now making the most extensive tour he has made in a decade,

including recitals as far west as Kansas City, and in Toronto and Montreal on Royal Alexandra Theatre-"Sim Sala

the Canadian part of the trip.

His program tomorrow night will include a Paganini Concerto, a Mozart Concerto, a "Preghiera" based on Rachmaninoff's Second Piano Concerto (andante movement), a Brams Hungarian Danee, a Tsehaikowsky "Scherzo," and his own "Viennese Rhapsodic Fantasietta."

Famed as a composer and a fine pianist as well as a violinist, Fritz Kreisler's recital here will—as always be one of the musical peaks of the year.

Failing in the Axegimer screamed, laughed wildly and tried to fling himself in front of a passing wheelbarrow. Failing in the attempt at self-destruction, he was led away muttering, "Epistaxis, taxifermist, taximeter, couldn't eater, hadta beater, what is neater?"

When confronted with a Red Cross eard to fill out Greensward refused to youch it, claiming the whole matter was a fraud. "There's a number of excellent substitutes for blood," he said. "If they give blood donors lemonade, or whisky, or ginger ale, or Oxo, or what

bartender on his way home from work.
"Like I say," resumed Greensward,
"if they can give all these things to people who have given blood, why not give them to soldiers who have been wounded?"

A medical student offered to explain the situation, but Greensward drew his sliderule without provocation and the Meds student voluntarily joined Axe-

grinder in his straight jacket.
"But aren't you willing to give up something to the Red Cross?" asked sometiming to the Red Cross?" asked Alice Benbolt, standing trim and in-spiring in her C.R.C.C. uniform. "Oh, yes," smiled Greensward, and handed over a glass jar. "What's this?" "My appendix, my very own!" "Oh!" said Alice, and disappeared

down a rabbit hole.

« ART, MUSIC & DRAMA (Continued from page 2)

beauty or warmth; it is woodenly stiff Dante

Dante the Magician, in his revue
"Sim Sala Bim," with Moi Yo Miller,
plays this week at the Royal Alexandra Theatre is the Noel Coward the Royal Alexandra Theatre is the Royal Alexandra Theat and inflexible, and as for variety of ex-pression, there is none. However, there were signs of sound technical training this singer. The fact is, that Mr. Belarsky was heard under most unfavourable circumstances at yesterday's concert. First, as already stated, was the orchestra's bad accompaniment. And then, the music that he sang did not give then, the music that he sang did not give him a chance from the very start. Vladimir Galetzky's aria from Borodin's opera, Prince Igor, sounds like dull and unappealing music. And that Mr. Belarsky had not the faintest notion about anything like Mozartian style, was only to be expected, and this fact was amply driven home by the attempt at the humorous Madamina from Don Juan. However, to hear Mr. Belarsky in a recital with a piano and of music he understands, should be of real

The purely orchestral portion of the program opened the evening with a Prelude for strings only, originally scored by Shostakoviteh for a string octet. It is one of the composer's very early works, and one cannot yet foresee in it the Master who was to create ten years later one of the epic masterpieces of all time—the 5th Symphony. Nevertheless, this Prelude is a very pleasant work. Next came the Fire-bird Suite of Stravinskl. This Suite tells one of the numerous legends about the Fire-bird; space does not permit to tell this particular story here; but in order to understand the music, not only is it essential to know what it is all about, but a vivid imagination would be of great help. It is purely program music and good as such. But no part of it would be likely to pass under the higher

standard of absolute music.

The best we have left to the last standard of absolute musie.

The best we have left to the last—Tschaikowski's Pathétique. What tremendously beautiful music this ist Out of an intense and uncontrolled outpouring of a soul deeply troubled came one of the most powerfully poignant pieces of music existing. Mr. Mazzoleni showed infinite understanding in his until the last minute hoping to fall in interpretation, and the orchestra was marvelous. With such music as this, it is not the time to go into the technical be was elected to the position of fourth is not the time to go into the technical he was elected to the position of fourth defects of the orchestra. Whatever year representative of the club attached Well it's one way to beat the No-business may have been, they were of no to his course.

Your Chance

The Record Club

Elsewhere in this issue may be found the program for the first session of the record club. The time is 3:45 to 5:30 this afternoon and the place the U.C. Women's Common Room, which is at the southeast corner of the building on the second floor.

"Sorry, sold out," interrupted the trender on his way home from work.

"Like I say," resumed Greensward,
No longer can they protest that they haven't the time or the money to attend concerts off the campus. The music is right here, available to all, and anyone should be able to spare a few minutes now and then to hear their favorite

What is more, it is possible to choose from the frequent programs whatever pieces one wants, which is an added advantage not generally open to the music fan. Here is the chance to hear good music with a minimum of effort, right on our own campus.

K.D.M.

THE UNIVERSITY OF TORONTO, THURSDAY, NOVEMBER 18, 1943

Dr. Henry Sigerist To Address CAMSI Deadline

Meetings in Convocation Hall, Banting Institute; Dinners in Hart House

STARTS TOMORROW

This year the seventh annual National Conference of the Canadian Association of Medical Students and Internes is being held at the University of Toronto, Over the coming weekend delegates from across Canada will visit the University, attend clinics at Toronto Hospitals, dine at Hart House and hold meetings in Banting Institute and Convocation

Russian Medicine

Highlight of the conference will be an address by Dr. Henry Sigerist, Pro-fessor of the History of Medicine, Johns Hopkins University, on "Soviet Medi-cine—from Peace to War." He will be introduced by Dr. E. Stanley Ryer-

son, of the Faculty of Medicine.
Previously professor of Medicine at
the University of Leipzig, Dr. Sigerist came to this continent in 1932 to succeed Dr. W. H. Welch, one of the founders of the Johns Hopkins Medical Institute, when he retired from the chair of the Department of the Institute of

Medical History.

Dr. Sigerist is the author of many books, including "Man and Medicine," a general introduction to the field used McGill Blood Drive as a text, and "Socialized Medicine in Soviet Russia," which is of particular interest to those attending the lecture. In preparation for his studies in Russia Sigerist spent two years studying the Russian language and reading Russian literature. He spent two years in the country itself, and did much research

Military Session

The three-day conference starts Friday morning in Hart House Theatre with speeches of welcome from President H. J. Cody and C. S. Robinson, president of the National Executive of the Association. A special military session will be held immediately after the Hart House opening, and a dinner Saturday night at Hart House, at which the guest speaker, H. M. Lancaster, Chief Dominion Analyist with the De-partment of Pensions and National Health will discuss "The Control of

brugs in Canada."
Conducting the Military Session are three distinguished Canadian doctors three distinguished Canadian doctors now members of the Armed Forces, Surg.-Capt. A. McCallum, Medical Director-General, R.C.N., Brig. C. Brock Chisholm, Director-General of Medical Services, R.C.A.F., and Group Capt. A. D. Kelly, Deputy Director of Medical Services, R.C.A.F.

Toronto hospitals, the Toronto General, Western, St. Michael's and the Hospital

Mary Ellen Fenwick, Social Directress of the Victoria College Dramatic Club, is playing one of the leading roles in Oscar Wilde's "The Importance of Being Earnest," tickets to which go on sale today. The club will put on performances of the play Dec. 3 and 4.
At the same performances in U.T.S.
Auditorium the Vic Music Club will

put on Gilbert and Sulivan's "Trial by Jury."

strategic positions.

Two types of cards are being offered the students. One is the regular Red Cross donation card, to be signed by either men or women over 18. The other is for volunteer men, who will undergo various tests in the medical building of the campus. The students who sign this latter card automatically belong to what is known as the Guinea

Printed in spruce green ink, the Christmas number of The Varsity will appear on Wednesday, Dec. 15. The Green Issue is largely literary in character and is the last remaining trace of The Varsity in its original character of a University magazine.

Material for this traditional issue

Material for this traditional issue which commencates The Varsity as it was founded 63 years ago is written by literary-minded undergraduates of all faculties whose contributions are chosen by faculty members on a competitive basis. Cash prizes are offered the best

prose, poetry and art contributions.

Generally speaking only pen and ink drawings and linoleum or wood cuts are considered for competition in the art de-partment, although other forms of art work may be considered if the means at The Varsity's disposal are deemed adequate to reproduce them.

Five prizes are offered. There will

be an Essay Contest on the subject of possible developments in the availability of higher oducation following the war. Another prize will be given for the best Prose or Short Story contribution and there will be a prize each for the best examples of Light and Serious Verse.

The deadline for contributions will be Wednesday, Dec. 8 in order to give faculty judges sufficient time in which to read and prepare general comments on the material submitted.

Junior Pharmacy Dance To Feature Warsages

AGRICULTURE MINISTER INTRODUCES SPEAKER

A belief that the British Commonwealth of Nations can serve as a model for a larger association of peoples after the war was expressed last night by Rt. Hon. Malcolm MacDonald, British High Commissioner to Canada, in his address to the Annual Meeting of the University of Toronto Alumni Federation. The Commonwealth is a successful experiment in peaceful co-operation-a classic example of the collective security in practice.

He said that the greatest contribution of the British people has been the British Commonwealth of Nations, as an "example of how men may settle their

future permanently on the path of pcace."

speaker.

President of the Alumni Federation, Mr. Hastings, acted as chairman and the Hon, T. L. Kennedy, Ontario Minister of Agriculture, introduced the

International Experiment

International Experiment
Mr. MacDonald drew attention to the
fact that the world is witnessing many
remarkable political experiments. In
addition to the experiments of Hitler
and Mussolini there are those of the
Russians and of the British. Of the
latter two he pointed out that while the
main purpose if the Russian experiment
list to create something new in the internal is to create something new in the internal organization of the country, Grea Britain's experiment is one in inter national relations.

He pointed out that each of the Dominions in the British Commonwealth is now "absolutely free to decide what its policy will be in any situation that can face a modern state, and gave as an example of this, the fact that no one in Great Britain has tried to force

one in Great Britain has tried to force Eire to enter the war against her will. The participation of the Dominions in this war at a time when the majority of the nations of the world remained neutral demonstrated not only that they were more for-seeing than most other were more for-seeing final most oner nations but that they were moved even more by the strong instinctive sense of comradeship which they felt towards the Commonwealth as a whole, he said.

With the collapse of France it was the refusal of Britain and the Dominions to surrender which alone prevented Germany from leading on to mastery of the whole world, and so the British Commonwealth made an invaluable contribution towards saving human civiliza-tion from destruction, Mr. MacDonald continued; but added that it also has a contribution to make after the war.

No Time For Music?

Another grand old tradition of Hart House is threatened with extinction because of indifference and a lack of student interest. Dr. Charles Peaker, Director of the Hart House Glee Club, has announced that, owing to an acute shortage of voices, particularly tenors, the club will, in all probability, he forced to discontinue its customary coast-to-coast Christmas broadcast and might even have to be disbanded entirely. This announcement might be quietly passed over by the casual reader and accepted as one of the necessary evils of war and the "manpower shortage" but the discerning eye will note that there has been no startling decrease in the number of the men on campus, only a decrease in the amount of free time left at their disposal. The student mind is now now fixed preëminently on the work at hand, whether military or academic, and because of this we tend to lose sight of the cultural extras so typical of our way of life and so essential to the forming of a well-rounded character. Stu-Club

It is an expression of unity, of comradeship. Com- melody unrolled in limpid perfection. munal singing draws men closer together, gives as is apparently gained from sundry glorious songs so dear to the heart of an undergraduate.

The Hart House Glee Club has been adding its bit of beauty to the campus for more than a decade now. For at least six years it has been its custom to make a coast-to-coast broadcast from the Great Hall on the occasion of the Warden's annual Christmas Dinner for House members remaining in Toronto for the holidays. The concluding feature of to 5:30. Everybody is invited, the year for the Glee Club has been a Sunday

Beethoven—Egmont Overtication** Evening Concert, the last of the season. The disappearance of this organization from the campus scene would mark one more concession to the present day trend toward excessively standardized and "strictly business" universities. The disappearance

of such an organization would be excusable if there were no men on campus from which to draw mem-bers. But certainly there are enough men here; it is only a question of their finding time for a little music.

Opportunity Knocks . . .

Undergraduates with a yen for seeing their name in print over a literary or artistic masterpiece of their own conceiving can start sharpening pencils and oiling typewriters. The Varsity Green Issue is open for contributions. The only all-University publication devoted to student literature and art this Christmas number affords every undergraduate the chance to parade his wares and incidentally, if he is good enough, receive some slight gratuity for it too. This is the one opportunity for under-graduates not on the staff of The Varsity to fill her columns and it has long been The Varsity's fond hope that all of her readers would attempt a concontribution, if only to appreciate the labor behind In this Green Issue, The Varsity, stern critic of all campus publications, tries to put theory to practice and produce the ideal literary review

But such high purpose rests mainly on the shoulders of the contributors, for a review is only as good as its best piece of work. Consequently, as of today, we await the flood of undergraduate poetry, essays, short stories and drawings. We offer you all the space you can use for the expanding of your ideas; our only stipulation, that they be good ones. The number and quality of your contributions will determine the size of the paper. If your soul craves expression; if your name would look good in green ink; if you could use a little more of that scare thing called money; write for the Green Issue. The paper

Canadian University Press Correspondent Chats with Var-Men; Describes Indescribable Horrors

SCHOOLMEN PROMINENT

(Editor's Note: Grimy, unshaven, his uniform stained with pool-chalk, Joss Egbert, of the Canadian University Press, was the first correspondent to get his story of the Second Front over the wire. With the exception of a few errors in spelling made by Egbert in the heat of battle, his first dispotch appears below.)

By Joss Egbert CUP War Correspondent

With the Canadians on the Second Front, Nov. ??—(CUP)—I was with the Canadians when they opened the second front this week.

While other allied troops launched a frontal attack on the French ports of Harfleur, Barfluer and Bar Harbor, two battalions of Canadians, since identified by Defence Minister Gallstone as the 1st and 2nd Battalions, University of Toronto C.O.T.C., executed nature of the tactics employed cannot be revealed at the present time but Major J. Flotsam told me on the eve of battle that it was "an armchair strategist's

I accompanied the Corps throughout the action and lost 20 cents in a crap game. It was stiff going all the way, especially at Horse's Neck, which was re-christened "Bloody Horse's Neck" by an irate sergeant, and which will be added to the battle honors of the corps. In the thick of the battle I saw a

a card to an inside straight. Above us all was inferno as the University of Toronto Air Training Corps gave us Naval Training Division could be heard in the distance.
"Schoolman?" I asked the lance-corporal as he threw in his hand with

corporal as he threw in his hand with-in expression of disguist. "Yump," he said sadly. "I can always tell," I said with pardonable pride. Horse's Neck was captured early that

morning by a detachment of Trinity rugbyists with a bayonet charge around

the left end.

The next few hours were spent in digging in against enemy air attack. I talked to a member of the C.O.T.C. who said he was prepared to stay in

who said he was prepared to stay in his fox-hole till next spring.
"For months these U.A.T.C. guys have been calling me a ground-hog," he said with a yawn. "Now I'm goma prove it. G'night."
And so, as the tropical sun sank beneath the mountains of Norway, I left bin.

Again . . .

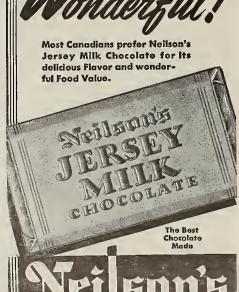

Thrill to the Satisfaction of complete "up-to-the-minute" Formal Attire.

the fast quarter of the game to pull out a colorful 10-9 win over a driving Meds team. The extreme cold along with very hard ground forced the teams to play a wide open game.

In the last quarter School put on a phunging barrage against a fast-tiring Med team. Smith and Evans drove through the centre of the Med line to the 20. On the last down and with five with very hard ground forced the teams to play a wide open game.

In the first quarter play see-sawed back and forth with both teams kicking a good deal. Towards the end of the quarter, School fumbled a Mcds kick and Mcds recovered an School's 15. Two line bucks proved fruitless as the Sgr.S. Line rose to the occasion.

As the second quarter got under way, Mcds kicked a placement from the 25 yard line. School took the ball on their 40. On an extension play Staley of Mcds came in quickly to intercept a lateral, and shaking off three wouldbe tacklers ran 50 yards for a touch. Staley kicked the convert to make the score 9-0 for Meds. Then School put on a terrific drive, going from their own 30 to the Mcd 25 in four plunges. Smith led the drive by plunging 40 yards in two successive plays. With less than all of his team's points.

The Sportswoman

By Betsy Mosbaugh

INCOMPATIBLE . .

It's a good thing that our feelings can't be assimilated underneath the cold print as we have just returned from hearing Kreisler at Massey Hall. Consequently our usual prosaic patter strikes the old Sportswoman as being a bit mundane. But far be it from the Sports page to lose its own individual topics and lingo, so we promise to cretain from whipping into any Scherzos or concertos and instead will execute stem turn into the ski club.

NOW YOU SEE IT, NOW YOU DON'TI

NOW YOU SEE IT, NOW YOU DON'TI

We are in a bit of a dilemna concerning the ski club meeting yesterday and are wondering whether or not Dante forsook the Royal Alec for Varsity. We had a merry little game yesterday afternoon chasing through all the halls in U.C. looking for the rendezvous but finally were forced to give up our search. What with crashing into a French play in room 4, where the meeting was scheduled to be held and disrupting various other goings-on in various other rooms, we felt quite a bit shorter than a centipede without legs. To top it all there were approximately ten other people with the same idea who also looked in the same places. . . unfortunately we were the tenth. . . . From now on our theme song is going to have something to do with Smile Awhile.

If, however, a meeting was scheduled for that particular time in

to do with Smile Awhile.

If, however, a meeting was scheduled for that particular time in that particular place some notice should have been left on the door by the chairman. Let's hope that this isn't an omen of the future efficiency of the Ski Club. But then it's all right for skiers to be a bit SLACK, isn't it?

We hear that the referees for the basketball games are as good as to be found anywhere. When the participants of the game say this, it's a sure sign. Most of the refs have been P.H.E. gals and have exhibited a keen eye as well as the fact that nothing can be put over on 'em. So here's to the gals!

By George Elliott

FOR FUTURE REFERENCE . . .

Now that winter is in the process of setting in to stay till next July, and the N.H.L., such as it is, is under way, rugby is beginning to take a back seat and the old seasonal urge to go and squat through 60 minutes of shimy at the Gardens is coursing through the veins of

to take a back seat and the old seasonal urge to go and squat through 60 minutes of shinny at the Gardens is coursing through the veins of the sporting world.

So, there on the campus, we have our own private Maple Leaf Gardens up on Bloor street, snuggled back of the Economics building up against the Stadium. Being a consistent and snarling old viewer-with-alarm, we are going to do just that. The University of Toronto is a community of some 7,000 people. The city of Toronto is a community of some 700,000 people. The U. of T. has a dandy big hockey arena all its own. The city of Toronto has quite a few dandy big arenas that they can use. But where do the city teams play? In the U. of T.'s own private hockey arena. Now a better question to ask is this: Where has campus hockey disappeared to? We know it's early yet; but remember last year when the teams would play in the afternoons up at the arena. For each team there would be one lonely leather-lunged supporter sitting in about the eighth row. The two would sit side by side screaming and roaring encouragement at their teams. They'd even take turns as one would say to the other, "OK, it's your turn, I'm going out for a coke." What a distressing state of affairs! Coldly and simply, it all boils down to the fact that a community of 7,000 people has a hockey arena that would do justice to a city of 40,000 people has a hockey arena that would do justice to a rather expensive building that belongs to them.

Assuredly, we'll argee that renting the arena to city teams is a fine method of bringing in the moola; bue we have our pride after all. We're willing to be that if you asked a T.H.L. fan, "Who owns Varsity Arena?" he'd say, "Oh, I dunno . . . the city, probably." The present unpleasantness does put the damper on campus hockey affairs; but it also dampens a lot of other things too. But if you leat through any old newspaper or magazine you'll see page after page devoted to the advertising.

Now for the immediate future reference of some bright young man in the Athlet

Meds Swamped Preachers Win By Engineers

A powerful Jr. S.P.S boxla team thoroughly trounced the poorly co-ordinated Med II team by the over-whelming score of 26-3 yesterday after-noon. The Schoolmen led all the way

by the chairman. Let's way the chairman. Let's way the fifteenery of the Ski Club. But then it's all right ion a bit SLACK, isn't it?

TWO FOR VIC AND ONE FOR P.H.E...

Out of thee basketball games with P.H.E., Vie earned a double win last night. The good old Scarlet and Gold is coming right along this year—a fact which is well exemplified by last eve's victories over the almost unbeatable phys. eds.

P.H.E. Seniors, though, kept up the fast coming tradition of their faculty when they took Vic Juniors 32-7. The gals were quite decided about the game all the way through, with Joan Davis, Jean Stinson about the game all the way through, with Joan Davis, Jean Stinson the Hardy, Mary Coleman and Chris Mitchel put forth a good fight for the honor of Vic but didn't make it.

But Vic Seniors redeemed the college by trouncing P.H.E. Is But Vic Seniors redeemed the college by trouncing P.H.E. Intermediates 28-4. Betty Gordon and Mildred Donaldson were the Intermediates 28-4. Betty Gordon and Mildred Donaldson were the Intermediates as guards quite efficiently. Helen Shepherd, Bobbie Wilson and Susie Grey were P.H.E.'s standbyes. From all accounts it was a rather rough game with Vic's passing the outstanding for the constanting for p.H.E., while Anne Smith and of course Joan Robins showing for P.H.E., while Anne Smith and of course Joan Robins showing for P.H.E., while Anne Smith and of course Joan Robins showing for P.H.E., while Anne Smith and of course Joan Robins of the game say this,

ONE FOR THE REF...

Was been that the referees for the basketball games are as good as Wilson whose properties and Scale and Total Course of Trinity and East. The 50 free with Fraser and Bartisling Don Gibson didn't take first and second in the 50 free with Fraser and Bartisling Don Gibson didn't take first and second in the 50 free with Fraser and Bartisling Don Gibson didn't take first and second in the 50 free with Fraser and Bartisling Don Gibson didn't take first and second in the 50 free with Fraser and Bartisling Don Gibson didn

the boys. It was a cold day, so she wore her red flannels.

Fast-talking Don Gibson didn't take long to sell his merchandise and Scalpel O'Sawbones and Dr. Sanguinary Flow didn't take long to extract a half-pint milk bottle full of blood from "Red" Cross either. In fact, the whole show didn't take long this year and a mere half-dozen jokes assaulted the air.

The event took place to advertise the School Dinner which takes place tonight

ARTIFICIAL RESPIRATION COURSE

The University of Toronto Athletic Association, with the co-operation of the University Health Service, is offering to men students and staff a course (lecture, practice and examination) on Resuscitation, starting Monday, November 22nd—Debates Room—Hart House—4:45 p.m.

The outstanding authority on the practical application of Artificial Respira-tion, Mr. Wills Maclachlan, of the H.E.P.C., will be the lecturer.

All men enrolled in Life Saving Courses must take this Course to qualify for their awards. Personnel of the U.N.T.D., the C.O.T.C., and the U.A.T.C. should take the course.

To facilitate time-table arrangements the lecture period, the practical work and the examination will be duplicated as indicated below. This will give all interested students an opportunity to take the complete course in two periods. If interested kindly sign the list at the Athletic Office.

Men who satisfactorily complete the course will qualify for the Resuscitation Service Badge of the Royal Life Saving Society.

Monday or Tuesday Nov. 22 or 23

LECTURE AND DEMONSTRATION

of the THEORY AND PRACTICE OF RESUSCITATION

English Drama

At the second of the Alexander series of English lectures delivered yesterday in Hart House Theatre, Professor F. P. Wilson spoke on the development of Elizabethan and Jacobean drama.

As an introduction he gave a gen-eral survey of the theatre and audience which patronized it in the period from the stage of vagabond actors and had not yet become superial through courtly of the Food and Drug Act.

Mr. Lancaster's department is charged with the responsibility for the provisions of the Food and Drug Act.

At ooc time, Mr. Lancaster lectured in the Department of Applied Chemistry the co-operation of the many control to the colleges but the heavy response to the large schools proved very response to the colleges but the heavy response to the colleges but the heavy response to the large schools proved very response to the colleges but the heavy response to the large schools proved very response to the large schools proved very stages the large schools proved very stages the large schools proved very stages that the colleges but the heavy response to the large schools proved very stages that the colleges but the heavy response to the colleges but the he ranging from the groundlings' interest in the story and action to a higher intellectual level.

The plays in the Elizabethan period are divided into four types: pastorals, chronicle or historical plays, and romaotic tragedies and comedies. Domestic comedies such as Shakespeare's Merry Wives of Windsor were just beginning. Satiric comedy was introduced for the first time by Ben Jonson who used it as a vehicle for satirity and the satirity of the satirity criticizing the wild extravagance of the Elizabethan age. His vital, judicious and practical language made his blows

In contrast to the siocerity of the Elizabethan drama, Prof. Wilson pointed out the superficiality and poverty of ideas in the Jacobcan plays. In these ideas in the Jacotocal pays. In these more emphasis was put on development of plot by suspence. Tragi-comedy, illustrated by the plays of Beaument and Fletcher was developed. But accord-ing to Wilson, Marlowe was a greater dramatist since he produced art which was both serious and popular.

Delegates to Visit University and Attend Clinics and Meetings During the Three-Day

Today delegates from all medical schools across Canada are meeting in Hart House Theatre at 9 a.m., to open the Seventh Annual National Con-ference of the Canadian Association of

Medical Students and Internes.
Following an opening address by President H. J. Cody, and a short speech the lists provided during the week. The ambitious goal of 100 per cent was set by the Blood Campaign Committee and final figures with generous safety factors applied indicate that the University fell, far short of this mark with only 63 per cent of the University students signing their names.

However, since O.C.E. and the Faculty of Forestry have not as yet returned their lists the figures will be improved; when the last card is turned in the Red Cross Blood Bank will be applied to the prosecution of the surgicular of the property of the surgicular of the provided will be applied to the provided the provided that th

Representing the navy will be Surg.-Capt. A. McCallum, Medical Director General, R.C.N. Group Capt. A. D. Kelly, Deputy Director of Medical Services, R.C.A.F., will give the view point of the air force, while Brig. G. Brock Chisbolm, Director General of Medical Services, C.A., and president of the national committee for Meotal Hygiene, will speak for the army.

Among the many topics to be discussed at this session will be the work at present being done by the medical services, with special emphasis on new developments in research and improve-ments in technique, It is also expected that the question of

the position of the medical student in the Armed Forces will be considered, and the method by which graduates are assigned to the various branches of the services will be outlined. The part the young medical officer is expected to play, the responsibilities he is expected to assume, and the work he will be taking over will all be described briefly.

Students will hear about the many courses now being offered by the dif-ferent services intended to fit them for some particular field of military medisome particular neid of military medi-cine. The army and air force, for ex-ample, are offering special courses in psychiatry, surgery, and other special-ized fields, designed to introduce the young graduate to the most recent de-velopments in these fields as applied to specific problems introduced by

modern warfare.

The entire program of the milit session is designed to clarify for the undergraduate medical student the posi-tion in which he may expect to find himself upon graduation.

During the session a special meeting open to the public will be held, and all University of Toronto students are in-CLAUDIA — A frivolous young thing bumps into the facts of life and the facts of death and mends her ways. We Welcome CAMSI

Today we welcome a group of delegates of the Students and Internes is not widely known to the generality of students on Canadian campuses, nor is it reasonable to expect its actions to be strongly it unites.

Although it is strong in promoting the interests by the National President outlines one of these

This is the first guest editorial that The Varsity ticular faculty is especially qualified to speak. Such The facts deny such a false belief. contributions will be welcomed from any faculty and the Editor will always be pleased to discuss ideas improvement in the health service available to the with prospective editorial writers.

But before we become involved in side remarks still room for much to be made. on a pet project and use up all the scarce space in a crowded issue, we must pause and introduce with hearty recommendations our first guest editorial writer, S. C. Robinson, National President of CAMSI.

Student Health

By S. C. Robinson National President, Canadian Association of Medical Students and Internes

the services available at these universities and making recommendations where improvements have been his piano solos, Stuart Ross, the accompanist, indicated. A comparison of the reports published in managed a tie, 2 - 2. the CAMSI Journal in 1942 and in 1943 shows But we ain't complainin', we're merely remarkin' that some considerable improvement has been made Mr. Kullman has a fine melodious voice of a distinctly Indignatization up to \$7.5 included. In a test two centres the health service is available only to of artless simplicity and sincerity.

Medical students and the scheme is administered by this faculty.

Add a touch of whimsicality, and you have what he did with Le The, a delicately amusing fragment

into consideration all aspects of the service. In the

first place, the administration should be mentioned. The scheme at present in operation in Toronto and most other centres of having a full-time salaried medical officer seems to be most satisfactory. students pay an annual fee which in most cases is five dollars. The preventive service includes annual examination, tuberculin-testing and chest plates for positives (annual), blood wasserman, immunization against small-pox, scarlet fever, diphtheria, typhoid, paratyphoid A and B and possibly tetanus (as in the armed forces). Also an annual urinalysis is necessary as part of the complete annual check-up. As part of the therapeutic program, hospitalization should be provided. Some sort of hospitalization Assistant.

Should be provided. Some sort of hospitalization insurance scheme could be worked out, but at the present time this is not included in any of the university schemes except in the one instance mentioned above. Even in this case the service is not completely adequate. In Toronto all the accessory diagnostic services are available to all the students.

Our students must, however, pay the full price for all drugs used in treatment, and operating room facilities are not included in the service. facilities are not included in the service

There are some real defects to be found in the majority of the university health schemes. In only two instances are dental services provided. We believe that a regular dental check-up should be part of a full physical examination. Operating room and hospital services should be made available to all students without extra charge by some form of insurance scheme. Also we know of no announcement in this or other universities indicating the course open to a student stricken with an acute most active and effective national student body in illness at a time when the University Health centre Canada who are meeting on our campus in conference. The Canadian Association of Medical living in a boarding house do when he develops a is not open, i.e. what does the out-of-town student severe abdominal pain, in the middle of the night?

Perhaps one of the most glaring deficiences in

the present schemes is in the field of mental felt beyond the Medical and interne groups which hygiene. In the universities in the United States where there are such services it has been estimated that fully ten percent of the students are seen in and preoccupations of the medical student bodies of consultation in the mental hygiene clinics. The Canada, it is not generally known that CAMSI seeks editors of the recent issue of the CAMSI Journal to do all it can in its own field for students of the wisely point out that students are at an age frought universities represented in it. The following editorial with many adjustment difficulties and suggest that mental hygiene units could be of inestimable value in the preventive field. Let us not believe that because we are in university we are immune to has published this year dealing with a technical the emotional and behaviour disorders which occur problem on which the representative of some parin such a large percentage of the general population.

CAMSI PROGRAM DISSOLVED

National President and Guest Speaker Disappear, Last Seen with Chief Dominion Analyst in Pursuit

THE OLD OIL

With the Dominion analyst, H. M. Lambaster in hot pursuit, the guest speaker for this evening's special meet ting of the Canadian Association of "Medical Students" and provide "professor" of medicine Students and the National President of CAMSI St. Robermsone, disappeared to the Association of the Cambridge of the Students of CAMSI conference. The thousands of delegates will be given their two-bits back if Robermsome is recaptured before he has a chance to spendit. Hopes of this are said to be slim as Robernsome was last seen disappearing down a well-known Bloor Street Rabbit hole.

Cause of the unexpected flight of the two culprits was explained by Lambaster who was interviewed on the dead run by J. Philbench Shackwarmer, Varsity Sports Editor. "These men are little their than charlatans. After taking our good money with claims of a new-fangled 'Soviet Medicine,' we find, by intricate analysis conducted by my deartment, that the stuff is nothing but old fashioned Russian Mineral Oil!"

ART, MUSIC & DRAMA (Continued from page 2)

of needed "punch." (But that was the of needed "punch." (But that was the only point all evening that Mr. Kullman could be accused of flagging. With a program of the proportions he gave, that man must surely love to sing!) Yet if his La donna was not sufficiently Wet if his La donna was not sufficiently vigorous for our taste, he put too much feeling into some of his other things. A strong tendency to sentimentalize was very evident in the encores, which included Drink to me only, 1ch liebe dich, Because and Sylvia. By what special virtue should such words as "sweet," "sleep," "divine," be uttered plantssimo from the back of the throat whenever they are encountered, no matter what the sense?

The only reason we can think of would be to show off Mr. Kullman's enunciation—clear, yet effortless, in the suffers the such as the such products of the such

enunciation—clear, yet effortless, in the softest passages, and whether the soloist was singing in English, French, Italian was singing in English, French, Italian or German. There was always the pleasing sensation for the listener of neither having to strain to catch the words, nor to have to content oneself with hearing only a stream of melody. In Doneelle Juggite (Cavalli) it amounted to a little tour de force.

All in all it was an enjoyable, though enormous concert. Mr. Ross' accompaniments were sympathetic.

paniments were sympathetic.

THE UNIVERSITY OF TORONTO, MONDAY, NOVEMBER 22, 1943

Bishop Tsu This Week

Bishop Y. Y. Tsu, well-known as the "Bishop of the Burma Road," will be on the campus this week speaking to several gatherings under the auspices of the Student Christian Movement,

He is the Bishop of Kunming, in southwest China, where many Chinese Universities are now located as a result of the Japanese invasion. The Burma Road is in his diocese. He has been in close touch for many years with the main current of thought and action between China and the Western world.

Bishop Tsu has been sent over to North America by the Chinese govern-ment to further friendship and understanding between China, the United States and Canada.

On Tuesday morning at 11:30 a.m.
Bishop Tsu will address the student body
of Emmanuel College on "The Present
Situation in the Chinese Church." At Situation in the Chinese Church." At 1:05 he will conduct the regular S.C.M. prayer meeting in Wycliffe College imiddle of the last century to provide (Chapel. On Tuesday evening he will medical attention in rural districts, the lead a discussion in the Rhodes Room for Trinity College students.

On Wednesday morning he will speak at the Trinity College Chapel service. At 4:45 p.m. of the same day he will address an open meeting in Victoria College.

On Thursday he will lead an after-

On Thursday he will lead an atter-dinner discussion in Wycliffe College. At 8:00 p.m. he will address a joint meeting of the International Student Group and the International Affairs Club on "The Contribution of the Chris-

tian Church to Reconstruction in China."

The Bishop will preach at the regular service in Trinity College Chapel on Sunday morning at 11 a.m. At 5:00 p.m. he will speak to a meeting of Engineers and Medical students in

Hart House.
At 7:30 p.m. he will preach at the regular Sunday service arranged by the S.C.M. in Trinity College Chapel, and will lead a Fireside discussion after-

Wycliffe 100 per cent In Blood Donor Drive

Through some quirk in its mathematical efforts The Varsity er-roneously credited Wycliffe with only 80 percent enrolment in the blood donor drive of last week. Actually every member of the college was accounted for in one way or another and Wycliffe should be listed alongside Occupational Therapy as signing up 100 per cent of its enrolment.

National CAMSI Conference Over Weekend Inter-University Leads S.C.M. Hears Authorities On Military Medicine; Also Asks Minimum Salary For Internes

Johns Hopkins Professor Cites Advances Made in Russian Medicine as Result of Socialization; Gives Basic Policies

WAR TRANSITION EASIER

Medical circles here and abroad have ntil recently been under the false impression that practically no progress in the field of medicine was being made in Russia, Dr. Henry Sigerist, Professor of the History of Medicine at Johns Hopkins University, told the CAMSI convention open session in Convocation Hall Friday night.

Dr. Sigerist is an authority on Social Medicine and author of the book "Socialized Medicine in the Soviet Union"

Russians, following the revolution, had succeeded in creating a great health organization, he said. Because of the centralization of all medical services under the Commissiariat of Health, the transition from peace to war has pre-sented fewer problems to the Russians than were faced by other allied nations

The result of this was that in the first year of the war 70 per cent of all casualties were re-habilitated and returned to the fighting front. Mortality among the wounded amounted to only one and one-half per cent, while those carallies who were not canable of casulties who were not capable of rejoining the forces were established in

useful occupations.

All doctors in Russia are trained in military medicine, and all, men and wo-men alike, were prepared to take their part immediately in the armed forces, he

There are three main principles on which the Russian medical plan is based, said Dr. Sigerist. The first is that medicine is a public service, to which everyone, regardless of his income, is entitled.

The second he explained as the abolition of the distinction between preventa-tive and therapeutic medicine, part of the general attempt to apply science to basic problems.

The third principle is that of planned The third principle is fact of planned health work. "Every institution, farm, factory and school has its health committee," said Dr. Sigerist, "which meets regularly to plan health measures." He described the results of this plan, which leads to everyone — students, (Continued on page 4)

Provincial Fire Fighters Training School Now Held in University College

fighting

fighting.

The school opened last Wednesday with addresses by Dr. H. J. Cody, Hon.

L. E. Blackwell, Attorney General of Ontario, and J. J. O'Kelly, president of the Dominion Association of Fire Chiefs. The course includes 17 lectures to their respective cities.

The 1943 class is much smaller than last year's which had 120 men from the armed services as well as 130 civilians. This year the armed forces have their own schools and only two apparatus by members of the Toronto Fire Department, during the course of which extension ladders, axes, ropes, and hose were brought into action.

However, the most exciting part of

Firemen from all parts of Ontario the course was also the most unexare now attending the Provincial Firepected—namely the spectacular three-men's Fire Fighters' Training School in West Hall, University College. These men, veterans of many fires, have come to study the latest methods of firefilting. pected—namely the spectacular three-alarm fire which swept through the Film Exchange. Many of the visiting firemen were nearby and were able to watch the Toronto firemen handle one of the most dangerous types of fires. Lectures will continue until Saturday.

Cody in a special welcome to (Continued on page 4)

Debating League Plan Competition

Hamilton - (CUP) - The Inter-university Debating League held its first executive meeting of the year at Mc-Master University Saturday afternoon to plan the competition for the coming year. Queen's, Loyola, Bishop's, Western, Ottawa, St. Patrick's, and Toronto were represented. The subiect chosen for the competition was "Resolved that Canada should adopt a policy of large-scale European immigration in post-war reconstruction."

Barbara McNabb, representing the the conference, said that if Toronto joined the competition, the arrangements were that Queen's affirmative team would meet Toronto at Toronto, and our affirmative team would debate against McMaster's negative team at McMaster.

Miss McNabb said that the spirit shown at the conference was one of very great enthusiasm, and that the competion we should meet had every prospect Surgeon-Lieutenant Struthers, of the

February 3 has been set for this year's preliminaries, and February 17 for the finals. The prize is a cup which Loyola has won twice and McMaster seven times.

The Critical Faculty

In casting about for a subject of moderate profundity which we might expound to the small and delightfully receptive group, the readers of these columns, we were given pause last evening by the following words by Rebecca West from an article in the Atlantic Monthly last summer:

I sometimes wonder if the extent to which we read has not destroyed our power of reading. We read all the time: newspapers, advertisements, the directions on the packet, textbooks, business letters. We read so much that our eyes get blunt, they no longer see the form of the sentences or the content; we peer at the nouns and guess at the trend of argument they indicate, and fabricate activate of the book on that and what we know of the a picture of the book on that and what we know of the writer. Thus we build round ourselves a mental world as hypothetical and dangerous as the material world of

I perceive that in America also there is a reading blic that is print-drunk as pugilists are punch-drunk, book-happy as pugilists are slap-happy.

"American" of course here means Canadian as well. In this country we read most of the same periodicals and books and listen to many of the supposed "idea-forming" programs on the radio. We have our ideas served to us by the same digests which pick out many good things from the welter We read the same columnists and listen to the same biased news commentators and in general accept them all with an amazing lack of criticism.

But there should be one group in the country comparatively free of the tendency to take pre-digested ideas and opinions as facts. That group should be the students of the Universities.

But are the students doing their utmost to prepare themselves to maintain the ordered balance in national and international thinking in the period of their greatest influence? Their obligation to do this is implicit in the government's generous and basically wise policy in allowing students to continue their studies emergency. Now, look at the student. He (or, as frequently, she) sits in lectures and listens to the professor pontificate on his own particular subject and writes it all down in a more or less orderly fashion in a book which she (or, as frequently, he) closes at the end of each lecture and never opens except to look up a recommended book, until has lost the notes. Before the final examination the notes are conned, and in many cases literally learned word for word, and poured out, again in more or less orderly fashion, to be read by the

Now it is granted that in many large survey courses this is all that the student can do, but many lectures are in compartively small groups of 20 or less and most of the larger arts courses have tutorial groups to supplement formal lectures. One of the saddest sights we know is the spectacle of a later, but it is worthy of notice that Ottawa has professor trying to draw ideas from a group of unresponsive, apathetic and parroty students. Some of them go at it by labored questions, some by sarcasm and sneers and some are wise and give up those methods and try the stimulus of outrageous statements delivered with a straight face. The latter type are generally slated for despair, how-speaking ever, for 99 per cent of the time the provocative statements, half-truths and exaggerations are copied members. dutifully into notes never to be seen again until

exam time. Occasionally a student will mutter about this foolishness outside of class, but something, either too much respect for the professor, or too disdainful an attitude altogether, prevents the more acute student from precipitating the discussion his mentor is aiming at.

The causes of this phenomenon are not easily found. It probably existed at all periods of the University's history, and has been aggravated by the war. A background of disagreement presupposes long periods of reading and thinking on the other side of the question. The activities of today's college are restrictive of student time, even where there no acceleration of the academic schedule and where less emphasis is placed on many of the extracurricular actvities of former years.

It looks to us that wartime education, like wartime rubber, has less bounce than the kind we had in peacetime. Press the product and it retains the desired impressions where it should spring back immediately the pressure is released. Perhaps we are over-gloomy, but the lack of comment on or disagreement with these columns has helped strengthen our opinion along this line. Page two of Varsity is not meant to be an oracle and never has been highly conscious of its infallibility in facts and ideas, or even spelling. Yet we go on, unquestioned ...

But of course we ignore that other side of the picture, the hopeful one, that students may even have enough critical faculty not to read these columns.

Ottawa Calling

A Canadian University Press Feature

By Neil MacDonald

OTTAWA

Ottawa's citizenry is appalling in its lack of knowledge and understanding of the rest of Canada. Its abysmal ignorance of the Canadian scene is equalled only by the ignorance of the rest of Canada of Ottawa.

Ottawa, the history books told us, is an accident The compromise settlement between Upper and lower Canada placed the capital in the centrally located town of Ottawa, far enough away from the United States border that it was safe from attack. With that move, the lumber town, just one step away from Bytown village, was fated to become the capital of the Dominion.

The Rideau river is the reason for Ottawa's existence and Colonel John By of the Royal Engineers was its efficient cause. In 1826, in order of articles being published and save us much to provide a safe way to get troops from Montreal troublesome selection—and more troublesome thinkto Kingston in case of further wars with the United States, the Rideau Canal system, between the Ottawa river and Lake Ontario at Kingston, was begun. Its outlet on the Ottawa built the village of Bytown, which prospered through the lumber trade.

In 1871, four years after Confederation, the That group population of Ottawa was only 24,000.

> Although the 1941 census gave Ottawa a population of 151,000, there are some 225,000 people living in and around the city, in the urban area known as greater Ottawa. That is an increase of some 65,000 since the beginning of the war.

But, of course, a mere tabulation of figures can throughout the current national give one little idea of the madhouse that is Ottawa Summer cottages, stores, service stations today. and cabin trailers—all of them are being put to use by families who have flooded Ottawa with a boom town tidal wave,

Since it is these people who are exercising the wartime controls under which we all live, a summary of the surroundings in Ottawa today should be examination time, unless he (or, less frequently, she) important in helping up to understand and sympathize with their actions.

> Ottawa has two English papers and one French. Of the former, one is Whig and the other Tory. The Ottawa Journal proudly boasts of being Canada's most quoted newspaper, and, since it often reprints the New Yorker itself, there is still hope for it.

One of Ottawa's journalists, Austin Cross, pub lished a book some years ago, entitled "Ottawa, the city of Snobs and Spires." Of the snobs, more Of the snobs, more the highest ratio of churches to population of all cities in Canada.

Ottawa is a strange town, which is thoroughly conservative by nature, but which sends two Liberal conservative by nature, but which sends two Liberal members to the present Federal House and a Conservative and a Liberal to Toronto. The French-speaking "Lower Town," across the Rideau Canal, is completely Liberal and always elects Liberal members.

The snobbery of Ottawa's citizenry is constantly continued on page 4)

"We Make You Think

(For far too many students the De-artment of Sanskrit and Window-Vashing is no more than a name. Boudied about the campus from mouth to mouth, it has been in turn the oc-casion of levity, the symbol of futility, and the apotheosis of ignominy. Few realize that that this department houses, in an obscure basement lair beneath the corridors of University College, one of corridors of University College, one of the keenest detective brains of this continent — Dr. Aloysius P. Q. R. Mc-Gecch, terror of the Underworld. So secret is the work of his department, that the very names of its shudents are omitted from the directory.)

CHAPTER ONE

Bands blared, Glasses clinked. Corns protested. Wolves howled. In the street outside, horses neighed. The Whitney Hall Formal was at its height. Had you pierced the skin of the bass drum you might have seen lurking within it his brow frowning, his very toenails radiating suspicion—Dr. Aloysius P. Q. R. McGeech, Terror of the Underworld!

Can you find Dr. McGeech

The revellers whirled by, intoxicated th the dance, oblivious to the narrowed eyes that never left off watching

Suddenly it happened.

A girl screamed . . . She hopped about, holding her foot,

her escort apologizing; but Dr. Mc-Geech was not deceived. The scream d been a signal.

Faces appeared at every window, scarcely discernable through the un-washed panes. The place was surrounded. Dr. McGeech, coiled within the com-plaining drum, uttered a long, low laugh. He was not deceived. For he was McGeech, Terror of the Undervorld. He knew.

No one will ever know how he reached

the window as quickly as he did. He flung it open and fired 11 shots into the air. The prowlers vanished. Dr. Mc-Geech swung round and faced the com-

oany.
"On with the dance," he said simply. "No sleep till morn, when youth and pleasure meet. But for me, these diversions are of the past. Not since my 29th year, when first I consecrated my life to war against the underworld, have I tripped the light fantastic. I must follow that man."

After this speech, with characteristic modesty, he bowed to the gaping revellers and vaulted through the window into the night. . . The band blared once more. The chandeliers rocked. Corns protested. Horses neighed What dark secret did the Hart House ower hold?

Who lay writhing at the end of the Harbord car-line? When did the III Pass Dishwashing

term test papers disappear?

Young Mosbaugh went flitting off to her smoke-wreathed lair in Whitney (having perforce to be in by the witching hour last night!) and left me, of all pippul, to do her colyum, on top of me own stint. So here goes; let the chips fall where they list . . .

GAPERS FOR THE GRIDSTERS!

GAPERS FOR THE GRIDSTERS!

The fellahs of the various rugby squads have sent out a plea that their games be patronized by more of the co-eds. (Whut about us dunksters, huh?). U.C. has even gone so far as to plan a rally for the gals at 1:15 in the Women's Union in preparation for the game with St. Mike's this afternoon at 3:30. Such a suggestion brings us back to the days when there was some spirit (purely college), and the babes took great pride in flaunting their colours and yelling themselves hoarse over their teams. From all accounts, this year they have something to yell about . . . at least as far as the game is concerned . . . a comparatively good brand of rugby is being played. So whether or not your home team is playing, take a fling, ladies, at going up and making with lungpower on the grid. The finals are being played off next Friday.

SOME DATA . .

In the basketball set-to between Physiotherapy and U.C. on Friday, Physio was victor, 25-18. Alice Brown and Pat Beaton starred for the winners, scoring 13 and 10 respectively, while Taylor (8) and Allison (6) were the backbone of the U.C. effort. A good, clean game, it seems, was played, though the Royal Collegians were a bit longish warming up. Referee's chores were ably handled by Kay Cunningham.

a bit longish warming up. Neurces state of Cunningham.

The battle between P.&H.E. freshies and St. Hilda's saw the muscle molls come out on top 30-12—as shouldn't they? They must have considerable last-minute drive, for the tally was 14-10 at four minutes to go. Their aces: Shirley MacMillan and Joan Christie. For Saints, individual honors went to Anne Corrigan, Barb Wilson and Nesta Chappell. 'Struths, I'd like to have seen that game. The almost illegible inscription on the back of somebody's old envelope see it was "very fast.'

MOVE OVER, SHACKWARMER!

ARTIFICIAL RESPIRATION COURSE

The University of Toronto Athletic Association, with the co-operation of the University Health Service, is offering to men students and staff a course (lecture, practice and examination) on Resuscitation, starting Monday, November 22nd—Debates Room—Hart House—4:45 p.m.

The outstanding authority on the practical application of Artificial Respiration, Mr. Wills MacIachlan, of the H.E.P.C., will be the lecturer.

All men enrolled in Life Saving Courses must take this Course to qualify for their awards. Personnel of the U.N.T.D., the C.O.T.C., and the U.A.T.C. should take the course.

To facilitate time-table arrangements the lecture period, the practical work and the examination will be duplicated as indicated below. This will give all interested students an opportunity to take the complete course in two periods. If interested kindly sign the list at the Athletic Office.

Men who satisfactorily complete the course will qualify for the Resuscitation Service Badge of the Royal Life Saving Society.

> Monday or Tuesday Nov. 22 or 23

School Fourths Defeat St. Mike's

Led by Craibbe at centre position, S.P.S. Fourths marched to a 5-2 win over St. Mike's in Hart House gym last Friday afternoon. Contributing four goals after many sensational ruches, Craibbe was the hottest spark plug of his team. Tamblyn collected the fifth Engineering goal, while Kehoe scored twice for the Irish. The School goalie was a stand-out in the nets, refusing to give up under great pressure by St.

FRATERNITIES

This year Torontonensis is anxious to try something new in makeup and as part of this program we suggest to you the possibilities of informal pictures rather than the traditional picture of Fraternity members.

By informal pictures we mean a shot of one of your meetings or parties, or perhaps an informal group of the members and an action shot as well. Both these would of coure be smaller pictures than the type that have been used in former years but we feel that the result would be a more interesting year book as well as a saving in money for you.

Perhaps you have a photographer in your midst who would like to do the job and if not Hugh Kenner, the Torontonensis staff photographer, who can be contacted at 73 St. George, will be glad to oblige for a reasonable fee which you will find considerably less than that of a state of the state professional photographer.

P.S.—Take a look at the set up of The Arts and Letters Club, page 257 in last year's Torontonensis, if you want to see what we mean.

DOUBLE

in the theatre monde who BILL

with too much ease, the story fifts from New York to Virginia to Reno and back to New York. It's insta a gawdy sophisticated bawble off which the facets are smashed by some pretty grim acting. Diana Barrymore, on the downward and outward path we fear, wears too much lipstick and wiggles her shoulders too much and talks through her nose too much in this one.

We Dive at Dawn is an excellent, crisp underseas version of Noel Coward's In Which We Serve. It's a thrilling document of the activities of the British submarine "Sea Tiger" out after the mythical German battleship "Brandenburg. John Mills and Eric For the sake of the aforementioned between the sake of the aforementioned between the sake of the aforementioned for the sake of the aforement for the sake of the aforement for the sake of the

after the mythical German battleship "Brandenburg. John Mills and Eric Portman are, in a typically British subdued sort of way, terrific. This is a good educator for people who are faintly interested in how submarines operate. operate.

The mystery story is a bigh and com-plex art form. When the motion picture came into prominence it was inevitable that some attempt should be made to

cast the mystery story in
EGLINTON the dramatic setting of
"COTTAGE the screen. In America TO LET" the mystery thriller was sensationalized, was toned down to a "Rover Boys" level, with fast TO LET"

tempo, but little subtlety.

In England however, an honest at-

tempt was made to transpose the literary thriller to the screen, and a picture like Cottage To Let is testimony of the success of the enterprise. Suspense, human interest, and sheer thrills are brilliantly blended in the Hitchcock tradition of English thrillers.

The story is set in the home and laboratory of a scientist engaged in laboratory of a scientist engaged in vital research on aeronautics for the government. His peaceful scientific pursuits are interrupted by hordes of people who invade his home under various pretenses, German spies, British counter spies, policemen, and war guests, all of whom become involved in a web of espionage and intrigue. In the end the most sinister character emerges as the hero while the golden-haired boy turns out to be wolf in sheep's clothing. It all adds up to an original and subtle

piece of entertainment.

The defects of the story are not concealed under a bushel of patriotic sentiments to compensate for any dra-matic weaknesses, of which, however, there are few. Somehow the English picture has retained a realism which Hollywood with all its magnificence has lost, without sacrificing the drama and romance of art to the prosody of reality D.H.W.

New Scholarship In Dept. of Pedriatics

A scholarship in pediatrics has been endowed at the University of Toronto by patients of Dr. Roy Simpson, prominent Toronto pediatrician, who recently retired because of illness. The scholarship will be awarded annually.

Formal presentation of the scholar-ship to the University was made Fri-day night at a dinner tendered Dr. Simpson by the medical staff of the Hospital for Sick Children with which he has been associated for many years, Dr. Alan Brown presided. Dr. D. E. Debetten were in a skip of the hose Robertson, surgeon-in-chief of the hos-pital, received the scholarship.

Memorial

Hart House String Quartet Saturday afternoon saw a fairly large audience, including the distinct element of the young idea, out to hear and ap-plaud the Hart House String Quartet in

For the sake of the aforementioned young idea, the quartet did their version of Bocherini's Celebrated Minuet with the same quiet distiction evidenced at the Hart House concert.

After an unfortunate start due to mistuning, they embarked again on the De-bussy Quartet in G Minor, and made a delightful thing of this impressionistic masterpiece. Their reading of the fugal interlude in the second movement was especially noteworthy, and their climaxes were markedly dramatic,

Of Things To Come

The Canadian Association for Adult Education, meeting last September at Macdonald College, Montreal, laid plans for a remarkable experiment in national thinking, an experiment calculated to unite every citizen of Canada in thought and discussion relative to the post-war Canadian world. This experiment takes form tonight at 8:30 when Canada in the Post-War World. We have read various books and pamphlets on the general subject of reconstruction, we have heard speeches and ject of reconstruction, we have heard speeches and lectures on various phases of the subject, and all were the result of some one person's ideas, and all the association of republics. We are still a part of in the individual efforts were commendatory in themselves whole hemisphere that the university was founded, whole hemisphere that the university was founded.

Much can be gained from a study of future developation. We are still a part of the individual efforts were commendatory in themselves whole hemisphere that the university was founded.

Much can be gained from a study of future developation. We are still a part of the individual efforts were commendatory in themselves whole hemisphere that the university was founded.

Much can be gained from a study of future developation. We have founded the specific part of the following the study of post-war problems.

It has become obvious that every citizen feels a derived from participation in the experiment. It has become obvious that every citizen feels a derived from participation in the experiment. certain interest in planning for reconstruction but the need is apparent for a strong central organiza tion to receive the thought of the nation and weld it into a compact and constructive whole.

This need may well be satisfied by the Citizens' Forum. Under their plan, groups can be formed in every corner of Canada, however remote. These groups will meet each Tuesday to study and discuss various phases of reconstruction in conjunction with a nation-wide broadcast on the subject which can be heard wherever there is a radio. After the discussion each group will sum up its conclusions and send them in to the provincial office of the Forum. The provincial secretary can then summarize the sentiments of his province and report this to the rest of the nation by means of the radio program. Radio forms the backbone of the in a common discussion. New scope for radio is uncovered in this first use of it as a factor in national collaboration on a national problem. A vast amount of time and effort has gone into the organization of this Forum. Nothing has been left to chance, everything is pigeon-holed and ready. Here is an organized discussion, made to order for the busy modern who has no time to waste and must have everything at his finger-tips.

Thank you, Mr. Elephant, I said, and felt alright again now that his presence was explained. It's these unexplained things that get you down. Things that shappen that you just can't understand worry you and you begin to think you're creazy. But everything must have an eventually killed and wreaks (invisible) vengeance on number one.

Attempts to exorcise the harried number one discussion, made to order for the busy modern who has no time to waste and must have everything at his finger-tips. in a common discussion. New scope for radio is

University students, the leaders of tomorrow, should welcome this plan with open arms. Several groups have been organized on the campus already two unhappy ghosts succeed only as far as debut this is a project that can well be recommended materializing them. With a fond farewell and many to many more. If you have any interest in post-war affairs, and what student hasn't, here is a wellarranged discussion group awaiting only a nod of house as they already have of the unities, the conapproval. Any group of five or more people can join the Forum, obtain the study bulletins, turn on the radio and join in the national discussion. Here is an opportunity to participate in a unique experiment in democracy, for through this collaboration

part theory but a beginning has been made and a thoroughly international university is now a reality. Showing the gradual but steady trend toward cooperation among nations and the pooling of resources, this university has been an educators' dream for more than 30 years. It speaks well for the educators of the Americas that this dream did not fade away in the face of disappointment and discouragement out remained strong and growing and has finally been realized this year despite the primary pre-occupation of a world-engulfing war.

The Inter-American University is sponsored jointable as life. . . What do I mean as large by by the American Republics, a remarkable and unprecedented example of international co-operation. The faculty is by no means complete as yet but it is planned to include outstanding scholars, scientists and educators from all of the Republics. Rather an ambitious scheme, but also highly commendable.

The exchange of ideas which would result from tung in the world for a pink elephant to drop around. . . . Might even make close-knit world of the future. Harmony is based friends with the while elephant bear on understanding and from no source will this understanding arise so quickly as from the free and constant interchange of ideas. The Inter-American University will be for the most part a centre for graduate and professional study. It is a university graduate and professional study. It is a university Oh, that was fine. That fixed it all for educated men, a school where they may meet up. Now I was happy. Why shouldn't with men from other parts of the hemisphere to a study mutual problems and participate in a give and take of knoweldee. It will be a control to the participate in a give and take of knoweldee. It will be a control to the participate in a give it was because I hadn't been controlled in the participate in the participate in a give it was because I hadn't been controlled in the participate in and take of knowledge. It will be a centre for a dvanced study in fields of special interest to this
hemisphere. It is hoped that this new university
will help standardize degrees and credits among brain where do pink elephant my
Latin-American institutions as well as provide a

Latin-American institutions as well as provide a laboratory for experiments in special problems relating to the teaching of languages.

The Inter-American University, like all dreams, has a high ideal and great hopes for the future. It is a new experiment and will find many unforseen obstacles in its path. It may never become, as it hopes, the mecca of American intellectuals, but it should account for its existence by promoting undersultant of the many through sometimes I think they does not be dephant tell me all. So the elephant tegan: the CBC inaugurates a series of weekly broadcasts obstacles in its path. It may meet become, as it titled, "Of Things to Come," a Citizens' Forum on hopes, the mecca of American intellectuals, but it should account for its existence by promoting understanding among the Americas. Likewise, this new venture should not go unrecognized and unnoticed

Brisk Exorcise

Royal Alexandra Theatre

"Blithe Spirit" is the sort of play that has caused disruption in this department before, inasmuch as it takes the deadly serious with the light Noel Coward touch. There wasn't any division of opinion in the audience last night, but some few who suffer from this to the rest of the nation by means of the radio program. Radio forms the backbone of the whole scheme, uniting the most distant of citizens in a common discussion. New scool for editions in a common discussion. New scool for editions

Attempts to exorcise the harried number one result only in materializing the hitherto invisible again. And so was I. number two. Further attempts to get rid of the a Cowardly quip, Charles makes a happy exit as the two furious shades make a shambles of the ventions and rationality in general.

First honors for acting in this polished production must inevitably go to Clifton Webb as Charles for carrying through a long and unrelenting comedy

counter in the Engineering Society store No-I never touch the stuff-never.

It was real. Everybody accepted the fact. Dorothy, the girl behind the counter, thought it was the most natural thing in the world for a pink elephant

So the elephant began:
"My father was a red elephant—a
big bright red elephant. He was so big ing to a white elephant. He must have been talking through his trunk. "However, all went well until one day

"However, all went well until one day father was looking around the dinner table at his progeny with a proud smile on his face. Suddenly his face froze and a look of horror came over it. He turned red in the face (a good trick for a red elephant). Mother said why father whal's the matter and father said look—all pink!—So that's why people have been calling me Mr. Tremens. Hello Mrs. Tremens. Hello Mrs. Tremens.

"Mrs. Tremens (my mother) said you brute-I'm going home to mother. And she did. But she never got there. And she took father's favorite back-scratcher. Father sent me out to find her. I've got to bring back that back-scratcher. That's why I'm here—some-body told me I might find a big beauti-

ful white elephant in your store."

Thank you, Mr. Elephant, I said, and

FRATERNITIES

This year Torontonensis is anxious to try something new in makeup and as part of this program we suggest to you the possibilities of informal pictures rather than the traditional picture of Fraternity members.

By informal pictures we mean a shot of one of your meetings or parties, or perhaps an informal group of the members and an action shot as well. Both these would of coure be smaller pictures than the type that have been used in former years but we feel that the result would be a more interesting year book as well as a saving in money for you.

Perhaps you have a photographer in your midst who would like to do the job and if not Hugh Kenner, the Torontonensis staff photographer, who can be contacted at 73 St. George, will be glad to oblige for a reasonable fee which you will find considerably less than that of a professional photographer.

P.S.—Take a look at the set up of The Arts and Letters Club, page 257 in last year's Torontonensis, if you want to see what we mean.

At a meeting held by some of the McGill students inter-ested in weight-lifting, on Thursday evening, it was decided to form a club so as to bring the sport on a par with other campus

To the ordinary Pass student his history professor or economics lecturer is an unknown quantity in a more or less tattered gown who strides into the lecture room, delivers himself of fifty minutes worth of his favourite subject and then stalks back to his mountain top to live in unapproachable dignity until his next eight thirty. Deplorable as it may seem, may undergraduates spend three long years at Vassity without ever getting closer to a professor than the first row of seats in a lecture room.

These are not excuses . . . they are FACTS. If the game had meant life or death to our team, some of these men might have played, but we couldn't risk further aggravation to their injuries; it wouldn't be fair to any team who hope to do their best in the play-offs.

be fair to any team who hope to do their best in the play-offs.

The Coach also saw it advisable to rest two men who had played more than 40 minutes in previous games. That is certainly up to the Coach as these men were showing signs of wear. With nine missing regulars our Coach filled in with two upcoming players who had attended every practice, but had not made the team. This was certainly fair. One other player was a semi-regular in that he had played in half the games U.C. had already played. One other manand I emphasize this—ONE OTHER MAN ONLY, who had not even practiced with the team, was given the opportunity to play, and he grasped it willingly. He was a track man of some renown and we thought that he might be O.K. Unfortunately he was the man who wrote yesterday's S.O.S. He wasn't conscripted to play—he wanted to. He didn't know the plays—but if he had been interested he might have learned them before the game.

This man voluntarily played for U.C. and he, the only new one among the lot, naturally didn't know hom kany of the regulars were out. Naturally he didn't know that seven stars were injured or in bed. But yet, even with such scanty information he took it upon himself to write an S.O.S. casting disparaging remarks at a team he knew nothing about and on which the was so eager to play.

These are the facts, and anyone wishing names of those missing from the line-up and the reason, may find same by a sking yours truly.

So U.C. had 11 regulars, three semi-regulars and one stranger. It is undoubtedly a very delicate problems . . . to same opinion concering them as our friend Mehitebel, "Always a lady, boss, in spite of hell."

All you mermaids ought to take advantage of a free dip in the Lillian Massey gym from 4:30 to 5:00 any afternoon. We are quite sure that noor of the babes from freshies to seniors are all wet, so whip up to the pool some day, and throw your svelte forms around, from the line-up and the reason, may find same by a sking yours truly.

So U.C. had 11 regulars, three semi-regulars a

These are the facts, and anyone wishing names of those missing from the line-up and the reason, may find same by asking yours truly. So U.C. had II regulars, three semi-regulars and one stranger. It is a pity that the almighty stranger, who holds such an important post on The Varsity, should utter such ill-founded accusations without first acquainting himself with the facts.

What if the score was 26-1, weren't two touchdowns from fumbles? Perhaps the play was a little one-sided, but after all Army had a play-off berth at stake—U.C. had nothing. U.C. fought to win but they never had the do-or-die attitude due to the fact that there was nothing at stake. If our friend knows anything about psychology he would see this plainly.

Our friend (who is, by the way, a U.C. man—?—) had the nerve to state that "the players adopted a very disinterested attitude toward, and failed to show up for, the game." Where are his foundations for this statement?

In essence his entire column was one of blather based on a severe lack of facts. It is a pity that some people in a position where their statements are well read, think their remarks can pass unchallenged. Yesterday's S.O.S. was the opinion of only one man; it was baseless

FARTHEST-NORTH CAMPUS HAS OVER 300 STUDENTS

Fairbanks, Alaska — The world's "farthest north campus" is located a few miles out of Fairbanks, where the University of Alaska brings arts and sciences to a student body which includes housewives, soldiers, and construction workers. One of the big attractions is the night school, because that of the regular daytime school.

The agricultural extension department holds classes in gardening, bootly, home economics and sewing at the leading cities of the Territories and in construction and military camps. The most popular courses on a rapidly changing curriculum are radio, navigation, languages — including Russian—and music. Other centres in Alaska desire educational facilities and a site for a Junior College has been selected to collect their friends and turn out of the Territories.

The members of the team were introduced and all those present were urged at the Central Miles of the Curistian Most of the U.C.-St. Mike's game in the afternoon.

NOT MUSCLE MOLLS THIS TIME!

P.H.E. came through again last night in the field of basketball when they chalked up 46 points to the senior Saints four. Virginia Kitto (of tennis fame) made a neat nine baskets for the P.H.E. seniors, while Joan Davis and Connie O'Connor maintained their usual good play. The majority of baskets was netted by Davis for the Phys. Eds. A couple of the Trinity team were forced out of the game by illness but Betty Hungerford, Joan Bartlett and Betty McLean managed to put up a good fight for the Black and Reds.

NO MIRACLE THIS!

U.C. juniors took Vic freshies 10-7 in their game last night. It was a fast, legitimate match, what with no defaults or such to the Royal College. Joan Robins, Betty Fullerton and Janet Young upheld Vic, while K. Spencer was the star of the evening for the Red and White. She managed to snaffle the greater part of the points for the juniors and all in all made an excellent showing.

LADIES IN SPITE OF . . .

The intermediate team of P.H.E. trounced Trinity freshies 22-16. It was a comparatively slow game with Joyce Little, Helen McNeill and Ruth LePage playing Trinity's best game. P.H.E. found its aid in the persons of Betty MacIntosh, Helen Sheppherd and Fran Paudene

art, music and drama

skill and effectiveness. The third move-ment is modern in treatment with flavors of former themes wafted back from time to time. The transitory melody was reinforced with striking but

satisfying harmonies, somewise iscent of Macdowell.

But the real musical treat of the levening was yet to come in the superbarrangements of poems by William spirit rather than the style. Blake, Swineburn and two Indian Songs from the Nass River. Here one really saw the genius of the composer in his inspired complement of words and music. The songs on the whole were classical in temperament and almost operatic in breadth of style and variety operatic in breadth of style and variety operatic in breadth of style and variety operation. There is the same richness of subdued color, the same love of subdued color, the same love of textures, the same sense of plasticity. with her beautiful voice, which could slip with ease from a high clear sotto voce to a rich full contralto.

The short cycle by Blake, The Voice of the Bard and Earth raised up her head, were stirring and strange, in perfect harmony with the words. The two songs of Innocence (William Blake) were a delightful contrast shot through with gaiety and laughter and the joy of living The two Indian Songs brought a complete change of mood in their pathetically pleading melodies, their weird soul-searching plaintiveness. Whose Brother om 1? was especially Whose Brother on 1? was especially wonderful. A Roundel, My Mother Sea (Swinburne), needs special mention and I feel it definitely has survival value.

The concert closed with a trio, A Border Ballad, rendered by Prof Smith, Miss Duchemin and Pearl Palmason, Miss Duchemin and Pearl Palmason, violinist. This composition is distinctly Scottish and is short and snappy, with delicate variations which become more complicated, ending with a strong rhythmic dance. The evening left one that a face is not just so much "flesh" Schlesinger. That's all folks!

ELIZABETH HOPPER.

Debut

Mary McDonald

In her professional debut last night, Mary McDonald did herself quite proud. There were moments of uncertainty as far as this part of the audience was con cerned, but on the whole the piano playing was indeed acceptable.

The selection of the program was ex-cellent, comprising in the first part some Bach, Beethoven, and Liszt; and in the second a Schumann, and a group of Schubert—A group of songs:
Chopin. It was curious in this recital how the composers seemed the per

let's go places

Don't be suspicious about the title, it tells you everything. Starring Adolphe Menjou as the charming old crook and Martha Scott at his troubled daughterin-law, this comedy is a perfect review of all the gags fit for

On the other hand, the Irish Poet and the Minstrel smoulder with inner emotion, and the portraits of children in their happier colors, show lives as yet unsoiled by Life's struggle.

Alfsen's landscapes are the product of his relaxation from the concentrated effort of his portraits. However, in the Rocky Point we find the same clarity of modelling, and in Forest Gloom and Rossedale Ravine the same mysterious chapters. The color is poor in several of these minor works, especially the greens and blues, and the pigment is uncertain in its handling.

The best when nainting his seene in protest of Negri's singing (and the Minster of the product of the marinage (Lohengrin, not Mendelling, and in Forest Gloom and Rossedale Ravine the same mysterious chapters and blues, and the pigment is uncertain in its handling.

This is art that will stand the test ceptable ground of political intrigue apparently. If you are waiting for the unavoidable German U-boat, by the way, it occurs right at the end. The way, it occurs right at the end. The best acting was done by the butler, that man with the lovely British accent whom you have certainly seen before.

THE UNIVERSITY OF TORONTO, WEDNESDAY, NOVEMBER 24, 1943

Bishop Tsu Visits Varsity Campus Youth Conference Delegates Named By CAMSI, S.A.C. Thanked By Council

Speaks to Students of Trinity and Emmanuel Colleges on Present-day Chinese Religion and Education

SAYS CHINA DIVIDED

Bishop Y. Y. Tsu of Kunming, South-west China, spoke to the students of Emmanuel College yesterday morn-ing and to Trinity College students in evening, discussing the present state of affairs regarding religion and educa-tion in war-torn China.

At Emmanuel the Bishop stressed the

cleavage in both religious and economic matters that is evident between the sections of China that the Japanese have tions of China that the Japanese have occupied and those that are still free. The world's largest source of tin has been removed by Japanese occupation so that now the largest available source is in China, where, the speaker stated, mining methods were pitiably primitive. The tin in China is mined by children because the "gopher holes" have to be kept small to avoid cave-ins.

kept small to avoid cave-ins.
Japanese occupation has correspondingly split even the Christian Church, the Bishop stated. The Japanese, he explained, are employing Christian ministers to back up their aggression. Four pastors hase been appointed by the Japanese army to force unity on the Chinese churches in occupied ter-ritory os that they can assist in the general scheme of Japanese imperialism.

Speaking in the Rhodes Room, Trin-ity College, he said that the people in China believed that the war in the Pacific would be over within two years, provided a direct attack was made upon the Japanese. In answer to a question as to the quality of China's fighting men, Bishop Tsu said that with air protection they were good but without it they were hard-pressed.

At present the Bishop is on a good-

will mission fro the Chinese government. He hopes to obtain enough money to creet better churches in China after the

Ambassador From Kunming

A striking contrast is offered to those who care to look at it between our attitude toward China not so many years ago and that we now hold. It was not so long ago that Robert L. Ripley estab-lished the fame of his "Believe It or Not" cartoons with the amazing statistical fact of The Marching Chinese. In those days the western world was for the most part still interested in China only as a strange land of the Orient so wonderful and so different from the lands we knew. Today we are engaged in a great war against the enemies of our way of life. Also engaged in that war, far longer than we, are the Chinese. Our alliance in this struggle has been the means of bringing sharply to our attention the fundamental community of ideals and interests which exist between our nation and culture and those of the Chinese.

War has brought us a greater feeling of brother-hood with China, but, although the more recent phenomenon of the marching Chinese universities, the flight by foot of students and staff before the advance of the Japanese, is familiar through frequent repetition, we know remarkably little of China even today. Indeed we know little in detail even of the familiar.

Because of this extreme lack of knowledge on which to base our understanding of China we are especially grateful for the visit being paid this University by Bishop Y. Y. Tsu from Kunming. Bishop Tsu is an especially apt ambassador for us to receive. A charming and humorous gentleman, he is alert to all phases of life and particularly well informed on Chinese Universities, since he is closely connected with the four now located in Kunming through his position as chairman of the district Student Relief Committee

There will undoubtedly be opportunities for every-one on the campus to hear Bishop Tsu speak during his stay here, for his speeches and appearance will be numerous. Our good fortune on the occasion of his visit, therefore, is not merely that of a vague body called "the University," but literally the personal good fortune of all the individuals who

Standing Need

snow will fly in cold, uncompromising carnest, and few, if any, of the cyclists who now ride to school each morning will be able to continue. Therefore what we are about to say has little present point, but we say it here because by the time cycling becomes possible again The Varsity will have ccased publication and hied itself to the

library in terror of approaching examinations.

Then, too, if our recommendations here are followed up our making them now will give the University carpenters something to do in the long winter months. What we speak of is the urgent need for bicycle stands on this campus. The tangled flawlesly played. Too often the Chopin études give mass of steel tubing and spokes that lies jumbled the impression of being "pianists' music" and few mass of steel tuning and spokes that hes jumpled the impression of being plants musical value. How-each day under the arch of Soldiers' Tower should laymen realize their actual musical value. How-long ago have communicated a mute appeal to the ever that may be, Mr. MacDonald managed to long ago have communicated a mute appeal to the suitable department of the University.

In some parts of the campus alert janitors have In some parts of the campus alert jantors have taken exception to students leaning their bicycles the Pastoral, opened the program but the pianist against buildings, trees and fences and have taken was not "warmed up." But by the time the Choppid

them to uset the stands. We know, we received one, but since we found it in the bottom of a crammed basket long after it had ben given we had no idea exactly where we came by it. We do know, how-ever, that on that day we had seen no bicycle racks anywhere we had been on the campus.

Exactly what damage bicycles do to buildings by leaning up against them we cannot tell, but standing in the open and being jumbled together with many others can cause an appreciable amount of damage to spokes, tires, paint and leather fittings.

An excellent start in providing stands has been

made by Victoria College which has provided a long stand in the shelter of the St. Mary's arch of Burwash Hall and at least one other in the open. Trinity residence has another protected rack, and there is an open rack between Baldwin House and the Forestry Building.

Although the number of places where bicycles can be protected from the weather and still not be in the way of traffic are not numerous something more orderly could be provided under the Soldiers' Tower and still leave room to pass through. Less protection is provided behind Hart House, but there is a lot of space there that could be utilized for parking bicycles if suitable racks were provided.

Correspondence SPORTSMANSHIP

November 23, 1943.

I read with great admiration the Sports column of Monday, November 2nd, in which Phil Shackleton freed U.C. for unsportsmanlike behaviour regarding the U.C.-Army game. I read with great dismay The Varsity's Sports column of Tuesday, November 23rd, where two U.C. men added further to U.C.'s disgrace as a sporting power, by criticising "Phil' for fairminded, just, critcism.

If seven of U.C.'s football players could rise from sick bed, charley horses, cracked ribs, etc., to play the hell for leather game they did against St. Mike's then the age of miracles is not past.

In three short days these bedridden cripples cast aside their beds and rose to the heights in the greatest show of fight that I have seen lately in Interfaculty competition. True, they won the fight, but men with cracked ribs and charley horses don't Interfaculty competition. True, they won the fight, but men with cracked ribs and charley horses don't purposes from the catalogue of Messrs. rise to such lieights or even play after a short three days rest. The best footballers would remain out. In an attempt to get the real lowdays fest. The best footballers would reliable out of play two weeks anyhow with such ailments. Yes, down on the story, Razbry tried to U.C., you hit one of your greatest, most respected men, when you allowed your prejudice for your school to overshadow your ideas of true sportsman-ship. great migration of learning with which we are all school to overshadow your ideas of true sportsman-

ship.

Personally, I admire the kind of fight shown by U.C. all season—except ...
respect every man on their team except for the way they played against Army. Phil Shackleton showed "guts" or intestinal fortitude in writing against his school. Why should he suffer criticism through the last clause, reminding him-tune neople who cannot see past the ends of their criticism two neople who cannot see past the ends of their should, that it contained editorial com-U.C., play the game. Fight your way to that Mulock Cup, but don't hit a guy low who told the true You got the fighting spirit to live it down. I myself like your fighting spirit, but please, we can do without unsportsmanlike play and unsportsmanlike editorials.

TOM COONEY.

Technique

Informal Recital

The second in the series of informal Tuesday noon-hour recitals at Hart House was given yester day by James S. MacDonald, III U.C.

The program was very well chosen, consisting of pieces particularly adapted to the performer's style. This was evident in the Beethoven Thirtytwo Variations on an Original Theme, which gave Mr. MacDonald ample opportunity to display his technique. Similarly the Chopin Etude, Op. 25, No. 9, better known as the Butterfly Etude, was make it something more than a show piece.

The Scarlatti Sonata in D minor, often called to bestowing little tickets on the offenders requesting Ballade in G minor came around, Mr. MacDonald Smetana—Quartet in E minor

Steam-Driven Is Still

Startling Expose in Yesterday's Varsity Reveals Secret Twice removed by Defence Minister

RASBRY SCORES SCOOP!

The Defence Minister, the Munitions and Supply Minister, five Protestant Ministers, as well as Yorkminster and the spinster missionary newly returned from inscrutable Dhownpore are all mad at The Varsity for revealing the secret behind the Dominion's new se weapon. This secret weapon was up to yesterday so secret that all Press Censors had been sworn not to take any note of i note of it if they started talking

The secret was uncovered by The Varsity's ace reporter and sponsor o illegitimate typography J. Hank Razbry in the course of an attempt to find out nt the course of an attempt to han our exactly how far a person could travel on a Wellesley transfer. Arriving at length outside a large workshop north of the city Razbry found his way blocked by heavy guards. However, he succeeded in getting inside by passing histories of the commence and selfhimself off as a newspaperman and sold a course of reducing exercises to the guards at the same time.

Once inside Razbry extracted the ecret of the place from an amiable riveter by plying her with superlatives, exclamation points and learned adjec-tives (which baubles he had foresighted-

This was the clue which revealed to him the fact that what was being passed off secretly as a Rocket Plane was really a still, and dirty School was, as usual, getting in on the ground floor. (As this thought ran through his mind

Since the story burst forth in the pages of The Varsity yesterday, numerous government ministers have expressed disapproval of The Varsity's action in publishing it, but have agreed action in publishing it, but have agreed not to prosecute under the Defence of Canada Regulations. "After all," one of them remarked, "It was only in The Varsity. The whole business is still a secret. They might have been more careful, though, and put in on page

Sr. School Defeats Army Squad; To Meet U.C. In Rugby Final

with Superior Plunging Out-

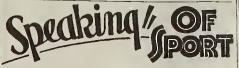

ENDS UP 25 - 7

In yesterday's encounter, the result was never in doubt. Sr. School outfought and outsmarted a game and well-conditioned Army squad. School's great advantage lay in the line, with Sweeney advantage tay in the line, with Sweeney Cross, Bill Moffat and Danny Collings showing as gool line play as we've seen this secason. As usual School used power tactics with center line plunging gaining most yards. Army fielded a lighter but well-balanced squad, featuring some fine passing by Neale and hard plunging by Johnny Tamblyn.

On the kick-off, Howson of Army returned Clare's kick, and it was School's ball at center field. Bucks by Clare and Seymour made yards, but the same combination failed to repeat, the same combination failed to repeat, and School kicked to the Army 15. Bill Neale hit for three and Rocky Howson kicked to Ross Clare who ran it back 25 yards to Army's 40. Evans made five through the center and White drove 20 yards to the Army 15. A pass was good for five, and School fumbled with Army recovering on their own seven. Teachban plunged three yards, a pass was Tamblyn plunged three yards, a pass was incomplete, and Howson kicked to Seymour on the Army 40. Vern Booth made five through the center, White was held, and Clare booted to Neale who just got out to the one yard line. Army kicked on first down, and Booth fumble.

School Barges Through Army and Howson booted to Brian White at center field. Clare was stopped, an endwith Superior Plunging Outweighing Passes by Lighter,
kick, plus a Is yard penalty saw Army

held, and Rocky Howson kicked a long one to Booth on School's five. Seymour made nine on two plunges, and School booted to center field where Neale was Sr. School handed Army a real trim-ming 25-7 in the semi-final football game played at Varsity Stadium yesterday afternoon to decide the Mulock Cup finalists to meet U.C. on Friday.

own 35. Two end-runs failed and Clare booted 60 yards; Neale ran it to the four yard line, but on the first play Army fumbled and Damy Collings re-covered for School on Army's five. Clare made two yards, White was held,

Phil Shackleton

ADJOURNMENT ...

pass, Howson to Grierson, was incomplete and an end-run lateral was intercepted by Henry at the quarter.

As the second quarter opened, Clare kicked 45 yards to Tamblyn who was stopped abruptly by Chunkie Moore.

A plunge was stopped, Army made cight yards on an end-run, Neale-Howson-Grierson, but failed to make yards on a buck, losing the ball on their own 35. Two end-runs failed and Clare known 35. Two end-runs failed and Clare booted 60 yards; Neale ran it to the four yard line, but on the first play Polytical was been presented with two sides of a case set forth by two different people. For the first time this year the student reader is in a position to judge after a digest of evidence from both parties involved in a case. The athletic directors responsible for yesterdays column, and we who were responsible for Monday's, have all said our respective says. True, there were a few matters brought up yesterday for which we feel the authors should be rebutted, but these are purely personal and deserve no space on a page devoted to more important matters. Let posted to more important matters brought was a fine-up position. As far as we are concerned the case is adjourned.

POLISH UP THAT TROPHY . . .

Army fumbled and Damy Collings recovered for School on Army's five. Clare made two yards, White was held, and Seymour drove across for a touch. The concert went wide.

Army kicked off and Clare was stopped at the School 40. An end-true and wide buck were stopped and School kicked to Army's 30. A fake end-run pass was intercepted by Seymour. Clare kicked on first down and Neale was stopped by Moore at the Army 30, Army was held and finally kicked to center field. From here Clare kicked to center field. From here Clare kicked to eater field. From there Clare kicked to eater field. From here Clare kicked to sentury and Neale was rouged by Moffat and Craibbe. From their own 25, Army marched to the School 35, featuring fine bucks by Tamblyn. A kick saw Booth receive on the School 30, at the half.

incomplete, and Howson kicked to Seymour on the Army 40. Vern Booth made five through the center, White was held, and Clare booted to Neale who just got out to the one yard line Army kicked on first down, and Booth was stopped at the Army 30. Hall Seymour made five, as Currie, Moffat and Henry made a nice hole; and end men failed, and Howson received a short School kick, being smeared by Craibbe and Cross. Army plunges were held,

it went wide and Clare was rouged.
Clare kicked after a plunge and endrun, and it was Army's ball on their 35. A pass by Howson was intercepted by Georgie Evans who ran 35 yards for a major which Clare converted.

School Mermen
Take PHE 24-9
S.P.S. III swam to a convincing

The fourth quarter started as Howson kicked off to White at School's 30, and a School fumble on the next play was recovered by Army. With two passes they advanced to School's seven; two plunges failed and Neale threw a third down touchdown pass to Grierson. The down touchdown pass to Grierson. The convert was good. Clare kicked off to Howson and an Army pass was interto Howson and an Army pass was mercepted by Clare who raced 20 yards for a touch to really put the game on ice.

The convert was blocked. The Army tick-coff was stopped by Collings on School's 45. School made yards, and a Clare kick sent the ball to the deadline. second and third to make the score 13-8 (Clare kick sent the ball to the deadline. Army were held and on the exchange of kicks Clare again kicked to the deadline. Again at the 25, Army made yards and then on a lateral by Neale, Doug. Keary intercepted to romp 45 yards for a touchdown. The convert was blocked and scoring ended with another kick to deadline by Clare. Senior School—Collings, Currie, Moffat, Cross, Henry, Moore, Craibbe, Booth, Clare, Seymour, Keary, White, Evans, Hicks, Newell.

Army Course—Miller, Prasky, Frood, Short, Cooke, Shaw, Casburn, Grierson, Tamblyn, Howson, Mather, Neale, Arnutt, Bobbie, Gardner, Lytle, Hill, Down, McNichol, Cummins.

wn, McNichol, Cummins

in the time of 1.22 to gain their hist three points. They picked up six more points in the 50 yard back stroke race when Leitch and Boa finished first and third respectively. Lane of Physical Ed. finished second. The winning time was 39.6.

Sturgess of P.&H.E. finished first in the 50 yard breast stroke race in 36.3 and Rimmer and Boa of School finished second and third to make the score 13-8 in favor of the Engineers.

The Sportswoman

Betsy Mosbaugh

AT LONG LAST!

AT LONG LAST!

We can legitimately call ourselves a "tired old Sportswoman", today after struggling off the courts at St. Hilda's, where Virgina Kitto made her entrance into the final round of the gals' tennis tourney. She trounced some untutored babe in the sport's department by taking two straight sets, 6-2, 6-4, and what with this Kitto's ambidexterity, the poor untutored babe was at a definite disadvantage with no backhand at which to shoot. Aside from her quick-like-a-flash racquet changes she also exhibited excellent eye for placing her shots right smack on the line.

The other half of the semi-finals hasn't been played off yet, but inductively we proffer the suggestion that Virginia McLeod will be Kitto's opponent in the finals. For the last three years these two damsels have vied with each other for the University championship. McLeod halfs from Vic, while Kitto is one of the ladies of PHE. The last round promises to be worth seeing, especially as both participants graduate this year... So good luck to both of 'em.

THE BURNING QUESTION

It seems that there definitely won't be any fencing until after Christmas at least. The W.U.A. are still deciding the problem of price and will probobly arrive at a conclusion within the next two weeks. Tentatively, the arrangement is that owing to the shortage of badminton birds there might not be any badminton this winter and fencing would supersede this sport. Although it would be another case of the old, giving place to the new, we hate to see badminton go the way of all flesh. Perhaps some of you veteran athletes can resurect tattered old birds which can be patched up..., quite a few badminton tournaments of last year were fought out with refeathered birds. Both of these sports have all the qualifications necessary to attract interest enough to make them go. Provided that birds could be obtained, it seems a shame that one should be sacrificed for the other.

OLD STUFF REVIVED

We were out running the gee-gees at the Kingsway Hunt Club last Monday and overheard some crowd or other making arrangements for a monlight ride. We admit that from apparant evidence the idea of a University riding club has fallen through, but if a large enough group were willing to take a stab at this sort of a party we definitely promise that this time itt wouldn't fall through. The rates would be as usual (50 cents per hour) with a dime for bus fare. Such a gathering has possibilities and would be a new innovation for extra curricular affairs. The horses are about the best we've seen in Toronto, and lack the usual stable habits so common to most riding schools. If you are interested get in touch with us at Cody House.

AND SO VICTORIA...

AND SO VICTORIA . .

NID SO VICTORIA . . .

Vic seniors took a round 38 points to O.T.'s 4 in basketball last night. There was a minor accident ot one of Vic's best guards, Joan Campbell hurt her ankle, but from the score it would seem that the Scarlet and Golds managed fairly well. O.T. found their main support in Peggy Heatly and Dodie Barnhart. Vic was upheld by Mildred Donaldson, Shirely Pearce and Helen Patrick. Special mention was made of the refereeing which the gals thought very fair.

The junior team of the Saints played School of Nursing in the other game last night and the result was 14-9. Williams and Robinson as forwards, did a fine job for the Nurses, while Cooper as defense also executed an efficient position of guarding. Corrigan, Chappel and Cockeram were the stars of the Saints.

more theoretical sciences, Bishop or more theoretical sciences, Bishop Tsu remarked. "They now exchange engineering for mathematies, and eco-nomics for political sciences," he said. Literature and—the arts are "at the moment, a luxury." Under China's "selective conscription"

Under China's "selective conscription" college students are exempt from mili-tary duty, although like everyone else in the country they must do labor ser-vice, a certain number of hours of essential work a year. The Air Force and Officers' Training College draw on college graduates extensively, espe-cially since the new expansion of the army the need is for men who already

Questioned about Japanese news cen-sorship in occupied China, the Bishop replied that it was reported there was rigid supervision of all papers—with the exception, however, he related with a chuckle, of the Russian news agency, Tass, in Shanghai. As neutral to Japan, the Russians are allowed to print what-ever they wish about the Russian theatre of war, and through this one loop-hole, occupied China can guess the progress of the European war, to the great discomfiture of Axis circles.

of Trinity College, where he is staying during his visit. He will be at the University throughout this week and is speaking to various campus gatherings.

U.C. Players' Guild Casts for Three Plays

Last night the U.C. Players' Guild met in the Women's Union for final casting of the three one-act plays that the Guild expects to present on Dec.

Berlin, where he taught at the unithe Guild expects to present on Dec. 10 in the theatre of the Women's Union.

The first of these plays is entitled "The Wedding Morning." Written by Arthur Schnitzler, one of the foremost 20th century authors, it tends towards sophistication

sophistication.
"Checzo," by Lord Drunsany, a 20th century Irish writer, is the second play, It is a bitter tirade against certain types of food manufacturers but the edge is taken off the bitterness by a certain amount of humor.

Shaw is the author of the third play, entitled "Poison, Passion, and Petrifac-tion" or "The Fatal Gazogene" (which is another name for soda water). This is a ridiculous—but ridiculous—farce, according to Martin Clenman, president of the Players' Guild.

"The School of Law Review," published by the undergraduates of the University of Toronto School of Law, is scheduled to go to press during the first week of December for its first issue this year, Bob Alexander, IV Law, former Executive Editor, told The Varsity yesterday.

Successor to the mimeographed sheet the "Court Crier" the Review was conceived last year to give the School of ceived last year to give the School of Law a magazine on a permanent basis, and by having it printed to make possible the addition of cuts and a certain amount of advertising.

This year's issue of the Review will have much the same format as did their predecessors. They will contain two or three serious articles by well-known authorities on timely legal topics, and stories by students of other Law Schools about activities on their camp. conclusions are to be sent to provincial headquarters and a summary of all re-ports will be given at the close of each

actual Forum itself. On the campus there have been three groups organized at St. Hilda's, one at Trinity and one at the U.C. Women's Union.

struggle.

Bishop Tsu is speaking at the Trinity
College chapel service this morning, and
later today at an open meeting in Victoria College. Tomorrow he will lead
an after-dinner discussion in Wycliffe
College and in the evening he will address a joint meeting of the International Affairs Club and the International Students' Club.

they have been at any of their previous recent appearances here. Perhaps this is the result of the longer stand than the usual one-nighter, or perhaps they are just tired. Or it may be the more intimate atmosphere of the Kingsway.

Perhaps the biggest point about this band is that it effectively refutes the bias held by "long-haire" at the standard of the longer hand the mice;

beat of the same minded Professor Primrose who couldn't remember to shave both sides of his face?

He discharged the dog and took the cook for an airing;

He frequently lit his hair and combed his cigar;

He set a trap for the baby and dandled the mice;

beat of jazz restricts musical imagina-tion to the detriment of the art. But any tune from the Ellington book proves this prejudice to be just so much eye wash. For the musical imagination possible within the rigid jazz beat was spotlighted in a series of tune featuring spotlighted in a series of tune rearring the men in Ellington's band individually. There was alto Johnny Hodges in, of course, "Don't Get Around Much Anymore," and trumpeter "Tab" Jordan in "Tea for Two." Jr. Faglan, the most knocked-out character in the band, and the boy who threatens to surpass the achievements of Jimmy Blanton, made with the dog-house on "Jack the Bear." With the dog-noise oil jack the Bean.
Skippy Williams, successor to Ben
Webster, and terrific on gravel-toned
tenor, did "Cottontail." In this tune
the sax section work was tops.

Valve tram man Juan Tizol rhumbaed his own tune, "Caravan," and Ray Nance, one of the greatest showmen in the biz, did vocal and choreography in "Slip of the Lip." Rex Stewart, back with the Duke again, unfortunately displayed poor taste in his latest version of "Boy Meets Horn." Among many other gutty renditions, Betty Roche did a good job on "'A' Train." Attention must be called also to the relaxed attack and the source of the Women's Union at 4:30 p.m.

THE UNIVERSITY OF TORONTO, THURSDAY, NOVEMBER 25, 1943

Undemocratic Parties Conference Censured By Dennison

Socialization of Public Services Falling Under City Government Easily Prevented by Receives C.M.G. Reactionay Council

reactionary civic government blocking reform measures advanced by a C.C.F. federal or provincial government," stated William Dennison, Toronto alderman for Ward Two, and M.P.-elect to the provincial parliament, in an address to the University C.C.F. Club at Wymilwood last night.

Mr. Dennison indicated the many es sential public services which fell under the jurisdiction of the municipal govern-ment, and stressed the facility with which a reactionary city council could prevent their socialization by the C.C.F. He went on to outline several reforms which the C.C.F. alderman on the Toronto City Council had fought to stitute such as fire insurance, public control over coal delivery, and the organization of milk delivery routes in

"The reforms we suggested," Mr. Dennison, "have been successfully blocked by Queen's Park in many cases, but we are continuing the fight and a few more progressive aldermen on the City Council will be of valuable assistance." The removal of proptery quali-fications for the vote in municipal elections was another measure quoted by Mr. Dennison as part of the policy of the C.C.F. in municipal politics.

Mr. Dennison went on to discuss the broader aspects of the C.C.F. in the province of Ontario and in Canada as a whole, stressing the loss of strength of the older parties. "The August elections," he stated, "were actually a defeat for the Progressive-Conservatives, which derives its name from the charbut they were saved by the even greater landslide which crushed the Liberals."

He emphasized the undemocratic nature of the party organization of the older parties, calling attention to the fact that they had held very few national conventions in recent years as compared with the C.C.F. He also mentioned the lack of consultation existing between the party leaders and the rank-and-file members as evidenced by the fact that the rank-and-file body of the Ontario (Continued on page 4)

REFORMS BOCKED SO FAR

President H. J. Cody appeared among mission for the Ontario Youth Couterence to be held at the Ontario College of Education this coming week-"The C.C.F. considers it advisable to run candidates in municipal elections in Commander of the Order of St. order to prevent the possibility of a reactionary civic government blocking reform measures advanced by a C.G. st. of the Commission, told The Varsity posterday. Registration will continue reform measures advanced by a C.G. st. of the Commission, told The Varsity posterday. Registration will continue reform measures advanced by a C.G. st. of the Commission to the Commission, told The Varsity posterday. Registration will continue reform measures advanced by a C.G. st. of the C. and decorations for distinguished service to the State were presented to 107 persons in compliance with announcements in the King's Birthday list or from time to time by the armed services.

The Earl of Athlone presented the awards individually in an informal ceremony and afterward entertained the recipients and their relatives at a re-ception and tea.

Bishop Tsu Will Discuss "The Future of China"

Today Bishop Y. Y. Tsu of Kunming, South-west China, who is currently visiting the campus, will lead an after-dinner discussion in Wycliffe College. Youth Movements Visitors' Day Sunday Run Dictatorially

The German Youth Movement can be described as an institution at the opposite pole from the Canadian Boy Scout movement, said Heinz Warschauer, refugee from Berlin in 1939, now taking graduate studies here, in an address yesterday. He spoke to the University German Club at the Women's Union.

"While a boy scout is free to do as he

men's Union.
"While a boy scout is free to do as he
pleases," said Warschauer, "members
of the Youth Movement are ruled
dictatorially—just as the country itself

is."

Warschauer, who was the leader of a Jewish Youth Movement until it was dissolved in 1934, described the moral discontent following the last war as the reason for the trend toward youth groups. Also at the root of youth dissatifaction was the rash discipline found in elementary schools and lack of understading from stern German parents As a result, he pointed out, young people gathered in groups, and "instead of singing 'Pistol Packin' Mama' for

MEDICAL RELIEF NEEDED

Bishop Y. Y. Tsu of Kunming, South-Bisnop Y. Y. 190 Kumming, South-west China, spoke at an informal meet-ing yesterday afternoon in Alumni Hall, Victoria College, on the subject "Stu-dents in China Today." As chairman of the Student Relief Committee in South-west China, Bishop Tsu first expressed his appreciation to the students of the University for the money which they had sent to help Chinese students.

Bishop Tsu stressed the co-education in the universities and colleges of China, which has been one of the significant changes of the last eight years. All social barriers which previously did not permit social intercourse among men and women have been lifted and the ability of Chinese women and girls is now, fully recognized. This invavities now fully recognized. This inovation did cause some disturbances at first, but now the Chinese woman naturally oc-cupies a place in the community on an cupies a piace in the community on an equal basis with men. The fact that a woman is a member of The People's Political Council, a committee of five people which is the highest political organization in China today, is remarkable evidence of the non-distinction between the contract works. tween men and women.

In contrasting war-torn China to America, Bishop Tsu said, "You don't know what war means in terms of food and lack of this and lack of that." The students, professors and clergy of China all live in poverty and starvation. In the universites no text books are used because they cannot be secured and the libraries are lacking in books. Pencils and note paper are very expensive. The Student Relief Committee supplements money to the students whenever they think it advisable but the students work for I5 hours a week in order to carn a

Bishop Tsu emphasized the great need of medical relief by both students and professors. What few supplies do reach China are far too expensive, especially ether. Hospital fees are so high that if a student is in need of

THURSDAY, NOVEMBER 24, 1943

A Co-Operative Venture

The co-operation of all youth bodies in compiling a report on youth's problems in the post-war world is being asked by the Canadian Youth Commission citizenship and other areas, is the first such body least in the field of music. to receive adequate financial backing for such a progovernment and other bodies.

Such a report, to be truly effective, must contain the well-digested views and ideas of all youth groups in the nation. In preparing for the approaching conference the Commission allotted tentative quotas to various church, labor and recreational youth groups. The universities of the province were given quota of 50. Of this quota registrations to date from this and other Ontario universities make up less than half. Undoubtedly the expense of travel a deterrent to other universities' representation, there can be no such reason for this University not being fully represented. But more than full representation will be necessary from Varsity, for in order to make up an adequate proportion of university representation at the conference we shall have to replace those unable to come from other uni-

The Opportunity Offered

an active share in a non-partisan, non-denomina- said in favor of Tudor music. tional, and unbiased co-operative attempt to make something worth while from the Canada which will emerge from this war.

How well have we risen to the occasion? The School of Social Work, which has a natural, semiprofessional interest in this sort of work, has gone all-out in support of the conference. The Canadian Association of Medical Students and Internes, following a similar bent, have added their ministrative Council, the official representatives of bulk of the exhibit, is the finest thing going. the student body, have added their quota of interested Beyond these three groups whose interest contributions are somewhat more concrete in nature than those to be found in the general student body, there have been few registrations.

Varsity's Response

Victoria College has sent a representative, the Co-Ops have sent two and the Student Christian Movement one unofficial delegate. Beyond this nothing but apathy has been perceived from the direction of the general student body on whose intelligent interest and foresightedness the Commission has depended for a rich contribution to its discussions and reports.

Where are the hard-headed men of School? What of the rest of the Arts colleges; are they not going

to apply their vaunted and sheltered humanities? Where are the Foresters, the Dents and the therapists? Are they going to be content to leave future in the hands of the specialists and contribute only the cheap and easy criticism of crack pots if things go wrong? It is quite possible that the Commission's efforts may come to naught in the end, but it is not through the failure of great plans that disaster comes, but through the apathy of the individual to community effort.

Further information and registration forms may be obtained from the Canadian Youth Commission

Echoes of the Past

Conservatory Concert

Not in every way does the modern way of doing things represent progress. An example to prove this statement was the Conservatory Chamber Music Concert yesterday afternoon, which featured the harpsichord, that instrument of the past which has been so completely supplanted by the piano.

It is true that there are difficulties involved in keeping a harpsichord in condition, but these are of minor importance when compared to the qualities of tone that the instrument can produce. It is also true that the harpsichord has not sufficient volume in its forthcoming Ontario Youth Conference. The of sound before an audience numbering in the Commission, which is conducting a two-year study thousands, but perhaps the modern trend towards of youth problems in health, education, employment, mass production should be reversed sometimes, at

to receive adequate financial backing for such a project. At any rate, when Greta Kraus opened the project. At the end of the survey period the Comgram yesterday with a Bach Chromatic Fantasic and the Formal; Sarah will slip him a mission hopes to present recommendations for a Fugue, every listener could tell immediately that it ject. At the end of the survey period the Com- gram yesterday with a Bach Chromatic Fantasie and national policy of youth administration to the had been intended expressly for the harpsichord, the ideal instrument for so much of the music of the 18th century. The distinctive, clear, singing tones seemed natural, in spite of the fact that one hears them so infrequently nowadays.

Possibly the fact that the harpsichord has fallen into general disuse would help to explain the undeserved neglect that has been the fate of the music of Carl Philip Emmanuel Bach. In his Sonata in G Minor the harpsichord fitted in perfectly with a cello part to produce some truly delightful music that reflects the transition to the later type of chamber music. It is only natural that Emmanuel Bach's work should be so suggestive of Mozart, for the latter acknowledged that much of his art was learned by studying the works of this master.

The two groups of songs, the one early English and the other early Italian, sung by George Lambert, lacked interest in comparison to the rest of the program. It may be because music developed along the lines of the Italian model, but it should be observed that the English group seemed definitely Thus we are offered a great opportunity to have inferior to the Italian, in spite of all that has been

THE VARSITY **SERIAL**

"We Make You Think"

Readers whom suspense has been torturing since Monday will not need to be reminded that we left Dr. Mc-Geech at the moment of his dive into deech at the moment of a lurking scoundrel. We pass now through the odiferous Union Stockyards to where a solitary light glimmers through grimy window-panes—THE LAIR OF "Q"!

CHAPTER Two
Four hooded men pressed round table, beneath a dim, green-shaded lamp. One in a blacker hood towered above the rest. He was "Q"-King

Spy!
On the table lay a dog-eared plan:
the environs of Whitney Hall.

His voice was dry "Q" spoke.

"Q" spoke. Fits voice was dry, Teutonic, sibillant.
"This time," rasped "Q," "there will be no slip-up We shall get McGeech."
All was stillness. One of the men, a merry little ruffian baptized Ikey, slipped to the window to drop a stink-bomb on a passing cop. When he re-turned to the group, "Q" was continuing.

Slyme will dump the body at the end of the Harbord car-line; and in the morning McGeech will plague us no

He looked round, his dim face flushed

"But boss," snivelled a palpitating voice from beneath a shadowy hood, "How does Sarah slip him a mickey?"
"I'diot!" thundered the Mighty One.
"Even yet do you not know the frailities

of McGeech? Whenever he goes in pursuit he rides his motorcycle. It will be parked in readiness outside the Whitney Hall night entrance. Beneath that ney Hall night entrance. Beneath that 2,000-wat bulb, he foodly imagines, no one will dare touch it. But Snuffy is bolder than he guesses. Snuffy will jam the Throggle-pin."

"The Throggle-pin," breathed Ikey,

his face aglow with admiration of the adroitness of Snuffy.

The voice of "Q" searched on.

"And what does McGeech do when confronted with an unexpected obstacle?" "I know," said Ikey. "He seeks liquid refreshment at a Harbord street Sweet-

"Right," returned "Q"; "and there Sarah will lie in wait with her dope, ready to slip it into his hot chocolate." "But won't he notice the taste? Remember, we are dealing with McGeech, Terror of the Underworld; his senses

are sharpened to an inhuman pitch."
"Notice the taste?" "Q's" laugh was
dry. "Have you ever had hot chocolate at the Harbord street Sweetery? It would disguise the vilest dope."

Ickey slipped to the window with another stink-bomb. A second police-

"Down with McGecch!"

The door was flung open behind them. A clear, firm voice, redolent with the cultured intonations of the Department of Sanskrit and Window-Washing, rung through the smoky room:
"'Q,' I presume? Hands up, gentle

The same word leaped to eight dry "McGeech!"

How has Dr. McGeech eluded this devilish snare?

What is that Master of Mystery do-ing in this abandoned dive? What is that on your tie?
WATCH FOR CHAPTER THREE!

By Cos. Castaldi

(EDITOR'S NOTE: Today's column is written by the Dentistry Athletic Director who is grieving over his faculty's bouncing from the Mulock Cup play-offs.)

from the Mulock Cup play-offs.)

No doubt you have all been wondering just what became of the Denta rugby team, winners of Group 3 and the rightful participants in yesterday's semi-final game against U.C.

The team it seems was EASED out of the play-offs by the powers that be, namely, the Intramural Sports Committee. At the completion of the Group 3 schedule, Dents were leading the parade by virtue of an unbeaten season. A 7-7 draw was played in their first game, followed by two successive 5-0 victories (one over St. Mike's) and a smashing 23-0 win over Trinity in their final game. Their record was quite impressive as they had won three games by shutouts and were unbeaten, a distinction no other team at U. of T. could boast. After winning the final game and discovering that the play-offs might possibly run into examinations, a rumor circulated the Dental College to the effect that the team might be forced to withdraw. The Dent rugby representative, acting in good faith but without proper authority, informed the Rugby Committee that Dents were withdrawing. It was then ruled that St. Michael's should earry on in their place. When this was read in The Varsity the next day, a terrific howl was raised by the rest of the team, and the Attletic Office was informed of the mistake.

The secretary called an emergency meeting of the Intramural Coffice was in order to the secretary called an emergency meeting of the Intramural Coffice was informed of the mistake.

Office was informed of the mistake.

The secretary called an emergency meeting of the Intramural Committee in which Dents openly admitted the error but asked for leniency to be shown on the grounds that they had not intended to withdraw. To revert to the original arrangement would affect only St. Mike's, whom Dents had fairly beaten and who were the first to admit that they bad no right in the play-offs. The secretary then reviewed Dent's record in regards to attendance at Committee meetings. It was shamefully admitted not too good but this was pardonable because of the increased pressure of the academic course. However, the team was ruled out as Dents had broken the rules and regulations.

The management of the team then proceeded to dig out the rule book. On page 16 of Intramural Rules—1943, "No team may withdraw from competition unless they do so in writing on the official form supplied by the Athletic Association and have this form signed by the President of Athletics or the representative of the college involved."

involved.'

involved."

It was now the Athletic Association who had broken the rules in accepting the resignation of a team without the written statement; in fact when questioned, they could not produce the official withdrawal form referred to in THEIR OWN rule book. Even this new evidence carried little weight and the committee stuck by its guns, thereby eliminating one of the strongest teams in the league on a technicality in which they themselves had erred.

Sport fans and members of other teams who are interested in seeing the best team win will hardly be satisfied with the future progress of the play-offs from which one of the strongest teams has been

seeing the best team win will hardly be statistical with the little projects of the play-offs from which one of the strongest teams has been BARRED on a narrow technicality in open defiance of what are supposedly the rules of the league. One cannot help sympathizing with the rank and file of Dent students who feel that they have been unfairly treated. The whole affair is a serious blow to the feeling of harmony and friendship which should underly interfaculty sport.

The Sportswoman

SURVIVALS AND NEW ARRIVALS!

SURVIVALS AND NEW ARRIVALSII

All you lithe spirits can prepare for fencing any time after Christmas. Peggy Graeb, head of U.C. athletics, has informed us that the W.U.A. has provided her with a sum of money in order to cut the price of the equipment and gym for each individual. Previously the price had been set at three bucks per person but it will now be definitely reduced. The exact fee has not yet been set as it will have to be gauged when the number of participants is settled. Consequently any of you babes in U.C. who want to learn how to fight your own battles hand in your names to Peggy Graeb at Cody House or phone Mi 4733. A rough guess concerning the approximate cost would be \$1.50 or so a season. Charlie Walters will be the instructor and the L.M. gym will be the scene of action. Credit goes to Peggy who has staunchly whipped around cajoling, ferreting out information and generally making arrangaments for the revival of this sport. Incidentally, this fee doesn't apply to freshies as they get it thrown in with their P.T.

TONIC FOR MEDS

TONIC FOR MEDS . .

The basketball schedule is being run off speedily. Meds defeated Physio last night 22-12. Jean McPherson was outstanding with her intercepting and passing for Meds, while Natalie Staron and Jean Horwill carned a goodly number of baskets. Betty Danard netted eight points for Physio and Sally Morgan executed some good whipping around. Joan Davis refereed the match in the proverbial fair and form more. firm manner.

A CLEAN SWEEP

Vic seniors took Trinity freshies 45-16 in the second match of the evening. Shirely Pierce and Mildred Donaldson were Vic's top players, while Helen McNeil, Julia Murray and Ruth LePage upheld

players, while reten McNell, Julia Mulray and Ruth Lerage upnet the Saints.

Phys. Ed. intermediates decisively won over O.T. 23-13. Elaine Ross and Dodie Barnhart did some smart playing for O.T., while Irene Martin, Fran Bowden and Susie Grey came through with flying colors for the P.T.E.'ers.

These come in soft egg-shell, among other good colours, and will be faithful companions through many a lecture routine. Easy to launder, casy to look at, casy to combine with anything, from plain skirt and belt to lined suit. Your nearest Evangeline, the shop of feminine practicalities, 751 Yonge St.

SEE COLQUHOUNS for a chat about the fur coat situation. Colquhouns are popular people these days, doing a rusting business in fur-coaling the co-ed with a taste for practical comfort plus clothes sophistication. They're doing some of the smartest coats in town in ian with a young swing to it, Muskrat which looks so much like Mink expect to hear any day the entire ink fraternity has gone on strike. Colguliouns, directly on your path be-tween the college and Youge Street, via Bloor, is open until 9 P.M. 38 Bloor Street West.

THERE'S A mild type of 'flu around, which makes this a good time to add a dash of Javex to dishwater, light laundry, etc. Javex comes in a handy size for storing on the bathroom shelf, size for storing on the bathroom shelf, and being a concentrate can be made to last a long, long time. Use according to directions. It's the best bleach for linen or cotton we can tell you about, has other uses such as de-odorizing sinks. (If there happens to be that vague "littchen" smell around the house, try drowing, balf a cupit of lawer. try dropping half a cupful of Javex... straight...down the sink drain. The house'll bless you.)

(Continued from page 1)

Another little episode familiar to the Bloor car 8:30 goers (who will arrive at 8:50) is the historic chant, "Please go down to the back of the car. There are only two to get on. Just two, only TWO. PLEASE - Just think how you'd feel if you was one of they."

By the time we're here we're sobbing

as we think how we'd feel.

They say that at night he's really

At last we have discovered a use for The Varsity! While in the room of two campus co-eds the other day we observed paper dolls (male) festooned 'round the room and closer examination revealed that it was a mutilated copy of the Undergraduate Newspaper. In answer to our horrified protests over this desecration we were told that it was the man shortage: "We've got to do something in the long winter eve-

One of our fellow Varsity workers(?) ame in grumbling out deep, mysteriou oaths a few days ago. It seems that at Whitney Hall the mattresses are of varying quality; there are those which oaths a lew days ago. It seems that at Whitney Hall the mattresses are of varying quality; there are those which have springs and there are those which have not springs, and then there are woke up her class with the anecdote those which are only by courtesy called of the little boy in geography who

plight. And they talk about hard-hearted Sophs1

'Way back at initiation time, when all the wolves were looking over the all the wolves were looking over the field, a Soph was walking along Bloor street. She had to pass two young Apollo's, who accordingly looked her up and down, up and down. One of them had his mouth all pursed for an appreciative whistle when the other said statisticals. "Many lake all pursed for the said statisticals." Many lake all pursed for an appreciative whistle when the other said scathingly-"Naw, she's only a Soph!"

Trains are certainly crowded places these days, yes indeed. En route home via one of these crowded vehicles recently were a bunch of ex-University cently were a bunch of ex-University students piled together on a crowded seat. Legs and bodies were sadly tangled with other legs and bodies, and one bright boy got the idea of giving somebody a hot-foot. But just as the natch was lit for application, dawned the realization that, "Holy smokes, THAT FOOT MIGHT BE MINE."

mattresses. The Seniors are supposed thought that the world was divided into to have those which have springs, and so on down the line. To determine male hemisphere was divided into two wbo would get one of the six of class E-4 a lottery was held between the the female zones were frigid and Juniors to decide wbo would in turn TORRID.

aquarelle. Welsh on Norway Fiords demonstrates slick poster technique; likewise Booth with crescents of color does nicely by his Norse long boats.

School with his dressy ad for a Leningrad music festival, while Arnrid Johnson bcatitudinizes "Travel by Underground" with For the Zoo, where he has the animals on the outside, and their human prototypes behind the bars-cardinal and lord chancellor rakish on the monkey swings, and "Screeching Prima Donna" in a cage by herself.

Featured in the Print Room is a collection on the theme of "Allegory."

Bellini is represented by Religious Allegory, and Forture as a harpy: Allegory and Fortune as a harpy, Botticelli by Spring, which is three pictures in one, and a maze of roccoco detail. Brueghel the Elder (who is often mispronounced; he came from the town of Breugel) could paint leagues of landscape within the compass of a few feet of canvas, and yet centre interest on his earthy group of figures; is here exemplified in Dance under the Gallows and Castle of Indolence which what is one of the earliest mainfestations of surrealism and rich good humor to boot —wilness the fried porker running in the background, already carven, and with a knife stuck in his epidermis, that he who runs may eat.

that he who runs may eat.

Bloucher's Pastoral Scene and Watts'
Hope are allegory of the more objectionable sort. Böcklin, late 19th century
German, is scarcely classifiable, but
his Battle of the Centaurs has classic
overtones of Delacroix. The Honeymoon is a syrupy idealization in typically
Teutonic style.

To repeat, Breughel is the individual

Union In Debate

The expansion of University debating and the increase in its scope and energy shown in the recent formation of the Interfaculty Debating Union offers a sharp contrast with the attitude which prevailed on this campus in 1939-40. With the war new phenomenon to the whole nation and the Defense of Canada Regulations as yet untempered by usage and seeming to offer tyrranical bogies to strike down all who expressed their thoughts too freely, debating suffered a grave general setback.

The giant of the campus this field, the Hart House Debates, fell into a deep slumber and still shows no signs of waking. The lesser societies in the colleges and faculties all continued, but under a cloud of fear lest they bring down the wrath of the Regulations, or the much-feared censure of the general public outside the University upon their lavished on the choice of subjects.

This state of affairs continued for some time, but last year, despite the fact that it was one in which public criticism of the University and its students flared to new heights in some Toronto publications, student debaters turned away from wrangling over the funnies or considering weightily the relative might of the pen and the sword and tore into the subjects that really interested them; the Atlantic Charter, Dominion politics, and the possibilities of various phenomena in the post-war world.

Through all this various societies have invited the debates, but there has been no sign of a return by David Ouchterloney in a recital last night. Mr. Women's Interfaculty Debating Union which once of Music at St. Andrew's College, Aurora. flourished on the campus, but for two years has afternoon in the Junior Common Room of Uni- technique. versity College with the University College Parliament acting as host.

development in debating than even the Hart House taken such a prominent part in perpetuating the tradition of undergraduate debate, will be admitted to them. If the Union prospers this will have to be

In the second part of the program the pieces were or the Hart House Debates will die without awakening from its present slumber, for a strong Union

The Semi-Formal

the masculine point of view this is not surprising. In theory etiquette-smashing, the bold venture into the field of a semi-formal dance has been tried and proved. By allowing men to wear business suits and women to retain their more glamorous dresses the Formal gave both sexes their wishes and brought the affair almost completely into line with the policy requested by the President for the past two years.

Other colleges and organizations are already planning to follow this example and free their males from starched torture while the co-eds will be able Mathematics to continue to wear their beloved evening dresses in which they look more beautiful than ever. A mark of an age of reason, the general acceptance of the semi-formal will make social affairs more enjoyable for one half of the population by making them feel more human and look less like pained penguins.

Titan

Artur Rubinstein

Surely to be classed among the musical titans is Artur Rubinstein, who played at Eaton Auditorium last night. This pianist, in the grand tradition of Liszt and Paderewski, did a not too severely classical program, playing with instinctive intelligence and masterful confidence.

In the Bach, Mozart and Schumann of the first half, he summoned the orchestral resources of the piano and painted tone-pictures one after another. Mr. Rubinstein effortlessly produced all the native of nothing but divisions by zero. dynamic needed, for exmaple, in the percussive effects of the Symphonic Etudes of Robert Schumann.

The Brahms Capriccio in B Minor and the Chopin Scherzo in C Sharp Minor were chef d'oeuvres of corruscating brilliance. The latter is a tremendously interesting work in itself, belonging to the breed of the Revolutionary Etudes and the Polonnaises, and including a passage which is compact of impressionism. In the Liszt group which followed there were What now seems ridiculous care was foretastes of the pointillisme which was to burgeon in the nxet musical generation.

in the nxet musical generation.

A program of the homogeneity which characterized last night's is an education in miniature. Of the three encores Mr. Rubinstein played, the most de-lightful was Schumann's Vogel als Prophet; he (Continued on page 3) made it a thing of eerie beauty.

Pedal Perfect

Eaton Auditorium

The intricate and magnificent possibilities of the speakers from others to visit them and take part in organ in Eaton Auditorium were materfully utilized of All-University debating up to now. The current Ouchterloney is Organist and Choirmaster at St. striking move come from the all-but-moribund Andrew's Church, Toronto, and Master in Charge

During the whole performance there was not one shown little activity. Under the present scheme all sheet of music in evidence—at one point 28 conbut three of the college and faculty debating secutive pages of score were played. Fingering of societies have joined the Union and two of the amazing dexterity coupled with superb timing made three missing have not yet been heard from. The the listener constantly aware of the underlying Union has completed its organization and plans to rhythms. One of Canada's really outstanding pedalhave monthly debates with each society in turn lists on the organ, Mr. Ouchterloney illustrated acting as host. The first of these will be held this effectively the active part the pedals play in organ

The opening number, Concerto in F Major by Handel was a combination of crescendi, retreating The Union hopes that next year they will be into the depths of the organ to momentarily jet well enough established to support a regular monthly forth-yet there was no hint of unevenness, for every debate in some place capable of seating more than transition was accomplished smoothly. The Sonata merely the official representatives of the societies. No. 14 in C Major by Rheinberger was divided into If the enthusiasm for the fine old democratic custom three parts. The prelude in fortissimo most of the of debating shown by the member societies continues time, contrasted sharply with the lilting rounded flute and grows we may well see on this campus a greater and oboe combinations of the Idyll. Rounded tones in all the colorful blending of orchestral variations Debates represented. The hope has been expressed created subtle changes of subdued moods ending in by the feminine side of the Union that when the a breath. Another startling contrast was introduced Hart House Debates finally shake off their fear of as a new pattern in the concluding toccata, broke public censure, or the war ends, that women, having forth dramatically under the control of a definite

In the second part of the program the pieces were lighter in comparison with the preceding selections. Rondo Française by Boellman was a pretty interlude will be very unwilling to break up into segregated of shifting and surprising changes. There was real humanity in Belgian Mother's Song by Benoit. The melody was carried by the woodwinds with a belllike accompaniment which ended in chimes fading into limbo.

The concluding numbers, three dances for pedals The Whitney Hall Formal has come and gone, and from all reports it was a huge success. From Waltz, and Polka.

The concutant innerest, three cances for peaas and from all reports it was a huge success. From Waltz, and Polka.

Division by Zero Becomes Crime as Teacher Juggles with Infinity; Interest Approaches

ABSURD, ISN'T IT?

Black despotism reigned, as the new disciplinary course, Enforced Mathematics III, displaced the original Ist

pass, it was announced here.
"It had to be done," Prof. Mantissa
Pullroot, nicknamed the Directrix, defended the measure to Varsity reporters; "they didn't grasp the most childish concepts of infinity—real babystuff, you know—so now each blunder is a penal offence," and she significantly pointed to mysterious alarm-clock, hidden be-nd the blackboard.

Her first words sounded inconspicuous: "In these lectures you can do what-ever you like," she told her class, "but you must never divide by zero!" This threat was more serious than apparent, however, for the entire course consisted

"Compound interest in this class approaches zero, which is absurd," was the opinion of student Anna Lytix, yawning, after the derivative hade been defined for the 27th time.

"Here's an easy question, Mr. Cotte-

Alfa," the Directrix then addressed her favorite student innocently. "How much is Infinity over Zero?"

"Anything between Nothing and Everything, I should say; make it a million or so," was the generous reply. Here a paralyzing shrick of the alarm-

Tid-bits from the College Papers

The column "Letter Forum" of The Dally has been receiving a great deal of attention of fate due to the controversy among the student body about the refugee petition, and indeed, about immigration in every sense.

We have received several letters which are prefaced by a diatribe about the person to whom the letter is directed (in most cases not the Editor of The Dally). In addition, veited these of physical violence have been made. This is not the tot control withing which is desirable in any newspaper, and we will not print it.

... And talking about nuisery schools, we withessed a tender scene between two tots one day. The little boy, gazing into the big blue eyes of a diminutive blond, said shyly, "Gee, but you're beautiful!"

Not to be outdone, the small-scale Cleopatra, twisting her skirt, blushingly replied, "Awww-I think you're beautiful too."
"I am NOT beautiful," retorted our hero, indignantly, "I'M HANDSOME!"

ONE DAY ONLY ...

We're calling a truce in the raging controversies which have been filling this column during this past week, for a one-day duration. That is, we hope to assure our own personal safety in order that we may attend the big game today without fear of cleats in our face or coke bottles over our skull.

A return to hostilities can be expected at a convenient date when we can retire to the security of some verb-resistant fox hole. If they have served no other purpose, these columns have proved to us another human frailty. We can write copy by the ream as long as it is done in a strictly favorable light, and there will not be a word, not a note of aid or recognition of services rendered. But just let some one pound out an unfavorable story or editorial and watch the results. Those involved in the article will fall over themselves to see that their good name is not tarnished. Yes sir, they'll do it every time.

ANNIVERSARY GAME . . .

ANNIVERSARY GAME...

Today will decide the winner of the Mulock Cup for the 1943 season, the fiftieth in which possession of the trophy has been contested. And the struggle this fall has reverted to the Engineer versus Artsman tradition with Senior School and University College teams both champing at their respective bits, The bits, we are told, are due to be removed at one-thirty this afternoon, and any action which comes to pass for some 60 minutes of playing time following, will hereafter be known as the Mulock Cup finals of '43.

Natification is oversteaded with player material but what they have on

will hereafter be known as the Mulock Cup finals of '43.

Neither team is overstocked with player material but what they have on hand is of top quality. Introductions to both teams appear on the front page and so we need fill no space here to elaborate on line-ups. The difference between the two lines cannot yet be told nor will it until that game is played. Stacking player against player, the backfields also seem little to be preferred one over the other. Perhaps the kicking of Ross Clare for the School teom will turn the balance. But if Don Smith was not hampered by two cracked ribs we would not differentiate between teams even to that extent.

Of course a comparison of past records favors the Engineers. School defeated the Army Course by a much greater margin than did the U.C. team several weeks back. We cannot take into consideration the recent Army-U.C. encounter since I have been informed that the U.C. team was resting.

Brian White, co-captain of the School team, when we spoke with him yester-day, pointed out that on paper School would win, but he made no rash statements. It's a pleasure to run into a reasonable player who does not proclaim loudly, "We'll moider 'em!"

We also encountered several U.C. players in the course of our wanderings yesterday and one, who loves us no matter what we say, came forth with, "We're going to use the whole team tomorrow."

WHERE'S THE SNOW?

Information has reached us that there is to be a meeting of the Ski Club on Monday. There will be movies of really good skiers and arrangements will be completed for a ski meet at Rosedale. Now's the time to turn out and make this meeting a success. The last bogged down a bit, so do come out and help on this one. A good time is assured.

BASKETBALL ROUNDUP . . .

Now as the basketball tourney is drawing to a close the outcome in the several groups is pretty clear. In the St. Hilda's Sr.-Vic. Jr. game the Saints were liquidated by Vic, 17-8. The Saint stars were Connie Fellows, Betty Hungerford and Betty MacLean. Those of Vic were Muriel Thompson, Rowena Smith and Leona Eunson.

Rowcan Smith and Leona Eunson.

The second fracas, P.&H.E. Freshies vs. U.C. Jrs., saw the Phys. Edder's come off on top with a score of 43-14. The stars of P.&H.E. were Doris Clark and Fat Flynn, while those of U.C. were Mary Scott and Chris Young.

In the last game P.&H.E. did it again, taking the U.C. Freshies 31-19. Joan Davis and Betty Davis made an unbeatable combination for the winnahs, while all of U.C.'s squad played a fast and hard game, as they had no subs to relieve their players. All the games were fun to watch, fast and clean. The games which featured the Phys. Eds. were characterized by some wonderfully accurate shooting.

Mathematics show, "Know your curves—show your curves," where she presented a striking new dance, the "Fore-Figure Loga Rythm."

The Climax came when Prof. Pull-root asked the catchy \$64 question: "If the limit of Infinity is an infinite Limit and the limit of zero is infini-tesimal, what is the limit of the limit?"

"That's the limit!" ejected the cornered boy, sweating all over.

"You are infinitely limited, my boyl I'll teach you what the limit is," she snapped back, asking for Capital Punishment.

A secret device hurled the unfortunvictim into space, never to return. However, reporters observed him bounce back after a while, having learned his lesson.

The sky's the limit!

500 Assemble For Youth Conference By 8-2 Victory Over U.C.

Entire Province Represented; Brig. Chisholm Gives Talk

lems of Youth Aged 18-24; Topics Include Health, Education, Jobs and Religion

PRESENT FINDINGS

Representatives from all over Ontario attended the Canadian Youth Conference held in the Ontario College of Education over the week-end. The entire assembly, whose registration numbered nearly 500, was divided into various groups to discuss a variety of problems pertaining to youth between the ages of 18 and 24. On Sunday afternoon the panels re-assembled and each Representatives from all over Ontario

the welfare of youth, and the country.

Brig. Chislom elaborated further by an Early describing the development of the human race in terms of competition—first, with he animals by pitting our brains against in the life of youth. The panel pertaining to jobs concluded that there should be more national planning for an adequate standard of living and that the keynote of the conference should be the fact that youth is determined to demand full employment when the war is concluded.

The group on citizenship participation promulgated the fact that youth is not made aware of its responsibilities as citizens. This could be remedied by discussions on politics and other vital points of citizenship. The suggestions were also made that the voting age be lowered to 18, and that more interests be aroused in enquiring into Canada's foreign policy. An amendment was made to have the commission undertake to (Continued on page 4)
